INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Crosby Independent School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Crosby Independent School District (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's
 internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, required Texas Education Agency (TEA) schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

To the Board of Trustees Crosby Independent School District

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required TEA schedules, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and Schedule L-1 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 18, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As the management of Crosby Independent School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with the notes to the basic financial statements and the financial statements themselves to enhance their understanding of the District's financial condition.

Financial Highlights

- The District's total combined net position at June 30, 2024 was \$55,780,222. Of this amount, a deficit of \$5,739,118 (unrestricted net position) exists, which includes recognition of the District's pension and other post-employment benefits (OPEB) liabilities and related deferred inflows/outflows, which is a negative impact to unrestricted net position of \$40,385,576. Overall, the District's net position increased by \$18,255,412 when compared to the previous year.
- For the fiscal year ended June 30, 2024, the District's general fund reported a total fund balance of \$47,879,378, of which \$98,107 is nonspendable for inventories and prepaid items, \$6,712,985 is restricted for debt service, \$12,150,000 is assigned for capital projects, and \$28,918,286 is unassigned.
- At the end of the fiscal year, the District's governmental funds reported combined ending fund balances of \$154,810,357, an increase from the previous year of \$16,123,677.

Overview of The Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and supplementary in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and incurred but unpaid workers' compensation benefits).

The governmental activities of the District include instruction, instructional resources and media services, curriculum and instructional staff development, instructional leadership, school leadership, guidance, counseling, and evaluation services, health services, student transportation, food service, extracurricular activities, general administration, plant maintenance and operations, security and monitoring services, data processing services, community services, interest on long-term debt, bond issuance costs and fees, payments to shared services arrangements, and other governmental charges.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The District maintains 23 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects fund, which are considered to be major funds. Data from the other 20 governmental funds are combined into a single, aggregated presentation titled nonmajor governmental funds.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of students. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The basic fiduciary fund financial statements can be found as noted in the table of contents of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found as noted in the table of contents of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information and supplementary information, which includes schedules required by the Texas Education Agency. Such information can be found as noted in the table of contents of this report.

| Total Net Position | \$ 55,780,222 | \$ 37,524,810 | \$ 18,255,412 | | | | | |

The District reported an increase of \$18,255,412 in net position from the prior year which is discussed in the analysis of changes in net position (see Table 2).

The District's current and other assets increased by \$17,156,148 due primarily to more cash equivalents held as of year-end in addition to a more significant amount due from other governments for state aid.

The District's capital assets decreased by \$1,431,372 due to depreciation expense of \$5,700,177.

The District's current liabilities increased by \$1,868,584 due to an increase in accounts payable and interest payable due to timing of expenses at the end of the fiscal year.

The District's long-term liabilities decreased by \$3,163,541 due primarily to scheduled principal payments on bonds and other long-term debt.

| Ending Net Position | \$ 55,780,222 | \$ 37,524,810 | \$ 18,255,412 | | | | | |

The District's total revenues increased by \$13,242,723, or 14%, due to an increase in state aid and interest earnings on investments when compared to the previous fiscal year.

The District's total expenses increased by \$10,186,907, or 13%, due to increased costs incurred for salaries and benefits.

Financial Analysis of The District's Funds

At the close of the fiscal year ending June 30, 2024, the District's governmental funds reported a combined fund balance of \$154,810,357. This compares to a combined fund balance of \$138,686,680 at June 30, 2023.

The fund balance of the general fund at the end of the fiscal year was \$47,879,378, which represented an increase of \$9,324,559 from the prior year. This increase was primarily due to an increase in state aid revenue and an increase in investment income.

The fund balance of the debt service fund at the end of the fiscal year was \$11,654,519, which represented an increase of \$4,872,908 from the prior year. This increase was primarily due to property tax revenues exceeding scheduled principal and interest payments on debt.

The fund balance of the capital projects fund at the end of the fiscal year was \$91,441,547, which represented an increase of \$1,581,395 from the prior year due to the investment earnings exceeding the amount spent on bond-funded capital projects.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

General Fund Budgetary Highlights

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the general fund, the food service special revenue fund, and the debt service fund. The District budgets the capital projects fund for each *project*, which normally covers multiple years. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

During the period ended June 30, 2024, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenses. The general fund's actual revenues exceeded budgetary amounts by \$5,438,800. Actual expenditures were less than budgeted amounts by \$4,034,242.

