Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mount Pleasant Elementary School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Mount Pleasant Elementary School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Mount Pleasant Elementary School District, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Emphasis of Matter

As discussed in Note 1 to the financial statements, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities. This resulted in a restatement of the beginning governmental activities net position and the beginning aggregate remaining fund information fund balance totaling \$46,432. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 4 to 16, the General Fund Budgetary Comparison Schedule, Schedule of Changes in the District's Total Other Postemployment Benefits (OPEB) Liability, Schedule of the District's Proportionate Share of the Net Pension Liability, and Schedule of the District's Contributions on pages 54 to 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mount Pleasant Elementary School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

(Continued)

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2022 on our consideration of Mount Pleasant Elementary School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mount Pleasant Elementary School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2021

This Management's Discussion and Analysis (MD&A) section of the Mount Pleasant Elementary School District's 2020-2021 annual financial report presents the management's view of the District's financial performance during the fiscal year ending June 30, 2021. This MD&A section should be read in conjunction with the District's financial statements, which immediately follow this section.

DISTRICT PROFILE

The Mount Pleasant Elementary School District (the "District") - established as an elementary school district in 1865 - is located in the midst of Santa Clara County's Silicon Valley. The District encompasses a seven square mile area and serves several portions of San Jose. The District maintains four elementary schools, one middle school, and a district office site. One of the four elementary schools was converted into a K-8 charter school in 2010-11. The Board of Trustees is the level of government, which has governance responsibilities over all activities related to the public school education in the District.

The Special Education Local Plan Area Administrative Unit (SELPA AU) is the agency through which funds pass from the California Department of Education to the districts within the SELPA. The SELPA AU is also the agency through which expenditures for County operated Special Education programs pass from the Santa Clara County Office of Education to the districts within the SELPA. The activities of the Southeast SELPA AU are under the direction of the Executive Council, which is represented equally by all districts within the SELPA. In Fiscal year 2020-21, change in accounting principle required a SELPA's financial activities to be held in a Custodial Fund entitled "Special Education Pass-Through Fund". However, Southeast SELPA's operating general fund is still included in the District's General Fund total. It is identified as sub-fund 014.

This Management's Discussion and Analysis pertains to the District's operations for the fiscal year that ended on June 30, 2021.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Basic Financial Statements

The basic financial statements presented herein include all of the activities of the Mount Pleasant Elementary School District (the District) and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board Codification Section (GASB Code Section) N50.118-.121.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District (including infrastructure) as well as all liabilities (including long-term liabilities). Additionally, certain eliminations have occurred as prescribed by the statement in regards to inter-fund activity, payables and receivables.

The *Fund Financial Statements* include statements for each of the two categories of activities: governmental and fiduciary. The *governmental funds* statements tell how basic services like general and special education were financed in the short-term as well as what remains for future spending. The *fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong. The District used to report student body activities under the fiduciary funds in previous years. Under GASB 84 reporting requirements, the District reports student body activities as a governmental fund, retrospectively, beginning with fiscal year 2020-21.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2021

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

Local Control Funding Formula (LCFF)

From fiscal year 1973-74 thru 2012-13, State school districts had operated under general-purpose Revenue Limits established by the State Legislature. In general, the Revenue Limits were calculated for each school district by multiplying (1) the actual daily attendance ("ADA") for each such district by (2) a base revenue limit per unit of ADA. The revenue limit calculations were adjusted annually in accordance with a number of factors designed primarily to provide cost of living increases and to equalize revenues among all State school districts of the same type.

LCFF (Local Control Funding Formula) was implemented in 2013-14 to replace the Revenue Limits and restore LEAs purchase power back to fiscal year 2008-09 prior to the recession. LCFF establishes 4 Target Base Grants per ADA rate. LEAs receive base grants by multiplied the ADA in each specific grade span to the rate. Supplemental and Concentration Grants provide additional funding for low income, English Learners, and foster children thru additional percentages of the unduplicated percentage of enrollment/ADA for students in these three groups. During the implementation period, Gap Closure Percentage increases the annual revenues in order to meet the target of funding equalization for all school districts. In 2018-19, LCFF was considered as fully implemented as the funding gap had been 100% closed. That said, in the years to come, there will be COLA only for LCFF base grants funding increase.

In fiscal year 2020-21, the District received total \$34.72 million general fund revenues. Of this total \$21.9 million from LCFF funding sources accounted for approximately 63% of General Fund revenues which included 22% of local property taxes and 41% of State apportionment (see Chart 1). Total LCFF revenue compared to the prior revenue was decreased by \$1.1 million from 2019-20. See chart below:

THE DISTRICT AS A WHOLE

Net Position

The District's total assets were \$50.6 million for the fiscal year ended June 30, 2021 (see Table 1). Restricted net position of \$5 million are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net assets for day-to-day operations. All District net assets are the result of governmental activities.

