If you are receiving this packet it is because your or your child have expressed interest in their participation in East St. Louis Senior High School interscholastic athletics in the 2024 - 2025 academic year.

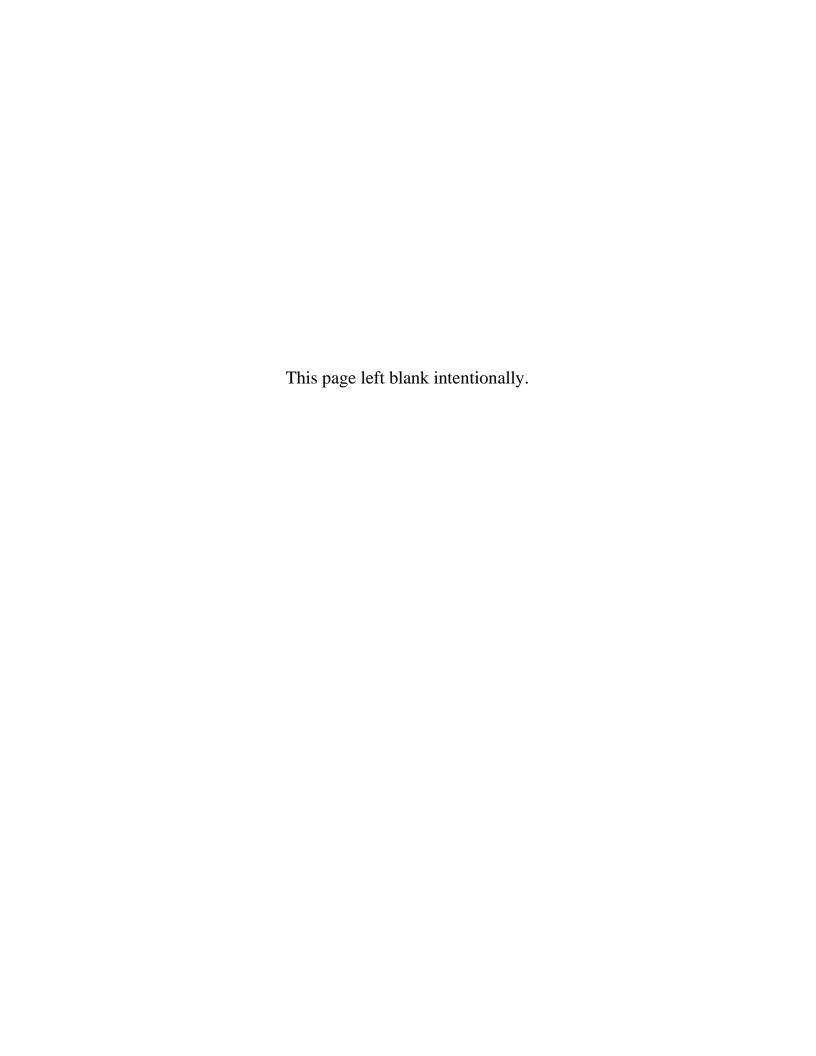

This packet contains necessary **paperwork** that will need to be **completed prior to** you or your child's **participation** in East St. Louis Senior High School interscholastic athletics. In addition to these forms, your child will also need a pre-participation exam (commonly called a physical) completed within the last 395 days.

Please use this page as a checklist to ensure you have completed and signed all

appropriate docume	ntation. Forms to be completed and returned include:
	Student-Athlete Authorization and Consent Form
	Student-Athlete Acknowledgement and Assumption of Risk Form
	Consent to Treatment Form
	Illinois High School Association Acknowledgement and Consent Form (only the last page [page 5] of these forms needs to be returned)
	Pre-Participation Exam (IHSA Health Physical Form)*