Capital Assets

The District's investment in capital assets for its governmental type activities as of June 30, 2024, includes land, buildings and improvements, furniture and equipment, construction in progress, the intangible right-to-use lease assets, and the intangible right-to-use subscription assets. Capital assets, net of depreciation/amortization, decreased by \$1,431,372 from the prior year due to the District incurring depreciation expense in the amount of \$5,700,177 during the fiscal year. The following table summarizes the investment in capital assets as of June 30, 2024 and 2023:

| | 2024 | 2023 |
|---------------------------------------|-------------------|-------------------|
| Land | \$ 3,660,902 | \$ 3,660,902 |
| Construction in progress | 4,080,126 | 454,532 |
| Buildings and improvements | 218,831,671 | 218,831,671 |
| Furniture and equipment | 16,408,318 | 15,952,063 |
| Right-to-use lease asset | 448,227 | 448,227 |
| Right-to-use subscription asset | 275,209 | 88,253 |
| | 243,704,453 | 239,435,648 |
| Accumulated depreciation/amortization | (90,865,434) | (85,165,257) |
| Net Capital Assets | \$ 152,839,019 | \$ 154,270,391 |

Additional information on the District's capital assets can be found in the notes to the financial statements.

Long-term Debt

At year end, the District had \$185,005,000 in general obligation bonds outstanding versus \$188,975,000 last year. The decrease was due to principal payments on bonds in the amount of \$3,970,000. The following table summarized the long-term debt balances as of June 30, 2024 and 2023:

| | 2024 | 2023 |
|-----------------------|-------------------|-------------------|
| Bonds payable | \$ 201,871,180 | \$ 207,060,082 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2024

Data Control Codes

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund balances - Total Governmental Funds

\$ 16,123,677

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

| 1 | Capital outlay | 4,268,805 |
|---|---------------------------|-------------|
| 2 | Depreciation/amortization | (5,700,177) |

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

3 Earned but unavailable taxes 87,130

Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Issuance of debt:

| 4 | SBITAs | (186,956) |
|---|----------------------|-----------|
| | Principal payments: | |
| 5 | Bonds | 3,970,000 |
| 6 | Maintenance tax note | 610,000 |
| 7 | Leases | 85,703 |
| 8 | SBITAs | 92,128 |

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

| 9 | Accrued interest on long-term debt | (1,199,457) |
|----|-----------------------------------------------------------------------------------------|-------------|
| 10 | Amortization of premiums and discounts | 382,621 |
| 11 | Amortization of deferred amounts of refunding | (313,687) |
| 12 | Accreted interest on long-term debt | 869,954 |
| 13 | Arbitrage expense | (1,189,128) |
| 14 | Compensated absences | (9,582) |
| 15 | Changes in net pension liabilities and related deferred inflows/outflows | (2,318,767) |
| 16 | Changes in net OPEB liabilities and related deferred inflows/outflows | 2,406,934 |
| 17 | Internal service funds are used by management to charge the costs of certain activities | |

to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities.

Note 1 - Summary of Significant Accounting Policies

A. Reporting Entity

The Crosby Independent School District (the District) is governed by a seven-member board of trustees (the Board), which has governance responsibilities over all activities related to public elementary and secondary education within the District. Members of the Board are elected by the public, have authority to make decisions, appoint management and significantly influence operations, and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity. The accompanying financial statements present the District.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government (the District). All fiduciary activities are reported only in the fund financial statements. Governmental activities normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

The **Debt Service Fund** is used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

The Capital Projects Fund accounts for the acquisition and construction of the District's major capital facilities.

Additionally, the District reports the following fund types:

The **Nonmajor Special Revenue Funds** are used to account for the proceeds of specific revenue sources (other than those identified as a major fund) that are restricted or committed to expenditures for specific purposes.

The *Internal Service Fund* is used to account for workers' compensation risk management services provided throughout the District on a cost-reimbursement basis.

The *Custodial Fund* accounts for assets held by the District for student organizations.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated.

Note 1 - Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources or economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements and fiduciary fund financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual basis* of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease and subscription-based technology arrangements (SBITA) liabilities, as well as expenditures related to compensated absences, claims and judgments, and postemployment benefits are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions, including entering into contracts giving the District the right-to-use assets and SBITA assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases and SBITAs are reported as other financing sources.

Interest associated with the current fiscal period is considered to be susceptible to accrual and has been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end).

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand and bank demand or time and savings deposits and short term, highly liquid investments with original maturities of three months or less from the date of acquisition.

Investments

Investments for the District, except for certain investment pools, are reported at fair value. The District's investments in pools are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method.