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the *Statement of Activities*. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues and expenses for the year.

In 2020-21 total revenues decreased by \$1.3 million and expenditures decreased by \$5.3 million compared to 2019-20. The change in net position increased \$1.0 million in net assets.

In Table 3 below, we have presented the cost of each of the District's ten largest functions – regular program instruction, guidance and counseling, school administration, student transportation services, school food services, other pupil services, district administration, maintenance and operations, interest on long-term liabilities, and others. Providing this information allows our community to consider the cost of each function in comparison to the benefits they believe are provided by that function.

General Fund

Charts 2 and 3 provide a breakdown of the General Fund expenditures, both by Object code (Chart 2) and by Function (Chart 3). As is common with virtually all school districts, the majority of expenditures in the general fund are for salaries and benefits (approximately 83.5%). From a functional cost standpoint, Chart 3 shows that approximately 82.8% of total general fund expenditures go for instruction and instruction-related activities.

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$15.9 million (see Table 4 and Chart 4). The District is required to maintain available reserves of 3% of total general fund expenditures for economic uncertainties. This 3% reserve of the 2020-21 Unaudited Actuals amounts to \$0.94 million.

CAPITAL ASSET & DEBT ADMINISTRATION

Capital Assets

At June 30, 2021, the District had \$26.13 million in a broad range of capital assets (net of accumulated depreciation) including land, buildings, furniture and equipment. See Table-6. This amount represents a net increase (including additions, deductions and depreciation) of \$1.22 million from 2019-20. Land is accounted for at purchase cost, not market value, and is not depreciated. Our school sites have low values for today's market because the District acquired the land many decades ago. School buildings and site improvements are valued at their historical construction cost less accumulated depreciation.

	2020-21 Governmental Activities	2019-20 Governmental Activities
Land	\$0.53	\$0.53
Work In-Progress *	\$1.03	\$1.30
Buildings	\$20.73	\$20.30
Equipment	\$3.92	\$2.90
Improvements of Sites	\$0.90	\$1.10
Totals	\$27.10	\$26.13

* Work In-Progress in 2020-21 for the roofing project at Valle Vista school site was scheduled to be completed during summertime.

Long-Term Liabilities

At the end of this year, the District had \$27.1 million in bonds outstanding, with \$1.2 million due within one year. All G.O. Bonds funds are set aside for school sites improvements as needed and approved by the Board of Trustees.

The District had issued all of the \$12,000,000 bonds that were authorized by voters in April 1998, and had substantially completed construction and modernization projects relating to this issuance.

- On October 2015 the District issued \$2,265,000 General Obligation Refunding Bonds to refund the outstanding principal amount of the Prior Bonds as "qualified tax-exempt obligations" refunding bonds.

On November 2012 voters authorized the General Obligation (GO) Bonds, Measure-L in the maximum amount of \$25,000,000.

- On April 30, 2013 the District issued the first series of Measure-L in the principal amount of \$12,000,000 for purposes of upgrading school site classrooms and restrooms, and built a new Gymnasium at the middle school – August Boeger.

MOUNT PLEASANT ELEMENTARY SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2021

- On December 3, 2014 the District issued Series B of Measure-L in the principal amount of \$3,500,000 for the purpose of repairing, upgrading, acquisition, construction and equipping the District site and facilities. The District had substantially completed construction and modernization projects relating the first two issuances.
- On July 12, 2017 the District issued Series C of Measure-L in the principal amount of \$2,000,000 for the purpose of replace/repair HV AC, roofing, plumbing, gas, water, and concrete repair to reduce trip hazards.

On November 2018 voters authorized the General Obligation (GO) Bonds, Measure JJ in the principal amount of \$27,500,000 for the purpose of the acquisition, construction, modernization and equipping of District sites and facilities, and to pay the costs of issuing the Bonds.

- On December 19, 2019 the District issued Series A of Measure-JJ in the principal amount of \$10,000,000 for the purpose of district and sites improvements

On November 2020 voters authorized the General Obligation (GO) Bonds, Measure Q in the principal amount of \$12,000,000 to acquire equipment and improve instructional technology to keep pace with today's learning standards, renovate heating/cooling systems, aging restroom and upgrade school safety and emergency preparedness.

Other obligations include compensated absences payable, other post-employment benefits (including health benefits for retirees) and other long-term liabilities.

