

Bryn Mawr Site Council 2024-25

November 12, 2024

Tonight's Agenda

1. Norms
2. Introductions, Warm Welcome, Updates, & Follow-up
3. Co-Chair Nomination/Election
4. October & November Staffing Adjustment Proposal
5. Upcoming Events and Optimistic Close

Site Council Notes 2024-2025

Bryn Mawr Site Council

Introductions

Your name and connection to Bryn Mawr.

Warm Welcome

What is one word which describes how you are feeling right now?

Building Updates

Staffing, Budget Usage, Building Walkthrough Reflection, and Attendance

Site Council Purpose

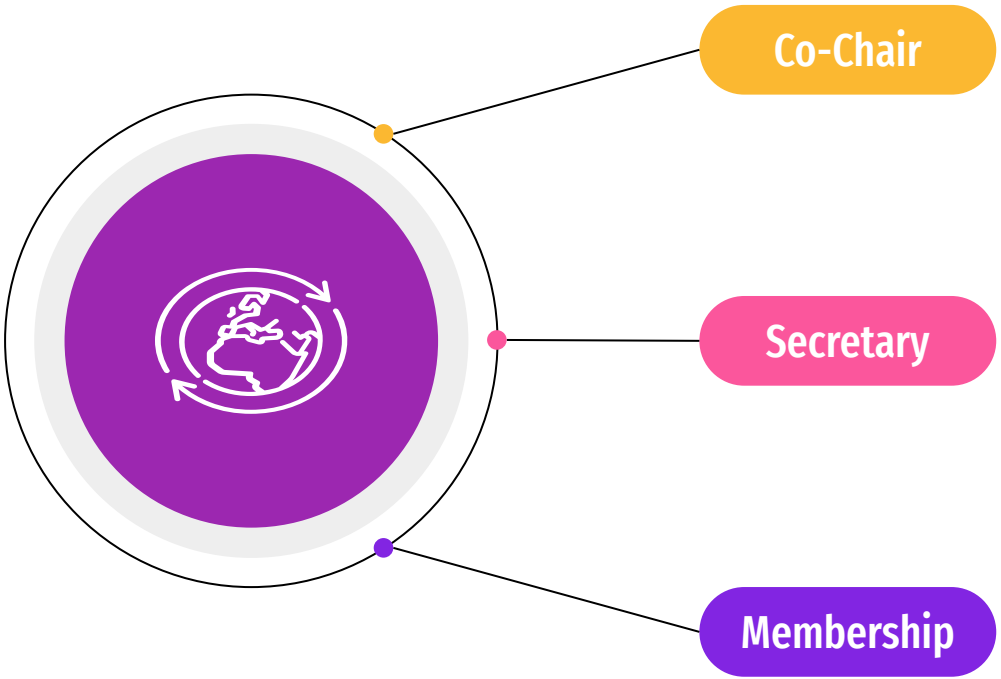

Elect 2 officers & Discuss Adjustments in staffing.

Bryn Mawr Norms

Please review these norms and provide feedback. **After we agree, how do we want to be held accountable?**

- **Honor the purpose of the meeting.**
- **We are solutions based and student centered.**
- **Every role and voice are valid and valued.**
- **Speak from the heart and listen to understand.**

Site Council Roles & Responsibilities

Two year term, Update Membership List, Disseminates information to caregivers (PTA), Sets agenda for each meeting, Approve agenda items

(Unofficial) - Takes notes at each meeting. Prepare notes for principal to submit to Community/Wepage, Title I Folder, & Associate Superintendent

Site Council members will function as a team working cooperatively to reach the goals of Bryn Mawr Community School.

Staffing Updates

1. October numbers
2. Adjustments: K/1 Classroom, .2 Specialist, 40 hr AE (grade 3)
3. Timeline
4. November movement
5. Proposal: 3-4 Classroom, revise intervention support, revise schedule

Optimistic Close

ALC underway, GotR finished their 5K, and Native American Awareness Month is Planned.

