## ❖ NO SCHOOL ANNOUNCEMENTS

On receipt of a severe weather alert, heavy snowfall, icy streets or when other hazards make streets unsafe, the school session will be canceled. Parents/guardians can listen to radio and television stations listed below as well as referring to the FRPS website for school cancellations beginning at 5:30 am.

**Automated Messaging Service:** During the school year, the Fall River Public Schools (FRPS) will be using a communication platform for school-to-parent communication. Parents may receive messages from the district regarding school closure or cancellations, transportation or any activities taking place at the district level. Our school staff may also send parents information that is specific to our school, such as Open House, field trips or school-based events. Parents are asked to please be sure all phone numbers are kept current in the school office.

## ❖ EMERGENCY EARLY DISMISSALS

The FRPS will dismiss or cancel school in the event that an emergency situation exists, which could affect the safety and welfare of our students. At the beginning of each school year, all parents/guardians will be informed of the School Department's policy as it relates to no school, delays, and early dismissals for emergency reasons.

It is the expectation of the FRPS that each parent/guardian will make arrangements for their youngsters to get home safely in the event school is dismissed early. The FRPS will make every effort possible to provide the general public with at least one-hour notification through the local media prior to the dismissal of students for emergency reasons.

All employees of the FRPS will make every reasonable effort to assist in ensuring that youngsters get home safely.

The following television and radio stations will be contacted in the event that school will be dismissed or canceled during and emergency situation.

# ATTENDANCE POLICY ALL GRADE LEVELS

## Why Attendance Matters?

Fall River Public Schools' goal is to ensure that every student attends school regularly and is actively engaged in their learning. Attending school regularly has a huge impact on a student's academic success and helps them feel better about school—and themselves. Families play a key role in building this habit from Pre-Kindergarten through 12th grade so that students learn that going to school on time every day is important. Developing the skill of consistent attendance will help students succeed in their academic career, as a student, and through college and in the workplace.

While some absences are unavoidable due to health problems or other circumstances, when students miss too much school— regardless of the reason – it often causes them to fall behind academically. Your child is less likely to succeed if he or she is chronically absent—which means missing 18 or more days over the course of an entire school year.

## Research shows:

- Children chronically absent in kindergarten and 1st grade are much less likely to read at grade level by the end of 3rd grade.
- By 6th grade, chronic absence is a proven early warning sign for students at risk of dropping out of school.
- By 9th grade, good attendance can predict graduation rates even better than 8th-grade test scores.

Absences can add up quickly. A child is chronically absent if he or she misses just two days every month!! We don't want your child to fall behind in school and get discouraged. Please ensure that your child attends school every day and arrives on time.

For more school attendance information, please visit the following school webpage:

## Attendance Information for All Levels Pre-K to 12

FRPS is dedicated to supporting students and their families through a range of support staff:

- Attendance Officers
- Adjustment Counselors (SACs),
- Guidance Counselors,
- Administrators
- Teachers
- Parent Community Facilitators
- School support staff

FRPS staff communicates by telephone, letters, or home visits with parents/guardians of children who are chronically absent.

They work with community partners, such as the Family Resource Center or the Department of Children and Families (DCF), to offer support to families and assist them in getting their children to school every day on time.

School Attendance Officers are mandated to take parents or students to court if truancy continues and children are being denied a consistent and comprehensive education.

Parents/guardians have a **legal responsibility** to ensure their child attends each school calendar day.

## State Laws Regarding Attendance

The following State Laws outline the responsibilities of parents/guardians for monitoring and preventing children's absences from school:

- The Commonwealth of Massachusetts states that **parents are required** to ensure children between the ages of 6 to 16 attend school. (Chapter 76, section 19 of the MA General Laws)
- Parents/guardians must provide the school with accurate contact information and must inform the school regarding the reason for a child's absence. (Chapter 76, section 1A of the MA General Laws)
- Educational professionals are mandated to report to the Department of Children and Family (DCF) their belief that a child is suffering from educational neglect. (*Approved by SC 11.08.21*)
- Without a warrant, School Attendance Officers may apprehend truants found wandering and return them to school.
- If truancy persists, School Attendance Officers are mandated to file a Child Requiring Assistance application with Juvenile Court. If a student is in elementary school, a criminal complaint for Failure to Cause School Attendance will be filed against the parent. (<http://www.mass.gov/courts/selfhelp/family/cra.html>)
- Families that receive benefits under Transitional Aid to Families with Dependent Children are subject to specific attendance requirements.

## Definitions:

### Chronic Absenteeism

A student who misses 10% or more of school **due to excused and unexcused absences** is considered chronically absent. (e.g., school is in session for 30 days, and the student is absent a total of 3 or more excused and unexcused days)

- The state of Massachusetts DOES NOT recognize or differentiate between excused or unexcused absences; *an absence is an absence.*
- Fall River Public Schools monitors student attendance so that ALL STUDENTS remain **under 17** excused or unexcused absences for the school year.
- **18 or more** excused or unexcused absences in a school year designate your student chronically absent with the state of Massachusetts.
- Chronically absent students may be ineligible to move from one grade to the next. Circumstances surrounding promotion or retention will be considered by the school principal on an individual basis.

### Truancy

- A student may be considered truant when he/she has an unexcused absence.
- A parent/guardian note does not excuse an absence if the absence does not meet the criteria to be excused.

### Excused absences will be permitted under the following circumstances:

- Student illness or injury with a valid doctor's note specifying the dates to be excused

*Note: Wellness visits should be scheduled after school hours or at the beginning or end of a school day so students can still be in school for as much of the school day as is possible.*

- Death in the immediate family (parental note required/Principal discretion for verification) ○ *Note: Students shall be entitled to excused absence(s) for up to **THREE SCHOOL DAYS** at time of death or thereabouts. Immediate family shall include parent/guardian, grandparent, child, sibling, or step-family members. (Principal discretion can approve additional time as needed)*
- In the case of the death of an aunt, uncle, niece, or nephew, an absence of ONE calendar day to attend the funeral. (Principal discretion can approve additional time as needed)
- Religious holidays as determined by the MA Department of Elementary and Secondary Education (DESE) (parental note required)
- Court/Legal summons (student's name must appear on the summons)
- School-approved activities
- College visits (documentation required)

## **What are unexcused absences?**

An absence is considered unexcused when a student misses school for reasons that are not accepted by the school, with or without parental permission. Unexcused absences including the following:

- Attending parent/guardian appointments
- Attending parent/guardian court summons
- Family travel/vacation
- Staying home to take care of siblings or other family members
- Missing the school bus
- Sleeping late
- Weather-related absences other than when the district has canceled school
- Undocumented illness/injury

## **Absence-Notification**

On the day a student is absent, it is the responsibility of a parent or guardian to telephone your child's school within the first 90 minutes of the school day to give a valid reason for the absence. Families are also encouraged to use Parent Square to communicate with our schools directly.

All FRPS families will receive an automated message via email, text, or phone (Parent Square) when their child is marked absent from school within a timeframe, as determined by the Superintendent, after the official start of the individual school day.

## **Suspensions**

Students who are absent due to out-of-school suspensions will be provided work and expected to complete all assignments. Absences due to suspension are considered excused but still count against a student's chronically absent total.

## **Tardies**

A student who is not in his/her school at the start of the school day is considered tardy. Any school delays declared by the superintendent will not count as a tardy for students. Frequent or chronic tardiness shall result in a parent–school conference to determine whether additional action is necessary.

For a school day to be counted towards a student's attendance, he/she must be present for 50% or more of the school day. Anything less will be counted as an absence.

## **Dismissals**

- All requests for early dismissals must be submitted in writing (written note or email) and given to the principal or designee at the start of the school day or, if possible, give the school 24-hour notice.
- Teachers are teaching students up to the final dismissal time. While early dismissals are discouraged, it is recognized that emergencies sometimes arise.
- Frequent or chronic early dismissals shall result in a parent–school conference to determine whether additional action is necessary.

## **Middle and High School Only Related Attendance Policy:**

### ***Impact on Grades/D4 Policy***

- After the 4th unexcused absence of a class during a term at our traditional middle schools and Durfee High School, a student's grade will be lowered to a 65(D4) unless they participate in the attendance buyback initiative listed below. Students who have earned a grade lower than 65 will continue to earn their actual academic grade.
  - Community Schools (Doran/HLCS) on a trimester schedule will follow the D5 policy so that the absence ratio in the policy is consistent with that of schools on a term schedule.
- In extraordinary cases, a student with demonstrated proficiency who is in jeopardy of receiving a D4 or D5 due to the attendance policy may appeal the decision to the principal or designee. The principal's decision will be final.

### ***Attendance Buyback Initiative***

- Students at our traditional middle schools and Durfee High School who are in danger of or have hit their 4th unexcused absence (D4) in any term can request a buyback.
  - Students at our community schools (Doran/HLCS) who are in danger of or have hit their 5th unexcused absence (D5) in any term can request a buyback.

- The student must request a buyback form from a school-based administrator and are responsible for returning the form back to their school-based administrator when it is complete.
- A buy-back takes 5 consecutive days of being present.

During the duration of time, the student is on a buyback, they must:

- Have 100% attendance.
- Be on time to school and all classes (No Tardies and No Dismissals).
- Complete ALL work on time
- Show positive classroom and school-wide behavior. If the student successfully completes the agreed-upon expectations, one absence will be excused and entered into their attendance record as excused (buy-back). Students may buy back a maximum of two absences per term.

## ❖ DISTRICT RESPONSE WHEN A STUDENT MISSES SCHOOL

**PARENTS AND GUARDIANS SHOULD EXPECT TO HEAR FROM SCHOOL TEAMS.** When a student is absent from school, the school staff will make every effort to find out why the student is absent. Each school shall follow the outlined tiered approach to supporting students who are absent from school.

**When a student is absent from school, the parent/ guardian can expect:**

• **Tier 1:**

- All Students: Daily automated calls regarding attendance from schools via Parent Square.
- Any Students with historically Poor Attendance/Chronic Absenteeism: In addition to the automated call, the student will receive a call and/or email from school-based staff for the purpose of information gathering, messaging around the importance of regular attendance, and to seek a commitment to attend beginning the next school day.
- Any student absent for 2 consecutive days, without communication by parent/guardian, in addition to the automated call, should expect to hear from school staff to discuss absences.
- **Students Absent Three Consecutive Days:** In addition to the automated call, the student will receive a call from a building administrator for the purpose of information gathering, messaging around the importance of regular attendance, and to seek a commitment to attend beginning the next school day.

If contact is not made OR once a student has been absent for 10% of the school year, a referral will be made to the school Student Support Team or Attendance Team for a personal student intervention and incentive plan to foster school attendance.

If the actions listed above are unsuccessful and/or absences continue, the following actions will be taken:

• **Tier II:**

- Students Absent Four Consecutive Days (Unaccounted For): When the Attendance Officer/SAC/school counselor is able to meet with the student(s) and family, a personal student intervention and incentive plan to foster school attendance will be created.
- If the building administrator/attendance officer is unable to reach the student or family and the student is still unaccounted for, an unscheduled home visit will be made by the Attendance Officer and potentially SAC or school counselor.
- If the Attendance Officer/SAC/school counselor is unable to meet with the student and family, a Tier III referral will be made.

• **Tier III:**

- Students Absent Five Consecutive Days (Unaccounted For):
- **At the request of building leadership, SROs may conduct safety and wellness checks for unaccounted students. (This is mandatory for students who have not made contact or have not been seen for 5 consecutive school days.)**
- Staff may file a 51A with DCF (this is not mandatory but an option to be considered by the administrative team).
- Attendance officers can make additional unannounced home visits to the homes of unaccounted students.

### **Should All School Interventions Fail?**

Attendance officers may file an Adult Failure to Cause School Attendance complaint against the Parent/guardian when elementary students (6 yrs. old and up) with 7 unexcused days or in a 6-month period.

School Attendance Officers can initiate court action in the form of a CRA on middle and high school students (up to age 16) with:

- 9 or more unexcused absences in a quarter
- 11 or more unexcused absences in a trimester

### **Remote/ Hybrid Attendance Policy**

In the event that hybrid learning is allowed and required due to a state of emergency Fall River Public Schools must implement remote or hybrid learning. All students will be expected to be active participants in all classes every day. If we cannot move safely to 100% full in-person learning, we will remain in the hybrid or remote model for as long as necessary. If a student is absent from class, the school will seek to implement the protocols described in the “**DISTRICT RESPONSE WHEN A STUDENT MISSES SCHOOL**” section of the district attendance policy.

## **❖ FRPS STUDENT TRANSFER POLICY**

All children of school age who reside in the district will be entitled to attend the public schools, as will certain children who do not reside in the district but who are admitted under School Committee policies relating to nonresident students or by specific action of the School Committee. FRPS students are assigned based on their address to their neighborhood school.

At FRPS, a “transfer” is defined as a student moving from one FRPS (neighborhood school) to another FRPS.

Student transfers are determined based on the following criteria:

- Requests are reviewed during the first 2 weeks of August by a district team. The final decision on a student transfer request is granted by the Superintendent.
- Transfer requests are granted based on seats available at the requested school.
- Priority is given to families with siblings at the requested school, followed by hardships, then preference.
- Students who are chronically absent will not be eligible for a transfer.
- Transportation will not be provided.

Students who have been granted a transfer request will be sent back to their neighborhood school if they become chronically absent.

To submit a transfer, a parent/guardian must fill out the transfer request form online, located on the FRPS webpage during the month of July.

### **SPECIAL EDUCATION PLACEMENT AND TRANSFER PROCESS:**

#### **Massachusetts State Law CMR 28.06: Placement and Service Options**

**1. Reporting-** The Department shall determine specific protocols for school districts to report level of services and placement made for eligible students. School districts shall use such protocols for the purposes of reporting information only. No reporting protocol shall be used as the basis for specifying services, delaying, or otherwise limiting services or programs for eligible students.

**2. Determining Placement-** At the Team meeting, after the IEP has been developed, the Team shall consider the identified needs of the student, the types of services required, and whether such services may be provided in a general education classroom with supplementary aids and/or services or in a separate classroom or school. The Team shall consider all aspects of the student’s proposed special education program as specified in the student’s IEP and determine the appropriate placement to provide the services. The Team shall determine if the student shall be served in an in-district placement or an out-of-district placement and shall determine the specific placement according to the following requirements:

- (a) The decision regarding placement shall be based on the IEP, including the types of related services that are to be provided to the student, the type of settings in which those services are to be provided, the types of service providers, and the location at which the services are to be provided.
- (b) The placement selected by the Team shall be the least restrictive environment consistent with the needs of the student. In selecting the least restrictive environment, consideration must be given to any potential harmful effect on the student or on the quality of services that the student needs.

(c) Least Restrictive Environment (LRE)- The school district shall ensure that, to the maximum extent appropriate, students with disabilities are educated with students who do not have disabilities, and that special classes, separate schooling, or other removal of students with special needs from the general education program occurs only if the nature or severity of the disability is such that education in general education classes with the use of supplementary aids and services cannot be achieved satisfactory.

1. In-district Placement- The placement decision made by the Team shall indicate the specific program setting in which services will be provided. The Team shall first consider in-district settings such as a general education classroom, a resource setting, a separate classroom, a work setting, a vocational school program, and/or another type of setting identified by the Team as appropriate and able to provide the services on the IEP in a natural or less restrictive environment. If an in-district setting is able to deliver the services on the IEP, the Team shall identify such placement and include such determination with the proposed IEP.

The school district shall determine specific instructional personnel and shall work jointly with the Team to arrange the specific classroom or school, in order to implement the placement decision and to assure that services begin promptly when parental consent to the IEP and placement have been received.

2. The school district shall not delay implementation of the IEP due to lack of classroom space or personnel, shall provide as many of the services on the accepted IEP as possible and shall immediately inform the parent in writing of any delayed services, reason, for the delay, actions that the school district is taking to address the lack of space or personnel and shall offer alternative methods to meet the goals on the accepted IEP. Upon agreement of a parent, the school district shall implement alternative methods immediately until the lack of space or personnel issues are resolved.

(d) Placement Meeting-Upon developing the IEP, if the needs of the student and the services identified by the Team are complex, and the Team is considering an initial placement out-of-district or a different setting for a student who has been served in an out-of-district program, the school district may schedule a separate Team meeting to determine placement. The placement meeting shall meet the participant requirements of federal special education law as outlined in 34 CFR §300.116(a) (1) and shall be held within ten school days following the meeting at which the Team developed the IEP. At the request of the parent, the placement meeting may be held at a later date.

3. Any other school district that may be financially or programmatically responsible for the student shall be invited to participate in the placement meeting and shall receive notice of such meeting at least five school days prior to the meeting. The department or other state agency involved with the student may designate a representative to participate in the placement meeting.

4. Prior to the placement meeting, the school district and parent shall investigate in-district and out-of-district placement options in light of the student's needs and identified services required.

5. At the placement meeting, the district and the parent shall report on the investigation of in-district and out-of-district options. If an in-district program can provide the services on the IEP, such program shall be identified at the placement meeting and provided by the district; if not, the placement Team shall identify an out-of-district placement.

(e) Out-of-district placement- If an out-of-district placement is designated by the Team, the Team shall state the basis for its conclusion that education of the student in a less restrictive environment with the use of supplementary aids and services could not be achieved satisfactorily.

6. Students in out-of-district placements shall be entitled to the full protections of state and federal special education law and regulation. Out-of-district options include, but are not limited to, special education schools approved under 603 CMR 28.09.

7. When an out-of-district placement is identified by the Team, the determination shall ensure that the student's placement is as close as possible to the student's home.

The Team shall not recommend a day or residential school program outside of the city, town, or school district in which the student resides unless there is not suitable program within the city, town, or school district.