TexPool, Lone Star and LOGIC have a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity. The District also has a treasury money market fund with Wells Fargo that is classified as a cash equivalent investment with a redemption period of one day.

Note 1 - Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (continued)

Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". All interfund transactions are eliminated on the government-wide financial statements.

All property taxes receivable are shown net of any allowance for uncollectible. The property tax receivable allowance is equal to 4% of outstanding property taxes at June 30, 2024.

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets are tangible and intangible assets, which include buildings, building improvements, equipment, vehicles, right to use assets, and subscription-based information technology arrangements (SBITAs), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an estimated useful life more than one year and an initial, individual cost exceeding \$5,000.

As the District constructs or acquires capital assets each period, they are capitalized and reported at historical cost, except for intangible right-to-use lease and SBITAs. The measurement of the intangible right-to-use assets and SBITAs are discussed in their respective sections of this note. The reported value excludes normal maintenance and repairs, which are amounts spent in relation to capital assets that do not increase the asset's capacity or efficiency or increase its estimated useful life. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation. Intangible assets, excluding the intangible right-to-use assets and SBITAs, follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Land and construction in progress are not depreciated or amortized. The other capital asset classes are depreciated/amortized using the straight-line method over the following estimated useful lives or amortization term as defined below:

| Assets | Years |
|----------------------------|----------------------------------------------------------|
| Buildings and improvements | 5 to 50 years |
| Equipment and vehicles | 5 to 20 years |
| Right-to-use lease asset | Shorter of lease term or useful life of underlying asset |
| Subscription asset | Subscription term |

Note 1 - Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (continued)

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditures) until then. The District has two items that qualify for reporting in this category. They are deferred charge on bond refunding and deferred outflows related to TRS reported in the government- wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The item related to TRS represents the District's share of the unrecognized plan deferred outflow of resources which TRS uses in calculating the ending net pension and other post-employment benefit (OPEB) liabilities.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for this reporting category. The first item, unavailable revenue from property taxes, is reported only in the governmental funds balance sheet. Under the modified accrual basis of accounting, these amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other items related to TRS represents the District's share of the unrecognized TRS plan deferred inflows of resources which TRS uses in calculating the ending net pension and other post-employment benefit (OPEB) liabilities. A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused leave benefits. The term leave includes state personal days and state sick leave days. Payment for unused leave days accumulated will be made upon retirement (in accordance with guidelines established by the Teacher Retirement System of Texas) for all eligible employees. All sick pay is accrued when incurred for employees who are eligible for retirement and meet the District's eligibility guidelines in the government-wide financial statements. The District does not have a liability for unpaid vacation at year-end due to the District's policy does not allow a carryover of vacation days not taken by June 30.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted - net position to have been depleted before unrestricted net position is applied.

Net Position

Net position represents the difference between assets, deferred outflows (inflows) of resources and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Note 1 - Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (continued)

Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called "fund balance." The District's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes.

- Nonspendable fund balance represents amounts that are either not in a spendable form or are legally or
 contractually required to remain intact. If there is a constraint on how the eventual proceeds can be spent, the fund
 balance is classified to reflect that constraint (restricted, committed, or assigned), rather than included as part of
 nonspendable fund balance.
- Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external
 resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or
 lifted only with the consent of the resource providers.
- Committed fund balance represents amounts that can be used only for the specific purposes determined by of the
 adoption of an ordinance committing fund balance for a specified purpose by the District's Board of Trustees prior
 to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the
 resources have been spent for the specified purpose or the Board adopts another ordinance to remove or revise the
 limitation.
- Assigned fund balance represents amounts that are intended to be used by the District for specific purposes but do
 not meet the criteria to be classified as committed. The Board has authorized the Superintendent, or designee, to
 assign fund balance. The Board may also assign fund balance, as it does when appropriating fund balance to cover a
 gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike
 commitments, assignments generally only exist temporarily. In other words, an additional action does not normally
 have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential
 to either remove or revise a commitment.
- Unassigned fund balance represents the residual amount for the general fund that is not contained in the other
 classifications. The general fund is the only fund that reports a positive unassigned fund balance. Additionally, any
 deficit fund balance within the other governmental fund types is reported as unassigned.

In the general fund, the District intends to maintain a minimum fund balance of 12.5% of the District's general fund annual operating expenditures. If a fund balance drops below 5%, the District plans to recover at a rate of 1% minimally, each year.