Optimistic Close

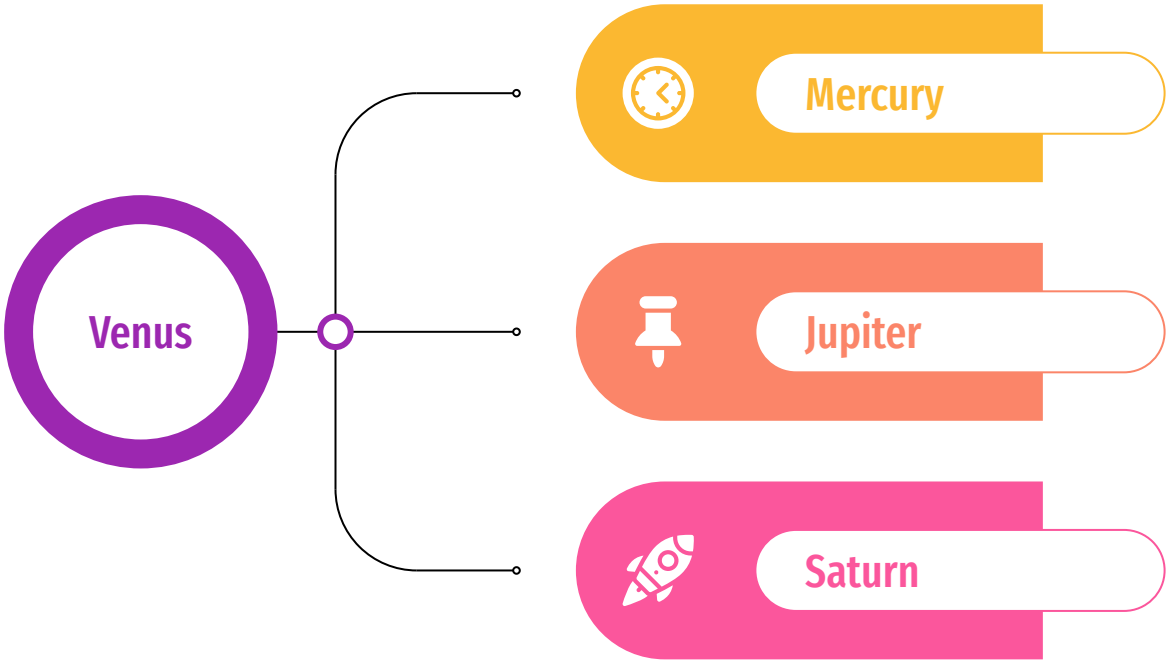

Next Meeting

Our next meeting will be Tuesday, December 10

Project Management Infographics

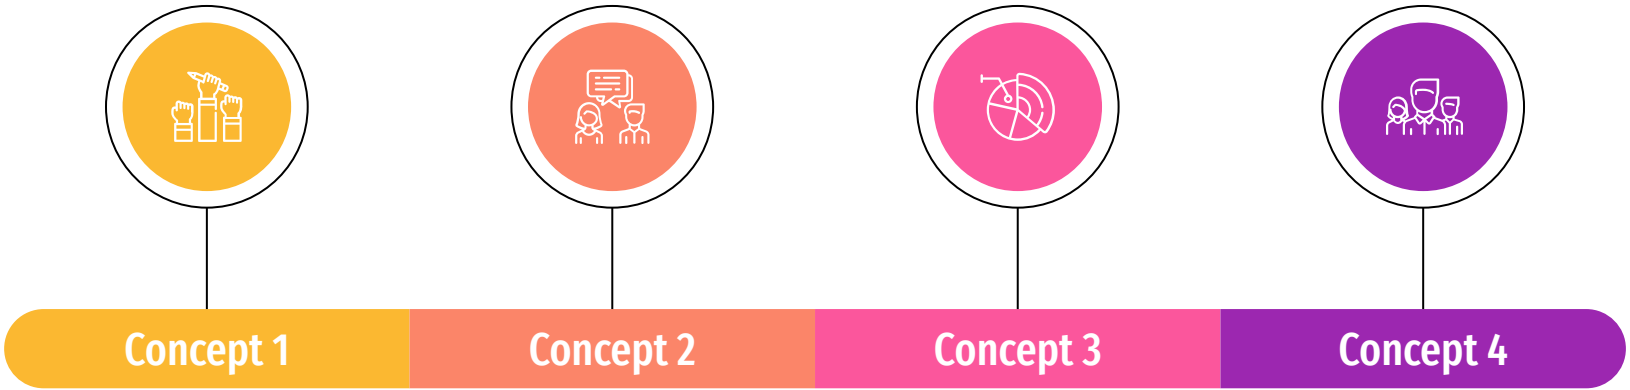

Mercury is the smallest planet in the Solar System

Jupiter is a gas giant and also the biggest planet

Saturn is a gas giant made of hydrogen and helium

Project Management Infographics

Saturn

Saturn is a gas giant made of hydrogen and helium

Jupiter

Jupiter is a gas giant and the biggest planet of them all

Venus

Venus has a beautiful name, but also high temperatures

Mercury

Mercury is the smallest planet in the Solar System

Project Management Infographics

STRENGTHS	WEAKNESSES	OPPORTUNITIES	THREATS
			
Venus	**Mars**	**Jupiter**	**Saturn**
Venus has a beautiful name and high temperatures	Despite being red, Mars is a cold place full of iron oxide dust	Jupiter is the fourth and the biggest planet	Saturn is composed of hydrogen and also helium

Project Management Infographics

Step 01

Mercury is the closest planet to the Sun

Step 02

Despite being red, Mars is a cold place

Step 03

Jupiter is a gas giant and the biggest planet

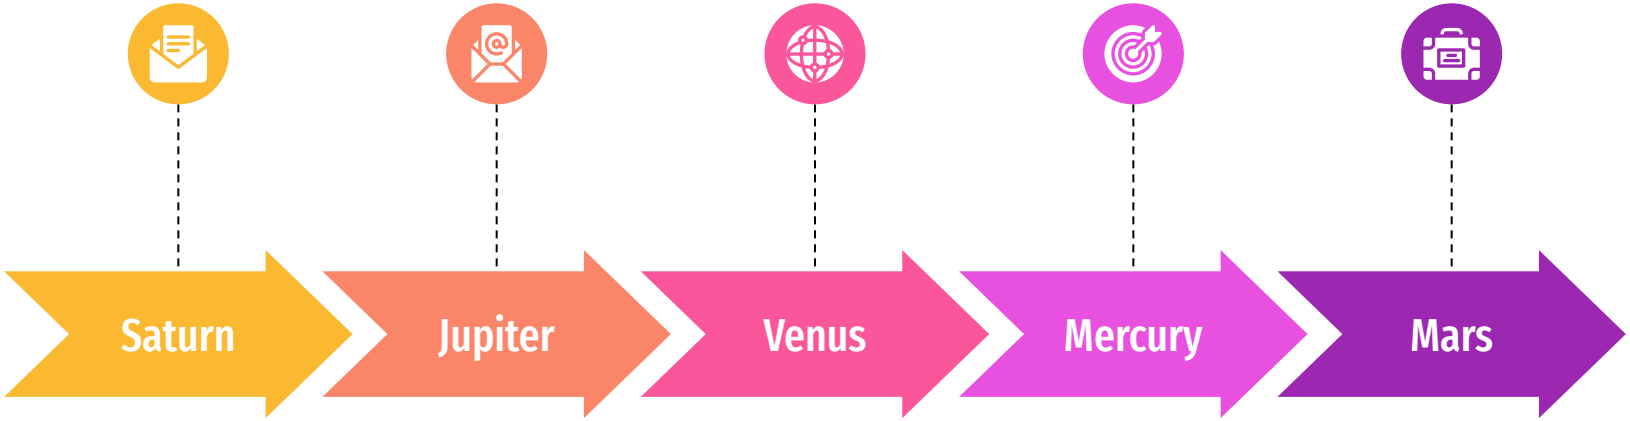

Step 04

Neptune is the farthest planet from the Sun

Project management infographics

Saturn is a gas giant made of hydrogen and helium

Jupiter is a gas giant and the biggest planet

Venus is the second planet from the Sun

Mercury is the smallest planet in the Solar System

Despite being red, Mars is actually a cold place

Project management infographics

Saturn

Saturn is a gas giant composed mostly of hydrogen and helium

Mars

Despite being red, Mars is a cold place full of iron oxide dust

Jupiter

Jupiter is a gas giant and the biggest planet in the Solar System

Venus

Venus has a beautiful name, but it is terribly hot there

Mercury

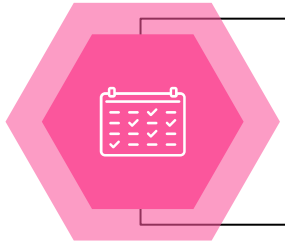

Mercury is the smallest planet in the Solar System

Project Management Infographics

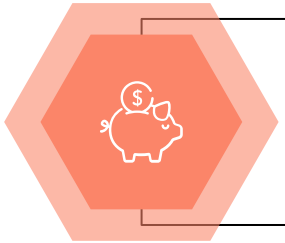

Saturn

Saturn is a gas giant made of hydrogen and helium

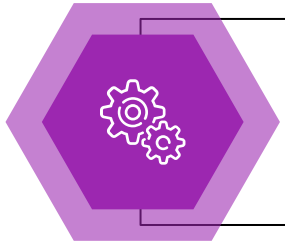

Mercury

Mercury is the smallest planet in the Solar System

Jupiter

Jupiter is a gas giant and the biggest planet

Neptune

Neptune is the farthest planet from the Sun

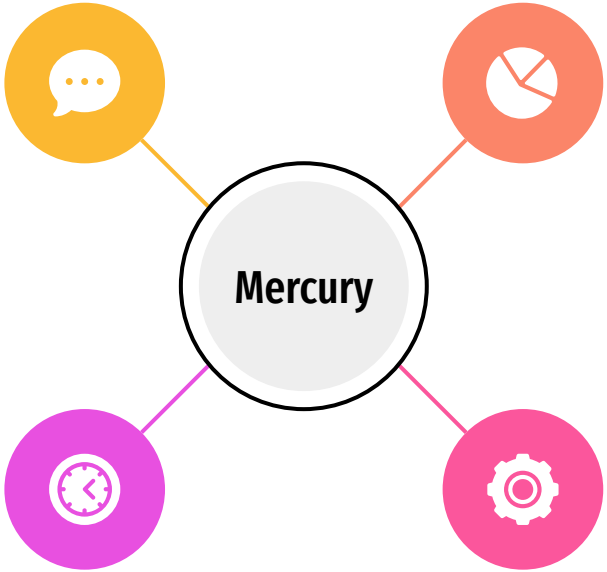

Project Management Infographics

Mercury

Mercury is the closest planet to the Sun and the smallest one

Saturn

Despite being red, Mars is a cold place full of iron oxide dust

Neptune

Neptune is the farthest planet from the Sun and the fourth-largest

