BUILDING A BRIGHTER FUTURE

Campus Enhancements Overview

Athletic Wing Renovations

Resurrection College Prep is excited to announce one of its largest capital investments to date: a full renovation of the athletic wing. This transformative project is designed to improve the student experience and ensure that our athletics program remains competitive and relevant in the 21st century.

The renovation will feature a state-of-the-art fitness center with workout zones specifically designed for training female athletes, reflecting our commitment to supporting their unique needs. In addition to the fitness center, the project will include updated physical education spaces, a modern shower facility, and dedicated areas for team meetings, film sessions, and workshops. The renovation will also add upgraded athletic training rooms, a designated space for visiting teams, and new offices for coaches and the athletic director.

The construction is set to begin in late spring 2025, with an anticipated completion by fall 2025. This new facility will not only elevate our athletics program but also help foster greater school spirit and community engagement. We believe this investment will provide our students with the tools and environment they need to thrive both academically and athletically.

Renderings of the project will be available in the next two months, and we will continue to share updates as construction progresses.

Project Summary

- Full renovation of the entire athletic wing, one of the largest capital investments in school history that directly impacts student life.
- State-of-the-art fitness center with workout zones specifically designed for training female athletes.
- Updated physical education spaces to support a growing focus on student health and wellness.
- Modern shower facility and improved amenities for student-athletes.
- Dedicated areas for team meetings to enhance team collaboration and preparation.
- Upgraded athletic training rooms for injury prevention and rehabilitation.
- Designated space for visiting teams, ensuring a welcoming and functional environment for competitors.
- New offices for coaches and the athletic director.

Frequently Asked Questions

1. When will the renovation begin and how long will it take? Construction will start in late spring 2025 and is expected to be completed by fall 2025.
2. What new features will the renovated athletic wing include? The renovation will add a state-of-the-art fitness center, modernized physical education spaces, a shower facility, team meeting areas, upgraded training rooms, a visiting team space, and new offices for coaches.
3. How will the renovation benefit student-athletes? Students will gain access to modern equipment and specialized training spaces, enhancing their athletic experience and performance.
4. Will there be disruptions to athletic programs during construction? Some adjustments may be necessary, but we will keep the community informed to minimize disruptions.
5. How can we see what the new athletic wing will look like? Renderings will be available in the next two months, and updates will be shared regularly as the project progresses.

Campus Enhancements overview

Chapel Renovations

Renovations for the chapel at Resurrection College Prep are set to begin during the 2024-25 school year, thanks to the generous support of a donor. As a central part of our students' spiritual growth, the chapel serves as a sacred space for prayer, reflection, and Mass, playing a vital role in nurturing not only their minds but also their hearts and souls.

The upcoming updates will enhance both the beauty and functionality of the chapel, making it an even more inviting place for students to deepen their faith. Key improvements include the creation of a new custom altar that will highlight our school's Lasallian identity.

Additionally, we will update the chapel's furniture with a new ambo/lectern and altar cross to enrich the sacred atmosphere. The space will also be refreshed with new paint and flooring, contributing to a serene and welcoming environment.

These enhancements are designed to support our mission as a Catholic, Lasallian school, providing a peaceful place where students can connect with God and reflect on core Lasallian values such as faith, service, and community. We are deeply grateful for the support that has made these renovations possible and look forward to seeing how these improvements will positively impact our students' spiritual journeys at Resurrection College Prep.

Campus Beautification

Over the past few weeks, Resurrection College Prep has made significant strides in enhancing its campus through the Campus Beautification project and crucial infrastructure upgrades. This initiative marks the completion of year one in a three-year outdoor plan, featuring the removal of dead trees, treatment of diseased ones, campus-wide mulching, new landscaping beds, and updated outdoor signage. These efforts have revitalized the courtyards and grounds with fresh greenery and flowers.

In addition, the school has allocated \$300,000 for vital plumbing and electrical system upgrades, ensuring compliance with safety standards and improving operational efficiency. The work will be phased to minimize disruption, prioritizing the most critical improvements.

These enhancements reflect our commitment to providing a safe and inspiring environment for learning, and we thank the community for their continued support.

Locker Painting

The halls of Resurrection College Prep are getting a makeover as the lockers will receive a fresh coat of paint in Bandit red, chosen by the students. The locker painting project is expected to take approximately 10 days and will be completed over Christmas break to minimize disruption to student learning. In addition to the repainting, the locker hardware will be updated in a phased approach over the next few years.

New Desks & Classroom Renovations

As part of our commitment to enhancing the learning environment, we are excited to announce a series of improvements aimed at creating modern and functional classrooms. Recently, we began the process of providing new desks and classroom furniture for both teachers and students. This initiative is being coordinated with Dr. Matson, who will work closely with educators to ensure that the needs of our school community are prioritized.

In addition to the new furniture, we are currently in the design phase for further classroom renovations. These upgrades will include fresh paint and contemporary window treatments, transforming our classrooms into 21st-century learning spaces. The combination of new furniture and renovations aims to improve the functionality of our classrooms, fostering an atmosphere that supports creativity and academic success for all students.

College and Career Center

The College and Career Center at Resurrection College Prep, led by College Counselor Ms. Claire Thiese, opened this year as a dedicated resource for students exploring their academic and career paths. Through individualized guidance, Mr. Thiese helps students with college applications, scholarship opportunities, and career exploration. The Center offers workshops, college visits, and access to various career resources, supporting students in making informed decisions about their futures. Ms. Thiese's expertise and personalized approach ensure that students are well-prepared for the next steps in their educational journeys.

New School Branding

Over the summer, we completed an exciting school branding project that has added a vibrant and cohesive look to our campus. New hallway identifying signs have been installed, adding splashes of color throughout the school. The eastern stairwells now proudly display our school logo, while the western stairwells in the academic wing feature a banner with the beloved school song, fostering a deeper sense of tradition and pride. In the cafeteria, a new decal featuring our Bandit mascot brings added school spirit to the space. Near RESpresso, we have updated picture

boards that showcase how our students live out the five Lasallian principles, further celebrating the unique character and values of Resurrection College Prep.

RESpresso

RESpresso, Resurrection's first-ever coffee shop, is a testament to the creativity and hard work of the Intro to Business students. From concept to completion, the project was entirely student-led, providing hands-on experience in business development. The students, guided by their teacher, Mrs. Ann Marie Schneider, worked collaboratively to bring the vision of RESpresso to life. They were tasked with not only conceptualizing the brand identity but also designing a menu that would appeal to their peers and the broader school community.

In addition to creating the branding and menu, the students partnered with the school's Marketing and Communications Manager, Carla Krajcir, to develop a comprehensive marketing strategy. This included everything from promotional materials and digital campaigns to generating buzz around the grand opening. Through this project, the students gained invaluable experience in entrepreneurship, teamwork, and problem-solving, making RESpresso more than just a coffee shop—it's a learning milestone for the next generation of business leaders at Resurrection.
