ACKNOWLEDGMENTS

The journey toward this framework began in 2014 when a group of rambunctious CGCS board members and superintendents came together with the intention of defining and supporting effective governance throughout the CGCS family of member school systems. Referring to themselves as “TeamRogue” -- a designation intended to describe the break from existing governance doctrine they believed necessary to position boards as entities capable of driving improvements in student outcomes -- they began by reviewing existing research and asking a great number of questions. After conducting what was, at that time, the nation’s most comprehensive survey of urban board members and superintendents on the topic of improving governance effectiveness, the group began formulating a series of workshops geared toward new board members, board chairs, and whole board teams. Those early efforts have since evolved into this framework. None of this would be possible without significant contributions from each of the following:

Michael Casserly (CGCS), Darienne Driver (Milwaukee), Cindy Elsbernd (Des Moines), Eric Gordon (Cleveland), Leslie Grant (Atlanta), Ray Hart (CGCS), Jumoke Hinton (Oakland), Pamela Knowles (Portland), Larry Nyland (Seattle), Michael O’Neill (Boston), Moses Palacios (CGCS), Ashley Paz (Fort Worth), Josh Reimnitz (Minneapolis), Miguel Solis (Dallas), Teri Trinidad (CGCS), Airick Leonard West (Kansas City), Steve Zimmer (Los Angeles)

INTRODUCTION

Overview

Student outcomes don't change until adult behaviors change. Or said differently when placed in the context of governing, patterns of behavior that are exhibited in the boardroom can reasonably be expected to be found paralleled in the classroom. This concept, which offers a summation of the current literature on board behaviors and their relationship to improving student outcomes, is as simple as it can be confounding. The intention of the Council of the Great City Schools' (CGCS) Student Outcomes Focused Governance framework is to translate existing research and the collective experience of dozens of CGCS board members and superintendents into a set of tools that boards can use to identify their strengths and weaknesses as well as to track progress along their journey toward improving student outcomes.

The framework is built around six research-informed competencies that describe school board behaviors and the degree to which they create the conditions for improvements in student outcomes: Vision & Goals, Values & Guardrails, Monitoring & Accountability, Communication & Collaboration, Unity & Trust, and Continuous Improvement.

How To Use

This document is best used by the full board and superintendent with guidance from a facilitator specifically trained in its application. After receiving an orientation to the framework, each individual board member and the superintendent should fill out the Board Quarterly Self Evaluation. Using the self evaluation instrument will reveal a score between 0 and 100, where a 0 indicates that the Board is not at all focused (yet) on its goals for student outcomes and a 100 which indicates that the Board has mastered the behavior of focusing on its goals for student outcomes. Then the facilitator should lead the board through a process of collectively completing the self evaluation for the first time. This will create the Board's starting point data which, in addition to providing a measurable score, provides the board with clarity about its strengths and weaknesses relative to being focused on improving student outcomes.

Once a baseline has been set, the board should schedule time during a public meeting every three months to complete the self-evaluation again as a means of monitoring the board's progress over time. Ideally each quarter the board's focus on improving student outcomes meaningfully increases -- a process tracked for the first two years using the Board Continuous Improvement Evaluation.

VISION & GOALS: The Board will, in collaboration with the Superintendent, adopt goals that are student outcomes focused.