Pension

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Note 1 - Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (continued)

Leases and Subscription-Based Information Technology Arrangements (SBITAs)

The District is under contract for various leases for the right to use equipment and various SBITAs for the right to use subscription assets (software). The leases/SBITAs are noncancellable, and the District recognizes a long-term liability and an intangible right to use the assets in the government-wide financial statements. The District recognizes lease/SBITA liabilities with an initial, individual value of \$5,000 or more.

At the commencement of the lease/SBITA, the District initially measures the lease/SBITA liability at the present value of payments expected to be made during the lease/SBITA term. Subsequently, the liability is reduced by the principal portion of payments made. The right to use lease/SBITA asset is initially measured as the sum of (1) the initial liability amount, (2) payments made to the lease/SBITA vendor before commencement of the term, and (3) capitalizable implementation costs, less any incentives received from the vendor at or before the commencement of the term. Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected payments to present value, (2) lease/SBITA term, and (3) lease/SBITA payments.

- The District uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate.
- The term includes the noncancellable period of the lease/subscription and payments included in the measurement of
 the liability are composed of fixed payments and purchase option price that the District is reasonably certain to
 exercise.

The District monitors changes in circumstances that would require a remeasurement of its leases/SBITAs and will remeasure the applicable asset and liability if certain changes occur that are expected to significantly affect the amount of the liability. Lease/SBITA assets are reported with other capital assets and lease/SBITA liabilities are reported with long-term debt on the statement of net position.

E. Revenues and Expenditures/Expenses

Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes

Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Revenues and Expenditures/Expenses

Data Control Codes

The Data Control Codes refer to the account code structure prescribed by Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. TEA requires school districts to display these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide data base for policy development and funding plans.

F. Implementation of New Standards

GASB issued Statement No. 99, *Omnibus 2022*, in April 2022. This Statement was issued to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements and accounting and financial reporting for financial guarantees. The requirements of this statement had various effective dates and specific provisions were implemented prior to fiscal year 2024. The remaining requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The remaining requirements of this statement were implemented in fiscal year 2024 and did not have a material impact on the financial statements.

GASB issued Statement No. 100, Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62, in June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The requirements of this statement were implemented in fiscal year 2024 and did not have a material impact on the financial statements.

GASB issued Implementation Guide 2021-1, Implementation Guidance Update – 2021, in May 2021. The primary objective of this Implementation Guide is to provide guidance that clarifies, explains, or elaborates on GASB Statements. The requirements of this Implementation Guide had various effective dates and specific provisions were implemented prior to fiscal year 2024. The remaining requirement, an amendment to Question 7.9.8 in Implementation Guide 2015-1 effective for reporting periods beginning after June 15, 2023, requires governments to capitalize assets whose individual acquisition costs are less than the threshold for an individual asset if those assets in the aggregate are significant. The requirements of this statement were implemented in fiscal year 2024 and did not have a material impact on the financial statements.

GASB issued Implementation Guide 2023-1, *Implementation Guidance Update – 2023*, in June 2023. The primary objective of this Implementation Guide is to provide guidance that clarifies, explains, or elaborates on GASB Statements. This Implementation Guide amends Implementation Guide No. 2019-3, *Leases*, Question 4.16, and Implementation Guide No. 2021-1, *Implementation Guidance Update—2021*, Question 4.13. The requirements of this Implementation Guide are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The requirements of this Implementation Guide were implemented in fiscal year 2024 and did not have a material impact on the financial statements.

Note 2 - Deposits and Investments

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The irrevocable standby letter of credit which complies with state law is in favor of the District. The letter of credit shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The irrevocable standby letter of credit is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Cash deposits of the District include all amounts deposited at the District's depository bank, including demand deposits, money market and certificates of deposit. The District's cash deposits at June 30, 2024 were entirely covered by FDIC insurance or by an irrevocable standby letter of credit in favor of the District.

Investments

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. State law and District policy limits credit risk by allowing investing in 1) Obligations of the United States or its agencies which are backed by the full faith and credit of the United States, obligations of the State of Texas or its agencies, counties, cities and other political subdivisions of any state rated as to investment quality by a nationally recognized statistical rating organization (NRSRO) not less than A or its equivalent; 2) Certificates of deposit issued by a broker or depository located in Texas which is insured by the FDIC or purchased through a broker who has an office located in Texas; 3) Fully collateralized repurchase agreements secured by obligations of the United States or its agencies not to exceed 90 days to maturity from the date of purchase; 4) Securities lending program as permitted by Government Code 2256.0115; 5) Bankers acceptances with a stated maturity of 270 days or fewer which are eligible for collateral for borrowing from a Federal Reserve Bank; 6) Commercial paper if it has a stated maturity of 270 days or fewer from the date of its issuance and is rated not less than A-1 or P-1 or an equivalent rating by at least: two nationally recognized credit rating agencies or one nationally recognized agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state; 7) No-load money market mutual funds which shall be registered with the Securities and Exchange Commission and have an dollar-weighted average stated maturity of 90 days or fewer; 8) No-load mutual funds which shall be registered with the Securities and Exchange Commission, have an average weighted maturity of less than two years, include investments that comply with the Public Funds Investment Act and are continuously rated not less than AAA by at least one NRSRO; 9) A guaranteed investment contract (for bond proceeds only) which meets the criteria and eligibility requirements established by the Public Funds Investment Act; 10) Public funds investment pools which meet the requirements of the Public Funds Investment Act.