Currently the District is paying other post-employment benefits out of the General Fund and the Cafeteria Fund using a "Pay as you go" approach based on actual expenses incurred annually. See Table 7 below for Retirees statistics.

Group	Number of Retirees	FTE's	2020-21 Expenditures	Funding Source
Certificated	82	82.00	\$476,867	General Fund
Classified	40	32.81	\$207,083	G/F and Cafeteria
Management	15	15.00	\$112,144	General Fund
Total Retirees with benefits	137	129.81	\$796,094	

The District's total OPEB liability is approximately \$14.8 million as of June 30, 2021. GASB75 new accounting rule requires the district must account for the entire OPEB liability (see table 8). The actuarial report does not give the District credit for money set aside in Fund 20 since the funds are not in an irrevocable trust. However, the unfunded actuarial accrued liability would be \$14.1 million if the fund 20 balance of \$.67 million is taken into consideration as shown below:

We present more detailed information regarding our long-term liabilities in Note 5 and 6 of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2020-21 year, the District Board and management used the following criteria.

Key assumptions in the 2021-22 budget projections as of June 2021:

1. LCFF (Local Control Funding Formula) had been projected with 5.07% Mega COLA
2. Federal and state categorical revenues have been projected at a flat funding. Majority of state categorical programs have combined into the new LCFF model and no longer funded on an individual basis. Federal categorical programs, such as Special Education and Child Nutrition, continue to be separately funded along with State Special Education.
3. In 2020-21 the District received \$5.2 million COVID-19 Funds from Federal and State. The district has spent \$4.1 million in the year and carries forward \$1.1 million to 2021-22. The remaining balance has been budgeted according to the allowable uses and timelines to spend of each fund.
4. Average Daily Attendance (ADA) projected at 6% declined enrollment, estimated 1,384.11 for regular schools and 496.49 for Ida Jew Charter School. Due to the pandemic, for funding purpose, the hold harmless provision allowed the district to use 2019-20 ADA for 2020-21. The District has the advantage of being funded either on current or prior year ADA whichever is greater. Charter school will continue to be funded on current year ADA as required.

MOUNT PLEASANT ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Mount Pleasant Elementary School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District receives funding from local, state, and federal governmental sources and must comply with all the requirements of these funding source entities.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations; financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities displays information about the reporting government. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Change in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term liabilities is considered an indirect expense and is reported separately in the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

MOUNT PLEASANT ELEMENTARY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A - Major Funds

General Fund: The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. For financial reporting purposes, the current year activity and year end balances of the Special Reserve for Other Than Capital Outlay Projects and Special Reserve for Postemployment Benefits Funds are combined with the General Fund.

Building Fund: The Building Fund is a capital projects fund used to account for the proceeds from the sale of bonds and may not be used for any other purposes other than those for which the bonds were issued. The fund balance is generally restricted for the acquisition or construction of major capital facilities and other capital assets.

B - Other Funds

Special Revenue Funds: Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This includes the Student Activity and Cafeteria Funds.

Capital Facilities Fund: The Capital Facilities Fund is a capital projects fund used to account for financial resources that are restricted, committed, or assigned for the acquisition or construction of major capital facilities and other capital assets.

Bond Interest and Redemption Fund: The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term liabilities principal, interest, and related costs.

Special Education Pass-Through Fund: The Special Education Pass-Through Fund is a Custodial Fund which is used to account for special education revenue passed through to other member Local Education Agencies. The Special Education Pass-Through Fund is presented as a Custodial Fund as the District does not monitor recipient districts for compliance with program requirements, determine eligibility of the recipient districts, nor does it use any discretion in determining how pass-through funds are allocated.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements and the fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets and Budgetary Accounting: By state law, the Board of Trustees must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2021.

Stores Inventory: Stores inventory in the Cafeteria Fund consists mainly of consumable supplies and is valued at average cost. Inventory is recorded as an expenditure at the time individual inventory items are transferred from the warehouse to the schools.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 4 - 50 years depending on asset types.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods, and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized deferred outflows of resources related to the recognition of the net pension liability and total OPEB liability.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized deferred inflows of resources related to the recognition of the net pension liability and total OPEB liability.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following is a summary of pension amounts in aggregate:

	<u>STRP</u>	<u>PERF B</u>	<u>Total</u>
Deferred outflows of resources	\$ 4,422,400	\$ 2,302,962	\$ 6,725,362
Deferred inflows of resources	\$ 2,252,000	\$ 252,000	\$ 2,504,000

Pension expense	\$ 3,840,320	\$ 2,375,321	\$ 6,215,641

Compensated Absences: Compensated absences in the amount of \$31,018 are recorded as a liability of the District. The liability is for the earned but unused benefits. The amount to be provided by future operations represents the total amount that would be required to be provided from the general operating revenues of the District if all benefits were to be paid.