| <p><i>The Board is Not Student Outcomes Focused if any of the following are true:</i></p> <p>The Board has not adopted goals.</p> <p>The Board has not consistently demonstrated the ability to distinguish between inputs, outputs, and outcomes.</p> <p>The Board has not hosted opportunities to listen to the vision of the community during the previous thirty-six month period.</p> | <p><i>No items from the Not Student Outcomes Focused column, and:</i></p> <p>The Board has adopted, in collaboration with the Superintendent, goals.</p> <p>The Board has adopted only SMART goals that include a specific measure, population, starting point, an ending point, a starting date, and an ending date.</p> <p>The Board has adopted no fewer than one and no more than five goals. Fewer goals allow for greater focus; more allow for less.</p> <p>The Superintendent has adopted, in collaboration with the Board, one to three interim goals to progress monitor each goal, and each interim goal is SMART.</p> <p>The status of each interim goal is able to be updated multiple times during each school year.</p> <p>The Board publicly posted the goals for public comment prior to adoption.</p> | <p><i>All items from the Approaching Student Outcomes Focus column, and:</i></p> <p>The Board's goals all pertain to desired student outcomes.</p> <p>In addition to the goal ending points, the Board has adopted annual targets, goal ending points for each year leading up to the ending dates. The Superintendent has provided interim goal ending points for each year leading up to the ending date.</p> <p>All interim goals pertain to student outputs or student outcomes, not inputs or adult outputs.</p> <p>The Board included students, parents, staff, and community members in the goal development process.</p> <p>All Board goals last from three to five years; all interim goals last from one to three years.</p> <p>The goals and interim goals will challenge the organization and will require change in adult behaviors.</p> | <p><i>All items from the Meeting Student Outcomes Focus column, and:</i></p> <p>The Board used a process that included students, parents, staff, and community members in a way that leads them to express ownership of the adopted goals.</p> <p>All of the interim goals are predictive of their respective goals, and are influenceable by the Superintendent (and the Superintendent's team). Predictive suggests that there is some evidence of a correlation between the interim goal and the goal. Influenceable suggests that the Superintendent -- and through them, the staff -- has authority over roughly 80% of the inputs the interim goal is measuring.</p> <p>The Board relied on a root cause analysis, comprehensive student needs assessment, and/or similar research-based tool to inform identification of and prioritization of potential goals.</p> |

VALUES & GUARDRAILS: The Board will, in collaboration with the Superintendent, adopt guardrails.

Fewer guardrails allow for more focus; more allow for less.</p> <p>The Superintendent has adopted, in collaboration with the Board, one to three interim guardrails for each guardrail, and each interim guardrail is SMART.</p> <p>The status of each interim guardrail is able to be updated multiple times during each school year.</p> <p>The Board publicly posted the guardrails for public comment prior to adoption.</p> | <p><i>All items from the Approaching Student Outcomes Focus column, and:</i></p> <p>The Superintendent has provided interim guardrail ending points for each year leading up to the ending date.</p> <p>All interim guardrails pertain to outputs or outcomes, not inputs.</p> <p>The Board included students, parents, staff, and community members in the guardrail development process.</p> <p>The Board has considered adoption of one or more theories of action to drive the school system’s overall strategic direction. If there is a permanent Superintendent, that person was included in the theory consideration process.</p> <p>All Board guardrails last from three to five years; all interim guardrails last from one to three years.</p> <p>The guardrails, interim guardrails, and theories of action will challenge the organization and require change in adult behaviors.</p> | <p><i>All items from the Meeting Student Outcomes Focus column, and:</i></p> <p>The Board used a process that included students, parents, staff, and community members in a way that leads them to express ownership of the adopted guardrails and, if applicable, theories of action.</p> <p>All of the interim guardrails are predictive of their respective guardrails, and are influenceable by the Superintendent (and the Superintendent’s team). Predictive suggests that there is some evidence of a correlation between the interim guardrail and the guardrail. Influenceable suggests that the Superintendent -- and through them, the staff -- has authority over roughly 80% of whatever the interim guardrail is measuring.</p> <p>In addition to the guardrails on the Superintendent's authority, the Board has adopted one to five guardrails on its own behavior and evaluates itself against them at least quarterly.</p> |

MONITORING & ACCOUNTABILITY: The Board will devote significant time monthly to monitoring progress toward the goals.

COMMUNICATION & COLLABORATION: The Board will lead transparently and include stakeholders in the pursuit of the goals.