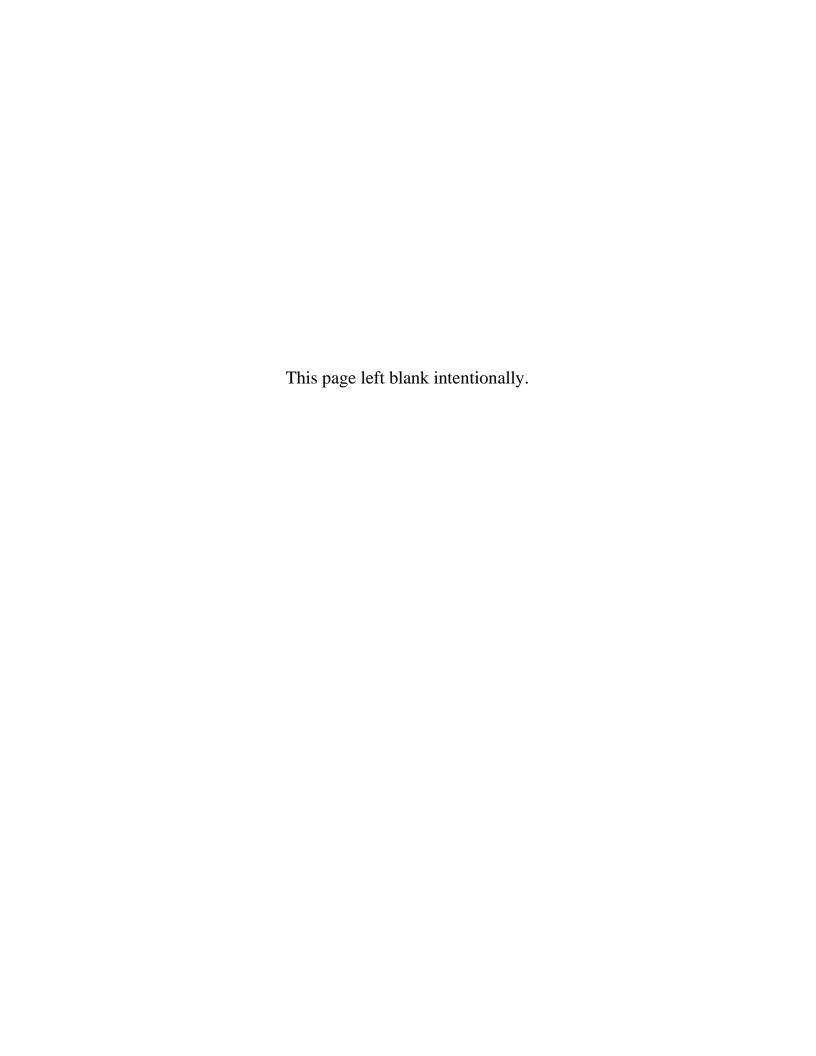

Completed paperwork should be submitted to the athletic trainer, Destinee Grove, as early as possible. If you have questions, please feel free to reach Destinee by phone at 618-646-3000 x1036 or by email at destinee.grove@estl189.com.

*Please note that bylaw 2.150 of the Illinois High School Association Handbook prohibits participation in interscholastic sport (including practice) without a physical. Physicals may only be completed by a licensed physician, physician's assistant, or nurse practitioner. You do not have to use the included physical form, though it is provided for convenience.

Student-Athlete Acknowledgement and Assumption of Risk

I,	, the parent/guardian of	, and my
student-athlete (hereafter ref	ferred to as "we") understand that participation	on in East St. Louis Senior High
School interscholastic sports	s requires a personal acceptance of risk of inju	ury. Student-athletes generally
expect that those who are re-	sponsible for the conduct of sport (e.g., coach	nes) take reasonable
precautions to minimize suc	h risk, and that their peers participating in spo	ort will not intentionally inflict
wrongful injury upon them.		

We understand that participation in interscholastic athletics at East St. Louis Senior High School may result in injury, illness, permanent physical or mental impairment, or even death. These injuries may be minor in nature or may be career, or life, threatening. We understand that East St. Louis Senior High School cannot be held responsible for any injuries or conditions that may be caused by the action of other student-athletes or teams (e.g., opponents). We also understand that injuries may be caused by my or my child's failure to adhere to safety techniques which are made known to my child by the coaching, athletic training, and strength and conditioning staffs and/or another source, including school medical staff.

We understand there are certain inherent risks involved in participating in interscholastic athletics. We acknowledge the fact that these risks exist and we are willing to assume responsibility for **any and all** such risks while participating in interscholastic athletic events at or sponsored by East St. Louis Senior High School. We also agree to the following:

- A. We voluntarily assume all risk associated with my child's participation in interscholastic athletics.
- B. We accept that East St. Louis Senior High School and its personnel are not to be held responsible for any pre-existing medical conditions that my child may have.
- C. We understand that having passed the pre-participation physical <u>does not</u> necessarily mean that my child is physically qualified to participate in interscholastic athletics at East St. Louis Senior High School but only that the evaluator did not find a medical reason to disqualify me at the time of examination.
- D. We understand that my child must refrain from practice while injured or ill, whether or not my child is receiving medical care. When under medical care, my child may not return to participation until they have been granted permission, based on independent exercise of professional judgement by their attending physician(s) or their designate after review of my child's condition and fitness for the rigors of my child's sport(s).
- E. We understand and agree that if my child experiences any injury, illness, or change in health status, it is my child's responsibility to notify and inform the head coach and certified athletic trainer in charge of my sport and to adhere to established injury management guidelines, which includes rehabilitation and reassessment before I am released to return to full participation.

F. We understand that my child must wear the proper equipment as directed by the rules of the sport. My child may also have to wear padding and/or brace(s) as indicated by the athletic training staff or medical personnel. Failure to do so may expose my child to increased risk for further injury.

WE HAVE READ, UNDERSTOOD, AND VOLUNTARILY AGREE TO THE ABOVE STATEMENTS.

Consent to Treatment

I,, the parent/guardian of, understand that my student-athlete may be injured while participating in East St. Louis Senior
High School-sponsored athletics. I hereby grant permission to athletic trainers and physicians covering East St. Louis Senior High School athletic events to evaluate and examine as well as administer any preventative, first aid, or emergency treatments, which they deem reasonably necessary, to the health and well-being of my student-athlete.
I further understand and consent to the athletic trainer's providing advice to my student-athlete concerning nutrition, hydration, and conditioning. The athletic trainer may also provide to my student-athlete hot or cold packs, wound care, taping and/or bracing, massage, whirlpool treatment, soft tissue therapies, and therapeutic exercises to which I also authorize and consent to be performed on my student-athlete during their participation in school-sponsored athletics.
Additionally, I understand that in the case of injury or illness requiring treatment by emergency medical personnel and transportation to a healthcare facility, a reasonable attempt will be made to contact me. However, even if unable to reach me, my child will be treated and transported if necessary.
To facilitate possible treatment and transportation, please provide the following insurance information:

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, <u>all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.</u> In other words, even a "ding" or a bump on the head can be serious. You can't see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

Headaches

"Pressure in head"

Nausea or vomiting

Neck pain

Balance problems or dizziness

Blurred, double, or fuzzy vision

Sensitivity to light or noise

Feeling sluggish or slowed down

Feeling foggy or groggy

Drowsiness

Change in sleep patterns

Amnesia

"Don't feel right"

Fatigue or low energy

Sadness

Nervousness or anxiety

Irritability

More emotional

Confusion

Concentration or memory problems

(forgetting game plays)

Repeating the same

question/comment

Signs observed by teammates, parents and coaches include:

Appears dazed

Vacant facial expression

Confused about assignment

Forgets plays

Is unsure of game, score, or opponent

Moves clumsily or displays

incoordination Answers questions slowly

Slurred speech

Shows behavior or personality changes

Can't recall events prior to

hit Can't recall events after

hit Seizures or convulsions

A secondary section to the secondary section is

Any change in typical behavior or personality Loses consciousness

Concussion Information Sheet (Cont.)

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The Youth Sports Concussion Safety Act requires athletes to complete the Return to Play (RTP) protocols for their school prior to returning to play or practice following a concussion or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest.

You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information on concussions you can go to: http://www.cdc.gov/ConcussionInYouthSports/

IHSA Performance-Enhancing Substance Policy

In 2008, the IHSA Board of Directors established the association's Performance-Enhancing Substance (PES) Policy. A full copy of the policy and other related resources can be accessed on the IHSA Sports Medicine website. Additionally, links to the PES Policy and the association's Banned Drug classes are listed below. School administrators are able to access the necessary resources used for policy implementation in the IHSA Schools Center.

As a prerequisite to participation in IHSA athletic activities, we have reviewed the policy agree that I/our student will not use performance-enhancing substances as defined by the policy. We understand that failure to follow the policy could result in penalties being assigned to me/our student either by the my/our student's school or the IHSA.

Consent to Self Administer Asthma Medication

Illinois Public Act 098-0795 provides new directions for schools concerning the self-carry and self-administration of asthma medication by students. In order for students to carry and self-administer asthma medication, parents or guardians must provide schools with the following:

Written authorization from a student's parents or guardians to allow the student to self-carry and self-administer the medication.

The prescription label, which must contain the name of the asthma medication, the prescribed dosage, and the time at which or circumstances under which the asthma medication is to be administered.

A full copy of the law can be found at http://www.ilga.gov/legislation/publicacts/98/PDF/098-0795.pdf.