Accumulated Sick Leave: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees when the employee retires.

Unearned Revenue: Revenues from federal, state and local special projects and programs are recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Net Position: Net position is displayed in three components:

- Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. It is the District's policy to use restricted net position first when allowable expenditures are incurred.
- Unrestricted Net Position – All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and stores inventory.

B - Restricted Fund Balance:

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary fund statements.

C - Committed Fund Balance:

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Trustees is required to remove any commitment from any fund balance. At June 30, 2021, the District had no committed fund balances.

D - Assigned Fund Balance:

The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. While the Board of Trustees has empowered members of management to suggest individual amounts to be assigned, as of June 30, 2021 no formal designation of assignment authority has occurred and the Board of Trustees retains ultimate authority for assigning fund balance.

E - Unassigned Fund Balance:

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

While GASB Cod. Sec. 1300 and 1800 do not require Districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2021, the District has not established a minimum fund balance policy, nor has it established a stabilization arrangement.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Santa Clara bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts and other commitments when they are written. Encumbrances are liquidated when the commitments are paid.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements: In January 2017, the GASB issued GASB Statement No. 84, Fiduciary Activities. The principal objective of this Statement is to enhance the consistency and comparability of fiduciary activity reporting by state and local governments. The provisions in GASB Statement No. 84 are effective for reporting periods beginning after December 15, 2019. Based on the implementation of GASB Statement No. 84, the District restated its beginning net position of governmental activities as well as the aggregate remaining fund information beginning fund balance for a total of \$46,432.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2021 consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Funds</u>
Pooled Funds		
Cash in County Treasury	\$ 16,358,872	\$ 34,504
Deposits:		
Cash on hand and in banks	576	-
Cash awaiting deposit	79,898	-
Revolving cash fund	23,100	-
Total	\$ 16,462,446	\$ 34,504

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Santa Clara County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records, which is recorded on the fair value basis.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC). At June 30, 2021, both the carrying amount and bank balances of the District's accounts totaled \$103,574, all of which were fully insured by the FDIC.

Investment Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2021, the District had no significant interest rate risk related to cash and investments held.

Investment Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Investment Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2021, the District had no concentration of credit risk.

NOTE 5 – TAX REVENUE ANTICIPATION NOTES

On March 29, 2021, the District issued Tax Revenue Anticipation Notes (TRANs), in the total amount of \$3,840,000. The TRANs are considered a general obligation of the District and are payable from property taxes and principal apportionment generated by the District, bear interest at .25 percent, and mature on January 31, 2022. The TRANs are secured by a pledge of certain unrestricted revenues received by the District issuing such TRANs for its General Fund, and constitute a first lien and charge payable from the first monies received by the District from such pledged revenues.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS

General Information about the Other Postemployment Benefits Plan

Plan Description: The District provides healthcare benefits to eligible employees who retire from the District, as part of a single-employer defined benefit postemployment health care plan (the "Plan"). The Plan is administered by the District and allows employees who retire after having achieved retirement eligibility requirements to continue receiving medical coverage. The Board of Education has the authority to establish or amend the benefit terms offered by the Plan, and also retains the authority to establish the requirements for paying for the Plan's benefits as they come due. As of June 30, 2021, the District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability, and the plan does not issue separate financial statements.

Benefits Provided: In accordance with contracts between the District and the respective employee groups, eligible employees are entitled to receive certain medical, dental and vision benefits through the Plan. Benefits are prorated if the employee worked less than 100% full-time. Employees who work less than 50% of full-time, or any employee who was not enrolled in the District's group medical plan in the year preceding retirement, are not eligible for postretirement benefits through the Plan.

Eligibility requirements and benefits provided through the Plan vary depending on employee group, hire date, and years of service to the District:

Certificated Employees: For certificated employees hired before July 1, 1997, who retire after June 30, 1998 having reached age 50 with at least 15 years of service, the District provides lifetime medical coverage. For certificated employees hired after July 1, 1997 and before June 30, 2004, who retire having reached age 55 with at least 15 years of service, the District provides medical coverage until age 65.

Classified Employees: For classified employees hired before July 1, 1997, who retire after age 50 having reached at least 15 years of service, the District provides lifetime medical coverage. For classified employees hired after July 1, 1997, and before June 30, 2004, who retire having reached age 50 with at least 15 years of service, the District provides medical coverage until age 65.