DEFINITIONS

Adult Outcomes: A measure of school system results that are not student results; outcomes that are not student outcomes. [see Outcomes, Student Outcomes definitions]

Adult Outputs: The adult experiences resulting from a particular set of inputs that are usually knowable in the midst of a cycle and that are a measure of the adults' role in the implementation of the program or strategy. Outputs that are not student outputs. [see Outputs, Student Outputs definitions]

Annual Targets: Goal/interim goal ending points for each year leading up to the ending dates.

Board-Authorized Public Meeting: Any non-privileged meeting authorized by the Board or Board Chair including, but not limited to, Board workshops, Board hearings, and Board committees. Legally mandated hearings are exempted from this definition. Trainings led by a certified Student Outcomes Focused Governance Coach may be exempted from this definition. [see Board Work definition]

Board Self Evaluation: The process that the board undertake to track its progress toward becoming more focused on its goals for student outcomes using the SOFG instrument or a similar research-informed instrument. Boards that have currently scored lower than 80 on the SOFG instrument should self-evaluate quarterly; otherwise they should evaluate annually.

Board Work: Items that are discussed and/or acted on during Board-authorized public meetings because either state or federal law/rule requires the Board to do so or because the items directly pertain to the Board's adopted goals or guardrails. Items that are not legally required and that the Board has not designated as Board work through the Board's goals or guardrails are, by default, Superintendent work. [see Board-authorized Public Meeting, Superintendent Work definitions]

Community Engagement: Time invested by the Board in two-way communication between the Board and community members.

Consent-Eligible Items: Matters on the Board agenda that include, but that are not limited to, personnel actions, contract renewals, previous meeting minutes, policy updates, construction amendments, non-monitoring administrative reports, committee reports, enrollment updates, and regular financial reports where financial activities remained within budgetary parameters. [see Board-authorized Public Meeting, Board Work definitions]

Customers: The organization's recipients of services and/or transactional beneficiaries -- such as students and staff -- for whom the staff is better positioned to address and/or resolve issues in a timely and effective manner. In a school system, customers and owners can be the same people, and therefore care must be taken to distinguish customer issues from owner issues. [see Owner definition]

Ending Date: The month/year by when the goal will reach the ending point. In goal setting, the ending date can be no less than one and no more than five years away. The ending date is often represented by the 'Z' in sample goals: "the measure will move from W% on X to Y% by Z." [see Ending Point, Goal Setting, SMART definitions]

Ending Point: The goal's desired number/percentage at the time of the ending date. The ending point is often represented by the 'Y' in sample

goals: “the measure will move from W% on X to Y% by Z.” [see Ending Date, Goal Setting, SMART definitions]

Goals: Policy statements that are SMART, that are student outcomes focused, and that describe the Board’s top priorities during the timeline for which they are adopted. The first priority for resource allocation in the school system should be toward achieving the Board’s goals. Once those allocations are complete, remaining resources may be allocated in a manner that addresses the additional needs and obligations of the school system. Goals generally are set for a three to five year period. Goals generally take the form of “student outcome will increase from X to Y by Z.” [see Goal Examples section; see SMART, Student Outcome definitions]

Goal Monitoring: Time invested by the Board in reviewing, discussing and/or accepting/not accepting goal monitoring reports. No fewer than 50% of the minutes spent in Board-authorized public meetings should be invested in goal monitoring or goal setting. Debating and voting on Board items is never a form of goal monitoring. [see Board-authorized Public Meeting, Goal, Goal Setting, Interim Goal, Monitoring definitions]

Goal Setting: Time invested by the Board in reviewing, discussing, and/or selecting goals. No fewer than 50% of the minutes spent in Board-authorized public meetings should be invested in goal monitoring or goal setting. [see Board-authorized Public Meeting, Goal, Goal Monitoring, Interim Goal, Monitoring definitions]

Governance Team: All Board Members and the Superintendent. The Superintendent is not a member of the Board, but is a member of the governing team.