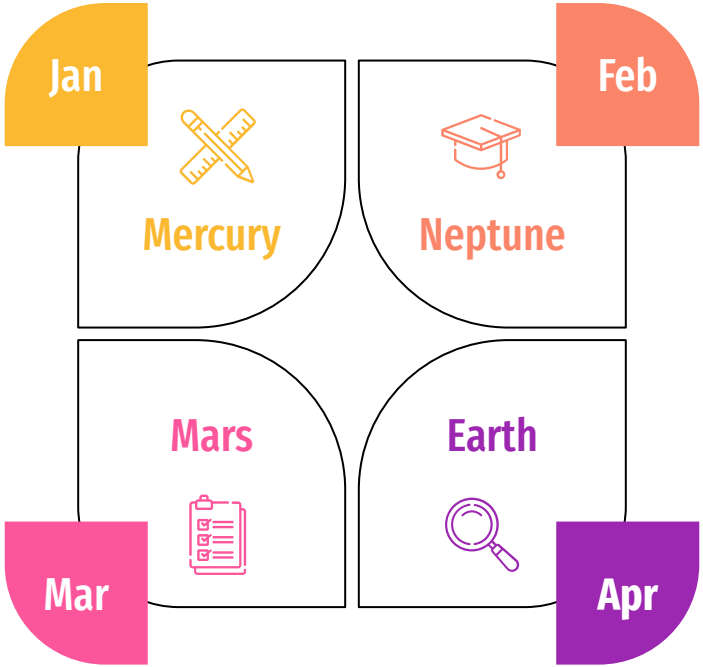

Earth

Earth is the third planet from the Sun and the only one that harbors life

Project Management Infographics

Mercury is the closest planet to the Sun and the smallest one

Despite being red, Mars is a cold place full of iron oxide dust

Neptune is the farthest planet from the Sun and the fourth-largest one

Earth is the third planet from the Sun and the only one that harbors life

Project Management Infographics

Neptune is the farthest planet from the Sun and a gas giant

Neptune

Mercury

Mercury is the closest planet to the Sun and the smallest one

Earth is the third planet from the Sun and the one that harbors life

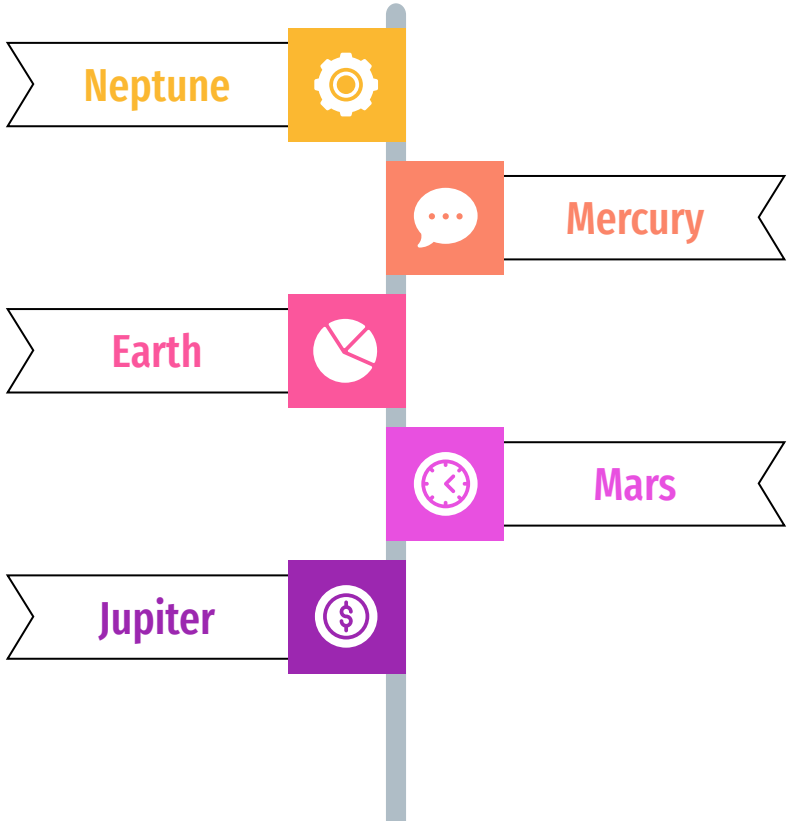

Earth

Mars

Despite being red, Mars is a cold place full of iron oxide dust

Jupiter is a gas giant and the biggest planet in the Solar System

Jupiter

Project Management Infographics

01

Mercury is the closest planet to the Sun

02

Despite being red, Mars is a cold place

03

Jupiter is a gas giant and the biggest planet

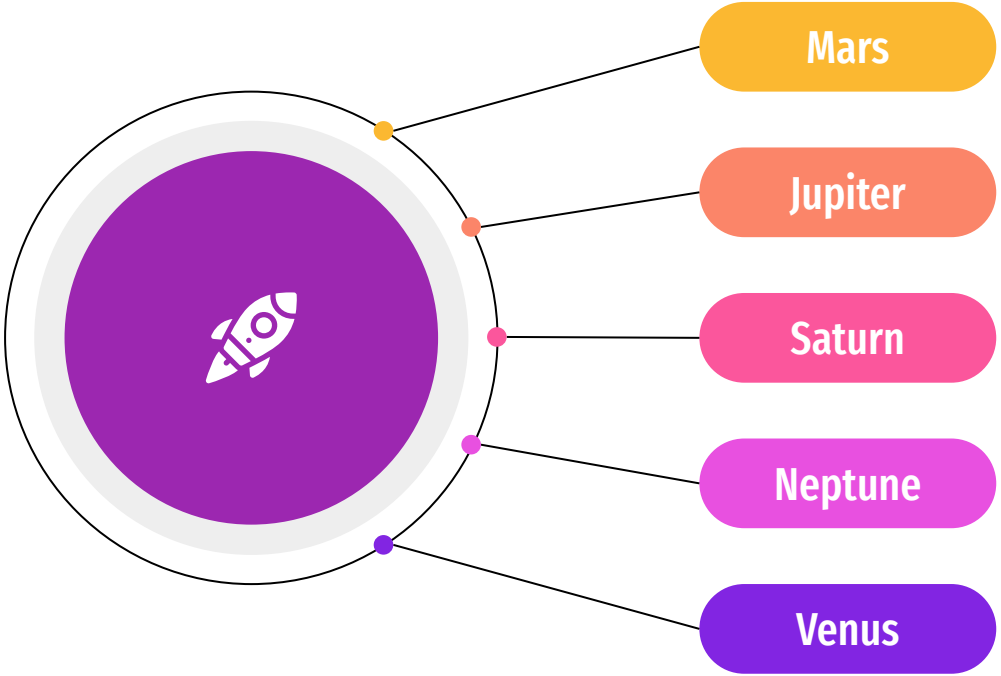

04

Neptune is the farthest planet from the Sun

Site Council Roles

Despite being red, Mars is actually a cold place

Jupiter is a giant and the fourth planet from the Sun

Saturn is a gas giant made of hydrogen and helium

Neptune is the farthest planet from the Sun

Venus is the second planet from the Sun

Project Management Infographics

Neptune

Neptune is the farthest planet from the Sun and a gas giant

Earth

Earth is the third planet from the Sun

Mercury