Note 2 - Deposits and Investments (continued)

Credit Risk

For fiscal year 2022, the District invested in TexPool, Lone Star, Texas Class and LOGIC. TexPool is duly chartered and administered by the State Comptroller's Office. Lone Star Investment Pool is duly charted by the State of Texas Interlocal Cooperation Act and is administered by First Public, LLC, formerly the Texas Association of School Boards Financial Services. LOGIC is administered by First Southwest, a division of Hilltop Securities, and J.P. Morgan Investment Inc. Texas Class is administered by Public Trust Advisors, LLC with UMB Bank, N.A. as Custodian. The Treasury Money Market Fund is administered by Wells Fargo. The credit rating for these investment pools are noted in the preceding table.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis and specific identification. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of any internally created pool to no more than 180 days, and any individual investment not to exceed one year, unless specifically authorized by the Board of Trustees.

Concentration of Credit Risk

The District's investment policy does not limit an investment in any one issuer. The investment portfolio shall be diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from overconcentration of assets in a specific class of investments, specific maturity, or specific issuer.

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. District policy requires investments to be in the District's name or held by the District's agent in the District's name. The District is not exposed to custodial risk due to the investments are insured or registered, or securities held by the District or its agent in the District's name.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one-half of one percent of the value of its shares.

Restricted Cash and Cash Equivalents

The District has restricted cash and cash equivalents in the amount of \$6,712,985 as of June 30, 2024 which are restricted for the purpose of future debt requirements of the Qualified School Construction Maintenance Tax Notes.

Note 3 - Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. Property tax revenue is considered available (1) when it becomes due or past due and receivable within the current period and (2) when it is expected to be collected during a 60-day period after the close of the school fiscal year.

Allowances for uncollectible tax receivables within the General Fund and Debt Service Fund are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Note 4 - Receivables

Receivables as of year-end for the District's individual and nonmajor funds, including the applicable allowances for uncollectible amounts, are as follows:

The current requirements for tax notes principal and interest expenditures are accounted for in the general fund. Compensated absences liabilities are generally paid from the general fund and appropriate special revenue funds.

The District's outstanding bonds payable contain a provision that in an event of default, outstanding amounts will be paid from the corpus of the Texas Permanent School Fund. The District's outstanding tax notes contain a provision that in an event of default, outstanding amounts become immediately due.

Note 7 - Long-term Liabilities (continued)

Current Year Activity

The District issued \$83,100,000 of Unlimited Tax School Building Bonds, Series 2023 in April 2023. The bonds were issued with a net premium of \$4,212,996 and will be used for designing, constructing, renovating, improving, acquiring and equipping school facilities, the purchase of the necessary sites for school facilities, and the purchase of new school buses.

General Obligation Bonds

The District issues general obligation bonds to provide funds for the construction and equipment of school buildings (BLDG), school buses and to refund general obligation bonds (REF).

General obligation bonds are direct obligations and pledge the full faith and credit of the District. These bonds are issued as current interest bonds (CIB) with various amounts of principal maturing each year. Rates may be fixed or variable. The following is a summary of changes in the general obligation bonds for the fiscal year ended June 30, 2024:

Defeased Bonds Outstanding

As of June 30, 2024, there were no defeased bonds outstanding.

Arbitrage

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five-year anniversary date of the bond issue. The District has estimated that it has an arbitrage liability in the amount of \$1,189,128 as of June 30, 2024.