The school district shall implement the placement decision of the Team and shall include consulting with personnel of the school contemplated to provide the program for the student to determine that the school is able to provide the services on the student's IEP. The Team shall not recommend a specific program unless it is assured that the adequacy of said program has been evaluated and the program can provide the services required by the student's IEP. Team identification of specific schools, however, shall not supersede LRE considerations, IEP considerations, or requirements to give preference to approved as provided in 603 CMR 28.09(3) (d).

## ❖ HARASSMENT POLICY: PROMOTING DIVERSITY

The FRPS does not discriminate against student, parents, employees, or the general public on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, religion, or age. Additionally, the FRPS does not discriminate against the individuals on the basis of homelessness in a manner consistent with the McKinney-Vento Act.

The individual listed below has been designated to handle the inquiries regarding the district's non-discrimination policies in education-related activities, including but not limited to inquiries related to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Act.

Brian Lally, Executive Director of Human Resources

## ❖ HOMELESS EDUCATION POLICY & PROCEDURES

The goal of the McKinney-Vento Homeless Education Assistance Act is designed to address challenges that homeless child or youth have in enrolling, attending and succeeding in school. To ensure that each homeless child youth has equal access to the same free appropriate public education to the extent practical and as required by law, the district will work with homeless students and their families to provide stability in school attendance and other services. ## ❖ DRUG/ALCOHOL POLICY AND STUDENT ASSISTANCE PROCEDURES

### PHILOSOPHY

The school environment is the place in which intelligence, capabilities, and skills are developed and enhanced. Physical and psychological dependence upon chemical substance creates health problems and is counter-productive to the goals of education. Frequent use of any drug results in impaired-performance. Therefore, use, possession, or sale of illegal drugs or alcohol cannot be permitted as it undermines the education process.

School policy has been developed to maintain high standards of behavior and to underscore our commitment to maintaining healthy growth and development in our students and a respect for the quality of our educational environment.

### DRUG AND ALCOHOL POLICY

The possession and/or sale or use of any controlled drug, look-alike drug, drug paraphernalia, and any prescription medication, volatile substance, or alcoholic beverage on or in the vicinity of school property or at any school function, on or off school grounds, is a violation of school rules. Such a violation may result in immediate suspension of the student involved from school and all school activities for the duration of the suspension. With parent permission, and appropriate physician documentation, any student required to take a prescribed medicine during school hours should deposit such drug with the school nurse or appropriate building administrator who will administer the drug according to school district policy.

*AT NO TIME SHOULD A STUDENT BE IN POSSESSION OF ANY DRUG UNLESS SUCH DRUG HAS BEEN PRESCRIBED AND PHYSICIAN'S ORDERS ARE ON FILE WITH THE SCHOOL NURSE FOR SELF-ADMINISTRATION.*

The following procedures, A – G, are applicable to students in middle schools and the high school: (Elementary school should refer to H)

- A.** If a student voluntarily confides a drug and/or alcohol use to a staff member, the following steps will be taken on a confidential basis to develop treatment options:

  3. Parents/Guardians will be included whenever services, evaluations, or assessments have been recommended.
- C.** If at any time a student is suspected of being under the influence of drugs and/or alcohol:
1. The nurse will be notified immediately to assess potential medical risk.
  2. Designated administrator or appropriate Team representative will notify parents or guardian who will take student home after a brief meeting with a Student Assistance Program member.
  3. Referral to the Student Assistance Program for further exploration and Parent-Student-Team meeting to discuss background information and treatment options.
  4. Primary focus of intervention is medical evaluation, parent involvement, in-house team meeting and counseling.

5. Disciplinary action may occur. Suspension up to five (5) days may result at the discretion of administrator.

## ❖ BULLYING INTERVENTION

The FRPS endeavors to maintain a safe learning environment where students can achieve the highest academic standards. The Fall River Public School District is committed to creating an environment in which every student develops emotionally, academically, and physically in a caring and supportive atmosphere free from harassment, intimidation, bullying or cyber-bullying.

We recognize that certain students may be more vulnerable to becoming targets of bullying or harassment based on actual or perceived differentiating characteristics, including: race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical, developmental or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics. Accordingly, in an effort to support vulnerable students, the District will identify specific steps it will take to create a safe and supportive environment for vulnerable populations in the school community,

To this end, bullying, cyber bullying and/or retaliation shall be prohibited and the District will provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment.

## **POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION**

The Fall River Public School District has a clear process for reporting and responding to incidents of bullying or retaliation. Reports may be made by staff, students, parents/guardians, or others, and can be submitted orally or in writing to the Principal or designee. If the allegation involves the Principal or Superintendent, the report should be made to the Superintendent or School Committee, respectively.

The district expects students, parents/guardians, and others who witness or become aware of bullying or retaliation will report it to the appropriate school officials. District staff members are also required to immediately report any suspected incidents they become aware of or witness. Reports can be made anonymously, though no disciplinary action will be taken based solely on an anonymous report.

### **Reporting Resources**

To facilitate reporting, the district will make various resources available to the school community, such as incident reporting forms, mailing addresses, and email addresses. These resources will be distributed at the beginning of the school year and made accessible in the schools and on the district's website.

### **Initial Response**

If a report of bullying or retaliation is made, the district may initially dismiss the allegation if, after considering all the facts, it is determined that the incident does not meet the legal definition of bullying. However, the district takes these matters seriously and will take steps to restore a sense of safety for the alleged target, which may include safety plans, seating arrangements, identifying a "safe person" for the target, or altering the aggressor's schedule. The district will also protect those who report bullying or provide information during an investigation from any retaliation.

### **Investigation Process**

Once a report is received, the Principal or designee will promptly commence an investigation, gathering evidence and interviewing students, staff, witnesses, and others as needed. During these interviews, the investigator will make it clear that retaliation is strictly prohibited. The investigation will be conducted with confidentiality to the extent possible, in accordance with state and federal laws regarding student privacy and mandated reporting.

### **Responding to a report of bullying or retaliation:**

Each school building administrator will appoint one person (Designee) who will be responsible for receiving the bullying report, investigating, and applying appropriate sanctions for all complaints of bullying. Upon receiving the report, the Designee must contact the parent/guardian of the target of the incident and the parent/guardian of the person accused of bullying. The Designee will notify both sets of parents or guardians that a complaint has been received and that an investigation is going to be conducted. Neither the name of the target nor the name of the student alleged of bullying should be disclosed to the other student's parent. The parent/guardian will also be advised that it is necessary to prevent any further acts of bullying and/or retaliation.

The Designee must provide for the safety of the target and any witnesses to the incident while conducting the investigation. The investigation shall include prompt interviews of students, staff, witnesses, parents or guardians, and others as necessary. The Designee will also remind aggressor, target and witnesses that retaliation is strictly prohibited and will result in disciplinary action.

The Designee will determine if the complaint is substantiated and if any remedial action is necessary.

Designee will consider the following remedial actions:

1. Teaching appropriate behavior through skills-building
2. Taking Disciplinary Action as outlined on the Bullying Investigation Form
3. Promoting Safety for the Target and Others

The parent/guardian of the target and the parent/guardian for the one alleged of bullying will be notified of the findings of the investigation. The Designee will keep all Bullying Report Forms and Investigation Forms in a Separate binder. All substantiated incidents of bullying must be reported in the FRPS Data Management System (Aspen X2).

## **Determination and Remedial Action**

Based on the findings of the investigation, the Principal or designee will make a determination as to whether bullying occurred and what remedial action is required, including any necessary disciplinary measures. If bullying is substantiated, the district will take reasonable steps to prevent its recurrence and ensure the target is able to fully participate in school activities. Conversely, if it is determined that a student knowingly made a false allegation, that student may be subject to disciplinary action.

## **TRAINING AND PROFESSIONAL DEVELOPMENT**

### **A. Annual staff training on the Plan**

Annual training for all school staff on the Plan will include staff duties as reporters under the Plan, an overview of the steps that the principal or designee will follow upon receipt of a report of bullying or retaliation, and an overview of the bullying prevention curricula to be offered at all grades throughout the school or district. In early September, an in-person, school-based professional development session will be held to inform all staff of the aforementioned topics as well as reporting requirements, investigation guidelines, ensuring the safety of the target and witnesses, education on power differentials, specific categories of students, cyber bullying, and the required documentation. Additionally, virtual, module-based training will be required for staff to complete as part of the onboarding process. All staff members hired after the start of the school year will participate in training via the human resources onboarding portal as a requirement to begin working in schools.

### **B. Ongoing professional development**

The goal of professional development is to establish a common understanding of curricula, programs, school initiatives, and bullying prevention and intervention strategies necessary for staff to create a school climate that promotes safety, civil communication, and respect for differences. Professional development will increase the skills and knowledge base of staff members to prevent, identify, and respond to bullying.

As required by M.G.L. c. 71, § 37O, the content of school-wide and district-wide professional development within the FRPS will include, but not be limited to, information on the following:

- (i) developmentally (or age-) appropriate strategies to prevent bullying;
- (ii) developmentally (or age-) appropriate strategies for immediate, effective interventions to stop bullying incidents;
- (iii) information regarding the complex interaction and power differential that can take place between and among an aggressor, target, and witnesses to the bullying;
- (iv) research findings on bullying, including information about students who have been shown to be particularly at risk for bullying in the school environment;
- (v) information on the incidence and nature of cyber-bullying; and
- (vi) Internet safety issues as they relate to cyber-bullying.

### **C. Notice to staff**

Fall River Public Schools will provide all staff with an annual written notice of the Bullying Prevention and Intervention Plan by publishing information about it, including relevant sections for staff in the District employee handbook. The Plan will be available on the District's website.

**STUDENTS WITH DISABILITIES** Note: This section was taken from Draft Technical Assistance Advisory (SPED 2011-1: Bullying Prevention and Intervention.) Sections 7 and 8 of the bullying prevention and intervention law have specific implications for the IEP process and for students with disabilities.

- **SECTION 7 STATES:** Whenever the IEP Team evaluation indicates that a student's disability affects social skills development, or when the student's disability makes him or her vulnerable to bullying, harassment, or teasing, the IEP must address the skills and proficiencies needed to avoid and respond to bullying, harassment, or teasing. (M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010.)
- **SECTION 8 STATES:** For students identified with a disability on the autism spectrum, the IEP Team must consider and specifically address the skills and proficiencies needed to avoid and respond to bullying, harassment, or teasing. (M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010.)

Since disabilities can affect multiple aspects of a student's life, a student's individual evaluation must be comprehensive in order to identify areas affected by the disability and to allow for appropriate supports to ensure student success. Generally speaking, this means that well planned evaluations will already contain the information needed to address the special education requirements of the bullying prevention and intervention law. The new bullying prevention and intervention law requires the IEP Team to discuss and address students' social skill development and vulnerability to bullying, harassment, and teasing.

The Massachusetts Department of Elementary and Secondary Education (Department) recently made updates to the Individualized Education Program (IEP) form. These changes are intended to strengthen the IEP process and improve the educational outcomes and experiences of students with disabilities in the Commonwealth. The updated IEP form contains embedded questions and/ or considerations relative to bullying, harassment, and teasing that an IEP team must answer at a team meeting, during which the IEP team is developing an IEP for a student. When addressing bullying specific considerations as discussed in sections 7 and 8 above, the team must document the specific skills and proficiencies needed to avoid and respond to bullying, harassment, and teasing, and how the IEP will address those skills and proficiencies.

### **COLLABORATION WITH FAMILIES**

FRPS Fall River Public Schools is committed to promoting a strong home-school partnership regarding bullying prevention. Each school will provide information to families that will support common language across the district as well as sharing prevention and identification strategies. Communication between home and school will be via school notices, school and District websites, and parent conferences/presentations.

It will also focus on school and District-specific approaches to collaboration which will take into account age, climate, socio-economic factors, linguistic, and cultural make-up of students and their parents.

#### **A. Parent education and resources**

The District will offer education programs for parents and guardians that are focused on the parental components of the anti-bullying curricula and any social competency curricula used by the District. The programs will be offered in collaboration with the Parent Academy, PTO, School Councils, Special Education Parent Advisory Council, or similar organizations.

#### **B. Notification requirements**

Each year the school will inform parents or guardians of enrolled students about the bullying prevention curricula that are being used. This notice will include information about how parents and guardians can reinforce the curriculum at home and support the District and the Plan, and the dynamics of bullying, including cyber-bullying and online safety. The Fall River Public Schools Student Handbook will include the student-related sections of the Plan and the District's Internet Safety Policy. Annual written notice will be in age-appropriate terms and languages most prevalent. In addition, all notices and information made available to parents or guardians will be in hard copy and electronic formats, and will be available in the language(s) most prevalent among parents or guardians. The District will post the Bullying Prevention and Intervention Plan and related information on its website.

### **ADMINISTRATIVE ACTIONS TO PREVENT FURTHER ACTS OF BULLYING**

#### **Support and Assist the Target:**

- Develop an Individualized Safety Plan and enact it. Each Individual Safety Plan will be promptly and consistently put into place to prevent further bullying.
- A School Counselor or School Adjustment Counselor will be assigned to the targeted student. The assigned Counselor will meet regularly with the target to support the target and assure that retaliation does not occur. If retaliation does occur it will be reported and dealt with immediately on a case by case basis.
- The targeted student will be provided with strategies to deal with future incidents, empowering the student to use self-advocacy to report any further acts.
- Follow up school counseling will be provided by the guidance counselor and or School Adjustment Counselor as determined necessary for the target.
- If school counseling personnel determine more in depth support will be needed then information regarding outside counseling services will be provided to the student's appropriate family members. The School Adjustment Counselor will assist the student and family to secure further outside of school counseling.

Approved by  
FRSC 11/18/24

### ***Support and Assist the Aggressor:***

- An Individualized Monitor Plan will be developed and put into place to ensure no further acts of bullying will be committed by the aggressor. Consistent, direct, and prompt action will be put into place to prevent further bullying by the aggressor towards the specifically targeted student.
- A School Counselor or School Adjustment Counselor will be assigned to the aggressor. The aggressor will be counseled and educated on acceptable alternative behaviors by the assigned guidance counselor or school adjustment counselor. The aggressor and appropriate family members will be made aware of the schools anti-bullying plan and the potential for severe consequences for his/her aggressive actions by the assigned School Counselor or School Adjustment Counselor. The assigned School Counselor will meet regularly with the individual aggressor to assure that retaliation has not occurred. But if retaliation does occur it will be reported and dealt with immediately.
- Follow up counseling will be provided by a School Counselor or School Adjustment Counselor as determined necessary for the aggressor.
- School staff and, for middle and secondary levels, the school resource officer will provide appropriate support and counseling for the aggressor as needed within the school setting.
- If needed, information regarding outside counseling services will be provided to the aggressor's appropriate family members. The School Adjustment Counselor will assist the student's family to secure additional outside counseling services.

### **Notice to another School District**

If the reported incident involves students from more than one school district, charter school, non- public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) about the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

### **Notice to Law Enforcement**

At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency.

Notice will be consistent with the requirements of 603CMR 49.00 and locally established agreements with the local law enforcement agency.

In addition, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

In making this determination, the principal will, consistent with the Plan and with applicable school or district policies and procedures, consult with the school resource officer, if any, and other individuals the principal or designee deems appropriate. A Memorandum of Agreement between the FRPS and the Fall River Police Department is being discussed.

### **Relationship to Other Laws**

Consistent with state and federal laws, and the policies of the Fall River Public Schools ("District"), the District does not tolerate discrimination against students, parents, employees or the general public on the basis of race, color, national origin, sex, sexual orientation, gender identity, pregnancy, pregnancy related conditions, pregnancy status, disability, homelessness, religion, age or immigration status. The District is also committed to maintaining a school environment free of harassment based on race, color, religion, national origin, sex, gender, sexual orientation, gender identity, pregnancy, pregnancy related conditions, pregnancy status, age, genetic information, ethnic background, ancestry, disability, or any category protected by state or federal law. In addition, the District provides equal access to all designated youth groups. Consistent with the requirements of the McKinney-Vento Act, the District does not discriminate against students on the basis of homelessness. Nothing in the Plan prevents District from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or District policies.

If the alleged conduct is on the basis of a protected class (i.e., race, gender, disability, etc.), the alleged conduct should be addressed in a manner consistent with the District's Discrimination and Harassment Grievance Procedures.

In addition, nothing in the Plan is designed or intended to limit the authority of the District to take disciplinary action or other action under M.G.L. c. 71, §§ 37H, 37H 1/2 or 37H 3/4, other applicable laws, or District policies, or collective bargaining agreements.

# Code of Conduct

2024 - 2025

FRSC approved 5/8/17

Our first and foremost goal is to ensure the safety, security and well-being of each and every one of our students. Our core values run deep in this school district, and we work very hard to model and implement a positive and caring learning environment across all our schools.

Our Code of Conduct is a model of collaboration initiated by union and management, with broad-based representation from stakeholders at every level of the school system. It is driven by our deep commitment to the well-being of our students. During the 2016-2017 School Year, a cross-functional team of educational professionals and community partners worked to refine and enhance the document contained herein.

The catalyst for this work was to ensure greater consistency, application, and enforcement of a clear set of norms and rules that drive student decorum in our schools. We feel that the improvements made in this document will better enable us to proactively and responsibly address violations of our Code of Conduct, keeping in mind the principles of restorative practices and justice.

We hope that you find this handbook to be user friendly and organized for accessibility. We encourage our educational professionals to employ alternative discipline consequences, not always using out-of-school suspension, as a first response. Remember, student discipline is about changing behaviors. Our hope for the future of our system - we use this tool as a living document, to refine it where we must — to always strive for improvements in student behavior.

