OUR COMMUNITY

SMALL TOWN FEEL, BIG CITY CONNECTIONS:

The Berea City School District is a diverse community where tradition and innovation meet. Encompassing the cities of Berea, Brook Park, and Middleburg Heights, the district fosters an environment reminiscent of a close-knit, small-town, characterized by a supportive community, rich history, and picturesque surroundings. The district boasts strong connections to the city of Cleveland. Students have access to a plethora of resources, networking opportunities, and experiences beyond the classroom walls. Partnerships with local businesses, organizations, and institutions of higher learning enable students to gain real-world experiences, fostering both personal and professional growth. BCSD students graduate with more than a high school diploma. They will graduate with choices and opportunities and be prepared citizens ready to enlist, enroll, be employed, or be an entrepreneur.