Tax Notes

The District issued maintenance tax notes as current interest notes to provide funds for capital improvements and equipping facilities. The maintenance tax notes are secured by the proceeds of a continuing direct annual ad valorem tax levied for maintenance. The following is a summary of changes in the tax notes for the fiscal year ended June 30, 2024:

Note 8 - Assigned Fund Balance

Fund balances in the General Fund as of June 30, 2024 were assigned by management in the amount of \$12,150,000 for the following purposes:

| Amount | Purpose |
|------------------|-----------------------------------|
| \$ 1,000,000 | Stadium turf |
| 3,550,000 | Safety and security upgrades |
| 7,600,000 | Other future capital improvements |
| \$ 12,150,000 | |

Note 9 - Risk Management

Property/Liability

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and natural disasters. The District purchases commercial insurance to cover these general liabilities. There were no significant reductions in coverage in the current fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Health Insurance

During the fiscal year ended June 30, 2024, employees of the District were covered by TRS-Active Care (the Plan), a statewide health coverage program for Texas public education employees implemented by the Teacher Retirement System of Texas (TRS). The District's contribution of \$150 per month is combined with the state contribution of \$75 per month per participating employee to be used for healthcare coverage premiums. Employees, at their option, authorized payroll deductions to pay remaining premium amounts. All premiums were paid to the TRS.

Workers' Compensation

The District established a new limited risk management program for workers' compensation in 2016, replacing the previously established program, by participating as a self-funded member of the Texas Public Schools Workers' Compensation Project (Pool). The Pool was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and Chapter 504, Texas Labor Code. As a self-funded member of the Pool, the District is solely responsible for all claim's costs, both reported and unreported. A third-party administrator provides administrative services to its self-funded members including claims administration and customer service. Premiums are paid into an internal service fund by the other funds and are available to pay claims, claim reserves, and administrative costs of the program.

Note 9 - Risk Management (continued)

Workers' Compensation (continued)

Liabilities of the fund are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities also include an estimated amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from stop-loss or subrogation, are another component of the claims liability estimate. The Texas Public Schools Workers' Compensation Project limits the Pool's liability to \$350,000 per occurrence with a maximum aggregate exposure of \$5,000,000. Settlements have not exceeded coverages for each of the past three fiscal years and there were no significant reductions in insurance coverage from the prior year. Changes in the balances of claims liabilities during the current fiscal year and two prior fiscal periods are as follows:

| Fiscal | scal Beginning of | | Cui | Current Year | | Claims | End of Year | | |
|----------|-------------------|------------|-----|---------------------|----|-----------|-------------|---------|--|
| Year | Ye | ar Accrual | E: | Estimates | | Payments | | Accrual | |

| 2023 | | 209,150 | | - | | (2,385) | | 206,765 | |
| 2022 | | 212,549 | | 269,724 | | (273,123) | | 209,150 | |

Note 10 - Litigation and Contingencies

The District participates in a number of federal and state financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Single Audit Act through June 30, 2024, these programs are subject to financial and compliance audits by the grantor agencies. The District is also subject to audit by the TEA of the attendance data upon which payments from the agency are based. These audits could result in questioned costs or refunds to be paid back to the granting agencies.

Note 11 - Defined Benefit Pension Plan

Plan Description

The District participates in a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_publications.aspx, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Note 11 - Defined Benefit Pension Plan

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the TRS actuary.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

| | Contribution Rates | | | | |

| Employee (Member) | | 3,940,704 | | |
| Non-employer Contributing Entity | | | | |
| On-behalf Contributions (State) | | 2,382,582 | | |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

Note 11 - Defined Benefit Pension Plan (continued)

Contributions (continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is a surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.8% of the member's salary beginning in fiscal year 2023, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions

The total pension liability in the August 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

| Component | Result |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Valuation Date | August 31, 2022, rolled forward to August 31, 2023 |
| Actuarial Cost Method | Individual Entry Age Normal |
| Asset Valuation Method | Fair Value |
| Single Discount Rate | 7.00% |
| Long-term Expected Rate | 7.00% |
| Municipal Bond Rate as of August 2020 | 4.13% - The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" |
| Last year ending August 31 in Projection Period (100 years) | 2122 |
| Inflation | 2.30% |
| Salary Increases | 2.95% to 8.95% including inflation |
| Benefit changes during the year | None |
| Ad hoc post-employment benefit changes | None |

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the actuarial valuation report dated November 22, 2022.