## ❖ STANDARDS OF BEHAVIOR

The Fall River Public Schools is committed to ensuring that our schools are safe, secure and orderly environments in which teaching and learning take place each day. A safe and supportive school depends upon the efforts of all members of the school community—teachers, students, administrators, parents, counselors, social workers, safety personnel, related service providers, cafeteria, custodial and bus staff—to treat one another with mutual respect.

Included in this document is the Student Bill of Rights and Responsibilities that promotes responsible student behavior and an atmosphere of dignity and respect by establishing guidelines to help students as they strive to become productive citizens in a diverse society.

---

### Standards of Behavior

---

All members of the school community— students, staff and parents—must know and understand the standards of behavior which all students are expected to live up to and the consequences if these standards are not met.

The Code of Conduct provides a description of conduct that does not meet the standards of behavior expected of students in the Fall River Public Schools. It includes a range of interventions and a range of permissible disciplinary and intervention measures which schools may use to address misbehavior.

Also included is the Bill of Students Rights and Responsibilities.

The Discipline Code applies to all students

## ❖ PROMOTING POSITIVE STUDENT BEHAVIOR

### CREATING SAFE, SUPPORTIVE, AND INCLUSIVE SCHOOLS

Each school is expected to promote a positive school culture and climate that provides students with a supportive environment in which to grow both socially and academically. Schools are expected to take a proactive role in nurturing students' pro-social behavior by providing them with a range of positive behavioral supports as well as meaningful opportunities for social emotional learning.

School staff members are also responsible for addressing inappropriate student behaviors which disrupt learning. Administrators, teachers, counselors and other school staff are expected to engage all students in intervention and prevention strategies that address a student's behavioral issues and discuss these strategies with the student and his/her parent(s).

Intervention and prevention approaches include but are not limited to support and services to address personal and family circumstances; social/emotional learning, such as conflict resolution/mediation/negotiation, restorative consequences, anger management, stress management, and/or communication skills acquisition; the use of alternate instructional materials and/or methods; enrichment services; and/or development or review of functional behavioral assessments and behavioral intervention plans which should be developed and/or reviewed as an early intervention strategy.

Through the use of intervention and prevention strategies that engage students and give them a clear sense of purpose, school staff members facilitate students' academic and social-emotional growth and assist them in following school rules and policies.

---

Student engagement is integral to creating a positive school culture and climate that fosters students' social/emotional growth and academic achievement. Providing students with multiple opportunities to participate in a wide range of pro-social activities and, at the same time, bond with caring, supportive adults can help prevent negative behaviors.

Examples can include: providing students with meaningful opportunities to share ideas and concerns and participate in school-wide initiatives; student leadership development; periodic recognition of students' achievements in a range of academic and co-curricular areas; using corrective feedback; and developing school-wide positive behavior systems. Such opportunities, coupled with a comprehensive guidance program of prevention and intervention, provide students with the experiences, strategies, skills, and support they need to thrive.

---

Establishing a school-wide tiered framework of behavioral supports and interventions guides the entire school community toward following the school's rules and expectations, as well as the delivery of consistent and appropriate consequences.

Effective social emotional learning helps students develop fundamental skills for life effectiveness, including: recognizing and managing emotions; developing caring and concern for others; establishing positive relationships; making responsible decisions; and handling challenging situations constructively and ethically. Such skills help prevent negative behaviors and the disciplinary consequences that result when students fail to live up to behavioral standards.

## ❖ PARENTS\* AS PARTNERS

Students, parents and school personnel all have a role in making schools safe and must cooperate with one another to achieve this goal. School staff should keep parents informed of their child's behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to, a phone call and/or a written communication. As role models, parents and school staff should exhibit the behaviors which they would like to see students emulate.

To ensure that parents become active and involved partners in promoting a safe and supportive school environment, they must be familiar with the Discipline Code. Educators are responsible for informing parents about their child's behavior and for nurturing the skills students need to succeed in school and in society.

Parents are encouraged to discuss with their child's teacher and/or other school staff issues that may affect student behavior and strategies that might be effective in working with the student. It is important that there is maximum consultation and communication between the school and the home.

Collaborative Problem Solving conferences attended by the principal or his/her designee, a student adjustment or guidance counselor, the student's parent(s) and one or more of the student's teachers are an effective means of encouraging parental input and should be held with students when appropriate.

Parents who want to discuss behavioral interventions in response to student behavior should contact their child's school or teacher.

---

**Attendance** at school is vital to a student's academic progress and success. School personnel must ensure that appropriate outreach, intervention and support are provided for students who exhibit attendance problems that may manifest themselves as truancy or patterns of unexcused absence or educational neglect.

In cases of truancy, school personnel will make every effort to meet with the student and parent in order to determine if supports are needed and an appropriate course of action which may include, but not limited to parental contracts, referral for social service supports, and/or referral to after-school programs.

The school's social/emotional learning team should review cases of chronic absenteeism and/or truancy and should involve attendance officers, guidance counselors, teachers, student adjustment counselors, and administrators in facilitating a resolution.

---

School officials are responsible for sharing the information in this document with students, parents, and staff.

In the event a student engages in infractions/disruptive behavior, the student is assigned a consequence, the principal or principal's designee must report the behavior to the student's parent. When a student is believed to have committed a crime, the police must be summoned and the parent must be contacted.

*\* Whenever used in this document, the term "parent" means the student's parent(s) or guardian(s) or any person(s) in a parental or custodial relationship to the student, or the student, if she/he is an emancipated minor or has reached 18 years of age.*

## ❖ PROGRESSIVE DISCIPLINE

Understanding discipline as a "teachable moment" is fundamental to a positive approach to discipline. Progressive discipline uses incremental interventions to address inappropriate behavior with the ultimate goal of teaching pro-social behavior. Progressive discipline does not seek punishment. Instead, progressive discipline seeks concurrent accountability and behavioral change.

The goal is prevention of a recurrence of negative behavior by helping students learn from their mistakes. Essential to the implementation of progressive discipline is helping students who have engaged in unacceptable behavior to:

- Understand why the behavior is unacceptable and the harm it has caused
- Understand what they could have done differently in the same situation
- Take responsibility for their actions
- Be given the opportunity to learn pro-social strategies and skills to use in the future
- Understand the progression of more stringent consequences if the behavior reoccurs

### **Determining the Disciplinary Response**

School officials must consult this document when determining which disciplinary measure to impose. In determining how to best address inappropriate conduct, it is necessary to evaluate the totality of the circumstances surrounding the conduct. The following facts should be considered prior to determining the appropriate disciplinary measures:

- Student's age and maturity;
- Student's disciplinary record (including the nature of any prior misconduct, the number of prior instances of misconduct, and the disciplinary and intervention measures applied for each
- The nature, severity, and scope of the behavior
- The circumstances/context in which the conduct occurred
- Frequency and duration of the behavior
- Number of persons involved in the behavior
- If applicable, the student's IEP (Individual Education Plan), BIP (Behavioral Intervention Plan) and 504 Accommodation Plan

Every reasonable effort should be made to correct student behavior through interventions and other school-based resources. Interventions are essential because inappropriate behavior or violations of the Discipline Code may be symptomatic of more serious problems that students are experiencing. It is, therefore, important that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs.

Appropriate disciplinary responses should emphasize prevention and effective intervention, prevent disruption to students' education, and promote the development of a positive school culture.

### **Alternatives to Suspension**

The Principal or their designee shall not suspend the student out-of-school on a short-term or long-term basis under such circumstances until alternative remedies have been employed and their use and results documented in their written findings and determination unless specific reasons are documented in their written findings and determination as to why such alternative remedies would be unsuitable or counter-productive, or unless the student's continued presence in school would pose a specific, documentable concern about the infliction of serious bodily injury or other serious harm (physical and/or psychological) upon another person while in school. M.G.L. c. 71, § 37H3/4(b)."

## ❖ INFRACTION LEVELS

The FRPS Code of Conduct holds students accountable for their behavior. Infractions are grouped into a total of five levels (3 levels of Elementary School, 5 levels for Middle School, and 3 levels for High School) based on the severity of the infraction. Whenever possible and appropriate, interventions should begin with the lowest level of disciplinary response.

Infractions levels are as follows:

- **Level 1** – Uncooperative/Noncompliant Behavior
- **Level 2** – Disorderly Behavior
- **Level 3** – Disruptive Behavior
- **Level 4** – Aggressive or Injurious/Harmful Behavior
- **Level 5** – Seriously Dangerous or Violent Behavior

Principals, teachers, school staff, students and parents need to know the disciplinary measures that can be taken when a student misbehaves or substantially disrupts a classroom.

The Code of Conduct is divided into three sections: Section E Grades K-5, Section M Grades 6-8, and Section H Grades 9-12 to ensure that the age and general maturity of the student are considered. Some infractions may not apply to students in grades K-3.

Each level of infractions contains possible interventions as well as a minimum to a maximum range of possible disciplinary responses that may be imposed by a teacher, school level administrator, Superintendent or Superintendent's designee.

The enumerated infractions are not all-inclusive. Students who engage in misconduct which is not listed are subject to appropriate disciplinary measures by the teacher, school level administrator or other designee of the Superintendent based on violation of school rules. To ensure that staff, students and parents are aware of all expected standards of behavior, school rules must be in writing and distributed along with the Code of Conduct. The Discipline Code provides progressive accountability measures for students who engage in repeated misbehaviors despite prior interventions and/or prior imposition of appropriate disciplinary measures.

More severe accountability measures will be imposed on those students who engage in a pattern of persistent misconduct. Whenever possible and appropriate, prior to imposing such penalties, school officials should exhaust less severe disciplinary responses and use interventions.

In cases of vandalism, The FRPS reserves the right to seek restitution for damages to facility, equipment, or materials perpetrated by students of parents/guardians.

The infraction and the consequences contained within this handbook are not exhaustive nor are they meant to be; rather these are guidelines for addressing inappropriate conduct and suggested disciplinary consequences. A range of discipline is possible within these guidelines, and school administrators have the discretion to impose more severe consequences than contained within these guidelines depending on the individual circumstances presented. In some instances consequences may carry over from one year to the next. In serious cases involving possible criminal behaviors; FRPS referral to appropriate legal authorities will be made, separate from any school disciplinary action. Parents will be notified when such referral takes place.

\*It is noted that chronic infractions of the Code of Conduct on one level, regardless of the grade stacking (elementary, middle, high), may "bump" the student to the next level of violation within the Code of Conduct.

**Note:** *The Code of Conduct should be used in conjunction with other relevant FRPS policies and Massachusetts General Laws (MGL) and Commonwealth of Massachusetts Regulations (CMR). Included in the appendix are select MGL's and CMR's*

*It should be duly noted that some students, (ex. Special Education students, Ch7l b) may be provided additional protections and may supported by additional Federal Law.*

*Additionally, we need to ensure that we follow reporting functionality consistent with CMR (ex. Physical Restraint, CMR 46.00). For all FRPS policies, please refer to <http://www.fallriverschools.org/noliciesprocedures.cfm>*

## ❖ BEHAVIORAL INTERVENTIONS

To promote positive behavior schools provide a range of prevention and intervention strategies and support services for students during and/or after school hours throughout the school year. When a student engages in misconduct, the Discipline Code provides a non-exhaustive list of behavioral interventions that must be considered based on the type of behavior in which a student has engaged.

When used consistently and appropriately, interventions help improve student behavior, lower repeated misbehavior and contribute to a more positive school environment. Interventions are an integral part of a comprehensive response and schools are expected to provide support services at all stages of the disciplinary process, including during suspension. Support services may include any of the interventions or a combination of such services that best meet the needs of the individual students.

### Types of Student Support Services

<p><b>Parent Outreach:</b> School staff should keep parents informed of their child's behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to a phone call and/or written communication.</p>	<p><b>Development of Individual Behavior Contract:</b> The student meets with teachers to create a written contract that includes objectives and the specific performance tasks that student will accomplish to meet those objectives. The contract is signed by the student, teacher, and where appropriate by the parent.</p>
<p><b>Collaboration Problem Solving Conference:</b> Principals and teachers may request a conference with student and parent, where appropriate. The conference is to review the behavior, find solutions, and address academic, personal, and social issues that might have caused or contributed to the behavior.</p>	<p><b>Referral to RTI (Response to Intervention) Team:</b> RTI teams are school based teams that utilize a multidisciplinary approach to encourage student success through prevention and intervention strategy supports. A case manager is identified for each student referral to create an individualized plan to help students overcome their academic and/or social-emotional difficulties.</p>
<p><b>Individual/Group Counseling:</b> Counseling provides students with an outlet to share issues in privacy that may be negatively impacting their attendance, behavior, and/or academic success. Students discuss and formulate goals, and learn problem solving strategies which will enable them to overcome a variety of personal challenges. Counselors will conference with parents on a regular basis to discuss students' progress.</p>	<p><b>Referral to Appropriate Substance Abuse Counseling Services:</b> In the case where a student is presenting problems with substance abuse, including the use, possession, and/or distribution of illegal drugs, drug paraphernalia, and/or alcohol, referral should be made to counseling services that are either school based or an outside community based organization.</p>
<p><b>Referral to a Community Based Organization (CBO):</b> Students may be referred to a community based organization for a wide range of services including after school programs, individual or group counseling, leadership development, conflict resolution, and tutoring.</p>	<p><b>Positive Youth Development (PYD) or Community Service:</b> With parental consent, students may be provided with PYD or community service opportunities for a sense of feeling connected to other youth in a positive way. They can gain greater appreciation of their school neighborhoods and develop skills to become positive social change agents.</p>
<p><b>Mentoring/Advisory Program:</b> A mentoring program matches a mentor or advisor who may be a counselor, teacher, and/or leader with a protégé. The object of this relationship is to help the protégé in their personal, academic, and social development.</p>	<p><b>Re-Entry Process:</b> Assignment of a trained school staff member to provide transition support for a student returning from a long term suspension or from a prolonged absence.</p>
<p><b>Referral to Counseling Services for Bias Based Bullying, Intimidation or Harassment:</b> When student/group of students engage in bias-based bullying, intimidation, or harassment of another student(s), both victim and the student(s) who engage in this behavior should be referred to separate appropriate counseling support and education services provided by school staff or a community based agency. Neither, mediation nor conflict resolutions are, under any circumstances appropriate intervention in this case.</p>	<p><b>Referral to Counseling Services for Youth Relationship Abuse or Sexual Violence:</b> When one person uses a pattern of threatened or actual physical, sexual, and/or emotional abuse to control a dating partner, the school should refer both the victim and the student who engages in this behavior to separate appropriate school or community based counseling, support, and education. Neither, mediation nor conflict resolutions are, under any circumstances appropriate intervention in this case.</p>

## ❖ RESTORATIVE APPROACHES

A restorative approach can be used as both a prevention and intervention measure. Restorative processes can help schools build relationships and empower community members to take responsibility for the well-being of others; prevent or deal with conflict before it escalates; address underlying factors that lead youth to engage in inappropriate behavior and build resiliency; increase the pro-social skills of those who have harmed others; and provide wrong doers with the opportunity to be accountable to those they have harmed and enable them to repair the harm to the extent possible.

When used as an intervention measure, taking a restorative approach to discipline changes the fundamental questions that are asked when a behavioral incident occurs. Instead of asking who is to blame and how those engaged in the misbehavior will be punished, a restorative approach asks four key questions:

- What happened?
- Who was harmed or affected by the behavior?
- What needs to be done to make things right?
- How can people behave differently in the future?

### TYPES OF RESTORATIVE APPROACHES

**Morning Meeting/Advisory Program:** These groups are effective as both a prevention and intervention strategy. They may be used as a regular practice in which a group of students (or faculty or students and faculty) participates. They can also be used in response to a particular issue that affects the school. The process enables a group to build relationships and establish understanding and trust create a sense of community, learn how to make decisions together, develop agreements for the mutual good, resolve difficult issues, etc.

**Collaborative Negotiation:** Using the collaborative negotiation process enables an individual to talk through an issue or conflict directly with the person with whom he/she disagrees to arrive at a mutually satisfactory resolution. Training in collaborative negotiation includes learning active listening and other conflict resolution communication skills.

**Mediation:** An impartial, third party mediator facilitates the negotiation process between conflicting parties so they can come to a mutually satisfactory resolution. Mediation recognizes that there is validity to conflicting points of view that disputants bring to the table and helps disputants work out a solution that meets both sets of needs. Disputants must choose to use mediation and must come to the process willingly. Mediation is not used where one individual has been victimized (for example, in cases of harassment or bullying) by another.

**Formal Restorative Conference:** A conference is facilitated by an individual who has received specific training in bringing together individuals who have acknowledged causing harm with those who have been harmed. Regardless of the circumstances, the mental, physical health, safety, and welfare of the individual who was harmed are of paramount importance when considering this option in a school setting. Both sides may bring supporters to the circle that has also been affected by the incident. The purpose of the conference is for the harm doer and the harmed to understand each other's perspective and come to a mutual agreement which will repair the harm as much as it is able to be repaired.

*Note: In serious cases involving possible criminal behaviors; FRPS referral to appropriate legal authorities will be made, separate from any school disciplinary action. Parents will be notified when such referral takes place.*

**Supports for Students Transitioning from Suspension:** Schools are expected to provide support services to students returning from suspension to maximize their ability to meet social and academic standards within the school community. Support services may include any of the range of guidance interventions or a combination of services as best meets the needs of the individual student. This includes "distance learning" or other online learning programs.

**Alternative Education Options:** FRPS will place students in alternative schools such as Resiliency Preparatory Academy or other placement options currently under development, if said placement is in the best interest of the student and/or the school system to ensure a safe, orderly school environment conducive to learning and individual student learning/competency progress towards a high school diploma. This could also include home tutoring or distance learning among other options.