Confidential Employees: For confidential employees hired before July 1, 1997, who retire after age 55 having reached at least 10 years of service and certain salary schedule minimums, the District provides lifetime medical coverage. For confidential employees hired after July 1, 1997, and before June 30, 2004, who retire having reached age 55 with at least 10 years of service and certain salary schedule minimums, the District provides medical coverage until age 65.

Management Employees: For management employees hired before July 1, 1997, who retire after age 55 having reached at least 10 years of service, the District provides lifetime medical coverage. For management employees hired after July 1, 1997, and before June 30, 2004, who retire having reached age 55 with at least 10 years of service and certain salary schedule minimums, the District provides medical coverage until age 65.

The District-paid monthly medical premiums ("maximum benefit") will not exceed the District's cap at the time of retirement. The District's current medical premium cap is \$11,500. District employees hired after June 30, 2004 and retire with 10 years of service may participate in the plan through age 65, by paying 100% of the premiums under the District's group medical plan.

Employees Covered by Benefit Terms: The following is a table of plan participants at June 30, 2021:

	<u>Number of Participants</u>
Inactive Plan members, covered spouses, or beneficiaries currently receiving benefits	137
Active employees	<u>64</u>
Total	<u>201</u>

Contributions: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the District's Governing Board. Contributions to the Plan from the District were \$865,362 for the year ended June 30, 2021. Employees are not required to contribute to the OPEB plan.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2020, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total OPEB liability in Mount Pleasant Elementary School District's actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

<u>Valuation Date</u>	June 30, 2020
<u>Actuarial Method</u>	Entry Age actuarial cost method.
<u>Discount Rate</u>	2.21%.
<u>Inflation Rate</u>	2.75% per year
<u>Health Care Increases</u>	Medical insurance premiums are assumed to increase by 5.50% annually. Dental and vision premiums are assumed to increase by 5% annually.
<u>Mortality Rates</u>	Mortality rates are taken from the 2014 CalPERS OPEB Assumptions Model (for classified and confidential employees) and from the 2016 valuation of STRS (for certificated employees).
<u>Health Plan Coverage Elections</u>	100% of eligible employees hired on or before June 30, 2004 are assumed to elect coverage upon retirement, and to remain covered under District plans for life. Current employees are assumed to have the same medical plan and family status after retirement that they have as current employees. Employees with no medical coverage as of the actuarial valuation were assumed to elect single employee Kaiser HMO coverage.
<u>Retirement Rates</u>	Retirement rates are taken from the most recent experience studies for CalPERS (2017) and CalSTRS (2016).

Termination Rates Termination rates are taken from the most recent experience studies for CalPERS (2017) for classified and confidential employees and CalSTRS (2016) for certificated and management employees.

Medical Claims Medical claims were estimated based on the true per person costs of coverage during the year ended June 30, 2018. The age-specific rates were developed to reproduce the same aggregate premiums that would be paid to the carriers for all current employee and retirees

<u>Age</u>	<u>Cost</u>
50	\$ 9,407
55	\$ 11,098
60	\$ 13,539
62	\$ 14,922
64	\$ 16,681

Salary Increases 3.00% per year

Discount Rate: Given the District's decision not to fund the program, all future benefit payments were discounted using a high-quality municipal bond rate of 2.21%. The municipal bond rate was based on the week closest but not later than the measurement date of the Bond Buyer 20-Bond General Obligation Index as published by the Federal Reserve.

Changes in Total OPEB Liability

	<u>Total OPEB Liability</u>
Balance at June 30, 2020	\$ <u>13,168,303</u>
Changes for the year:	
Interest	45,039
Service Cost	445,747
Changes of benefit terms	69,793
Differences between actual and expected experience	(751,634)

Benefit payments	<u>(865,362)</u>
Net change	<u>1,637,234</u>
Balance at June 30, 2021	<u>\$ 14,805,537</u>

The changes in assumptions include a change in the discount rate from 3.50% in the prior valuation, to 2.21% in the current valuation. Differences between actual and expected experience resulted from a combination of demographic related changes such as terminations, resignations and deaths. There were no changes between the measurement date and the year ended June 30, 2021 which had a significant effect on the District's total OPEB liability.

NOTE 9 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor up to the 2.4 percent maximum.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for any 36 consecutive months of credited service.

NOTE 9 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill required portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2021–21, respectively. The remaining portion of the contribution, approximately \$1.6 billion, was allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program.