Guardrail: An operational action or class of actions, usually strategic not tactical, the Superintendent may not use or allow in pursuit of the school system’s student outcome goals. Guardrails are based on the community’s values and should not undermine the school system’s ability to meet the goals — though guardrails will often require the Superintendent to accomplish the goals in a different way. [see Examples section; see Guardrail Monitoring, Guardrail Setting, Interim Guardrail, Theory of Action definitions]

Guardrail Monitoring: Time invested by the Board in reviewing, discussing and/or accepting/not accepting guardrail monitoring reports. [see Guardrail, Interim Guardrail, Monitoring definitions]

Guardrail Setting: Time invested by the Board in reviewing, discussing, and/or selecting guardrails. [see Guardrail, Interim Guardrail, Theory of Action definitions]

Implementation Instruments: Measures that describe the quality of effort that goes into execution of inputs or outputs. This document is an example of an implementation instrument for the governing team’s outputs.

Inputs: Resources and activities invested in a particular program or strategy that are usually knowable at the beginning of a cycle and that are a measure of effort applied. [see Outcomes, Outputs definitions]

Interim Goals: A leading measure of progress that can be expressed as a number or a percentage and that, when improving, increases the

likelihood that the goal will be achieved. While goals are outcomes, interim goals are generally outputs. Each goal will have between one and three interim goals. Interim goals are SMART. [see Goal Examples section]

Interim Guardrail: A measure of progress toward a defined guardrail that can be expressed as a number or percentage. [see Guardrail Examples section]

Leadership Evaluation: The Board conducting routine self-evaluations and Superintendent evaluations. It is recommended to include months during which leadership evaluation will take place on the monitoring calendar.

Measure: The instrument, assessment, or other means used to quantify something. In the context of goals, this is often an evaluation of student performance such a school system or state exam. [see Goal Setting, SMART definition]

Monitoring: A Board process that includes the Board receiving monitoring reports on the timeline indicated by the monitoring calendar, discussing them, and choosing to accept or not accept them. The intention of monitoring is to determine whether reality matches the Board's goals / guardrails.

Monitoring Calendar: A Board-adopted multi-year schedule that describes months during which goals, interim goals, guardrails, and interim guardrails are reported to the Board.

Monitoring Report: A report that provides evidence of progress to the Board regarding their adopted goals and guardrails. Each monitoring report must contain 1) the goal/guardrail being monitored, 2) the interim goals/guardrails showing the previous three reporting periods, the current reporting period, and the annual and ending point numbers/percentages, 3) the Superintendent's evaluation of performance ("red/yellow/green" or "on track/partially off/off track" or "compliant/partially compliant/non-compliant" or whatever other status labels the school system uses for progress monitoring), and 4) supporting documentation that shows the evidence and describes any needed next steps.

Outcomes: The impact of the program or strategy that is usually knowable at the end of a cycle and that is a measure of the effect on the intended beneficiary. [see Adult Outcomes, Inputs, Outputs, Student Outcomes definitions]

Outputs: The result of a particular set of inputs that is usually knowable in the midst of a cycle and that is a measure of the implementation of the program or strategy. [see Inputs, Outcomes definitions]

Owners: The organization's moral and legal authority -- such as residents and taxpayers -- for whom the board is better positioned to address and/or resolve issues in a timely and effective manner. In a school system, owners and customers can be the same people, and therefore care must be taken to distinguish customer issues from owner issues. [see Customers definition]

Population: The group of students who will be impacted and/or who are being measured. [see Goal Setting, SMART definition]

SMART: An acronym for "specific, measurable, attainable, results-focused, time-bound." Goals and interim goals partially accomplish SMART-ness

by having a specific measure, population, starting points, ending points, starting dates, and ending dates. [see Ending Date, Ending Point, Measure, Population, Starting Date, Starting Point definitions]

Starting Date: The month/year that the goal is set. The starting date is often represented by the 'X' in sample goals: "the measure will move from W% on X to Y% by Z." [see Goal Setting, SMART, Starting Point definitions]

Starting Point: The goal's current number/percentage at the time of adoption. The starting point is often represented by the 'W' in sample goals: "the measure will move from W% on X to Y% by Z." [see Goal Setting, SMART, Starting Date definitions]

