California *Education Code* Section 1240 requires that the county superintendent or designee visit schools identified in our county, review information in the areas noted below, and report to you the results of the visits and reviews. Provided for submission to your governing board at a regularly scheduled November meeting, is your district's report for fiscal year 2024-2025. This report presents the results of visits and reviews at your district's schools this year.

The purpose of the visits as specified in California Education Code 1240 is to:

1. Determine if students have "sufficient" standards-aligned instructional materials in four core subject areas (English language arts, mathematics, history/social science and science (including science laboratory equipment in grades 9-12)) and, as appropriate, in foreign languages and health;
2. Determine if there is any facility condition that "poses an emergency or urgent threat to the health or safety of pupils or staff"; and
3. Determine if the school has provided accurate data on the annual school accountability report card related to the sufficiency of instructional materials and the safety, cleanliness, and adequacy of school facilities, including "good repair."

The law further requires that the county superintendent:

1. Annually monitor and review teacher mis-assignments and teacher vacancies in school.
2. Receive quarterly reports on complaints filed within the school district concerning insufficient instructional materials, teacher vacancies and mis-assignments, and emergency or urgent facilities issues under the Uniform Complaint Procedure; and
3. Review audit exceptions under expanded authority in the areas of use of instructional materials, program funds, teacher mis-assignments, and information reported on the school accountability report card and determine whether the exceptions are either corrected or an acceptable plan of correction has been developed.

Before proceeding with the report, below are some basic terms:

- "Sufficient textbooks or instructional materials" means each pupil, including English language learners, has a standards-aligned textbook or instructional materials, or both, to use in class and to take home.
- A school facility condition that poses an "emergency or urgent threat" is a "condition that poses a threat to the health or safety of pupils or staff while at school." [Note: this definition and quote is drawn from EC 17592.72(c)(1) because it is incorporated by reference in EC 1240(c)(2)(i)(ii).]
- "Good repair" means the school facilities are clean, safe and functional as determined pursuant to the school facility inspection and evaluation instrument developed by the Office of Public School

Construction or a local evaluation instrument that meets the same criteria. Each school district that receives state funding for facilities maintenance is required to establish a facilities inspection system to ensure that each of its schools is maintained in “good repair.”

- The table below is provided to clarify the rating descriptions included in the Facilities Inspection Tool Reports.

Percentage	Description	Rating
99%-100%	The school meets most or all standards of good repair. Deficiencies noted, if any, are not significant and/or impact a very small area of the school.	Exemplary
90%-98.99%	The school is maintained in good repair with a number of non-critical deficiencies noted. These deficiencies are isolated, and/or resulting from minor wear and tear, and/or in the process of being mitigated.	Good
75%-89.99%	The school is not in good repair. Some deficiencies noted are critical and/or widespread. Repairs and/or additional maintenance are necessary in several areas of the school site.	Fair
0%-74.99%	The school facilities are in poor condition. Deficiencies of various degrees have been noted throughout the site. Major repairs and maintenance are necessary throughout the campus.	Poor

- “Ineffective Teacher” is a teacher who assignment is authorized by an emergency permit that does not require possession of a full teaching license, a teacher who holds a teacher credential but does not possess a permit or authorization that temporarily allows them to teach outside of their credentialed area or an individual who holds no credential, permit or authorization to teach in California. Under this definition, teachers with the following emergency permits are considered ineffective: Provisional Internship Permits, Short Term Staff Permits, Variable Term Waivers, Substitute Permits or Teaching Permits for Statutory Leave.
- “Out of Field ” refers to a credentialed teacher who has not yet demonstrated subject matter competence in the subject areas to which they are assigned. Under this definition, teachers with the following permits are considered “out of field:” General Education Limited Assignment Permit, Special Education Limited Assignment Permits, Short Term Waivers, Emergency English Learner or Bilingual Authorization Permits, or Local Assignment Options.
- “Incomplete” indicates that missing or incorrect information about the assignment was reported by the LEA which prevented a complete and accurate determination of the teaching assignment.
- “Unknown” indicates that insufficient information about the assignment was reported.
