

### Kindergarten Oral Health Assessment Form

California law (*Education Code* Section 49452.8) says every child enrolled in kindergarten in a public school, and any child enrolled in first grade who did not attend public school the previous year, must have a dental check-up (assessment). It should be turned in at the **beginning of the school year**. A California licensed dental professional must do the check-up and fill out Sections 2 and 3 of this form. If your child had a dental check-up in the last 12 months, ask your dentist to fill out Sections 2 and 3. If you are unable to get a dental check-up for your child, fill out the separate Waiver of Oral Health Assessment Requirement Form.

This assessment will let you know if there are any dental problems that need attention by a dentist. This assessment will also be used to evaluate our oral health programs. Children need good oral health to speak with confidence, express themselves, be healthy, and ready to learn. Poor oral health has been related to lower school performance, poor social relationships, and less success later in life. For this reason, we thank you for making this contribution to the health and well-being of California's children.