California Assembly Bill 84, Chapter 16, Statutes of 2020, (AB 84) was signed into law in June 2020 and revised certain provisions of Teachers' Retirement Law enacted by SB 90. Specifically, AB 84 repurposed the aforementioned \$1.6 billion contribution originally intended to reduce employers' long-term liabilities, to further supplant employer contributions through fiscal year 2021–22. Pursuant to AB 84, employers will remit contributions to CalSTRS based on a rate that is 2.95 percent less than the statutory rate for fiscal year 2020–21 and 2.18 percent less than the rate set by the board for fiscal year 2021–22. Any remaining amounts must be allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program. The rate reduction for fiscal year 2019-20 under SB 90 was not changed by AB 84. The employer contribution rates set in statute and the board's authority to adjust those rates starting in fiscal year 2021–22 under the CalSTRS Funding Plan were not changed by the passage of SB 90 or AB 84.

In addition, the CalSTRS board's rate-setting authority for the state contribution rate was suspended for fiscal year 2020–21 by AB 84. Although the CalSTRS board exercised its authority in May 2020 to increase the state contribution rate by 0.50 percent effective July 1, 2020, the rate increase did not go into effect. Instead, the state rate remained at the 2019–20 level of 7.828 percent.

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan, SB 90 and AB 84, are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2020-21.

Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2020-21.

According to current law, the contribution rate for CalSTRS 2% at 62 members is adjusted if the normal cost increases or decreases by more than 1 percent since the last time the member contribution rate was set. Based on the June 30, 2019, valuation adopted by the board in May 2020, the increase in normal cost was less than 1 percent. Therefore, the contribution rate for CalSTRS 2% at 62 members did not change effective July 1, 2020.

Employers – 16.15 percent of applicable member earnings. This rate reflects the original employer contribution rate of 19.10 percent resulting from the CalSTRS Funding Plan and subsequently reduced for the 2.95 percentage points to be paid on behalf of employers pursuant to SB 90 and AB 84.

The CalSTRS Funding Plan, which was enacted in June 2014 with the passage of California Assembly Bill (AB) 1469, required that employer contributions will increase from 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation gave the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

The CalSTRS employer contribution rates effective for fiscal year 2020-21 through fiscal year 2045-46 are summarized in the table below:

<u>Effective Date</u>	<u>Base Rate</u>	<u>Supplemental Rate Per CalSTRS Funding Plan</u>	<u>Rate Adjustment Per Special Legislation</u>	<u>Total</u>
July 1, 2020	8.250%	10.850%	(2.950%)	16.150%
July 1, 2021	8.250%	10.850%	(2.180%)	16.920%
July 1, 2022 to June 30, 2046	8.250%	(1)	N/A	(1)
July 1, 2046	8.250%	Increase from AB 1469 rate ends in 2046-47		

(1) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.250% total and no lower than 8.250%.

The District contributed \$1,831,400 to the plan for the fiscal year ended June 30, 2021.

State – 10.328 percent of the members' calculated based on creditable compensation from two fiscal years prior.

The state's base contribution to the DB Program is calculated based on creditable compensation from two fiscal years prior. As a result of the CalSTRS Funding Plan, the state is required to make additional contributions to pay down the unfunded liabilities associated with the benefit structure that was in place in 1990 prior to certain enhancements in benefits and reductions in contributions. The additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specified in subdivision (b) of Education Code section 22955.1. The increased contributions end as of fiscal year 2045-46. Pursuant to AB 84, the state contribution rate remained at to 5.811% for fiscal year 2020-21.

July 01, 2046	2.017%	(3)	2.50%	(3)

- (1) The SBMA contribution rate excludes the \$72 million that is reduced from the required contribution in accordance with Education Code section 22954.
- (2) The board has limited authority to adjust the state contribution rate annually through June 2046 in order to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate imposed would be reduced to 0%.
- (3) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining unfunded actuarial obligation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 20,323,000
State's proportionate share of the net pension liability associated with the District	<u>11,106,000</u>
Total	<u>\$ 31,429,000</u>

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2020, the District's proportion was 0.021 percent, which was a decrease of 0.001 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$3,840,320 and revenue of \$1,473,001 for support provided by the State. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 36,000	\$ 573,000
Changes of assumptions	1,982,000	-

Contributions made subsequent to measurement date	<u>1,831,400</u>	<u>-</u>
Total	<u>\$ 4,422,400</u>	<u>\$ 2,252,000</u>

\$1,831,400 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>	
2022	\$ (139,383)
2023	\$ 392,617
2024	\$ 547,616
2025	\$ (33,050)
2026	\$ (265,300)
2027	\$ (163,500)

Differences between expected and actual experience and changes in proportion are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2020 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 9 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2019
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB
Not applicable for DBS/CBB	

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Mortality: CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the CalSTRS board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

NOTE 10 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

<https://www.calpers.ca.gov/docs/forms-publications/cafr-2020.pdf>.