Note 11 - Defined Benefit Pension Plan (continued)

Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.50% of payroll in fiscal year 2024 increasing to 9.56% in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2023 are summarized below:

| | | Long-Term Expected | Expected Contribution to |
|--------------------------------------------|-------------------------|-----------------------------|-----------------------------|

Discount Rate Sensitivity Analysis

The following table presents the District's proportional share of the Net Pension Liability of the plan using the discount rate of 7.00%, and what the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

| | Discount Rate | | | | | |
|--------------------------------------|------------------------|------------|-------------------------|------------|------------------------|------------|
| | 1% Decrease (6.00%) | | Current Rate (7.00%) | | 1% Increase (8.00%) | |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

On June 30, 2024, the District reported a liability of \$25,659,546 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability | \$ 25,659,546 |
|------------------------------------------------------------------------|------------------|
| State's proportionate share that is associated with the District | 29,895,865 |
| Total | \$ 55,555,411 |

The net pension liability was measured as of August 31, 2022 and rolled forward to August 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

On August 31, 2023, the employer's proportion of the collective net pension liability was 0.0374% which was a decrease of 0.0011% from its proportion measured as of August 31, 2022.

Changes in Assumptions and Benefits Since the Prior Actuarial Valuation

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which will be paid in January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

Note 11 - Defined Benefit Pension Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2024, the District recognized pension expense of \$4,504,875. The District also recognized onbehalf pension expense and revenue of \$4,514,017 for support provided by the State.

On June 30, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| DC | Deferred Inflows | |
|----|------------------|--|
| | of Resources | |
| \$ | (310,709) | |
| | (593,915) | |
| | | |
| | - | |
| | | |
| | (942,553) | |
| | | |
| \$ | (1,847,177) | |
| • | | |

The deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| | | Bal | ance of Deferred |
|-------------|-----------------|-----|-------------------|
| Fiscal Year | Pension Expense | Οι | ıtflows (Inflows) |
| 2025 | \$ 1,218,547 | \$ | 5,005,503 |
| 2026 | 766,497 | | 4,239,006 |
| 2027 | 3,234,784 | | 1,004,222 |
| 2028 | 973,050 | | 31,172 |
| 2029 | 31,172 | | - |
| | \$ 6,224,050 | | |

The District will continue to make the required pension contributions based on the statutorily determined rates established by the Teacher Retirement System of Texas (TRS). TRS will apply the District's contributions to the Net Pension Liability on an annual basis. The contributions are paid by the funds that pay the employees' salaries. These funding sources include the General Fund and Special Revenue funds.

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing, defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

Note 11 - Defined Benefit Pension Plan (continued)

OPEB Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_publications.aspx, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

| TRS-Care M | onthly | Premium | Rates |
|------------|--------|---------|-------|
|------------|--------|---------|-------|

| • | Me | dicare | Non-Medicare | | |
|------------------------------------------|----|--------|--------------|-----|--|
| Retiree or Surviving Spouse | \$ | 135 | \$ | 200 | |
| Retiree and Spouse | | 529 | | 689 | |
| Retiree or Surviving Spouse and Children | | 468 | | 408 | |
| Retiree and Family | | 1,020 | | 999 | |

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers based on active employee compensation. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75% of each active employee's pay for fiscal year 2023. The following table shows contributions to the TRS-Care plan by type of contributor.

| | Contribution Rates | | | | |
|----------------------------------|--------------------|--------------------|--|--|--|
| | September 1, 2023 | September 1, 2022 | | | |

| Employers | 0.75% | 0.75% | | | |
| Federal/private funding | 1.25% | 1.25% | | | |

Note 11 - Defined Benefit Pension Plan (continued)

Contributions (continued)

| | Current Fiscal Year | | |
|----------------------------------|----------------------------|---------|--|
| | Contributions | | |
| Employer (District) | \$ | 421,735 | |
| Employee (Member) | | 312,007 | |
| Non-employer Contributing Entity | | | |
| On-behalf Contributions (State) | | 811,073 | |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to. When hiring a TRS retiree, employers are required to pay TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2023. The actuarial valuation was determined using the following actuarial assumptions:

| Component | Result |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Valuation Date | August 31, 2022, rolled forward to August 31, 2023 |
| Actuarial Cost Method | Individual Entry Age Normal |
| Inflation | 2.30% |
| Single Discount Rate | 4.13% as of August 31, 2023 |
| Aging Factors | Based on plan specific experience |
| Expenses | Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs. |
| Projected Salary Increases | 2.95% to 8.95% including inflation |
| Healthcare Trend Rates | The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non- |
| | Medicare retirees. The initial prescription drug trend was 7.75% for all retirees. |
| | The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of |
| Election Rates | 12 years. Normal Retirement: 62% participation rate prior to age 65 and 25% participation |
| | rate after age 65. |
| | Pre-65 retirees: 30% of pre-65 retirees are assumed to discontinue coverage at age |
| | 65. |
| Ad hoc post-employment benefit changes | None |

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023: (a) Rates of Mortality, (b) Rates of Retirement, (c) Rates of Termination, (d) Rates of Disability, (e) General Inflation, and (f) Wage Inflation.

