

MLS High School Hosts

2nd Annual Volunteer Day

Students from Mohall Lansford Sherwood High School came together for their 2nd Annual Volunteer Day on Friday, October 25, 2024, showcasing their commitment to community service.

This year's event saw students from grades 9 to 12 participating in a variety of service projects throughout the MLS area, including park clean-ups, assisting the local food bank, and helping paint curbs. The day not only provided students with a chance to give back to their communities but also fostered teamwork and leadership skills among peers.

Students were organized into groups, each assigned to different projects based on the needs from the communities. MLS looks forward to continuing this tradition and inspiring future generations to engage in volunteer work, reinforcing the importance of giving back and making a difference.