Student Outcomes: A measure of school system results that are student results rather than adult results; outcomes that are a measure of what students know or are able to do. Student outcomes are distinct from adult outcomes. [see Adult Outcomes, Goals, Outcomes definitions]

Student Outputs: The student experiences resulting from a particular set of inputs that are usually knowable in the midst of a cycle and that are a measure of the students' role in the implementation of the program or strategy. Student outputs are distinct from adult outputs. [see Adult Outputs, Outputs definition]

Superintendent Evaluation: The annual process that the board undertakes to determine whether the superintendent has met the annual targets they have set toward achieving the board's goals and guardrails. [see Goals, Guardrails definitions]

Superintendent Work: Items that are not legally required and that the Board has not designated as Board work through the Board's goals or guardrails. [see Board Work definition]

Theory of Action: A set of high level strategies to which all school system inputs and outputs must be aligned. Unlike other guardrails, theories of action do not have interim guardrails. [see Examples section; see Guardrail definition]

Values: The shared understanding of what the community considers important but that is not the vision. Where the vision describes what the community wants to see happen, values describe what the community does not want to see happen. Values describe protections the community wants to see put into place. It is not appropriate for the Board to allow the community's values to be violated, even if doing so would support the accomplishment of the vision. The values are most often expressed as a guardrail or a theory of action. Guardrails generally are set for a three to five year period; theories of action generally are set for a five to ten year period.

Vision: The shared understanding of what the community ultimately desires to accomplish for all students. Where values describe what the community does not want to see, vision describes what the community does want to see happen. Vision describes the direction the community wants to see the school system go. A vision is most often expressed as an aspirational policy statement that describes what the Board understands the community's desire for the future to be. Vision statements generally are set for a five to ten year period.

Voting: Time invested by the Board in debating and voting on any item. Unless indicated elsewhere in this document, these activities are never a form of goal monitoring or guardrail monitoring.

GOAL EXAMPLES

Sample Goals:

- *Many of these examples are drawn from current or proposed goals from CGCS member school systems (or adaptations of their policy that meet the goal definition).*
- The percentage of kindergarten students who will enter kindergarten school-ready on a multidimensional assessment will increase from W% on X date to Y% by Z date
- The percentage of graduates who are persisting in the second year of their post-secondary program will increase from W% on X to Y% by Z
- The percentage of free and reduced lunch-eligible students in kindergarten through 2nd grade who are reading/writing on or above grade level on the school system's summative assessment will increase from W% on X to Y% by Z
- The percentage of students at underperforming schools who meet or exceed the state standard will increase from W% on X to Y% by Z
- The percentage of males of color who graduate with an associate's degree will increase from W% on X to Y% by Z

Sample Interim Goals:

- *Many of these examples are drawn from CGCS' "Academic KPIs" work.*
- The percentage of students successfully passing abc semester long course by the end of ninth grade will increase from W% on X to Y% by Z
- The percentage of students showing growth from one formative assessment to the next will increase from W% on X to Y% by Z
- The percentage of students earning at least three IB, AP, or college credits each semester will increase from W% on X to Y% by Z

GUARDRAIL EXAMPLES

Sample Guardrails:

- *Many of these examples are drawn from current or proposed guardrails from CGCS member school systems (or adaptations of their policy that meet the guardrail definition).*
- The Superintendent will not allow underperforming campuses to have principals or teachers who rank in the bottom two quartiles of principal or teacher school system-wide performance
- The Superintendent will not propose major decisions to the Board without first having engaged students, parents, community, and staff
- The Superintendent will not operate without a system that uses student growth data to identify, retain, and place highly effective staff
- The Superintendent will not allow the inequitable treatment of students

Sample Interim Guardrails:

- *Many of these examples are drawn from CGCS' "Managing for Results" work.*
- The percentage of People Incidents per 1,000 Students at underperforming schools will decline from W% on X to Y% by Z
- The Employee Separation Rate for principals and teachers in the top quartile of school system-wide performance will decline from W% on X to Y% by Z

THEORY OF ACTION EXAMPLES**Sample Theories of Action:**

- *Some of these examples are drawn from current or proposed Theories of Action from CGCS member school systems (or adaptations of their policy that meet the Theories of Action definition).*
- **Managed Instruction:**
 - If instructional materials and methods are directed by the central office to ensure that students experience consistency and quality of instructional delivery across a system of campuses;
 - Then central office will be responsible for accomplishing the Board's goals while operating within the Board's other guardrails.
- **Earned Autonomy:**
 - If the central office directly operates some schools and grants varying levels of autonomy to other schools; and
 - If the central office clearly defines operational thresholds that deserve higher levels of autonomy, and the specific autonomies earned, consistent with Board goals and guardrails;
 - Then responsibility for accomplishing the Board's goals while operating within the Board's guardrails will vary between central office and school leaders based on school-level operational capacity and student outcomes.
- **Performance Empowerment:**
 - If the central office devolves autonomy to schools; and
 - If the central office empowers parents to make choices among schools operated by differing partners; and
 - If the central office creates performance contracts with schools, annually evaluates performance of and demand for schools, and makes strategic decisions regarding growing access to high performing schools and addressing low performers;
 - Then school performance contracts will require the school to accomplish the Board's goals while operating within the Board's other guardrails.

PROGRESS MONITORING STUDENT OUTCOMES

What Is Progress Monitoring?

Progress monitoring is a conversation between the school board and superintendent that provides boards the opportunity to evaluate the alignment between the community's vision (goals towards student outcomes) and the school district's reality (current student performance/growth). While student outcome goals and current student performance may not match perfectly, it only becomes problematic when there is no evidence of student growth and progress. And even if students aren't yet growing and making progress, that's only catastrophic if the superintendent doesn't have sufficiently aggressive strategies in place for increasing growth and helping students make progress. These are the fundamental concerns of monitoring: 1) does reality match the vision, 2) is there growth toward the vision, and 3) is there a strategy and plan sufficient to cause growth toward the vision?

- If the answer to all three is yes, then the board can accept the monitoring report confident that the superintendent is performing.
- If the answer to only one or two of these questions is yes, the board may opt to table the matter (see *Keep the Conversation Going* below).
- If the answer to all three is no, the board may opt to reject the report and reflect on how to respond to the superintendent's non-performance.

UNDERSTANDING PROGRESS MONITORING

How Is Monitoring Beneficial?

In addition to clarifying student and superintendent performance, monitoring -- when done well -- confers several other organizational benefits:

- **Lead by Example:** What happens in the boardroom is more likely to be echoed in the classroom. Board behavior sets the culture for an institution. If board members want a culture where teachers are open and reflective in their craft, they set the stage for that by demonstrating what it looks like for the board and superintendent to be open and reflective -- grounded in student outcomes data -- in their craft as well.
- **Clarify Strategies:** When the board receives monitoring reports from the superintendent, the report should include how the superintendent will respond to the data. If the data says things are slightly off track, the superintendent's strategy should reflect that. If the data says that performance is completely off track, the superintendent's strategy should reflect the urgency that the current reality demands.
- **Communicate Expectations:** By investing at least 50% of the board's time each month into monitoring progress toward the vision, the board makes clear what the priorities of the entire organization are expected to be. This is a powerful tool for creating organizational alignment.
- **Formative Evaluation:** With each monitoring report the board is conducting a micro assessment of superintendent performance which creates an opportunity for the superintendent to make adjustments. As a continuous improvement strategy, providing this regularly recurring feedback loop is a superior approach to the outdated concept of merely conducting annual performance evaluations.