Note 11 - Defined Benefit Pension Plan (continued)

Actuarial Assumptions (continued)

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Discount Rate

A single discount rate of 4.13% was used to measure the total OPEB liability. There was an increase of 0.22% in the discount rate since the previous year.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2023 using the Fixed Income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (4.13%) in measuring the Net OPEB Liability.

| | Discount Rate | | | | | |

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

On June 30, 2024, the District reported a liability of \$10,144,028 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the collective net OPEB liability | \$ 10,144,028 |
|---------------------------------------------------------------------|------------------|
| State's proportionate share that is associated with the District | 12,240,329 |
| Total | \$ 22,384,357 |

The Net OPEB Liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the District's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

On August 31, 2023 the District's proportion of the collective Net OPEB Liability was 0.0458% which was a decrease of 0.0021% from its proportion measured as of August 31, 2022.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (continued)

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed healthcare cost trend rate:

| | Healthcare Cost Trend Rate | | | | | |

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

• The single discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Changes of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2024, the District recognized negative OPEB expense of \$1,982,441. The District also recognized negative on-behalf OPEB expense and revenue of \$2,616,724 for support provided by the State.

On June 30, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

Deferred Outflows of Deferred Inflows

| | Deferred Outflows of | | Dei | Deterred inflows | |

Note 12 - Defined Other Post-Employment Benefit Plan (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (continued)

The deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | OPEB Expense | Balance of Deferred |
|-------------|-----------------|---------------------|
| Fiscal Year | Amount | Outflows (Inflows) |
| 2025 | \$ (2,826,768) | \$ (10,197,414) |

| 2029 | (1,559,622) | (2,307,636) |
| Thereafter | (2,307,636) | - |
| | \$ (13,024,182) | |

The District will continue to make the required OPEB contributions based on the statutorily determined rates established by the Teacher Retirement System of Texas (TRS). TRS will apply the District's contributions to the Net OPEB Liability on an annual basis. The contributions are paid by the funds that pay the employees' salaries. These funding sources include the General Fund and Special Revenue funds.

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective. January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended June 30, 2024, 2023, and 2022, the subsidy payments received by TRS-Care on-behalf of the District were \$272,759, \$246,847, and \$185,194, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds' financial statements of the District.

CROSBY INDEPENDENT SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

A. Budgets and Budgetary Accounting

The District adopts annual appropriations type budgets for the General Fund, Child Nutrition Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund, Child Nutrition Fund, and Debt Service Fund during the fiscal year ended June 30, 2024.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by June 30, 2024. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

B. Expenditures in Excess of Appropriations

The District had expenditures in excess of appropriations for the following functions within the General Fund:

| | Amount |
|----------------------------------------------|---------|
| Guidance, counseling and evaluation services | 8,191 |
| Debt service | 151.340 |

The District was under-budget for total expenditures in the General Fund by \$4,034,242.

Changes of Assumptions

Measurement Year 2018: The discount rate changed from 8.0% as of August 31, 2017 to a blended rate of 6.907% as of August 31, 2018. The long-term assumed rate of return changed from 8.0% as of August 31, 2017 to 7.25% as of August 31, 2018. Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.

Measurement Year 2020: The state and employer contribution rate changed from 6.8% to 7.5%. The 1.5% public education employer contribution applied to just employers whose employees were not covered by OASDI in 2019 and it changed in 2020 to apply to all public schools, charter schools and regional education centers irrespective of participation in OASDI.

Measurement Year 2021: The public education employer contribution rate changed from 1.5% in 2020 to 1.6% in 2021.

Measurement Year 2022: The discount rate changed from 7.25% to 7.00%.

Measurement Year 2023: None.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Crosby Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Crosby Independent School District (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon dated November 18, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Board of Trustees Crosby Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Crosby Independent School District

Report on Compliance for Each Major Federal Program

Opinion On Each Major Program

We have audited Crosby Independent School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion On Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (GAS); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, GAS, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, GAS, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

To the Board of Trustees Crosby Independent School District

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Note 1 - Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General and Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

All federal grants are subject to review by the grantor agencies. Any expenditures identified by the grantor agencies as disallowed could require reimbursement to the grantor agency from the District's general fund.

Note 2 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2024. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 3 - Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per Exhibit K-1 and expenditures reported on Exhibit C-2:
