College and Career High School: We Turn Dreams Into Degrees

CCHS Senate held a pie throwing prom fundraiser in September. Pictured above is Mrs. Cavazos Galvez , who was the staff member who received the most votes. Thank you to all staff who participated.

Principal Advisory Committee Formed at CCHS

This year CCHS has introduced our first Principal Advisory Council. This group is made up of 8 students across grade levels and they will meet once a month with administration to discuss various issues that impact students.

The goal of this group is to increase student voice and allow a space for our administrative team to hear student perspectives.

“My hope is that our students have the opportunity to voice both things that we are doing well, as well as things they see as concerns here at CCHS. We always strive to have a growth mindset, to enhance our program and opportunities available to students, and I hope the student voice that comes from this committee assists us in those areas,” stated Principal Cavazos-Galvez.

Each grade level had one boy and one girl chosen to represent a diverse think tank.

“I agreed to be on the principal advisory committee because I think it’s very important to be involved with my school in any way possible. I am glad to

The 2024-2025 CCHS Principal Advisory Council

be able to represent the freshman class on this committee and hopefully bring a good perspective to this committee about what changes can be made to the school,” 9th grader Myah Chavez said.

The first meeting was in October and focused on campus safety, which is unique at CCHS as we are located on a college campus. Students offered suggestions on how students can report issues if they were to arise.

“I would encourage any student who needs assistance/guidance in reaching their goals to vocalize that to an adult on campus, so that we are aware and can assist. I would also encourage those on the PAC team to talk with their grade level peers and get an understanding of what their needs are to bring to the group and to our meetings,” explained Principal Cavazos- Galvez.

STUDENT PROFILE OF THE MONTH: MANNY MORALES

This month we are profiling 12th grader Manny Morales (pictured to the right), who is finishing up his Automotive Degree at CNM.

What do you like the most about your major and your CNM classes? “ Ever since I was a kid I have always loved tinkering with stuff and doing stuff hands on. And once I felt that adrenaline that fast cars have I knew I wanted to work on something that had both, which is why I decided to choose the path of automotive tech. Plus who doesn’t wanna know how to build a super modified car with a turbo!”

What are your plans following graduation? “My plans are that since by that time I will have all my certificates done I will go to a shop and work full time and get experience for the end goal to run and own the biggest and most successful mechanic shops in the United States.”

What advice do you have for 9th graders at CCHS? “Focus on your college and be mature but have those moments of fun and be a normal high school kid. It will help you relax which will keep you more calm in everything else.”