Mercury is the closest planet to the Sun and the smallest

Mars

Despite being red, Mars is actually a cold place

Project Management Infographics

Neptune is the farthest planet from the Sun and a gas giant

Earth is the third planet from the Sun and the only one that harbors life

Despite being red, Mars is a very cold place full of iron oxide dust

Jupiter is a gas giant and the biggest planet in the Solar System

Project Management Infographics

Neptune

Neptune is the farthest planet from the Sun and a gas giant

Mercury

Mercury is the closest planet to the Sun

Earth

Earth is the third planet from the Sun

Mars

Despite being red, Mars is actually a cold place

Jupiter

Jupiter is a gas giant and the biggest planet of them all

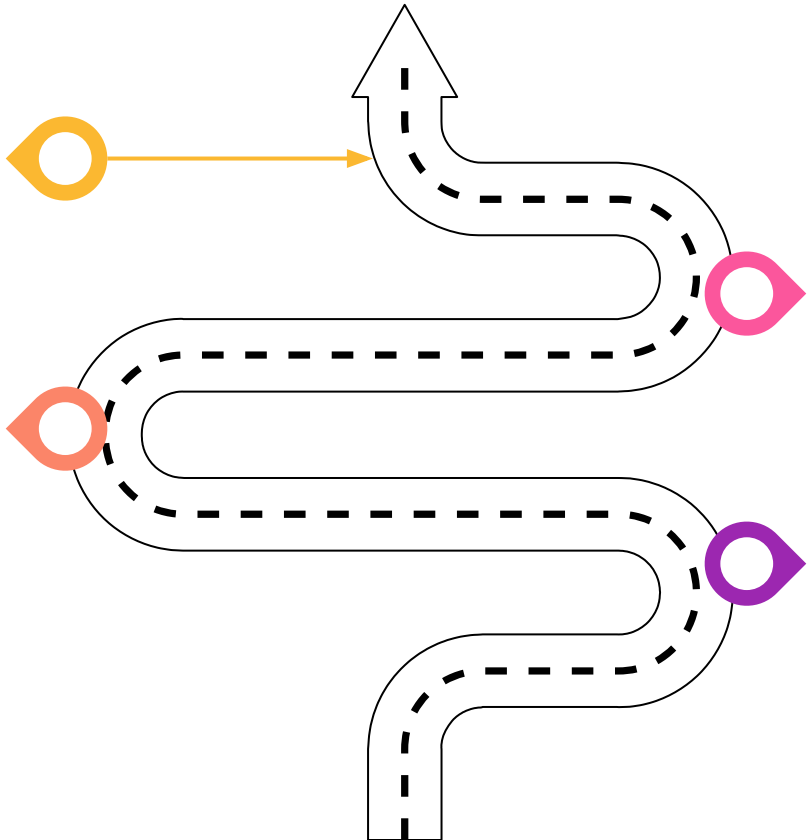

Project Management Infographics

Neptune

Neptune is the farthest planet from the Sun

Saturn

Saturn is composed of hydrogen and helium

Mars

Despite being red, Mars is a very cold place

Mercury

Mercury is the closest planet to the Sun

Project management infographics

Saturn

Saturn is a gas giant made of hydrogen and helium

Jupiter

Jupiter is a gas giant and the biggest planet

Venus

Venus is the second planet from the Sun

Mercury

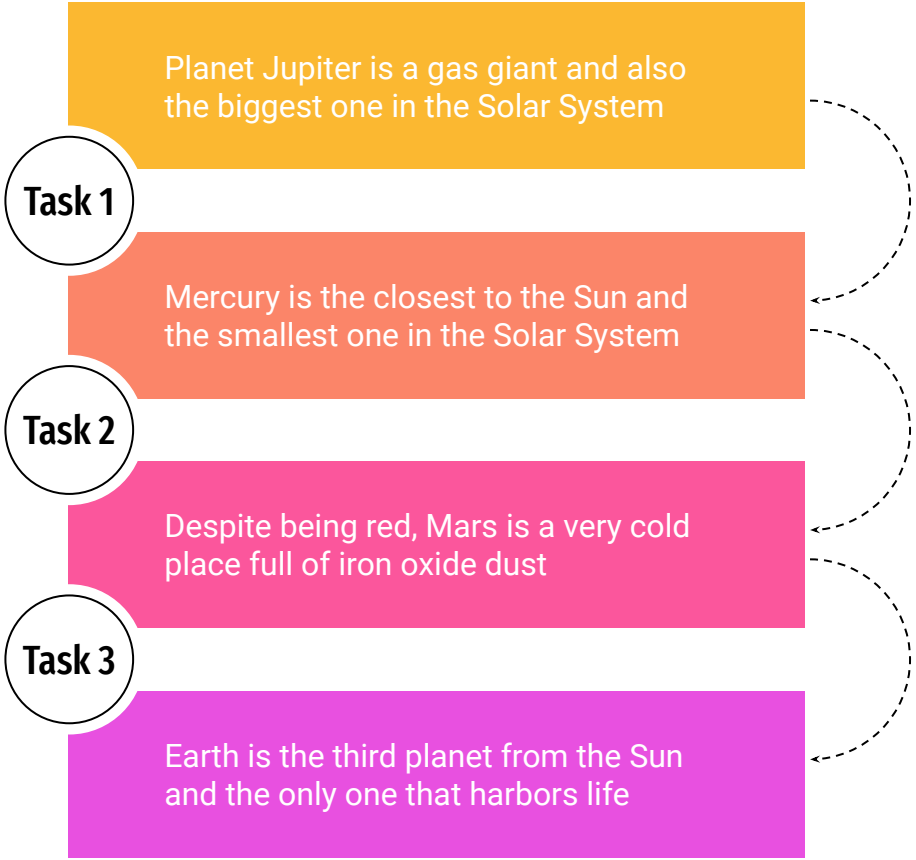

Mercury is the smallest planet in the Solar System

Neptune

Neptune is the farthest planet from the Sun

Mars

Despite being red, Mars is actually a cold place

Project Management Infographics

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous. It's the second-brightest natural object in the night sky after the Moon

