

Assessment Update

November 7, 2024

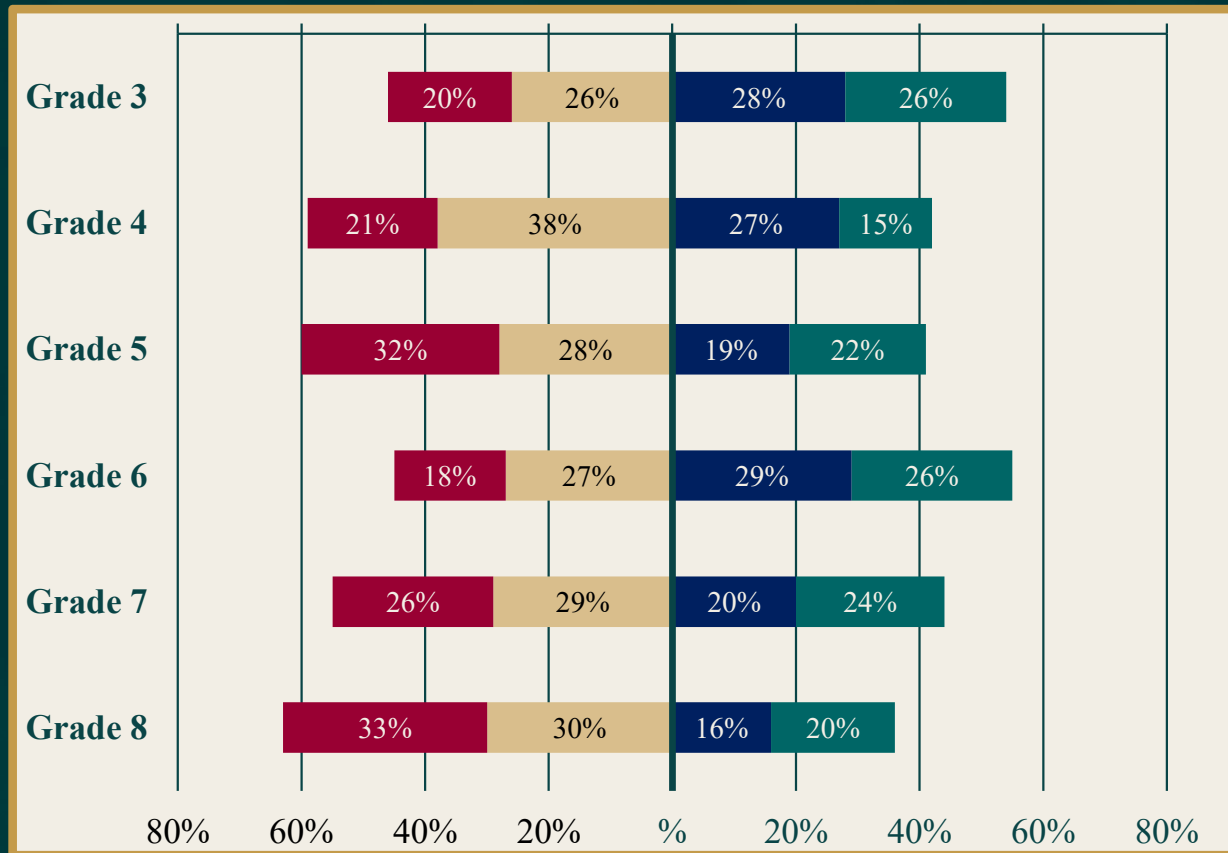

Celebrations

“Recent assessment scores are showing a slight acceleration of growth for New Hampshire students in many grade levels, but not enough to make up lost academic ground since the pandemic. New Hampshire’s preliminary performance scores from 2024 indicate **slow and modest improvements** in several areas compared to last year’s assessment results; however, **math scores**, in general, are **failing to keep pace.**” (NHED, 9/4/2024)

Training and Support K-12

Skill Building

ExactPath's Learning Paths
for filling skill gaps

Math PD & Coaching

PD sessions and targeted
coaching cycles toward school
and individual math goals

Book/Podcast Clubs

Discussions around
professional reading and
listening in math, literacy, and
educational equity

Summer PD

Extensive summer training in
SEL/behavior, math, literacy,
technology, and assessment

Training and Support K-8

Targeted Support

Acadience early literacy
and numeracy
diagnostics

Literacy Consultant

Resources and support
for reading specialists
and teachers from IMSE
consultant

Writing Focus

LATF exploration of
quality writing &
grammar resources/
programs

NHSAS Testing

Adjusting test schedule to
alleviate test fatigue

Monthly CIA Meetings

Grade-level or content-area
teams working to develop
quality assessments

Training and Support 9-12

Monthly CIA Meetings

Departments working to
develop quality
assessments

Infinite Campus

Preparing for implementation
of competency-based
reporting

Reassessment Policy

Committee developed
reassessment policy

CBE Grading Scale

Staff will review and select a
grading scale aligned to
competency-based grading
