

Our ref: JDY/HLE/Parent Survey 2024

14 November 2024

Dear Parent/Carer

Re: Parents/Carers Survey 2024

As the Local Board (School Governors) of The Burgess Hill Academy we find it extremely useful to understand how you feel about our school and the educational experience of your child/children. This feedback helps us better understand how well the school is doing, informs the work we carry out with the school and provides an indication of areas for further improvement. You may remember that we carried out this survey last year and in previous years.

In order to help us improve our understanding please would you complete the following short survey: <https://forms.office.com/e/HEHW4tXquN>. This survey should take no longer than 10 minutes to complete.

The survey is carried out by your Local Board and not the school and all responses are confidential.

This survey is based on the Ofsted Parent Survey which many of you may have completed before. It also includes the opportunity for you to add your own comments should you wish to do so.

We have also added some further questions at the end telling us a little bit more about you and your child. This is to help us better understand any trends that may emerge and to take action on them with the school. These questions are optional so please leave some or all of them blank if you wish but it would really help us if you did complete them.

The closing date for this survey is midnight, Friday 22nd November 2024. It is our intention to feedback to you in the new year the headline results together with any actions we have taken or have planned as a result.

Many thanks for your time and support.

Yours sincerely

Jane Davey
Chair of the Local Board