Tips For Effective Monitoring

- **Do Your Homework:** Board members should arrive at board meetings having already read the monitoring report and having already come up with at least three or four questions each regarding the “who”, “what”, “why”, and “how” of the monitoring report (see *During Monitoring* below).
- **Understanding Reality:** The desired result of monitoring is to understand the current reality for your students as compared to the vision you’ve adopted for them (goals). Whether you enjoy the current reality isn’t the point of monitoring; whether or not you fully know the current reality is.
- **Keep the Conversation Going:** If the superintendent presents a monitoring report that is missing the prerequisites (see *Before Monitoring* below) or that fails to clarify for board members the extent to which reality matches the goals, consider tabling the conversation and giving the superintendent a chance to fix it and re-offer it at a subsequent meeting, instead of choosing not to accept it and ending the discussion.
- **No Gotcha Governance:** Adopt a monitoring calendar that describes which goals will be monitored during which months. The ideal monitoring calendar will span the full term of the goals -- if they are five year goals, the calendar should cover five years.
- **Don’t Offer Advice:** Monitoring is never an opportunity for board members to provide advice to the superintendent regarding what should/shouldn’t be done about student outcomes. It’s also not about liking/not liking the superintendent’s strategies.

PRACTICING PROGRESS MONITORING

Before Monitoring

Here are four issues to ask about the 1-5 page monitoring report before you can begin progress monitoring (if the answer to any of these is “no”, hand the report back to the Superintendent and have them complete it before proceeding -- likely at the next regularly scheduled board meeting):

1. Does it clearly show what is being monitored (which specific policy / end / goal / interpretation / etc)?
2. Does it clearly show data for the 3 previous reporting periods (preferably on a line graph)? Does it clearly show the current reporting period? Does it clearly show the target reporting periods (annual targets and deadline target)?
3. Does it clearly show the Superintendent’s evaluation of performance?
4. Does it clearly show supporting documentation that evidences the Superintendent’s evaluation? If the district is not at target or the Superintendent’s evaluation indicates implementation is not on track, does the monitoring report clearly describe any needed next steps?

During Monitoring

Monitoring is about understanding the extent to which reality matches policy -- and in this case, the Board's adopted goals / ends. Monitoring is never about offering advice or recommendations. The Board's curiosity is focused on what's true for students, not on what adults are/aren't doing. Here are observations to look for / questions to ask (and the order in which to ask them) that support progress monitoring. Notice that none of these questions offer advice concerning which inputs/outputs the Superintendent should select; these are monitoring questions, not managing questions.

| | Who? | What? | Why? | How? |
|------------------------------|---|--|---|--|
| Conversation Focus | Which students are the data talking about? [past focus] | Which circumstances surrounded the data for struggling and excelling students? [past focus] | Which phenomenon helps describe what happened? [past focus] | Which changes will happen based on the data? [future focus] |
| Conversation Starters | <ul style="list-style-type: none"> • Who is struggling the most? • Who is getting it the most? • Who is not moving? • Who is not included in this data? | <ul style="list-style-type: none"> • What is currently happening? • What else do we need to know about this? • What did work? What didn't work? • What did we learn from this? • What are the strengths? • What are the limitations? • What gaps exist between student groups? • What's working? Not working? • What do you see as accounting for <anomalous data in report>? | <ul style="list-style-type: none"> • Why is it working in this area? • Why is it not working in this area? • Why such a significant growth? • Why was there no growth? • Why do gaps between student groups exist? • Why is <data point a> so much <higher or lower> than <data point b>? | <ul style="list-style-type: none"> • How can we replicate what is happening in ___? • Given what we know about __, how are you going to speed up the progress? • How do you know that strategy is going to work? • How are we going to address ___ (issue not resolved)? • How might changes show up in the future (budget, etc.)? • How can the board help? |

After Monitoring

Once the Board has completed the task of monitoring and chosen to accept or not accept the report (and only *after*), then it is appropriate to ask: is this still the right policy?