\*In addition to the Code of Conduct, each school also has school-based rules specific to each school in their student handbooks. The Code of Conduct is subordinate to state law (MGL) and FRPS follows MGL in all disciplinary processes.

## ❖ APPENDIX

### Education Laws and Regulations

#### Chapter 71 Section 37H: Policies relative to conduct of teachers or students; student handbooks

Section 37H. The superintendent of every school district shall publish the district's policies pertaining to the conduct of teachers and students. Said policies shall prohibit the use of any tobacco products within the school buildings, the school facilities or on the school grounds or on school buses by any individual, including school personnel. Said policies shall further restrict operators of school buses and personal motor vehicles, including students, faculty, staff and visitors, from idling such vehicles on school grounds, consistent with section 16B of chapter 90 and regulations adopted pursuant thereto and by the department. The policies shall also prohibit bullying as defined in section 370 and shall include the student-related sections of the bullying prevention and intervention plan required by said section 370. Copies of these policies shall be provided to any person upon request and without cost by the principal of every school within the district.

Each school district's policies pertaining to the conduct of students shall include the following: disciplinary proceedings, including procedures assuring due process; standards and procedures for suspension and expulsion of students; procedures pertaining to discipline of students with special needs; standards and procedures to assure school building security and safety of students and school personnel; and the disciplinary measures to be taken in cases involving the possession or use of illegal substances or weapons, the use of force, vandalism, or violation of a student's civil rights. Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only.

In each school building containing the grades nine to twelve, inclusive, the principal, in consultation with the school council, shall prepare and distribute to each student a student handbook setting forth the rules pertaining to the conduct of students. The student handbook shall include an age-appropriate summary of the student-related sections of the bullying prevention and intervention plan required by section 370. The school council shall review the student handbook each spring to consider changes in disciplinary policy to take effect in September of the following school year, but may consider policy changes at any time. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions:

- a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, gun or a knife;
- b) or controlled substance as defined in chapter 94 C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.
- c) Any student, who assaults a principal, assistant principal, teacher, teacher's aide or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.
- d) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.

Approved by  
FRSC 11/18/24

After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

- e) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.
- f) Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student in an education service plan, under section 21 of chapter 76.
- g) Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the Department of Elementary and Secondary Education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.
- h) Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

## ❖ SPECIAL EDUCATION STUDENT DISCIPLINE

All students are expected to meet the requirements for behavior as set forth in this Code of Conduct. In addition to those due process protections afforded to all students, the Individuals with Disabilities Education Act ("IDEA") and related regulations as well as state special education law, require that additional provisions be made for students who have been found eligible for special education services or who the school district knows or has reason to know might be eligible for such services. Students who have been found to have a disability that substantially limits a major life activity, as defined under § 504 of the Rehabilitation Act are generally also entitled to increased procedural protections.

The protections are as follows:

1. Students with disabilities may be excluded from their programs for up to ten (10) school days to the extent that such sanctions would be applied to all students. Before a student with a disability can be excluded from his/her program for more than ten (10) consecutive school days in a given school year or subjected to a pattern of removal constituting a "disciplinary change of placement", building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team will meet to determine whether the conduct for which the student is subject to discipline was caused by or directly and substantially related to the student's disability or was the direct result of a failure to implement the student's IEP or 504 Plan ("Manifestation Determination"). During days of disciplinary exclusions exceeding ten (10) school days, students on IEPs have the right to receive the services which will allow them to participate in the general education curriculum and to progress toward meeting the goals set out in the child's IEP. Under Section 504, student do not have the right to services during the period of exclusion, except for the services available to all students in accordance with M.G.L. c., 76, §21.
2. If building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team determine that the student's conduct was not a manifestation of the student's disability, the school may discipline the student in accordance with the procedures and penalties applicable to all students but will continue to provide a free appropriate public education to those students with IEPs. The student's IEP Team will identify the services necessary to provide a free appropriate public education during the period of exclusion, review any existing behavior intervention plan and, where appropriate, conduct a functional behavioral assessment.
3. If building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team determine that the conduct giving rise to disciplinary change in placement was a manifestation of the student's disability, the student will not be subjected to further disciplinary removal or exclusion from the student's current educational program based on that conduct (except for conduct involving weapons, drugs, or resulting in serious bodily injury to others) unless the IEP or 504 Team develops, and the parent(s)/guardian(s) consent to, a new placement or unless the District obtains an order from a court or from the Bureau of Special Education Appeals (BSEA) authorizing a change in the student's placement. The student's Team shall also review, and modify as appropriate, any existing behavior intervention plan or arrange for a functional behavioral assessment.
4. If a student with a disability possesses or uses illegal drugs, sells or solicits a controlled substance, possesses a weapon, or causes serious bodily injury to another on school grounds or at a school function, the district may place the student in an interim alternative educational setting (IAES) for up to forty-five (45) school days. A court or BSEA Hearing Officer may also order the placement of a student who presents a substantial likelihood of injury to self or others in an appropriate interim setting for up to forty-five (45) school days.

### **Interim Alternative Educational Setting (IAES –45 Day Placements)**

- The school must provide documentation of all efforts to educate the students before a 45 day is requested. A Functional Behavioral Assessment (FBA) should be completed and implemented as part of the documentation provided.

An IAES for up to 45 school days is appropriate for consideration if the student carries a dangerous weapon to school or a school function, knowingly possesses, uses, or attempts to sell illegal drugs at school or at a school function, or has inflicted serious bodily injury upon self or another while at school or at a school function. (Notify appropriate authorities and get permission from the Superintendent for an IAES).

When a student is in an IAES they must: a) continue to receive educational services to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP, b) receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

### **Students Not Yet Determined Eligible for Special Education**

Students who are suspected of having a disability should be treated as disabled student for purposes of discipline. Students with disabilities, whether or not they have been identified are entitled to protection if, before the behavior that precipitated the disciplinary action occurred:

- A parent expressed concern to school staff that the student needs special education or related services
- The parent requested an evaluation.
- The student's teacher or school personnel expressed concern about their behavior/performance to other school staff.

### **The school or district is not deemed to have knowledge of a disability if**

- The parent has not allowed an evaluation;
- Has refused special education and related services or;
- The child has been evaluated and determined not to be a child with a disability.

If the district does not have knowledge that a child is a child with a disability, the child may be subjected to the disciplinary measures applied to children without disabilities who engage in comparable behaviors. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the child is determined to be a child with a disability, the district must provide special education and related services.

## ❖ Student Use of Cell Phones & Personal Devices – Grades 6-12

### Scope

This document provides direction to students, staff, and families about managing personal devices that students choose to bring to school. For the purposes of the FRPS Cell Phone Policy, personal devices include cell phones, smart watches and other digital devices that are capable of sending or receiving messages or calls and/or able to connect to the internet, and personal laptops or iPads that are not owned by the school.

### Rationale

With the widespread and increasing ownership of cell phones and other devices among students it is critical that schools, in partnership with families, provide clear guidance for students to become informed, safe, respectful, and responsible digital citizens. By implementing this policy, Fall River Public Schools aim to reduce distractions, enhance overall safety, and foster a school culture and climate conducive to learning, emotional wellbeing, and prosocial communication.

The aim of this policy is to help promote:

- Safe environments with reduced negative impacts of inappropriate use of devices at school, such as cyber bullying, exposure to harmful content and critical incidents that involve cell phones.
- Classroom environments where teachers can teach, and students can learn, free from distractions caused by personal use of devices.
- Use of breaks as quality time away from screens, encouraging physical activity and play and meaningful face-to-face connections with peers.

### Storage of Cell Phones Upon Arrival at School

Students will have access to use their cell phones and/or other personal communication devices to and from school. Upon arrival at school, students will turn their cell phones off or place them in flight mode upon arrival at school. This includes taking off and storing any wearable technology that fits the definition of this policy, such as smart watches. Students are required to store devices in the YONDR pouch which is then locked by the student for the duration of the school day. At the end of the school day (or upon dismissal from school), students are able to unlock the YONDR pouch at one of the unlocking stations designated by the school. Each school has determined protocols for arrival and departure of school.

### Procedures

**As students arrive to school, they will:**

1. Turn cell phones, watches, etc. to off or to silent mode.

Approved by  
FRSC 11/18/24

- Place their phone, airpods/earbuds, and smart watch inside their Yondr pouch and **lock it in front of school staff.**
- Store their pouch in their backpack or locker for the day.
- This process may take a few minutes. **You are responsible for getting to class on time with a secured pouch.**

**During the School Day:**

- Students will keep their phone, airpods/earbuds, and smart watch inside their Yondr Pouch for the duration of the school day.
- If a student needs to leave school grounds for an appointment, or a school event, they may unlock the pouch upon leaving and lock it upon re-entry.
- Students may not access their phone during the school day anywhere on school grounds unless they are leaving school grounds. \*Students leaving early will unlock their phone in the Main Office.

**End of School Day:**

- When the school day ends, students will unlock their pouch using the unlocking base at their school’s designated area.
- Students will remove their phone and store their empty pouch in their backpack or bag for the next day.
- Students are free to use their phones on school grounds after school ends UNLESS they are required to attend after-school detention, credit recovery classes, or Saturday school.

**Responses to Non-Compliance**

Where students use a personal device at school without an approved exemption, or use it inappropriately, a response will be provided in line with the school’s behavior management policy. Each of the following violations will result in the student’s phone and/or pouch being confiscated by school staff and will follow the consequences shown in the chart below:

- If a student’s phone is visible at all during the day (a student is found using their phone, a phone is not in a Yondr Pouch, etc.)
- Physical damage to the pouch in an attempt to circumvent its intended purpose. (Ex. Inappropriate markings, holes, bent pin, stripped lock, etc.) Student will be required to pay for a replacement pouch at \$26ea.
- Storing an alternative device in the pouch and/or not putting ALL cell phones in student’s possession into the pouch.
- Distributing or using a magnet to unlock pouch during school hours.
- Losing the pouch. Student will be required to pay for a replacement pouch at \$26ea.
- Damaging or taking someone else’s pouch.
- Using a phone anywhere on school grounds during school hours.
- Intentional disruptive cell phone use

## **Exemptions/Exceptional circumstances**

Individual students may have extenuating reasons for needing access to their personal device during school hours, such as where:

- The device is used to monitor or help manage a documented health condition.
- The device is a negotiated and documented intervention to a learning program for a student with a disability or learning difficulties.
- The student has extenuating personal circumstances that require them to have more ready access to their personal device including being a parent themselves or a primary care to a younger sibling or unwell family member. Extenuating personal circumstances approved by the school principal.

Students who qualify for an exemption pouch are held to the same exceptions listed in the FRPS Cell Phone Policy. Students are expected to use their cell phones only in response to the documented need and otherwise should be placed in the YONDR velcro pouch during the school day. Please fill out the Exemption Form on the FRPS website and contact the school if you need to request an exemption due to one of the circumstances listed above. These requests will be reviewed by the principal on a case-by-case basis. If approved, the exemption will be recorded in the student's file or health care/learning plan as appropriate.

## **Yondr Emergency Protocol**

We want our students to be engaged in their learning. We will advise students to store the pouch in their backpacks or lockers dependent on individual school protocols. In case of an emergency at home, parents or guardians can contact their child during the school day by calling their school's Main Office or House office. If the Main Office/House office is not available, parents/guardians may call the school counselor for assistance or contact school administration via ParentSquare message.

In case of a school emergency (i.e. Evacuation or Lockdown), we direct our students to safety first, following our school emergency protocol. All parents will receive IMMEDIATE notifications from our school-wide notification system, ParentSquare. Once students are at the safe location, portable magnets will follow our students to ensure we can unlock pouches at the designated evacuation site .

In case of a medical emergency, we have a school nurse on site in our Nurse's Office. Caregivers of a student who experience a medical emergency are notified by the school nurse and/or an Administrator.

FRPS teachers and administrators believe that excellence in education requires a seamless integration of technology into the curriculum/instruction, and Chrome books constitute an innovative and powerful tool to increase students' access to technology and prepare them for college and the 21<sup>st</sup> Century workplace.

**Chrome book Goals:** a) to support the implantation of the local curriculum and common core learning standards, b) to enhance learning opportunities by focusing on the application of skills in information retrieval, searching strategies, research skills, and critical thinking, and c) to promote life-long learning.

**Acceptable Usage:** In the interest of consistency and proper management of Chrome books, students using Chrome books and other authorized digital learning devices at FRPS must accept the Chrome book Usage Policy. The use of FRPS technology resources is a privilege, not a right. The privilege of using the technology resources provided by FRPS is not transferable or extendable by students to people or groups outside the district and terminates when a student is no longer enrolled in FRPS. This policy is provided to make all users aware of the responsibilities associated with efficient, ethical and lawful use of technology resources. If a person violates any of the user terms and conditions outlined in this policy, privileges may be terminated, access to the school district technology resources may be denied, and the appropriate disciplinary action shall be applied. The FRPS Student Code of Conduct shall be applied to student infractions. Teachers have the prerogative of setting additional requirements for Chrome books and other digital device usage in their classrooms.

*Note: Violation may result in disciplinary actions up to and including suspension/expulsion for students. When applicable, law enforcement agencies may be involved.*

### **Parent/Guardian Responsibilities:**

1. Talk to your child about values and the standards that your child should follow on the use of the internet, just as you do on other social media information sources (e.g. television, telephones, movies, and radio).
2. You may opt out of having a Chrome book. However, keep in mind that this action may prevent your child from benefiting from learning opportunities that the Chrome book offers. Should you opt out, your child will still be responsible for completing his/her Chrome book assignment, which could take him/her longer.

Approved by  
FRSC 11/18/24

**School Responsibilities:**

1. Provide internet and email access to your child
2. Filter or block inappropriate or harmful materials transmitted via the internet
3. Provide network data storage areas. FRPS reserves the rights to review, monitor, and restrict information stored on or transmitted via FRPS-owned equipment and to investigate inappropriate use of resources.
4. Provide staff guidance to aid students in doing research and help assure student compliance of the acceptable use policy.

**Students are Responsible for:**

1. Using computers/devices in a responsible and ethical manner.
2. Obeying general school rules concerning behavior and communication that apply to Chrome book or related digital learning devices.
3. Using all technology resources in an appropriate manner so as to not damage school equipment. This “damage” includes, but not limited to, loss of data resulting from delays, non-deliveries or service interruptions caused by the student’s own negligence, errors, or omissions.
4. Contacting school administrator about any security problems they may encounter.
5. Turning off and securing their Chrome book after finishing with their work to protect their work and information.
6. If a student should receive an email containing inappropriate or abusive language or if the subject matter is questionable, he/she is asked to print a copy and turn it into the main office.
7. Returning their Chrome books to the Learning Commons at the end of each school year. Students, who graduate early, withdraw, are suspended or expelled, or terminate enrollment with FRPS for any other reason must return their individual school Chrome book on the date of termination.

*Note: Unreturned Chrome books will be treated as unreturned book and related instructional materials to school, which means that students will be put on social probation.*

*Students on social probation will be precluded from participating in school functions, activities, social events, including graduation. Grades, transcripts, diplomas or any other records will be withheld until the Chromebook is turned to school.*

**Students Activities Strictly Prohibited:**

1. Illegal installation or transmission of copyrighted materials.

2. Plagiarism is a violation of the FRPS Code of Conduct. Give credit to all sources used, whether quoted or summarized. This includes all forms of media on the internet, such as graphics movies, music, and text.

Use or possession of hacking of software is strictly prohibited and violators will be subject to penalties in the FRPS Student/Parent Handbook. Violation of applicable state or federal law will result in criminal prosecution or disciplinary action by the district.

**Parents' Guide to General Student Internet Use:** The FRPS recognizes that with new technologies come new challenges to both educators and parents. Below is a series of suggestion drawn from a wide variety of professional sources that may aid you, the parent, in effectively guiding your child's use of the Chrome book.

**Emphasize the concept that "Cyberspace" is NOT "Private Space"**

Parents/Guardians should talk to their children about what they are doing in Cyberspace. Talk openly and honestly about online and cell phone activity. Make sure that your children fully understand that messages or pictures they send over the internet or their cell phones are not private or anonymous. Also, make sure they know that other might forward their pictures or message to people they do not know. It is essential that students grasp the potential short-term and long-term consequences of their actions on the internet and while using their cell phone or other electronic devices.

**Know with whom your child is communicating electronically**

- **Encourage** your child to use and store the Chrome book in an open area. The kitchen or family room is a great area for your child to work on and store the Chrome book.
- Open areas will help you monitor what your child is doing online.
- **Learn** who your children are spending time with online and on cell phones. Supervising and monitoring your child's whereabouts in cyberspace is now part of conscientious parenting today.
- **Limit** electronic communication. You can limit the time your children spend online and on the phone. Do not permit access to phones and computers at inappropriate times such as after bedtime.
- **Monitor** your child's public online profiles. Be aware of what your child is posting publicly on the internet.

## **❖ ACCEPTABLE USE POLICY**

### **EXECUTIVE SUMMARY**

In response to the growing use of the internet in our classrooms, the FRPS have implemented Acceptable Use Policies (AUPs) to ensure that school computers are being used in a safe and appropriate manner. This policy includes ALL users, students, staff, and the community.

At each school throughout the district, an AUP acts as a written agreement between administrators, teachers, students, and parents. It outlines the terms and conditions for internet use by defining access privileges, rules of online behavior, and the consequences for violating those rules.

Users are responsible for good behavior on school computers just as students are responsible for good behavior in class and school hallways. Communications on the network are often public in nature. The general school rules for behavior and communication apply.

The network is provided for staff and students and other users to conduct research or school business and communicate with others. Access to the network services is given to staff, students, and others who agree to act in a considerate, legal and responsible manner. Access is a privilege-not a right!

