

JumpRope

Overview document for Classroom teachers

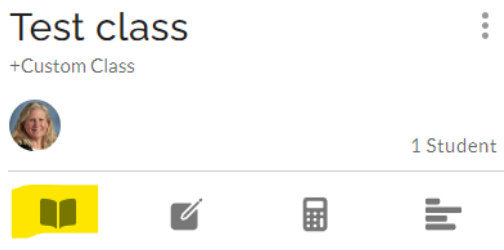

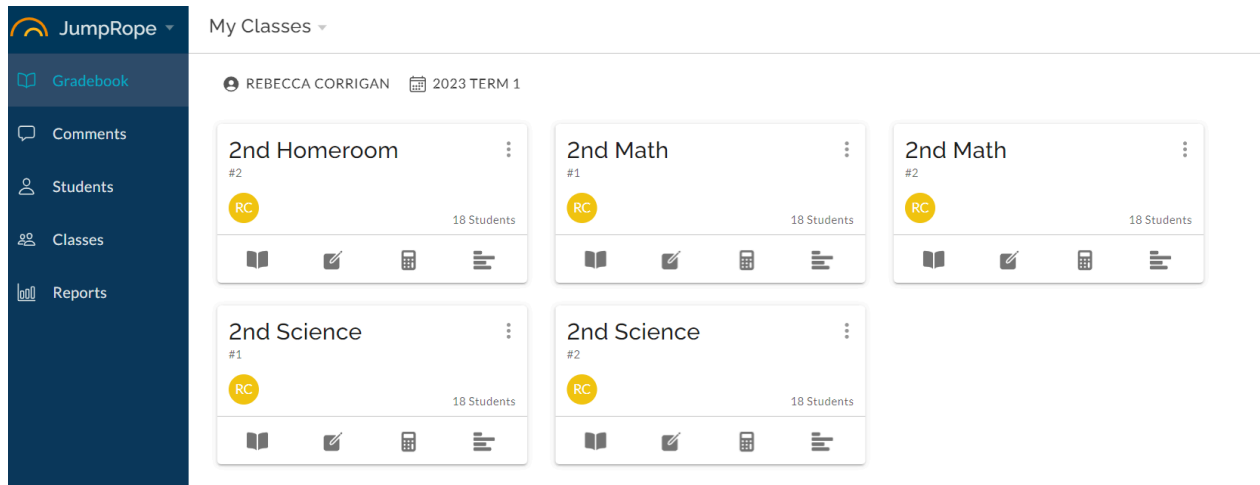

Elementary

October 2024

Make sure you can login to JumpRope. If you can't, please let Brucie Donahue know.

[Here is where you login](#) - bookmark it, etc. I have put links on your main website. Use sign in with Google.

Once signed in, you will see cards/tiles for each of your classes.

Step 1: **Plan:** Here you will select the PIs for your classes and set up assessments. Do this first. Selecting the assessments you will be using upfront will make scoring much easier.

Step 2: **Grade:** You will enter scores for each student on your assessments. Elementary teachers will be using letter BAPE. Leave it blank if a student is excused from the

assignment. You can add a comment to a score if you choose. At the end of trimester, you will also be able to leave a summative comment for the report card.

My suggestion is that you make a single Trimester 1 assessment and then attach all the PIs that you assessed during the trimester, but organize it however you want.

General Directions:

1. Log in with your Google account
2. Decide which class to begin with and click on Plan
3. Upper right hand corner, click on Create>Standards from Bank. *This is where you will add standards to your courses. Do this before you add any assessments.*
4. Click the check boxes on the left to select standards, then click Select (lower right corner.) *This adds these standards to your class and then brings you back to where you click Create to add an assessment.*
5. Click Create to add a New Assessment
6. Fill out the boxes and then select the Standards you want to add to the assessment.
7. Make sure you select Summative for the assessment type
8. Grade: enter BAPE
9. Double click to add a comment on a students assignment
10. Saves automatically

To fill empty cells down a column, enter a score in the start cell and press CTRL+D or COMMAND+D while the score you want to fill is highlighted. Only empty cells in the same column below the selected cell will be filled.

I will send out additional information on how to add end of trimester Class Comments.

Please have your team/mentor help support you. You can also reach out to Brucie Donahue/Helpdesk if you need assistance.