IMPROVING PROGRESS MONITORING

Evaluating The Quality Of Monitoring

Once the Board has completed monitoring, it would be wise to reflect on its performance. Using the following rubric, identify which column most describes the completed monitoring session.

| | Ineffective Monitoring | Approaching Effective Monitoring | Effective Monitoring | Highly Effective Monitoring |
|---|---|--|--|---|
| Preparation | Any Board members have not read the monitoring report prior to the meeting. | Some Board members have read parts of the monitoring report prior to the meeting and have begun developing potential questions. | Every Board member has read the monitoring report prior to the meeting and has shared potential questions with the Superintendent. | Every Board member read the monitoring report and shared potential questions with the Superintendent three working days prior to the meeting. |
| Data & Opinions | Any conversation is focused on Board member opinions of school system performance. Any Board comments are focused on blaming rather than on ways the Board can be supportive. | Conversation is focused on Board member opinions of school system performance with reference to the data presented in the monitoring report. | Conversation is focused on understanding the data presented in the monitoring report. | Conversation is focused on understanding the data presented in the monitoring report with each question referencing specific data within the monitoring report. |
| Questions & Statements | Any conversation is focused on Board member opinions and recommendations for what the school system should do. Mostly yes/no inquiry. | Conversation is largely statements of opinion but includes some questions about the data presented in the monitoring report. | Conversation is mostly focused on questions about the data presented in the monitoring report. Mostly multiple choice or open ended inquiry. | Conversation is exclusively limited to questions about the data presented in the monitoring report. Mostly open ended inquiry. |
| Past & Future | Most or all of the monitoring conversation is focused on future action rather than reflection on past action. | The plurality of the monitoring conversation is focused on future action rather than reflection on past action. | The large majority (2/3+) of the monitoring conversation is focused on reflecting on past action. | The super majority (3/4+) of the time spent monitoring is focused on reflecting on past action. |
| Progress Monitoring & Project Management | Any conversation is focused on offering advice concerning school system operations or programs. Questions are about technical or tactical issues. | Conversation is a blend of offering advice, discussing programs, and understanding performance. | Conversation is mostly focused on understanding performance rather than discussing school system operations or programs. | Conversation is exclusively focused on understanding performance specific to the monitoring report. Questions are about strategic issues. |

Directions

1. You will enter five sets of evaluation results: three previous quarters, most recently completed quarter, and the next quarter estimate.
2. **Enter** the self-evaluation results for the previous three completed quarterly self-evaluations. (For example, if it is currently January then enter the self-evaluation results for Jan-Mar, Apr-Jun, and Jul-Sep.)
3. **Conduct** the quarterly self-evaluation for the most recently completed quarter and vote to adopt the results. (Continuing the example, conduct the quarterly self-evaluation for Oct-Dec.)
4. **Compare** the quarterly self-evaluation results with the estimated self-evaluation results from the previously completed self-evaluation (Continuing the example, compare the self-evaluation results for Oct-Dec with the estimated Oct-Dec self-evaluation results that were entered during the Jul-Sep self-evaluation.)
5. **Enter** the self-evaluation results. (Continuing the example, enter the self-evaluation results for Oct-Dec.)
6. **Estimate** the self-evaluation results the Board can achieve during the next quarter. (Continuing the example, estimate the self-evaluation results for Jan-Mar.)
7. **Enter** the estimated self-evaluation results for the next quarter. (Continuing the example, enter the estimated self-evaluation results for Jan-Mar.)
8. **Update** the Board Continuous Improvement Evaluation to ensure meaningful progress toward focusing on improving student outcomes.

SUPERINTENDENT ANNUAL EVALUATION

A Goal or Guardrail's performance is **Met Standard** if:

- The Actual Ending Point \geq Desired Ending Point
OR
- At least two thirds of the Interim Goals'/Guardrails' Actual Ending Points \geq their respective Desired Ending Points

Otherwise the Board must consider growth and performance and vote to determine whether or not a Goal or Guardrail's performance **Met Standard** or **Did Not Meet Standard**.

Overall School System/Superintendent performance is **Met Standard** if:

- At least two thirds of the Goals are **Met Standard**

AND

- At least half of the Guardrails are **Met Standard**

Otherwise the Board must consider growth and performance, and vote to determine whether or not overall school system/Superintendent performance **Met Standard** or **Did Not Meet Standard**.
