

SAP at HSAO

Student Assistance Program

SAP LIAISON AND SCREENING FACTS

WHAT DO WE DO?

- The SAP Liaison collaborates with your school's SAP Team
- The SAP Liaison provides consultation, education, and intervention to you and SAP Team Members
- The SAP Liaison can receive referrals from SAP Team Members, other school staff, parents, or students

WHAT HAPPENS AFTER A REFERRAL IS MADE?

- The SAP Liaison will complete a screening with the student referred by the SAP Team
- The SAP Liaison will then contact you to discuss concerns and the needs of your student
- The screening will help the SAP Liaison determine what, if any, services might be appropriate for your student

SCREENINGS

Look at behavioral and emotional needs and assess any drug or alcohol concerns that may be present in the home, school, and community settings

REFERRING

If services are deemed appropriate, the SAP Liaison will help you gain access to services by referring to outside service providers and providing additional resources as needed

POSTVENTION

Provide interventions for students and staff in response to a tragic event that is sustained within the school's community
