

Child Development

Grade Placement: 9, 10, 11, 12.....1/2 credit..... Semester 1 or 2

This is a great course for students who expect to spend time around children. Students will learn about babies by caring for a simulated "newborn". They find out what makes toddlers tick, preschoolers learn, and learn also about health and safety of children. Students will have hands-on opportunities to work with children in our community. Students will discover the rewards and challenges of being around children, & they will learn how to create the best environment for them.

Intro to Development and Developmental Theorists

4.2.1 Analyze child development theories and their implications for educational and childcare practices.

12.1.3 - Analyze current and emerging research about human growth and development, including but not limited to brain development research.