Although the district will make every effort to promote the proper and safe use of the internet, individual users are responsible for their behavior and communications over the network.

The district has installed a firewall (filter) on the network to restrict access to areas on the internet that are illegal or inappropriate for students in the school setting.

Although these precautions have been taken, accessing inappropriate material remains a possibility and parents/guardians, as well as staff members, are responsible for setting and conveying standards to our students.

It is presumed that all users will comply with the FRPS Network Access Policy and will honor the following rules:

**Responsible Users May:**

- Do school business and send appropriate district reports to municipal, state, and federal agencies.
- Use the internet to research educational topics and assigned classroom projects.
- Use email to communicate and send messages related to district or school business.
- Use the network to do other school business and/or classroom work.

**Responsible Users May Not:**

- Use the internet for any illegal purposes.
- Engage in “cyber bullying” or use impolite or abusive language.
- Violate the rules of common sense or etiquette.
- Change computer files that do not belong to the user.
- Send or receive copyrighted materials without permission.
- Share a restricted password with anyone.
- Change or tamper with network configurations.
- Place unapproved hardware or software on the network including LAN/WAN or wireless devices.

During school, teachers will guide students toward appropriate materials. The network administrators may review staff and student files and communication to maintain system integrity and insure that users are using the system responsibly. Note, these services and resources are not the same as a private home internet and email accounts, and therefore all actions including information stored, accessed, viewed, written, or actions performed are logged and accessible by the administration. These actions are also legally discoverable and could be subpoenaed by a court of law.

Therefore, the FRPS has the right to monitor, quarantine, backup, move, archive and/or delete, and access all electronic files, local or remote, on systems managed by the FRPS. Students should have no expectation of privacy; all actions including, but not limited to, information stored, accessed, viewed or written are logged and accessible by administration. All FRPS students should not have any expectation or guarantee of privacy when using the schools IT resources, whether use takes place during or outside school hours.

In accordance with the law, FRPS filters internet content to prevent access to pornography and material that is otherwise inappropriate for minors.

However, it is recognized that this and any filter alone is no guarantee that users will not be able to access internet resources, which are profane, offensive, obscene, or otherwise objectionable. Students should report accidental or inappropriate sites to a teacher or administrator for blocking. Internet usage is logged and monitored for use consistent with educational mission of the FRPS.

## **INTERNET AND NETWORK ACCEPTABLE USE AGREEMENT**

### **1.0 PURPOSE**

- 1.1** The FRPS provides employees and students with access to FRPS data network (hereinafter referred to as The Network), which also serves as our gateway to the internet.
- 1.2** The network has been developed for educational purposes. It is intended to assist in preparing students for a successful life in the 21<sup>st</sup> century. The network provides access to a wide range of information resources and the ability to communicate with people throughout the world. The term “educational purposes” includes use of the network for curriculum activities, and professional or career development activities related to education.
- 1.3** Additionally, the network will be used to enhance productivity through increased communication within the district and assist its employees in upgrading their skills through greater exchange of information with their peers. The network will also assist the district in communicating with parents, social service agencies, government agencies, and businesses.
- 1.4** The network may not be used for personal commercial purposes, such as, but not limited to, offering, providing, or purchasing goods and/or services for personal use.

### **2.0 DISTRICT RESPONSIBILITIES**

- 2.1** The network manager will oversee access to the network and will establish processes for the following: individual and class accounts, authorization for installation of all software and hardware, quotas for disk usage on the system, retention and archival schedules, district virus protection process, review of filtering issues, and other necessary activities.
- 2.2** The principal/supervisor or designee will serve as the site- based coordinator for the network. The site-based coordinator in partnership with the Network Manager and the Director of Technology Integration and Management will approve building-level activities. Together they will ensure employees receive proper training in the use of the network and the requirements of this policy. In addition they will establish a system to ensure that students using The Network receive adequate supervision and network orientation. The building principal/supervisor will post the network policy in appropriate locations, and be responsible for interpreting and enforcing the district Internet/Network Acceptable Use Agreement at the school/building level.
- 2.3** When using the Internet for class activities, teachers will select material appropriate to the students and relevant to their course objectives. In order to determine the appropriateness of the material contained on, or accessed through web sites, teachers will preview required materials prior to student use. Teachers will provide guidelines and resource lists to assist their students in developing the necessary skills to ascertain the reliability of information. Teachers will also assist their students with skills such as distinguishing fact from opinion, and engaging in discussions about controversial issues, and demonstrating tolerance and respect for those who may hold divergent views.
- 2.4** FRPS will maintain a web presence and will continue to develop dynamic web pages that will present information about the district and our community.
- 2.5** With the approval of the Chief Information Officer, the Principal and the Director of Technology Integration and Management, schools and classes may establish web pages on the district website that present information about the school and/or individual class activities.
- 2.6** FRPS will continue to use its firewall (filters) and/or contracted sources to block access to inappropriate sites in accordance with the Children’s Internet Protection Act (CIPA).

### **3.0 ACCESS TO THE SYSTEM**

- 3.1** The Internet/Network Acceptable Use Agreement will govern all utilization of the network. Student use of the system will also be governed by applicable sections of the Administrators Handbook, Staff Notices, and relevant student handbooks.
- 3.2** All district employees and students will have access to the World Wide Web through the district’s networked computers.  
Parents/Guardians may specifically request that their children not be provided such access by indicating so on a letter to the principal of the school in which the student is enrolled. Upon receipt of such letter, FRPS will make its best effort to restrict all Internet access. However, there can be no guarantee that such a student can be restricted at all times.
- 3.3** E-mail access will be provided to all staff as necessary.

3.4 A guest, such as a visiting teacher or consultant, may receive an individual account at the discretion of the Chief Information Officer if there is a specific, district-related purpose requiring such access. Use of the system by a guest must be specifically limited to this district-related purpose.

#### **4.0 PARENTS/GUARDIAN NOTIFICATIONS AND RESPONSIBILITY**

4.1 The district will publish and make available to all parents/guardians the network policies governing its use on its web site [www.falliversschools.org](http://www.falliversschools.org). In addition; principals and teachers WILL require staff, students, parents and guardians to sign Internet/Network Acceptable Use Agreements before allowing network access.

4.2 FRPS Acceptable Use Agreement contains restrictions on the access of inappropriate material. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for FRPS to monitor and enforce a wide range of social values in student use of the Internet. Further, the district recognizes that parents/guardians bear primary responsibility for transmitting their particular set of family values to their children. The district will encourage parents/guardians to specify to their children what material is and is not acceptable for their children to access through the network.

4.3 FRPS will provide students and parents with guidelines for the student's personal safety while using the internet and will utilize the resources of NetSmartz (<http://www.netsmartz.org/>) and I-Safe (<http://www.isafe.org/>) as vital components of the technology curriculum at all grade levels.

#### **5.0 DISTRICT LIMITATION OF LIABILITY**

5.1 FRPS makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its data network will be error-free or without defect. The district will not be responsible for any damages users may suffer, including but not limited to, loss of data or interruptions of service, or personal physical, psychological, or monetary damages.

The district is not responsible for the accuracy or quality of the information obtained through or stored on the system. The district will not be responsible for unauthorized financial obligations arising through the use of the system.

#### **6.0 DUE PROCESS**

6.1 FRPS will cooperate fully with local, county, state, and federal officials in any investigation concerning or relating to any illegal activities conducted through the network.

6.2 Violations of the Internet/Network Acceptable Use Agreement will carry serious consequences and may result in the immediate suspension of the user's privileges. Further disciplinary action may be taken by the Administration of FRPS and/or City, County, State or Federal authorities. Disciplinary actions will be tailored to meet specific concerns related to the violation. These disciplinary actions may include termination, suspension, or expulsion.

6.3 The Chief Information Officer, the Network Manager or the Director of Technology Integration Management, may terminate the account privileges of a user by providing notice to the user. Guest accounts not active for more than 30 days may be removed, along with the user's files, without notice to the user.

#### **7.0 SEARCH AND SEIZURE**

7.1 The Network is the property of the school department and its storage systems are therefore subject to inspection by the administration at any time. System users have a limited privacy expectation in the contents of their personal files on The Network.

7.2 Routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the district Internet/Network Acceptable Use Agreement, the law or the disciplinary code. The nature of the investigation will be in the context of the nature of the alleged violation.

7.3 An individual search will be conducted if there is suspicion that a user has violated the district Internet/Network Acceptable Use Agreement, or the law. The nature of the investigation will be in the context of the nature of the alleged violation.

#### **8.0 INTERNET ACCEPTABLE USE AGREEMENT**

8.1 Existing copyright law will govern the use of material accessed through the network. Because the extent of copyright protection of certain works found on the Internet is unclear, users will make a standard practice of requesting permission from the holder of the work and respect copyright law.

Approved by  
FRSC 11/18/24

- 8.2 All users shall assume full liability, legal, financial, or otherwise, for their use for the network.
- 8.3 Access to the Internet provided by the network is provided for classroom activities, professional and career development in line with the educational goals of the district.
- 8.4 The Internet connection is not to be used for any non-educational purposes including, but not limited to, commercial solicitations.
- 8.5 The user of the network internet connection becomes an extension of the FRPS and is expected to abide by the rules of conduct set forth by the district. Students should reference the Student Handbook where applicable. Inappropriate behavior will not be allowed.
- 8.6 The user will not use obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images.
- 8.7 The user will not engage in any form of “cyber-bullying”. This includes, but is not limited to, e-mail, text messages, cell phone calls, or web site postings.
- 8.8 The user will not engage in personal attacks, including prejudicial or discriminating attacks.
- 8.9 The user will not post information that could cause damage or disruption to the network.
- 8.10 The user will not install unauthorized hardware, software, wireless routers, or download unauthorized software from any remote location.
- 8.11 Users will not attempt to go beyond their authorized access, make deliberate attempts to disrupt system performance, destroy data (by spreading computer viruses or by any other means), or engage in other illegal activities.
- 8.12 The user will not disseminate passwords, codes, access telephone numbers, or account numbers to unauthorized persons.
- 8.13 The user will not use the network to access material that is profane or obscene (e.g., pornography), that advocates illegal acts, or that advocates violence or discrimination towards other people (e.g., hate literature).

### **Search and Seizure**

The FRPS recognize that School Administrators are under an obligation to insure that reasonable safety, discipline and good order be maintained by and for all students at all times. It also recognizes, however, that students have certain constitutional rights. It is to balance the sometimes conflicting need of school officials to insure order and safety on the one hand, and the need to insure applicable constitutional rights of students on the other hand that this policy is written.

### **Search of Student Lockers and Desks**

1. Lockers and desks are the property of FRPS and maintain control of all locks affixed to lockers. No other locks are permitted and such locks will be removed by the school administration.
2. Students shall not have any expectation of privacy in school lockers and desks and should be aware that school lockers and desks may be searched at any time by school officials.
3. It is prohibited to store any illegal items/substances or items/substances in violation of any school rule or Federal, State or Local law in a locker or desk.
4. Items/substances prohibited from being in lockers include but are not limited to: guns/knives/weapons (real or fake), drugs or alcohol, fireworks/explosives, fire/smoke/odor producing products, and any other evidence of a school rule or legal violation.
5. Students should be aware that, at the discretion of a school administrator, a student's locker or desk may be searched at any time and prohibited items/substances will be seized.

### **Search of Students and Their Belongings**

1. Search of a student will only be performed, and seizure of a student's belongings will only take place, if there exists reasonable suspicion that the student has violated or is violating either the law or the rules of the school. The search will be conducted in a manner reasonably related to its objectives and will not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Whenever a personal search is deemed necessary, the student shall be advised of the reason for the impending search prior to its implementation. Search of a student may extend to articles of clothing such as pockets; and to the removal and search of outer garments such as hats/caps/headgear, jackets, coats, sweaters, sweatshirts, or shoes; and to items such as pocketbooks, lunch bags, book bags, athletic bags, or backpacks.

2. Search of a student or his/her belongings shall be conducted, when possible, with at least two adult school personnel present, one of whom shall be the Principal or his/her designee. A female staff member shall be present when a female student is searched, and a male staff member shall be present when a male student is searched.
3. Search of a student's belongings or of a student's automobile parked on school property will only be performed, and seizure of a student's belongings will only take place, if there exists reasonable suspicion that the student has violated or is violating either the law or the rules of the school. The search will be conducted in a manner reasonably related to its objectives and will not be excessively intrusive in light of the age and sex of the student and the nature of the infraction. When reasonably possible, search of a student's belongings not in the immediate possession of the student or of a student's automobile parked on school property will be in the presence of the student(s) whose conduct is under scrutiny and in the presence of a second school official.
4. "Strip searches" of students come with it a heightened degree of expectation of privacy and require a heightened degree concern for school and student safety, therefore, no school administrator or teacher shall ever conduct a "strip search" of a student without the prior authorization of the superintendent of schools.
5. Should a student refuse to voluntarily comply with a request for a search, the student must be detained until parents, and, if necessary, police, can arrive at school to assist, as appropriate, in the investigation.
6. Should a search uncover any substances or contraband, such shall be turned over to the appropriate authorities or rightful owner, as appropriate, and suitable disciplinary action shall be taken.
7. Search of a student or his/her belongings in accordance with the above policy may take place at school or at any school sponsored event on or off school property or during the transportation to such event.

6. The program has documented 603 CMR 46.03(1)(b) 1 - 5 in advance of the use of prone restraint and maintains the documentation.

Physical restraint, including prone restraint where permitted, shall be considered an emergency procedure of last resort and shall be prohibited in public education programs except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to self or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed to be inappropriate under the circumstances.

All physical restraints, including prone restraint where permitted, shall be administered in compliance with 603 CMR 46.05.

### **Staff Training Requirements**

All staff will be trained on the program's restraint prevention and behavior support policies, procedures, and requirements when restraint is used. Such training shall occur within the first month of each school year and, for employees hired after the school year begins, within a month of their employment.

Training shall include information on the following:

- (a) The role of the student, family, and staff in preventing restraint;
- (b) The program's restraint prevention and behavior support policy and procedures, including use of time-out as a behavior support strategy distinct from seclusion;

Designated staff members shall participate in in-depth training in the use of physical restraint, with at least one refresher training annually. Currently, the Fall River Public Schools uses Safety Care by QBS Inc.

In-depth training will include:

- a. Appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship building and the use of alternatives to restraint;
- b. A description and identification of specific dangerous behaviors on the part of students that may lead to the use of physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
- c. The simulated experience of administering and receiving physical restraint, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
- d. Instruction regarding documentation and reporting requirements and investigation of injuries and complaints;
- e. Demonstration by participants of proficiency in administering physical restraint; and
- f. Instruction regarding the impact of physical restraint on the student and family, including but not limited to psychological, physiological, and social-emotional effects.

### **Proper Administration of Physical Restraint**

- (1) Trained personnel. Only public education program personnel who have received training pursuant to 603 CMR 46.04(2) or 603 CMR 46.04(3) shall administer physical restraint on students. Whenever possible, the administration of a restraint shall be witnessed by at least one adult who does not participate in the restraint. The training requirements contained in 603 CMR 46.00 shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.
- (2) Use of force. A person administering a physical restraint shall use only the amount of force necessary to protect the student or others from physical injury or harm.
- (3) Safest method. A person administering physical restraint shall use the safest method available and appropriate to the situation subject to the safety requirements set forth in 603 CMR 46.05(5). Floor restraints, including prone restraints otherwise permitted under 603 CMR 46.03(1)(b), shall be prohibited unless the staff members administering the restraint have received in-depth training according to the requirements of 603 CMR 46.043(3) and, in the judgment of the trained staff members, such method is required to provide safety for the student or others present.
- (4) Duration of restraint. All physical restraint must be terminated as soon as the student is no longer an immediate danger to himself or others, or the student indicates that he or she cannot breathe, or if the student is observed to be in severe distress, such as having difficulty breathing, or sustained or prolonged crying or coughing.
- (5) Safety requirements. Additional requirements for the use of physical restraint:
  - (a) No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin temperature and color, and respiration.
  - (b) Restraint shall be administered in such a way so as to prevent or minimize physical harm. If, at any time during a physical restraint, the student expresses or demonstrates significant physical distress including, but not limited to, difficulty breathing, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.
  - (c) If a student is restrained for a period longer than 20 minutes, program staff shall obtain the approval of the principal. The approval shall be based upon the student's continued agitation during the restraint justifying the need for continued restraint.
  - (d) Program staff shall review and consider any known medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans regarding the use of physical restraint on an individual student.

## **Follow-Up Procedures**

After a student is released from a physical restraint, staff shall implement follow-up procedures:

- 1) Review the incident with the student (if appropriate) to address the behavior that precipitated the physical restraint;
- 2) Review the incident with the staff member(s) who administered the physical restraint to ensure proper restraint procedures were followed; and
- 3) Consider whether any follow-up is appropriate for students who witnessed the physical restraint, if any.
- 4) Complete the Fall River Public Schools Restraint form and provide it to the building principal.

Program staff shall report the use of any physical restraint as specified in 603 CMR 46.06(2).

*Informing the principal:* The program staff member who administered the restraint shall verbally inform the principal of the restraint as soon as possible and by written report no later than the next school working day. The written report shall be provided to the principal for review of the use of the restraint. If the school or program customarily provides a parent of a student with report cards and other necessary school-related information in a language other than English, the written restraint report shall be provided to the parent in that language. The principal shall provide the student and the parent an opportunity to comment orally and in writing on the use of the restraint and on information in the written report.