Project Management Infographics

Option 1

Mars

Despite being red, Mars is actually a cold place

Option 2

Jupiter

Jupiter is a gas giant and the biggest planet

Option 3

Saturn

Saturn is a gas giant and has several rings

Option 4

Neptune

Neptune is the farthest planet from the Sun

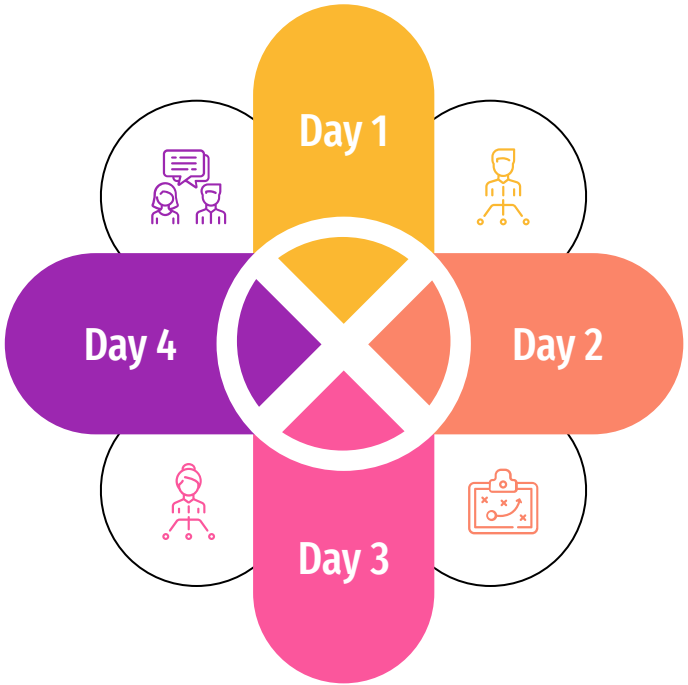

Project Management Infographics

Neptune

Neptune is the farthest planet from the Sun and a gas giant

Earth

Earth is the third planet from the Sun

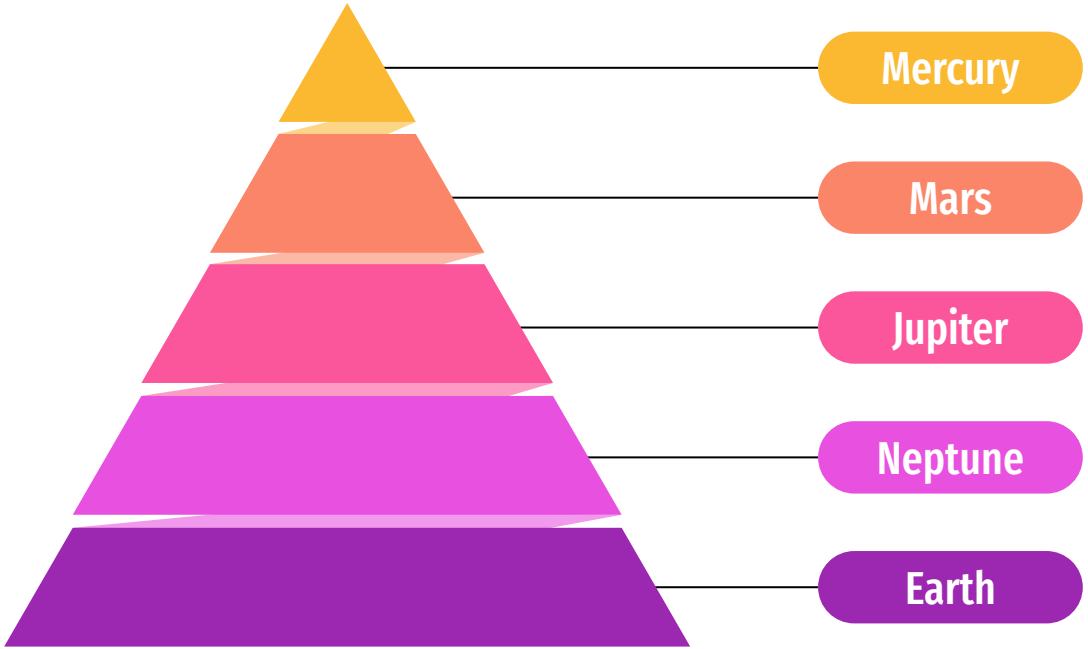

Mercury

Mercury is the closest planet to the Sun

Mars

Despite being red, Mars is actually a cold place

Project Management Infographics

Mercury is the smallest planet in the Solar System

Despite being red, Mars is actually a cold place

Jupiter is a gas giant and the biggest planet of them all

Neptune is the farthest planet from the Sun and a gas giant

Earth is the third planet from the Sun and the one with life

Project Management Infographics

Despite being red, Mars is actually a cold place

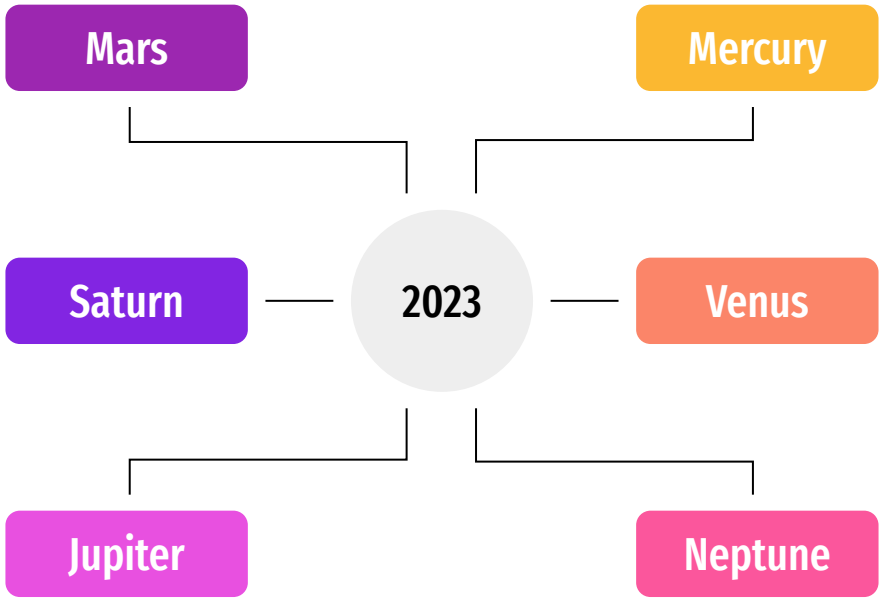

Mercury is the smallest planet in the Solar System

Saturn is composed mostly of hydrogen and helium

Venus is the second planet from the Sun

Planet Jupiter is a gas giant and the biggest one