Benefits Provided: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2021 were as follows:

Members - The member contribution rate was 7.0 percent of applicable member earnings for fiscal year 2020-21.

Employers - The employer contribution rate was 20.70 percent of applicable member earnings.

The District contributed \$1,386,962 to the plan for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$12,031,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2020, the District's proportion was 0.039 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2019.

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of Scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

NOTE 10 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses

Santa Clara County Schools Insurance Group: The District participates in a Joint Powers Agreement with Santa Clara County Schools Insurance Group (SCCSIG).

SCCSIG arranges for and provides workers' compensation, property and liability, dental and vision insurance for its members. SCCSIG is governed by a board consisting of a representative from each member district. The board controls the operations of SCCSIG, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and the deficits proportionately to its participation in SCCSIG. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from the prior year.

The following is a summary of audited financial information of SCCSIG at June 30, 2020 (the latest information available):

East Valley Schools Transportation Agency: The District is a member with other school districts of a Joint Powers Authority, East Valley Schools Transportation Agency, for the operation of transportation services. Each member district has two representatives on the Governing Board. Each member of that Board has equal voting rights. The Governing Board has decision-making authority which includes the power to designate management and the ability to significantly influence operations.

The following is a summary of audited financial information of East Valley Schools Transportation Agency Joint Powers Authority at June 30, 2021:

Total assets	\$ 854,608
Total liabilities	\$ 528,843
Net position	\$ 325,765
Total revenues	\$ 733,003
Total expenses	\$ 691,519
Change in net position	\$ 41,484

The relationship between Mount Pleasant Elementary School District and the Joint Powers Authorities is such that the Joint Powers Authorities are not component units of the District for financial reporting purposes.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 12 - CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

Also, the District has received federal and state funds for specific purposes that are subject to review or audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

NOTE 13 – SUBSEQUENT EVENT

On July 7, 2021 the District issued Election of 2020 Series A General Obligation Bonds (2020 Series A Bonds), totaling \$5,800,000. The 2020 Series A Bonds were issued to finance the equipment/instructional technology necessary to improve distance learning and internet access for the District. The 2020 Series A Bonds bear interest at rates ranging from 2.125% to 4.0% and are scheduled to mature through August 1, 2046.

MOUNT PLEASANT ELEMENTARY SCHOOL DISTRICT
 NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
 For the Year Ended June 30, 2021

NOTE 1 - PURPOSE OF SCHEDULES

A - Budgetary Comparison Schedule: The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of Changes in Total Other Postemployment Benefits (OPEB) liability: The Schedule of Changes in Total OPEB Liability is presented to illustrate the elements of the District's total OPEB liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available. The District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability.

C - Schedule of the District's Proportionate Share of the Net Pension Liability: The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

D - Schedule of the District's Contributions: The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

E - Changes of Benefit Terms: There are no changes in benefit terms reported in the Required Supplementary Information.

F - Changes of Assumptions: The discount rates used for the total OPEB liability were 3.87, 3.50, and 2.21 percent at the June 30, 2018, June 30, 2019, and June 30, 2020 measurement dates, respectively.

The discount rate for Public Employer's Retirement Fund B (PERF B) was 7.50, 7.65, 7.65, 7.15, 7.15, 7.15, and 7.15 percent in the June 30, 2013, 2014, 2015, 2016, 2017, 2018, and 2019 actuarial reports, respectively.

The following are the assumptions for the State Teachers' Retirement Plan:

The combined fund balance of the General Fund, which includes the Special Reserve for Other than Capital Outlay Projects and the Special Reserve for Postemployment Benefits Funds, has increased by \$2,809,942 over the past three fiscal years. The District projects a decrease of \$142,067 for the fiscal year ending June 30, 2022. For a district this size, the State of California recommends available reserves to be maintained of at least 3 percent of total General Fund expenditures, transfers out, and other uses. For the year ended June 30, 2021, the District was in compliance with this requirement.

The District has incurred an operating surplus in two of the past three years, but anticipates an operating deficit during the fiscal year ending June 30, 2022.

Total long-term liabilities have increased by \$12,068,198 over the past two years.

Average daily attendance (excluding Ida Jew Academies Charter School) has decreased by 95 over the past two years. The District anticipates a decrease of 175 ADA during the fiscal year ending June 30, 2022.

MOUNT PLEASANT ELEMENTARY SCHOOL DISTRICT
 NOTES TO SUPPLEMENTARY INFORMATION
 For the Year Ended June 30, 2021

NOTE 1 - PURPOSE OF SCHEDULES

A - Schedule of Instructional Time: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

B - Schedule of Expenditure of Federal Awards: The Schedule of Expenditure of Federal Awards includes the federal award activity of Mount Pleasant Elementary School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

The following schedule provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Change in Fund Balances and the related expenditures reported on the Schedule of Expenditure of Federal Awards.