*Contents of report.* The written report required by 603 CMR 46.06(2) and (3) shall include:

- (a) The name of the student; the names and job titles of the staff who administered the restraint, and observers, if any; the date of the restraint; the time the restraint began and ended; and the name of the principal or designee who was verbally informed following the restraint; and, as applicable, the name of the principal or designee who approved continuation of the restraint beyond 20 minutes pursuant to 603 CMR 46.05(5)(c).
- (b) A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint; the behavior that prompted the restraint; the efforts made to prevent escalation of behavior, including the specific de-escalation strategies used; alternatives to restraint that were attempted; and the justification for initiating physical restraint.
- (c) A description of the administration of the restraint including the holds used and reasons such holds were necessary; the student's behavior and reactions during the restraint; how the restraint ended; and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided.

- (e) Information regarding opportunities for the student's parents to discuss with school officials the administration of the restraint, any consequences that may be imposed on the student, and any other related matter.

*Reporting to Department of Elementary and Secondary Education:*

Report all physical restraints to the Department. Every program shall collect and annually report data to the Department regarding the use of physical restraints. Such data shall be reported in a manner and form directed by the Department.

Report all restraint-related injuries to the Department.

When a physical restraint has resulted in an injury to a student or program staff member, the program shall send a copy of the written report required by 603 CMR 46.06(4) to the Department postmarked no later than three school working days of the administration of the restraint. The program shall also send the Department a copy of the record of physical restraints maintained by the principal pursuant to 603 CMR 46.06(2) for the 30-day period prior to the date of the reported restraint. The Department shall determine if additional action by the program is warranted and, if so, shall notify the program of any required actions within 30 calendar days of receipt of the required written report(s).

### **Methods for Engaging Parents and Students**

Methods for engaging parents in discussions about restraint prevention and the use of restraint solely as an emergency procedure include:

Fall River Public Schools will conduct an annual workshop, open to the entire school community, concerning restraint prevention and the use of restraint solely as an emergency procedure. This workshop may be coordinated with the special education parent advisory council (SEPAC), the parent-teacher organization (PTO), and other relevant community groups.

Any parent/guardian with concerns about the use of physical restraint at any school within Fall River Public Schools may request a meeting with the building Principal or the Superintendent to discuss such concerns. Any individual who believes that a physical restraint of a student may have been unwarranted or conducted inappropriately may also make use of the Grievance Procedure described above.

### **Alternatives to Physical Restraint**

There are a variety of appropriate responses or interventions that should be used first when seeking to prevent challenging behaviors, student violence, self-injurious behaviors, or to de-escalate potentially dangerous or disruptive behavior among groups of students or with an individual student.

The following are examples of strategies that the district uses to support students prior to exhibiting challenging behaviors or as alternative to physical restraint when students begin exhibiting agitation:

**Positive behavioral interventions:** The district employs a variety of services and strategies to address the social, emotional and behavioral well-being of all our students. These services and strategies include, but are not limited to:

- a. Anti-bullying curriculum provided throughout the district utilizing developmentally appropriate lessons and activities.
- b. Positive Behavioral Intervention Supports/Responsive Classroom Strategies.
- c. Social Skills curricula provided to students through classroom, small group and individualized instruction.
- d. Counseling services for students across the district and provided by licensed, certified staff including school adjustment counselors, licensed mental health clinicians, social workers, guidance counselors Counseling is provided in small group and individualized settings.
- e. Access to counselors who have received training in signs of suicide and self-injurious behaviors.
- f. Reentry meetings for students returning to school from psychiatric hospital programs.
- g. Reentry/ Safety Plans developed for students at Reentry meetings for students who are returning to school from psychiatric hospital programs.
- h. Individualized behavior intervention/ support plans for identified students.
- i. Established working relationships with several community agencies
- j. Universal Screening tools.
- k. Reinforcement/ Reward systems and/ or schedules (e.g. token economy) for demonstration of positive/ identified replacement behaviors.
- l. Opportunity for a break in or outside of the learning environment
- m. Verbal redirection including but not limited to:
  - i. Active listening
  - ii. Use of calm, non-threatening tones and language
  - iii. Offering the student(s) a choice
  - iv. Discussing options or possible resolutions with the student(s)
  - v. Verbal directive to cease behavior

## **Periodic review of data and documentation**

*Individual student review.* The principal shall conduct a weekly review of restraint data to identify students who have been restrained multiple times during the week. If such students are identified, the principal shall convene one or more review teams as the principal deems appropriate to assess each student's progress and needs.

The assessment shall include at least the following:

- (a) Review and discussion of the written reports submitted in accordance with 603 CMR 46.06 and any comments provided by the student and parent about such reports and the use of the restraints;
- (b) Analysis of the circumstances leading up to each restraint, including factors such as time of day, day of the week, antecedent events, and individuals involved;
- (c) Consideration of factors that may have contributed to escalation of behaviors, consideration of alternatives to restraint, including de-escalation techniques and possible interventions, and such other strategies and decisions as appropriate, with the goal of reducing or eliminating the use of restraint in the future;
- (d) Agreement on a written plan of action by the program.

If the principal directly participated in the restraint, a duly qualified individual designated by the superintendent shall lead the review team's discussion. The principal shall ensure that a record of each individual student review is maintained and made available for review by the Department or the parent, upon request.

*Administrative review.* The principal shall conduct a monthly review of school-wide restraint data.

This review shall consider patterns of use of restraints by similarities in the time of day, day of the week, or individuals involved; the number and duration of physical restraints school-wide and for individual students; the duration of restraints; and the number and type of injuries, if any, resulting from the use of restraint. The principal shall determine whether it is necessary or appropriate to modify the school's restraint prevention and management policy, conduct additional staff training on restraint reduction/prevention strategies, such as training on positive behavioral interventions and supports, or take such other action as necessary or appropriate to reduce or eliminate restraints.

## **TIME OUT POLICIES AND PROCEDURES**

### **Time-out as a Therapeutic Intervention**

**Time-out** shall mean a behavioral support strategy developed pursuant to 603 CMR 46.04(1) in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from staff, for the purpose of calming. During time-out, a student must be continuously observed by a staff member. Staff shall be with the student or immediately available to the student at all times. The space used for time-out must be clean, safe, sanitary, and appropriate for the purpose of calming. Time-out shall cease as soon as the student has calmed.

The Department of Elementary and Secondary Education (DESE) strongly recommends that district's first consider alternative strategies to "time-out" procedures in an effort to keep students engaged in learning and in the classroom as much as possible. The Department's guidance document *Promoting Student Engagement, Learning, Wellbeing, and Safety (Summer 2021)* provides a variety of helpful strategies and resources for supporting and cultivating positive behaviors, as well as engaging with students and families. Predictable school and classroom routines and expectations as well as safe and supportive relationships can help students during periods of adjustment and foster a stronger sense of community and belonging. Through effective use of a multi-tiered system of supports (MTSS), interventions can be designed to address the behavioral needs of students.

Time-out rooms should only be used in limited circumstances for the purposes of de-escalation and calming. FRPS building principals must ensure that such rooms are "clean, safe, sanitary, and appropriate for calming" of students.

When time-out rooms are in use, an FRPS staff member must:

- Be physically present with the student in the time-out room to help the student calm unless there is imminent risk of harm to others.
- Help the student calm and as needed, obtain additional support for the student, such as from the school's crisis intervention team, the mobile crisis team, or the student's parents or guardians.
- Be familiar with the school's policies and procedures relating to time-out and should have training on their use.
- Ensure that the student has access to the bathroom and/ or school nurse if needed.

Approved by  
FRSC 11/18/24

In the extremely rare instances when it might not be safe for the staff member to be present with the student in the time-out room, school staff must be immediately available to the student and must continuously observe the student to make sure they are safe. A school counselor or another behavioral support professional should also be immediately available to the student and provide support to the student as needed to help the student calm. In these cases, FRPS staff must:

- Be able to see the student in all parts of the time-out room. Being able to see the staff member may help the student know that caring adults are there to help and support them.
- Enter the time-out room to support the student and, if necessary, implement restraint procedures in the event that the student engages in self-injurious behavior.

In all instances in which a time-out room is used, FRPS staff must record the details of the time-out including the following:

- Date of time-out
- Start time/ end time
- Alternative behavioral management strategies attempted prior to use of time-out room
- Name of staff calming and observing the student during time-out room use
- List of strategies used to calm the student during time-out room use
- Observations of the student response to use of time-out room
- Brief description of the behaviors that led to the use of the time-out room
- Name of staff person(s) implementing the time-out
- Date and time of parent/ guardian notification
- Date and time of building principal notification

If restraint procedures are used during time-out, FRPS staff must document both the restraint and the time-out. For any time-out lasting longer than 30 minutes, the building principal must approve the continued use of time-out. The principal may consult with the student's parents or guardians, the student's support team, the school psychologist, or other relevant school personnel when deciding whether time-out should be authorized for longer than 30 minutes.

**Seclusion** shall mean the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a time-out as defined in 603 CMR 46.02. The use of seclusion is prohibited by DESE. *As a result, Fall River Public Schools time out room doors cannot be locked at any time when in use with students.*

## **RESTRAINT AND TIME OUT GRIEVANCE PROCEDURES**

This grievance procedure is established to ensure procedures are in place for receiving and investigating complaints regarding physical restraint or time-out practices. Any individual who believes that a physical restraint or time-out of a student may have been unwarranted or conducted inappropriately may file a complaint by utilizing this procedure:

- i.** The complaint must be reported to the building principal at the school level, Chief Officer of Special Education Compliance and Assistant Superintendent for Student Student Services and Strategic Integration.
- ii.** The Chief Officer of Special Education Compliance and Assistant **Superintendent for Student Student Services and Strategic Integration** will meet with the complainant within ten (10) school days of receipt of the complaint.
- iii.** A thorough investigation will be conducted which may include interviewing witnesses, staff involved and/or the student; reviewing all written documentation leading up to and pertaining to the incident and all reports filed with the Department of Elementary and Secondary Education.
- iv.** A written report will be developed by the Chief Officer of Special Education Compliance and Assistant Superintendent for Student Student Services and Strategic Integration and provided to the complainant.

- v. If necessary, the building principal, at the direction of the Chief Officer of Special Education Compliance and Assistant Superintendent for Student Services and Strategic Integration, may seek a neutral third-party agency, such as the Department of Children and Families, to support investigation of alleged improper restraint practice at any point following the receipt of a complaint.

### **Methods for Responding to Threats of Violence and Suicidality**

Threats of violence or self-injury, made by a student or group of student(s) should be reported to the school principal and assistant principal/ dean and reviewed with the school adjustment counselor (SAC), regardless of whether a student's behavior resulted in the use of physical restraint.

### **Protocol for Student Threats of Violence Or Suicide:**

When a teacher or staff member becomes aware of any student experiencing at-risk behavior (verbal statements, writing, report from peers, parents etc.) they will report immediately to the SAC, principal, and/ or Assistant Principal/ Dean.

At risk for self-injury/suicide is defined as: Any student who indicates through actions speech or writings that they may be at risk of harming themselves physically. Please refer to the following document for the specific protocol regarding suicidality:

### **Fall River Public School's Suicide Prevention Crisis Protocol**

The Incident will be documented in the Journal of ASPEN X2. This will be completed by an administrator and made available for parents upon request.

The identified child's re-entry to the district will include a reentry meeting with school administration, the SAC, and other relevant staff members.

### **Response to and de-escalation of potentially dangerous behavior:**

General guidelines for responding to and de-escalating potentially dangerous behavior include:

1. Remain calm -To possibly help prevent the likelihood of a student experiencing distress from escalating his/her behavior use a neutral and level tone of voice, control one's facial expressions and use a supportive non-threatening body language.
2. Obtain Assistance - Whenever possible, school personnel should immediately take steps to notify school administrators, the school's administrative response team and/or other school personnel of a potentially dangerous situation and to obtain additional assistance.
3. One Person leads (coordinates staff response) and speaks - In order to minimize the likelihood of confusion and/or the likelihood of a student experiencing distress from escalating his/her behavior, having one person providing overall direction to the response and the follow up procedures is advisable. This person directs other staff members who are present in support of the student. This often may be either the first trained staff person on the scene or the staff person with the most information about the particular situation.
4. Remove Student If Possible - The feasibility of having a student experiencing distress leave an area with other students and move to another more private and safe area in order to de-escalate should be considered.
5. Remove Other Students - If it is not feasible to have a student experiencing distress move to a more private and safe area in order to de-escalate, consider the feasibility of having other staff assist and monitor the removal of other students to another area within the school until the student de-escalates.

### **Methods for Preventing Student Violence and Self-Injurious Behavior**

Fall River Public Schools employs a variety of methods for preventing student violence, self-injurious behavior, and suicide, including individual crisis planning and de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student.

## **Prevention / De-Escalation Techniques for Challenging Behavior**

Prevention includes using positive steps taken before a behavioral crisis occurs.

- a. Interrupting-** Interrupting is the first thing to do when trying to break a chain of behaviors, distracting the individual to another topic or something in the environment.
- b. Ignoring-** Ignoring is used during the early stages of negative behavior to which the behavior is not visibly responded, in order to avoid inadvertently reinforcing it. It does not mean that early danger signs are truly ignored and does not mean that dangerous behaviors are ever ignored.
- c. Redirecting-** Redirecting is used to manage a potentially dangerous behavior by deflecting or redirecting the behavior, and then reinforcing a more appropriate behavior by rewarding the individual for displaying the more appropriate behavior. Staff provides students with enough wait time to allow for self-regulation/de-escalation.
- d. Prevention-** Prevention also involves ensuring staff have training; appropriate staffing; policies/procedures in place including behavioral support plans; appropriate programming; ability to recognize individuals strengths, weaknesses and triggers.

**Offering Choices-** Offering two to three staff-selected choices as opposed to prompting or directing a student is used in order to avoid power struggles and further escalation. Staff praise/ reinforce appropriate selection of one of the provided choices and completion of the selected task.

## **❖ EQUAL EDUCATIONAL OPPORTUNITIES**

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. The FRPS does not discriminate against students, parents, employees, or the general public on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, religion, or age. Additionally, the FRPS does not discriminate against the individuals on the basis of homelessness in a manner consistent with the McKinney-Vento Act.

The individuals listed below have been designated to handle the inquiries regarding the district's non-discrimination policies in education-related activities, including but not limited to inquiries related to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, the Age Act and M.G.L. c. 76, Section 5.

Brian Lally, Executive Director of Human Resources

The Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law (known as Chapter 622 of the Acts of 1971), which prohibits discrimination in public school admissions and programs.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, guidance, and extracurricular and athletic activities. All implementing provisions issued by the Board of Education in compliance with applicable laws will be followed.

## **❖ DISCRIMINATION AND HARASSMENT/GRIEVANCE PROCEDURES**

The FRPS is committed to maintaining a school environment free of discrimination and harassment based on race, color, religion, national origin, gender, sexual orientation, gender identity, age or disability.

Harassment or discrimination by administrators, teachers, certified and support personnel, students, vendors and other individuals at school or at school-sponsored events is unlawful and is strictly prohibited.

Approved by  
FRSC 11/18/24

The FRPS requires all employees and students to conduct themselves in an appropriate manner with respect to their fellow employees, students and all members of the school community.

### **Definitions**

For the purposes of this procedure:

- A. Complaint:** is defined as an allegation that a student or employee has been discriminated against or harassed on the basis of race, color, national origin, age, sex, sexual orientation, gender identity, disability, or religion.
- B. Discrimination:** means discrimination or harassment on the basis of race, age, color, national origin, sex, sexual orientation, gender identity, disability or religion by which an individual is excluded from participation in, denied the benefits of, or otherwise subjected to discrimination under any program or activity of the school.
- C. Harassment:** means unwelcome conduct on the basis of race, age, color, national origin, sex, sexual orientation, gender identity, disability or religion that is sufficiently severe, persistent or pervasive to create a hostile environment for the individual at school. Harassment may include insults, name-calling, off color jokes, threats, comments, innuendoes, notes, display of pictures or symbols, gestures, or other conduct which rises to the level of a hostile environment.
- D. Sexual Harassment:** means unwelcome, sexually offensive or gender-based conduct which is sufficiently severe, persistent or pervasive to create a hostile environment for the individual at school. Additionally, under M.G.L. c.151C, § 1, the term “sexual harassment” may also include, but is not limited to, sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:
  - i) submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of the provision of the benefits, privileges or placement services or as a basis for the evaluation of academic achievement; or
  - (ii) such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual’s education by creating an intimidating, hostile, humiliating or sexually offensive educational environment.

When determining whether an environment is hostile, the school district examines the context, nature, frequency, and location of the sexual or gender-based incidents, as well as the identity, number and relationships of the persons involved. The school district must consider whether the alleged harassment was sufficient to have created such an environment for a reasonable person of the same age, gender, and experience as the alleged victim, and under similar circumstances.

### **Retaliation Prohibited**

Harassment and discrimination in any form or for any reason is prohibited. This includes harassment or discrimination by administrators, certified and support personnel, students, vendors and other individuals in school or at school related events. Retaliation against any individual who has brought harassment or discrimination to the attention of school officials or who has cooperated in an investigation of a complaint under this policy is unlawful and will not be tolerated by the FRPS. Persons who engage in harassment, discrimination or retaliation may be subject to disciplinary action, including, but not limited to reprimand, suspension, termination/expulsion or other sanctions as determined by the school administration and/or School Committee, subject to applicable procedural requirements.

### **How to make a complaint**

**PROCEDURES FOR DEALING WITH SEXUAL HARASSMENT (STUDENT-TO-STUDENT):**

1. Each school will designate one or more persons to be the mediator(s) for all such complaints. The identities of these individuals should be disseminated to all students. These mediators will be principals, vice principals, counselors or others who have received training in this area.

2. All students' complaints regarding sexual harassment should be referred to an appropriate mediator who will then inform the building principal before proceeding. The student making such a complaint has the option of including any other person in addition to the mediator at his/her discretion.