Neptune is the farthest planet from the Sun

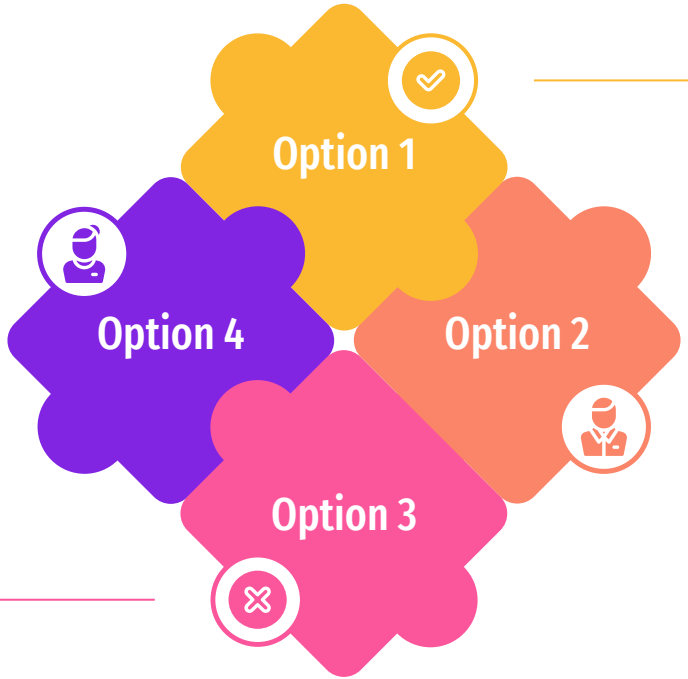

Project Management Infographics

Saturn

Saturn is composed of hydrogen and helium

Jupiter

Jupiter is a gas giant and the biggest planet

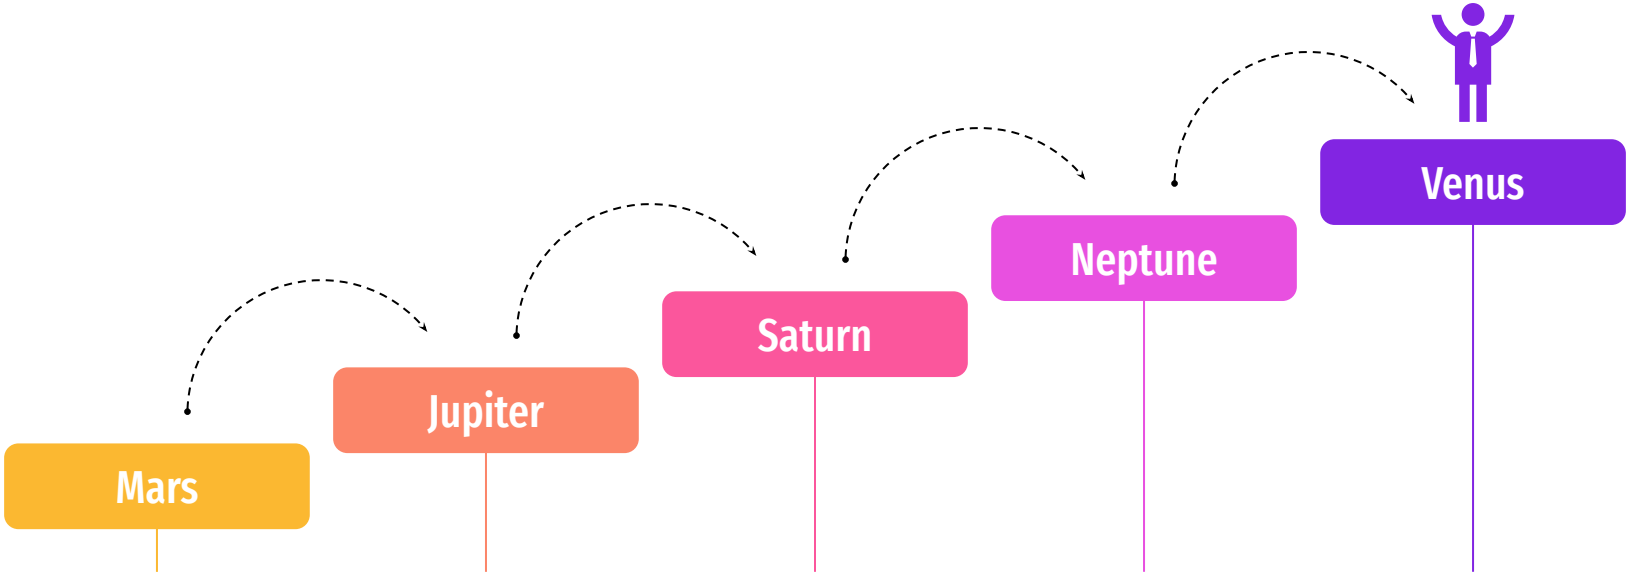

Mercury

Mercury is the smallest planet in the Solar System

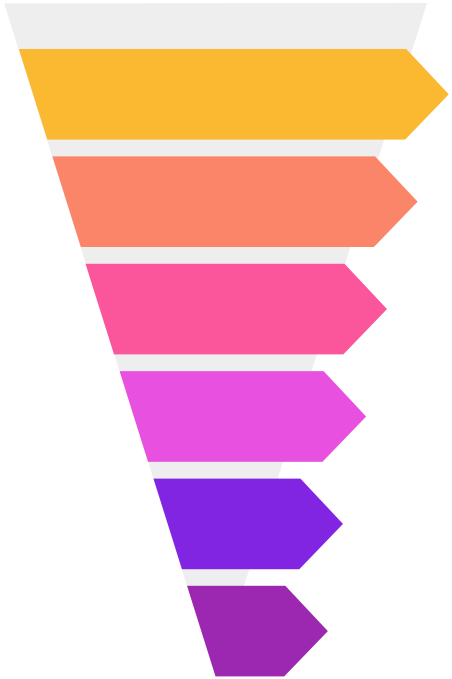

Neptune

Neptune is the farthest planet from the Sun

Venus is the second planet from the Sun

Project Management Infographics

01 Saturn

02 Mercury

03 Mars

04 Venus

Planet Saturn is a gas giant composed mostly of hydrogen and helium

Mercury is the smallest planet in the Solar System and the closest to the Sun

Despite being red, Mars is a very cold place full of iron oxide dust

Venus has a beautiful name and is the second planet from the Sun

Instructions for use

In order to use this template, you must credit **Slidesgo** and **Freepik** in your final presentation and include links to both websites.

You are allowed to:

- Modify this template.
- Use it for both personal and commercial projects.

You are not allowed to:

- Sublicense, sell or rent any of Slidesgo Content (or a modified version of Slidesgo Content).
- Distribute Slidesgo Content unless it has been expressly authorized by Slidesgo.
- Include Slidesgo Content in an online or offline database or file.
- Offer Slidesgo templates (or modified versions of Slidesgo templates) for download.
- Acquire the copyright of Slidesgo Content.

For more information about editing slides, please read our FAQs or visit Slidesgo School:
https://slidesgo.com/faqs and https://slidesgo.com/slidesgo-school

Infographics

You can add and edit some **infographics** to your presentation to show your data in a visual way.

- Choose your favourite infographic and insert it in your presentation using Ctrl C + Ctrl V or Cmd C + Cmd V in Mac.
- Select one of the parts and **ungroup** it by right-clicking and choosing “Ungroup”.
- **Change the color** by clicking on the paint bucket.
- Then **resize** the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow). Remember to hold Shift while dragging to keep the proportions.
- **Group** the elements again by selecting them, right-clicking and choosing “Group”.
- Repeat the steps above with the other parts and when you’re done editing, copy the end result and paste it into your presentation.
- Remember to choose the “**Keep source formatting**” option so that it keeps the design. For more info, please visit **Slidesgo School**.