<u>Description</u>	<u>AL Number</u>	<u>Amount</u>
Total Federal revenues, Statement of Revenues, Expenditures and Change in Fund Balance		\$ 5,103,236
<u>Less:</u>		
Medi-Cal Billing Option received from prior year expenditures	93.778	<u>(14,752)</u>
Total Schedule of Expenditure of Federal Awards		<u>\$ 5,088,484</u>

C - Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements: This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

D - Schedule of Financial Trends and Analysis (Unaudited): This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

E - Schedule of Charter Schools: This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14503 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2021, the District did not adopt this program.

The District did not offer an Early Retirement Incentive Program; therefore, we did not perform any procedures related to this program.

The District did not report any applicable hours for Apprenticeship – Related and Supplemental Instruction Program; therefore, we did not perform any procedures related to this program.

The District is not included on the District of Choice listing provided by the California Department of Education for the audit year; therefore, we did not perform any procedures related to this program.

There were no new clean energy jobs projects in the current audit year; therefore, we did not perform any procedures related to this program.

The Independent Study - Course Based Program was not offered during the audit year; therefore, we did not perform any procedures related to this program.

We did not perform any procedures related to Nonclassroom-Based Instruction/Independent Study, for charter schools or Determination of Funding for Nonclassroom-Based Instruction, for charter schools because the District's charter school is classroom-based.

The District did not participate in the Charter School Facility Grant Program; therefore, we did not perform any procedures related to this program.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on Mount Pleasant Elementary School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting (Audit Guide)*. Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Mount Pleasant Elementary School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Mount Pleasant Elementary School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Mount Pleasant Elementary School District's compliance.

Basis for Qualified Opinion with State Laws and Regulations

As described in Finding 2021-001 in the accompanying Schedule of Audit Findings and Questioned Costs, Mount Pleasant Elementary School District did not comply with the requirements regarding Instructional Materials. Compliance with such requirements is necessary, in our opinion, for Mount Pleasant Elementary School District to comply with state laws and regulations referred to above.

(Continued)

Opinion with State Laws and Regulations

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph above, Mount Pleasant Elementary School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2021.

Other Matter

Mount Pleasant Elementary School District's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Audit Findings and Questioned Costs. Mount Pleasant Elementary School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the *2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
Mount Pleasant Elementary School District
San Jose, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mount Pleasant Elementary School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Mount Pleasant Elementary School District's basic financial statements, and have issued our report thereon dated January 3, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Mount Pleasant Elementary School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mount Pleasant Elementary School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Mount Pleasant Elementary School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mount Pleasant Elementary School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE AS REQUIRED BY UNIFORM GUIDANCE

Board of Trustees
Mount Pleasant Elementary School District
San Jose, California

Report on Compliance for Each Major Federal Program

We have audited Mount Pleasant Elementary School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Mount Pleasant Elementary School District's major federal programs for the year ended June 30, 2021. Mount Pleasant Elementary School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Mount Pleasant Elementary School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mount Pleasant Elementary School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Mount Pleasant Elementary School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Mount Pleasant Elementary School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

(Continued)

Report on Internal Control Over Compliance

Management of Mount Pleasant Elementary School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Mount Pleasant Elementary School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Mount Pleasant Elementary School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

2021-001 – STATE COMPLIANCE – INSTRUCTIONAL MATERIALS (70000)

Criteria:

California Education Code Section 60119 (1)(B) requires the District to hold a public hearing on or before the end of the eighth week from the first day pupils attend school for that year.

Condition:

The District held the public hearing required by California Education Code Section 60119 (1)(B) regarding the sufficiency of instructional materials on November 18, 2020, which was more than eight weeks after the first day of the 2020-2021 school year, having commenced on August 18, 2020.

Effect:

The District is not in compliance with State requirements for Instructional Materials, including Education Code Section 60119 (1)(B).

Cause:

The District held the required public hearing on the sufficiency of instructional materials after the eighth week of the 2020-2021 school year.

Recommendation:

The District management team should reevaluate internal control processes to ensure that future public hearings on the sufficiency of instructional materials, are completed prior to the eighth week after the first day pupils attend school for the school year.

Views of Responsible Officials and Planned Corrective Actions:

Management concurs that the District was not in compliance with the requirements for instructional materials as required by Education Code Section 60119 (1)(B). The District has updated procedures to ensure that such public hearing and board resolution are held no later than the eighth week after the first day of the school year, in future fiscal years.