**INFORMAL RESOLUTION:** On the first complaint the mediator will assist the victim in communicating to the harasser, in writing or verbally, a description of the harassing behaviors, how the behavior made, the victim feel, noting any consequences to school performance, and a request to stop the harassment.

The mediator will be present when such communication is made and should record the date, time and substance of said communication for later reference.

In cases where alleged harassment is of a verbal nature and clearly not suggestive or criminal activity or sexual abuse, the principal or his/her designee will call in the alleged harasser, communicate the complaint, and seek an informal resolution. The date, time, and substance of this meeting will be recorded.

If the victim chooses, the communication to the harasser may be made by the mediator alone. Care should be taken not to place the total onus for this communication on the victim. In either instance the mediator must inform the alleged harasser of the disciplinary consequences should the harassment not cease or if any retaliation follows the communication.

When an informal resolution does not resolve the complaint, the principal will notify the superintendent of schools who will make a decision regarding additional action to be taken.

*NOTE: When sexual harassment is more than verbal, involving serious sexual behavior, an informal resolution is not desirable. In such cases, after consultation with the principal, a referral should be made for a formal investigation.*

**FORMAL INVESTIGATION:** According to prior experience, in most cases an informal resolution will resolve harassment. However, when the victim brings a second complaint, a more formal investigation will be made by the principal or his/her designee (vice-principal) to determine if disciplinary action is now warranted. This investigation, in which witnesses and additional evidence is gathered, should be conducted while maintaining confidentiality and without violating the due process rights of the accused.

If the principal or designee finds sufficient cause, the harasser may be suspended from school as outlined in the School Discipline Code. The appropriate suspension forms should be completed and forwarded to the student/parent, with a copy to the Student Services office. In addition, a separate file of all records related to the resolution of a sexual harassment dispute should be kept in the principal's office.

*NOTE: If at any time during this process a mediator or school official is made aware of behavior which may constitute a criminal offense, he/she is obliged by law to report such actions to the legal authorities as described in the discipline code.*

In addition, any behaviors observed by any school official which detract from the good order of the school or inhibit the educational process may lead directly to disciplinary action as already outlined in the discipline code.

### **Procedures for Dealing with Sexual Harassment (Adult-to-Student, Adult-to-Adult, Student-to-Adult)**

All complaints of sexual harassment involving adults must be reported to the building principal (or in locations where there is not a principal, the immediate supervisor). For the location of individual school buildings, and the work telephone numbers of individual principals and/or supervisors, persons making a complaint may contact the Office of the Superintendent of Schools, 417 Rock Street, Fall River, MA - telephone number: 675-8420.

## **FORMAL ACTION:**

1. When a sexual harassment complaint suggests a criminal offense or sexual abuse, a report must be filed with the appropriate legal authorities for an independent investigation. In cases involving adult to student sexual behavior, the principal must file a 51A with the Department of Social Services.
2. After such a report has been filed, the principal will immediately notify the superintendent of schools who will make a decision regarding any interim action while the independent investigation is taking place.
3. Upon completion of the independent investigation, the superintendent will take any additional action deemed necessary based upon the ultimate findings of such investigation. Such action could include (but not be limited to) an oral or written reprimand, a suspension, or in severe cases, termination.

## **MANDATORY REPORTING:**

According to the Massachusetts General Law: Chapter 119-Section 51-A, school department employees are mandated to report all cases of physical or sexual abuse of any child under the age of eighteen (18) to the Department of Social Services should an investigation reveal reasonable cause to so do.

## **❖ DRESS CODE (FOR SCHOOLS WITHOUT SPIRIT WEAR)**

### **INTRODUCTION**

FRPS recognizes that, within certain limits, each student's mode of dress and grooming is a manifestation of personal style and individual preference. It therefore will not interfere with the ability of students and their parents to make decision regarding their appearance except when their choices affect the educational program within the schools or the health and safety of others. For students, school is the time when they acquire skills that will eventually lead to their becoming productive citizens. As such, school is the first "job". It is important that students come to school dressed comfortably so as to be able to fully participate in all lessons and activities.

It is equally important that students dress in a respectful fashion and come to school ready to learn. Proper attire can influence behavior in a positive way and set the tone for order and positive school experience. Conservative attire helps students focus on learning because their attention is not drawn away from the work at hand. Clothing should be sturdy and comfortable and be able to accommodate group work and other cooperative learning activities which require the use of many different areas in the classroom.

### **DRESS CODE**

*Any manner of dress that presents a health or safety hazard to a student or others is potentially damaging to school property, or disruptive to the educational process is prohibited.*

Students in violation of the above will receive the following sequential consequences:

1. Principal/Student/Parent will attempt an informal resolution to the situation

Approved by  
FRSC 11/18/24

2. Student may, at the principal's/vice principal's discretion, be sent home to change into more appropriate clothing (with parent notification).
3. A parent conference may be called to discuss the issue.
4. If the problem persists, appropriate disciplinary action will be taken as indicated in the Discipline Code.

The following guideline may be useful in helping parents to determine school attire which may be disruptive to the educational process. Students who wear any of the following may be disruptive to the school environment, and therefore may be found in violation of this dress code:

1. Outdoor clothing during the usual course of the school day except when coming or going out of the building.
2. Clothing which advertises or alludes to drugs, alcohol or tobacco products.
3. Clothing depicting any words or symbols that could in any way be construed as sensual, sexual, or obscene.
4. Clothing or other attire which may be perceived as a gang related symbol (for example, hats, bandanas, beads.)
5. Any accessories, devices, objects which may cause or inflict bodily harm. (Example: jewelry that could be used as a weapon, such as chains, or piercing of body parts which may pose a safety hazard).
6. Apparel or other modes of appearance (such as tattoos) which promote hatred regarding another person's race, color, sex, national origin, religion, or sexual orientation
7. Footwear which poses hazard to the student or school such as jelly shoes, flip flops, spikes etc.

*Note: According to the Educational Reform Act, individual School Councils have the authority to recommend to the School Committee changes in their codes of student conduct. As such these Councils may decide to augment these guidelines according to the individual needs of their school.*

## ❖ SPIRIT WEAR POLICY

The FRPS recognizes that certain schools have elected to participate in the program known as Spirit Wear. In an effort to promote school pride and spirit, and to encourage a sense of belonging to the school community, schools may opt to participate in the spirit wear program.

The School Committee asks that the school create a representative body including stakeholders from the student, staff and parent elements of the school community. If the group feels that there is sufficient support for the concept, schools may petition the School Committee for authorization to participate in the program.

The School Committee does not wish to create overly restrictive guidelines, and encourages provisions that would assist families that may be determined to be worthy of some form of assistance in obtaining uniforms. Schools should also create a provision for handling the issues of protecting the school from discriminating against the rights of students and parents.

The School Committee also wishes to maintain a level of equity between schools that choose to participate in the program. For that reason, schools will not include provisions that vary significantly from the following general guidelines:

- A choice of shirts should be consistent with other participating school programs, with a minimum of two color options and allowing styles that are available at other schools in the spirit wear program.
- A choice of pants should be consistent with other spirit wear programs, with a minimum of two colors options, and allowing styles that are in place at other schools in the program.
- In creating suggested guidelines for shoes, boots, and sneakers, the goal should be to ensure student safety, and to avoid possible issues or distractions.

Approved by  
FRSC 11/18/24

- Minimal restrictions on color choices should be the guideline, with the goal being to avoid any cost hardship to families, while minimizing possible distractions.
- The guidelines for accessories should simply be to ensure personal safety for all students and avoid any excessive features that would be a distraction to the educational process, as outlined under the district Dress Code policy (File: JICA).

Any appeal of the enforcement or changes of this process will be directed to the office of the Superintendent.

## ❖ SCHOOL BUILDING SAFETY/SECURITY POLICY

The following procedures are to be followed in all school buildings:

- **All school entrances are to be locked at all times.** \*Doors may be opened during the day for education purposes (i.e. recess, physical education classes, deliveries, etc.), as long as there is adult supervision or monitoring during this time period.
- In each school, entrance(s) will be monitored. At the main entrance(s) in the middle schools and the high school, video surveillance cameras will be utilized for this purpose.  
In all schools, visitors will be required to ring buzzer to gain entrance. \*\*
- Appropriate signs must be placed at the entrance of each school to notify visitors and non-school personnel that they must report to the office prior to visiting any classrooms in the building. No one is allowed to wander through the school at any time without an appropriate staff member.
- No one is allowed in a school building to pick up a child before school is dismissed unless there is an emergency. Parents are requested to provide the building principal with a 24- hour notice whenever an early dismissal will be needed.
- Any suspicious individuals or activities that are observed in or around the school should be reported to the police department immediately, followed by notification to the Office of the Superintendent.
- Any activity of a suspicious nature should be immediately investigated by the principal or other appropriate staff member.

## ❖ ATHLETICS AND CLUBS

*Note: In some circumstances, special permission may need to be granted by the B.M.C. Durfee principal or his/her designee.*

The board of regents and in the case of secondary schools, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

## ❖ SERVICE ANIMAL POLICY

FRPS is committed to providing a high quality educational program to all students in a safe and healthy environment.

School principals, in consultation with the Health Services Providers in each building, shall permit service animals (dogs or miniature horses only) in a manner consistent with Title II of the American with Disabilities Act.

## ❖ MULTI-LINGUAL LEARNERS

The district shall provide suitable research-based language instructional programs for all identified English language learners in grades Kindergarten through 12 in accordance with the requirements of state and federal statutes and Massachusetts Dept. of Elementary and Secondary Education regulations and guidance.

The district shall identify students whose dominant language may not be English through home language surveys that identify a primary home language is other than English (PHLOTE), observations, intake assessments, and recommendations of parents, teachers and other persons. ## ❖ TEMPORARY HOME OR HOSPITAL TUTORING

A student who, due to documented medical reasons, is confined to a home or a hospital for no fewer than fourteen (14) school days during the school year is entitled to receive home/hospital educational services under 603 CMD 28.03(3) (c).

Such services shall be provided with sufficient frequency to allow student to continue his/her educational program, as long as such services do not interfere with the medical needs of student.

To qualify for the program the student needs a written statement from a medical doctor requesting the home bound instruction, stating the reasons why, and estimating the time the student will be out of school. This statement needs to be sent to the Director of Special Education.

Home or Hospital Tutoring is temporary in nature and is offered in basic elementary subjects and in secondary subjects who do not require laboratories and special equipment, subject in all cases to the availability of qualified teachers. Certified teachers are assigned to homebound instruction by the Assistant Superintendent of Special Education with the approval of the Superintendent.

## ❖ HOME SCHOOL

The Massachusetts General Law requires the School Committee to determine that a Home Schooling program meet with the minimum standards established for public schools in the Commonwealth prior to approving such a program.

Families who wish to home school their children must first submit the “Notice of Intent to Pursue a Program of Home Education” application found on the FRPS website. Notice of Intent applications, for both new and continuing proposals, should be sent, prior to beginning the Home Education Program, to:

*Assistant Superintendent/Chief Academic Officer  
417 Rock St.  
Fall River, MA 02720*

Any questions on either the Notice of Intent or the Home Education process may be directed to Assistant Superintendent at 508-675-8420 ext. 53811.

Step 2: Upon receipt of the Notice of Intent, Assistant Superintendent will review the proposed home schooling plan.

Step 3: The parent/guardian will then be notified as to whether the plan is approved or denied.

If the plan is approved, an approval notice will be signed by the Assistant Superintendent and Principal, and then sent to the parent/guardian. If the plan is denied, the parent/guardian will be provided with specific reasons for the denial so that the parent/guardian may revise and resubmit the plan.

Step 4: If the parent/guardian elects to proceed with implementing an approved Home Education plan, the parent/guardian must notify Assistant Superintendent of this in writing, either by signing and returning the approval notice, or by otherwise notifying Assistant Superintendent in writing of their decision.

If you plan to continue homeschooling during the next school year, you will need to file a “Notice of Intent to Pursue a Program of Home Education” along with the results of an annual assessment. Please use the printable version Notice of Intent to Pursue a Program of Home Education (located on the FRPS website) application form for children who were homeschooled in Fall River during the past academic school year. Notice of Intent applications, for both new and continuing proposals, should be sent, prior to beginning the Home Education Program to the address above.

A student being educated in a home-based program within the district may have access to public school activities of either a curricular or extracurricular nature upon approval of the Superintendent.

## ❖ SPECIAL INSTRUCTION PROGRAMS AND ACCOMMODATIONS

### (PROGRAMS FOR STUDENTS WITH DISABILITIES)

Under the Individuals with Disabilities Education Act (“IDEA”) and M.G.L. c. 71B, some students with disabilities may be eligible for services if they require specialized instruction and/or supportive services to help them make effective progress in school. These services can include, but are not limited to, speech therapy, physical therapy, occupational therapy, specialized instruction, or placement in a special classroom.

Students may be referred to the Special Education Department for an evaluation of eligibility for special education services. Within five (5) school days of such a referral, a consent form authorizing an evaluation of the student will be forwarded to the parent(s). Within forty-five (45) school days of receipt of the parent(s)’ consent, an evaluation will be conducted and a Team meeting will be held to determine if the student is eligible for special education services. If the student is found eligible for special education services, the Team will develop an Individualized Education Program (IEP) identifying the necessary services.

Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is a federal law designed to protect the rights of individuals with disabilities in programs and activities that receive federal financial assistance from the U.S. Department of Education.

Section 504 provides: “No otherwise qualified individual with a disability in the United States shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance, Title II of the Americans with Disabilities Act of 1990 (Title II) is a federal law that applies to public entities, including the conforming amendment to Section 504 that affects the meaning of a disability under Section 504.

The Section 504 regulations require a school district to provide a “free appropriate public education” (FAPE) to each qualified student with a disability who is in the school district’s jurisdiction, regardless of the nature or severity of the disability. Under Section 504, a FAPE consists of the provision of regular or special education

Approved by  
FRSC 11/18/24

and related aids and services designed to meet the student's individual educational needs as adequately as the needs of nondisabled students are met. Compliance with the IDEA is one means of complying with Section 504.

Additionally, FRPS provides nonacademic and extracurricular services and activities in such a manner as is necessary to afford students with disabilities an equal opportunity for participation.

Also generally permitted to establish and utilize skill-based eligibility criteria for participation in extracurricular programs and activities (e.g., school-sponsored athletics) so long as the criteria are rationally related to the purposes and goals of the specific program or activity.

## ❖ HEALTH SERVICES PREK-12

The Student Health Office is staffed by a full-time registered nurse that provides assistance to those who become ill while at school or require emergency care. A student returning to school after an illness or injury with a medical permit to return must present all paperwork to the school nurse. Massachusetts State mandated screenings are performed as listed below. Parents will be notified if medical follow-up with their child's primary care provider is needed. Please notify your child's school nurse if you would like to opt-out of any of these screenings.

Vision – Grades PK,K,1,2,3,4,5,7,9

Hearing – Grades K,1,2,3,7,9 Height, Weight, and BMI (Body Mass Index) – Grades 1,4,7,10

Scoliosis – Grades 5,6,7,8,9

SBIRT (Screening, Brief Intervention, Referral for Treatment) – Grades 7 & 9

### Health Requirements for School Entry

All students (unless there is adequate documentation that they fall within one of the limited exemptions provided by law) are required by Massachusetts General Law to have a health record on file with the nurse. This record must contain a physician's certified immunization record; a copy of a physical examination; and a completed tuberculin questionnaire and/or a tuberculin/serology test with results.

- Physical exams are required within 1 year prior to entrance to school or within 30 days after school entry and at intervals of 3-4 years thereafter. A student transferring from another school system shall be examined as an entering student.
- If a homeless student enrolls without records, the school district's designated Homeless Education Liaison will assist the family and contact the previously attended school system to obtain the required records.
- Upon graduation from high school, each student will receive their original school health record that should be kept by parents and students as a permanent document.

### Taking Medications at School

The Fall River Public School's Health Services Department encourages that medications be administered to your child before or after school. When medication is needed during the school day, it is subject to the provisions of MA Department of Health (MA DPH) regulations 105 C.M.R. 210.000.

- When any medication is needed during school hours, including any over-the-counter (OTC) medications, such as Acetaminophen and Ibuprofen, there must be a completed physician's order and a completed parental permission form for each medication. These forms must be renewed at the beginning of each school year.
- The Federal Food and Drug Administration's definition of an over the counter medication is a medication or product that contains a Drug Facts Label. Therefore, products such as sunscreen, diaper rash cream, etc. need to comply with MA DPH medication regulations.

Approved by  
FRSC 11/18/24

- Medication must be delivered to the nurse, by an adult, in its original pharmacy labeled container. Medications are not accepted in such things as plastic bags or unmarked containers.
- Students are responsible to report to the nurse's office at the time medications are scheduled to be given. Medications can be given 30mins before or after the ordered time listed on the physician's order sheet.

Please contact your school nurse for the proper forms that must accompany all medications. Forms (and other Health Services information) can be found at <https://sites.google.com/fallriverschools.org/fall-river-school-nurses/home>.

### **When should you stay home from school?**

- 1) If your child has a contagious illness such as strep throat, flu or chicken pox.
- 2) If your child has had a fever over 100.4 within the past 24 hours.
- 3) If your child has red/pink eyes with drainage from the eyes.
- 4) If your child has a suspicious rash that needs to be seen by a physician.

Please note that the above list is a guideline. The school nurse reserves the right to dismiss students who are possibly contagious or are too ill to be in school.

If your child does need to be absent, please call the school to report the reason for the absence. If your child is out for more than 3 consecutive days and/or is under the care of a physician, please also notify your child's school nurse. A doctor's note/permit is required for any absences to be considered excused for a medical reason. All permits are to be brought to the nurse's office before the beginning of the school day, and must be submitted within 2 weeks of the student's absence to be valid.

