

Financial Assistance Programs

GIRLS ON THE RUN OF SILICON VALLEY

The standard program registration fee for the 2025 season is **\$295.00* per participant**. It is essential that each family pay the appropriate registration fee in accordance with their household income. **Please note, the true cost of the program is approximately \$450.00.** Girls on the Run of Silicon Valley's fundraising efforts, donations, and partnerships with school districts help bridge the gap between registration fees paid and need-based financial aid, along with keeping fees as low as possible for ALL participants.

*Some sites have a registration fee that may be \$5.00 - \$35.00 more than the standard registration fee because schools in those districts charge higher facility use fees.

We offer families TWO options for financial assistance during program registration:

OPTION 1

Payment Plan

- This option allows families to pay the FULL \$295.00 REGISTRATION FEE in two separate payments.
- 50% paid at the time of registration, and the remaining 50% paid one month later.

OPTION 2

Need-Based Assistance

- This option provides a reduced registration fee on a sliding scale based on self-reported household income.
- Reduced registration fees range from \$35.00 - \$225.00.
- 2 Payment Plan option is available

Special Notes

- Either option can be chosen at the time of program registration.
- We do not require proof of income at the time of registration for need-based assistance, but do reserve the right to request proof of need, if necessary.
- If there are extenuating circumstances and you cannot pay according to the sliding scale, please send an email to GOTRSV Executive Director, Kathleen Nestler, at kathleen@gotrsv.org.