#### **Importance of Recess:**

Recess is a vital component in educating the whole child and has been a common practice in FRPS at the elementary level.

It is also important and encouraged for students in the middle and secondary levels to get outside for both structured and unstructured learning in addition to their regular physical education classes.

The health and well-being of our students is our top priority, and recess provides opportunities for physical activities which help students stay alert and attentive in class, as well as providing other educational and social-emotional benefits. The district strongly encourages schools which house the elementary grades to provide students with daily supervised recess, preferably outdoors. When outdoor recess is not an option, indoor activity breaks are strongly encouraged.

Extended periods of inactivity (two or more hours) should be discouraged or, when necessary, interspersed with some sort of kinesthetic activity. Recess is meant to complement rather than be a substitute for physical education classes.

As our wellness policy states: “recess shall not be withheld from students for classroom misbehavior or for such remedial work as interventions, tutoring, or academic make-up work, except under extreme circumstances”  
The FRPS values recess and believe that:

- Current brain research supports the importance of recess
- Recess improves student focus and student behavior while reducing stress
- Physical activity improves academic performance
- Structured and unstructured play supports social-emotional learning\*

\*A combination of structured activities such as “Playworks” coupled with unstructured options for play has been successful in many of our schools.

#### **F. Wellness and Staff**

- Wellness opportunities shall be provided for all staff.
- Staff shall serve as positive role models for students.

- Food service staff shall ensure compliance with nutrition policies within food service areas.
- The superintendent or designee, in collaboration with school-based administration, shall complete an Annual Report on Wellness Policy compliance by June of each year, to be share with the Wellness Advisory Council for review and assessment.

### **❖ K- 8 BUS REGULATIONS**

#### **PROCEDURES FOR DRIVERS AND PARENTS**

1. Bus drivers and monitors will utilize behavior management strategies taught in the training sessions provided prior to the start of the school year.
2. Verbal warnings and redirection, or preferred seating assignments will be given to students either by the bus company or principal.
3. After verbal warning and redirection, if the behavior continues, the incident and intervention will be reported in written form to the school principal. Principal will report the incident in writing to the parent concerned, with a copy to the Office of Student Transportation.
4. After two documented incidents on completed written forms, parents will be contacted and requested to attend a meeting with the principal, a representative from the bus company, and the Office of Transportation to review bus regulations and procedures if deemed necessary.
5. After three incidents, three completed written forms, student will receive appropriate consequences or discipline from the school.
6. If the same bus expectations continue to be violated, the principal will suspend the student's transportation privileges with immediate written notice to the parent and the Office of Student Transportation.

#### **LOADING AND UNLOADING AT THE BUS STOP**

1. Riders are required to be present outside the designated pickup location at least 5 minutes before the scheduled time. While bus drivers will make an effort to wait for up to 3 minutes, this should not be expected as a regular occurrence.
2. Riders will enter/exit bus only after monitor steps off the bus to monitor boarding and ensure safety.
3. Orderly behavior, respect for private property and adherence to safety guidelines by all riders will be required.
4. Riders will enter or leave the bus at their regular scheduled stops only.
5. Instructions of the driver/monitor must be followed by riders when entering or leaving the bus. Bus driver and/or monitor have the right to assign seating.

Approved by  
FRSC 11/18/24

## **REQUIRED CONDUCT ABOARD THE BUS**

1. Riders must remain in seats with seat belt (if available) fastened at all times.
2. Appropriate language and volume are expected.
3. Smoking is prohibited.
4. Riders are required to respect the personal space of other riders in order to ensure safety.
5. Riders are required to conduct themselves in a manner that ensures the safety of all passengers.
6. Consumption of food and drink are prohibited.

## **SCHOOLBUS SAFETY PROGRAM**

The safety and welfare of student riders will be the first consideration in all matters pertaining to transportation. Safety precautions will include the following:

1. Children will be instructed as to the proper procedure for boarding and exiting for a school bus and in proper and safe conduct while aboard.
2. Emergency evacuation drills will be conducted at least twice a year to acquaint student riders with procedures in emergency situations.
3. All vehicles used to transport children will be inspected periodically for conformance with state and federal safety requirements.

## **DROP OFF PROCEDURE FOR BUSED STUDENTS**

1. Students in grades PreK, K, 1<sup>st</sup> & 2<sup>nd</sup> must be released to an adult at the bus stop in an “adult to adult” acceptable for release with the school/transportation department.  
When a student leaves a school on the bus, it is the responsibility of the bus driver/monitor to make certain that each student requiring an “adult to adult” exchange is met by an adult who is responsible for the child. Children in 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> grades may walk from the bus stop. This does not apply to Special Education students who receive door-to-door transportation.
2. During the drop off at a stop, if a child requiring an adult to adult exchange is not met by an adult, the bus driver will keep the child on the bus, and contact his respective dispatcher, who will contact the school to inform them of the return of the student. They will attempt to make contact with the family of the child, and notify Transportation Department.
3. The principal/designee will keep the child in the school until such time as contact can be made with the family or emergency contact.
4. The parent/guardian will be required to come to the school to pick up the child.\*
5. In the event of an emergency dismissal, such as a snow emergency, principals must not leave the building until all children (not only bus children) have been met by an appropriate adult.
6. If an appropriate adult cannot be contacted after a reasonable period of time, the school should call the Fall River Police Department and the Office of Student Transportation should also be notified.
7. Parents whose children are returned to school on the bus will receive information on the progressive practices implemented if their child is returned multiple times. These practices may include losing bus privileges and reporting to the Department of Children and Families.

*\* Note: If a parent of student is unable to pick up his/her child, alternative transportation may be necessary. In such an event, the principal should call the Coordinator of Transportation to make other arrangements.*

## **❖ PARENT PARTICIPATION POLICY**

The Fall River School Committee recognizes the necessity and value of parent involvement to support student success and academic achievement. In order to assure collaborative partnerships among schools, parents and the community, the Fall River School Committee, working through the administration is committed to:

- Involving parents as partners in school governance, including shared decision-making.
- Establishing effective two- way communications with all parents.

Approved by  
FRSC 11/18/24

- Respecting the diversity and differing needs of families.
- Developing strategies and programmatic structures at schools to empower parents to participate actively in their child’s education involvement from preschool through grade twelve.
- Utilizing schools to connect students and families with community resources that provide educational enrichment and support. \*

\*Adapted from the San Diego Schools “Parent Involvement Policy”

### **THE IMPORTANCE OF PARENT INVOLVEMENT**

As stated above, FRPS believes that parents’ participation and involvement in our schools is of utmost importance.

Research continues to suggest that student achievement is directly related to such involvement. Moreover, FRPS Improvement Plan seeks to foster family and school partnership so that parents are actively involved in their child’s learning.

The cornerstone of successful involvement is the quality of communication between teachers, students, administrators and parents. Through effective communication, any concerns can be addressed in a timely manner.

Students always benefit when parents and staff work together, in a spirit of cooperation, to solve problems. Staff is expected to receive parental concerns with courtesy and respect, while parents are asked to exercise patience with our efforts. With this in mind, the following procedure for addressing parental concerns is hereby promulgated.

### **BEING PROACTIVE**

Parents are encouraged to avail themselves of any opportunities offered by the school to meet with teachers to discuss their child’s educational progress. Parent teacher conferences are held in all schools for this purpose. In addition, being active in Parent Teacher Organizations or School Parent Councils may also enhance one’s understanding of the educational process and provide an important outlet for participation in their child’s education.

### **ADDRESSING PARENTAL CONCERNS**

Contacts with those who work directly with a student should always be the first course of action should concerns arise. The following sequence of communication is strongly urged:

1. Parent speaks directly to the staff member to clarify a situation of concern. (Parents must see the building principal, vice principal or department head to arrange a mutually convenient time for meeting with a staff member.)
2. When this is not possible, the parent may contact the building principal, vice principal, or a person designated by the principal to receive complaints.
3. Where applicable, the principal may arrange a meeting of all relevant parties to resolve any outstanding issues.

If the first three steps have not satisfactorily resolved the problem, the parent may wish to contact the Office of the Superintendent.

These initial steps must have been taken BEFORE the Superintendent’s office becomes involved. The Office of the Superintendent will refer parents back to the Principal, if these initial steps have not been taken.

The Fall River School Committee recognizes the necessity and value of parent involvement to support student success and academic achievement. In order to assure collaborative partnerships among schools, parents and the community, the Fall River School Committee, working through the administration is committed to:

Approved by  
FRSC 11/18/24

4. If a problem persists, after the initial steps have been taken, the parent may contact the Office of the Superintendent of Schools.
5. The Superintendent of Schools may designate a member of his Central Administrative Team to investigate the parental concern, attempt a resolution and report back to the Superintendent.
6. If the problem remains, the parent may wish to contact a member of the Fall River School Committee.
7. A School Committee Member will NOT attempt to directly resolve a parent's concerns, but will rather refer the parent back to the Superintendent or his designee, for response. (The School Committee person should NOT be the first person contacted. If this process is bypassed, the School Committee person will refer the parent back to the Building Principal or Superintendent, as described in this procedure.)
8. When a parent concern raises a question about school policy, the School Committee person, after consultation with the Superintendent, may wish to raise such questions within the context of a regular Committee or Sub Committee meeting.

### **FIELD TRIP PARTICIPATION**

Most field trips are to locations that are open to the general public. FRPS encourages parent participation in their child's education. Parents may wish to participate in the field trip, either as a chaperone (if needed by the school), or on a volunteer basis by traveling to the location. Parents wishing to attend a field trip (as a non-chaperone) are responsible for their own transportation and admission costs, and are reminded that they must comply with the district policy and applicable laws on CORI clearance.

Depending on the location, some events or facilities may have limited seating or attendance capacity. Parents should inform the school of their intention to attend, and parents are asked to cooperate with school chaperones and avoid interfering in with the planned or scheduled activities.

### **❖ PARENTAL NOTIFICATION RELATIVE TO SEX EDUCATION**

Parental Notification Relative to Sex Education Committee has adopted this policy on the rights of parents and guardians of our students in relation to curriculum that primarily involves human sexual education or human sexuality issues.

At the beginning of each semester, all parents and guardians of students in FRPS will be notified in writing of the courses and curriculum we offer that primarily involve human sexual education or human sexuality issues. The Superintendent or designee will determine the administrator responsible for sending out the notice to parents.

Parents/guardians of students who enroll their children after the start of the school year will be given written notice at the time of enrollment. If the planned curriculum is changed during the school year, parents and guardians will be notified of the fact in a timely manner, in the fastest manner that is practicable.

Each such notice to parents/guardians will include a brief description of the curriculum covered by this policy and will inform parents/guardians that they may:

- 1) Exempt their child from any portion of the curriculum that primarily involves sexual education or human sexuality issues, without penalty to the student, by sending a letter to the school Principal requesting an exemption. Any student who is exempted by request of the parent/guardian under this policy may be given an alternative assignment.
- 2) Elementary students in grade five students will be required to have a parent/guardian signed permission form to be able to participate in the puberty lessons taught in 5th Grade Health Classes.
- 3.) Inspect and review program instruction materials for these curricula, which will be made reasonably accessible to parents/guardians and others to the extent practicable. Parents or guardians may arrange to review these materials through a request made to the principal of the school.

A parent/guardian who is dissatisfied with a decision of the Principal concerning notice, access to instructional materials, or exemption for the student under this policy may send a written request to the Superintendent for review of the issue.

The Superintendent or designee will review the issue and give the parent/guardian a timely written decision, preferably within two weeks of the request.

A copy of this policy will be included in all student handbooks at the middle and high school level. The Superintendent of Schools will distribute a copy of this policy to each Principal by September 1 of each year.

## ❖ STUDENT RECORDS REGULATIONS

FRPS complies with applicable federal and state laws and regulations pertaining to Student Records. Those laws and regulations are designed to ensure these regulations are set forth to insure student rights of confidentiality, inspection, amendment, and destruction of student records.

The Massachusetts Student Record Regulations and the Family Education Rights and Privacy Act (FERPA) apply to all information kept by a school on a student in a manner such that he or she may be individual identified. The regulations divide the record into the transcript and the temporary record.

The transcript includes only the minimum information necessary to reflect the student's educational progress. This information includes name, address, course titles, grades, credits, and grade level completed. The transcript is kept by the school system for at least sixty (60) years after the student leaves the system.

The temporary record contains the majority of the information maintained by the school system about the student. This may include such things as standardized test results, class rank, school sponsored extra-curricular activities, and evaluations and comments by teachers, counselors, and other persons. The temporary record is destroyed no later than seven (7) years after the student leaves the school system.

The following is a summary for parent/guardian and the student regarding their student records:

**Inspection of Record:** A parent, or a student who has entered the ninth grade or is at least fourteen (14) years old, has the right to inspect all portions of the student record upon request. The record must be made available to the parent or student within ten (10) days of the request, unless the parent or student consents to a delay. In the event the parent/student requests copies of a student record, the district may charge the parents/student for said copies at the district rate.

**Confidentiality of Record:** With a few exceptions, no individuals or organizations but the parent, student, and authorized school personnel are allowed to have access to information in the student record without specific, informed, written consent of the parent or the student.

**Amendment of Record:** The parent and student have the right to add relevant comments, information, or other written materials to the student record. In addition, the parent and student have the right to request that information of the record be amended or deleted. The parent and student have a right to a conference with the school principal to make their objections known. Within a week after the conference, the principal must render a decision in writing.

If the parent and student are not satisfied with the decision, the regulations contain provisions through which the decision may be appealed to higher authorities in the school system.

**Directory Information:** Federal law requires that the district release the names, addresses and telephone listings of students to military recruiters and institutions of higher education upon request for recruitment and scholarship purposes without prior consent.

Approved by  
FRSC 11/18/24

In addition, the district may release the following directory information about a student without prior consent: a student's name, address, telephone listing, date and place of birth, major fields of study, dates of attendance, weight and height of members of athletic teams, class participation in officially recognized activities and sports, degrees, honors and awards, post-high school plans and directory information such as homeroom assignments. However, in all instances, parents may request that such directory information not be released without prior consent by notifying their school building office in writing by the end of September of each school year.

**Destruction of Records:** The regulations require that certain parts of the student record, such as the temporary record, be destroyed a certain period of time after the student leaves the school system.

School authorities are also allowed to destroy misleading, outdated, or irrelevant information in the record from time to time while the student is enrolled in the school system. Before any such information may be destroyed, the parent and student must be notified, and have an opportunity to receive a copy of any of the information before its destruction.

**Transfer of Records:** It is the practice of the FRPS to forward the student record of any student who seeks or intends to transfer to another school.

**Non-Custodial Parents:** Unless there is a court order to the contrary, a non-custodial parent (parent without physical custody of the student) of any public school student has the right, subject to certain procedures, to receive information regarding the student's achievements, involvement, behavior, etc. A non-custodial parent who wishes to have this information shall submit a written request annually to the child's school principal.

Upon receipt of such a request, the principal shall send written notification to the custodial parent by certified and first class mail that the records and information will be provided to the non-custodial parent in twenty-one (21) calendar days unless the custodial parent provides documentation of the non-custodial parent's ineligibility to access such information.

In all cases where school records are provided to a non-custodial parent, the electronic and postal address and other contact information for the custodial parent shall be removed from the records provided. Any such records provided to the non-custodial parent shall be marked to indicate that they may not be used to enroll the student in another school.

Upon receipt of a court order that prohibits the distribution of information pursuant to M.G.L. c. 71, §34H, the school will notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent. M.G.L. c.71, §34H, 603 CMR 23.07.

**Third Party Access:** Authorized school personnel, to include: (a) school administrators, teachers, counselors and other professionals who are employed by the school committee or who are providing services to the student under an agreement between the school committee and a service provider, and who are working directly with the student in an administrative, teaching, counseling, and/or diagnostic capacity; (b) administrative office staff and clerical personnel, employed by the school committee or under a school committee service contract, and whose duties require them to have access to student records for purposes of processing information for the student record; and (c) the Evaluation Team which evaluates a student, shall have access to the student record of students to whom they are providing services, when such access is required in the performance of their official duties. The consent of the parent or eligible student shall not be necessary.

**Complaints:** A parent or eligible student has a right to file a complaint with the Family Policy Compliance Office, U.S. Department of Education  
400 Maryland Avenue SW, Washington, D.C. 20202-5901

## ❖ SURVEYS-NOTIFICATION OF RIGHTS UNDER PROTECTION OF PUPIL RIGHTS AMENDMENT

### **SURVEYS-NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS AMENDMENT**

PPRA affords parents certain rights regarding our conducting of surveys, collection and use of information for marketing purposes, and certain physical exams.

These include the right to:

- Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("protected information survey") if the survey is funded in whole or in part by a program of the U.S. Department of Education (DOE): political affiliations or beliefs of the student or student's parent; Mental or psychological problems of the student or student's family; sex behavior or attitudes; illegal, anti- social, self- incriminating, or demeaning behavior; critical appraisals of others with whom respondents have close family relationships; legally recognized privileged relationships, such as with lawyers, doctors, or ministers; religious practices, affiliations, or beliefs of the student or parents; or income, other than as required by law to determine program eligibility.
- Receive notice and an opportunity to opt a student out of the following: any other protected information survey, regardless of funding; any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.
- Inspect, upon request and before administration or use: protected information surveys of students; instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and instructional material used as part of the educational curriculum.
- These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

FRPS will develop and adopt policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The district will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The district will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey.

The district will make this notification to parents at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and are provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys.

Approved by  
FRSC 11/18/24

Specific activities and surveys covered under this requirement include: the collection, disclosure, or use of personal information for marketing, sales or other distribution; the administration of any protected information survey not funded in whole or in part by DOE, and any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:
