STEPHANIE S. ELIZALDE, ED.D. SUPERINTENDENT OF SCHOOLS

November 21, 2024

To the Board of Trustees and the Citizens of the Dallas Independent School District:

The Texas Education Code requires that all school districts file a set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited by a Texas certified public accountant in accordance with generally accepted auditing standards. Accordingly, the District issues the Annual Comprehensive Financial Report (ACFR) for Dallas Independent School District (the "District" or "Dallas ISD") for the fiscal year ended June 30, 2024.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. As such, this financial report is complete and reliable in all material respects. Management has established a comprehensive framework of internal controls to provide a reasonable basis for asserting that the financial statements are fairly presented.

The financial statements of the District have been audited by Weaver and Tidwell, LLP, a firm of certified public accountants licensed in Texas. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2024 are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Weaver and Tidwell, LLP concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the year ended June 30, 2024 are fairly presented in conformity with GAAP. Weaver and Tidwell, LLP's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is accompanied by a federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports may be found in the compliance section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Board of Trustees and the Citizens of the Dallas Independent School District Page 2 November 21, 2024

THE DISTRICT PROFILE

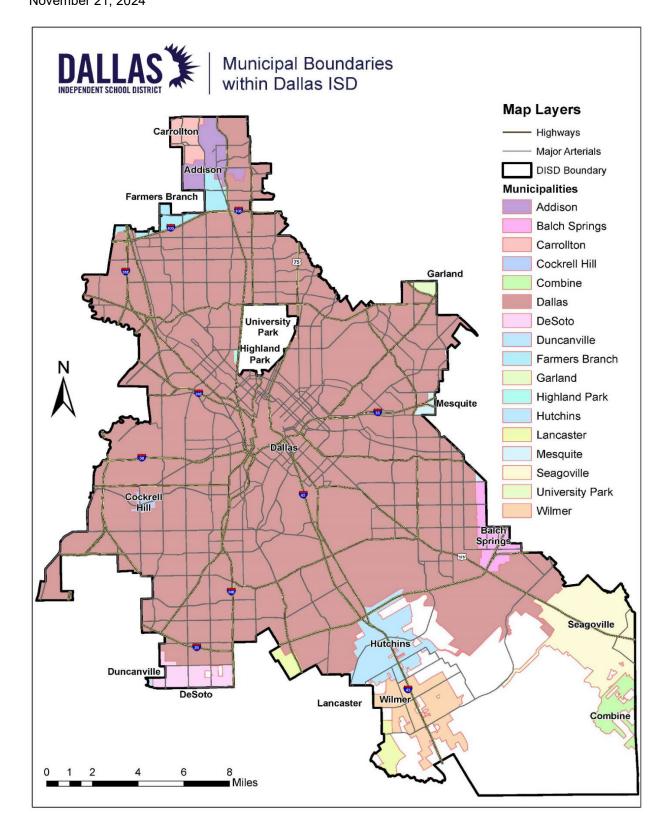

Dallas ISD is an independent public school district operating under applicable laws and regulations of the State of Texas, providing a full range of educational services appropriate to grade levels prekindergarten through grade 12. The District is the second-largest public school district in Texas, and one of the largest districts in the nation in terms of enrollment. The District sits in the heart of the large, diverse and dynamic Dallas-Fort Worth (DFW) metropolitan area, which has a population of approximately 7.9 million people. The District comprises 384 square miles and encompasses all or portions of the municipalities of Dallas, Addison, Balch Springs, Carrollton, Cockrell Hill, Combine, DeSoto, Duncanville, Farmers Branch, Garland, Highland Park, Hutchins, Lancaster, Mesquite, Seagoville, University Park, and Wilmer. In the 2023-2024 school year, the District served an ethnically and culturally diverse enrollment of 139,584 students in 240 schools. The ethnic composition was approximately 71.5% Hispanic, 19.6% African American, 5.5% White, 1.3% Asian, and 2.2% other ethnicities. Dallas ISD had 22,857 total staff in 2023-2024.

The District serves its diverse student population in both traditional and alternative classroom settings. The District is dedicated to providing every student the best possible education through an intensive core curriculum and specialized, challenging instructional and career programs. The District provides a full range of programs and services for its students, including elementary and secondary courses for general, vocational, and college preparatory levels, as well as vanguard, academy, magnet, and gifted and talented programs. Academic programs are supplemented by a variety of co-curricular and extracurricular activities. In addition to the regular educational programs, the District offers programs in career and technology, special education, gifted and talented, bilingual, compensatory, and adult education.

The District has no component units. The Dallas Education Foundation (DEF) is an independent not-for-profit organization founded in 2006 for charitable and education purposes to benefit the District. The DEF receives funds from individuals, corporations, and foundations in support of programs and initiatives to accomplish key District priorities. Since 2013, the District has not considered the DEF a component unit as it does not meet the significance criterion under Governmental Accounting Standards Board (GASB) 39, as the economic resources received or held by the DEF are not significant to the District.

Several charter schools serve the same population that Dallas ISD serves. These charter schools receive their charters from the state and are separate and apart from Dallas ISD. The District competes with these charter schools for the same students. Like Dallas ISD, these charter schools receive state funding based on their Average Daily Attendance and special population counts. However, unlike Dallas ISD, they do not have the ability to levy local property taxes. As such, relative to Dallas ISD, these charter schools are generally more heavily dependent on state revenues for their Maintenance and Operations funding.

Serving without compensation, board members establish the policies by which the District operates. The Board of Trustees (the "Board") has final control over local school matters, limited only by the state legislature, by the courts, and by the will of the people as expressed in school board elections. Board decisions are based on majority vote of those present. In general, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District. Trustees are charged with numerous statutory regulations, including calling trustee and other school elections and canvassing the results, organizing the Board, and electing its officers. The Board is also responsible for setting the tax rate, acting as board of appeals in personnel and student matters, confirming recommendations for textbook adoptions, and adopting and amending the annual budget. The Board adopts the District's vision and mission statements. The District's vision is "Dallas ISD seeks to be a premier urban school district," and the mission is "Educating all students for success."

Board of Trustees and the Citizens of the Dallas Independent School District Page 4 November 21, 2024

The District administration is responsible for establishing and maintaining an internal control structure designed to ensure assets of the District are protected from loss, theft or misuse, and to ensure adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes: (1) the cost of control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives. As a recipient of federal, state, and local grants, the District is also responsible for an adequate internal control structure that ensures compliance with applicable laws and regulations related to these grants. All funded grants are subject to testing as part of the District's Single Audit. The internal control structure is subject to periodic review by management.

Every school district in Texas is required, by law, to prepare and file a budget with the Texas Education Agency (TEA). The General Fund, Food Service Fund, and Debt Service Fund are included in the District's formally adopted budget and are adopted at the fund and function level. Budgets for Special Revenue Funds (other than the Food Service Fund) and Capital Projects Funds are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control over expenditures is maintained at the functional category level within each fund. These functional categories are defined by TEA and identify the purpose of transactions. Oversight control of all expenditures is maintained at this level by the Finance and Accounting staff. Budgetary control is also maintained through the preapproval of personnel transactions and the encumbrance of estimated purchase amounts and other expenditures after the execution of contracts. Obligations that will result in an overrun of appropriated funds are not released until additional appropriations are made available.

The annual budget process is designed to efficiently allocate resources based upon the needs of students and to support the District's goals. The budget process consists of two phases: planning and preparation. The planning phase begins with the District goals set by the Board. District leadership develops the District improvement plan for all District organizations that support the District goals. The planning period usually occurs from September through January. Preparation begins in early January. During this phase, budgetary resource allocations are distributed to campuses based on enrollment projections, and budgets are distributed to non-campus (central) organizations. Campus position and non-position budget allocations are formula-driven and applied against enrollment projections. Campus non-position general operating allocations are driven by pre-determined allocations and are dependent on enrollment, specific programs and District initiatives. Non-campus allocations (central organizations) are primarily based on previous year allocations. Adjustment requests are determined by divisional chiefs and are prioritized based on District need. Progress updates are provided to the Board throughout the budget development process, and the Board formally adopts the annual budget by June 30.

Board of Trustees and the Citizens of the Dallas Independent School District Page 5 November 21, 2024

THE ECONOMIC CONDITION OF THE DISTRICT

THE LOCAL ECONOMY

The DFW economy is one of the most diverse regional economies in the nation. According to the Dallas Regional Chamber, leading industries in terms of percentage of overall employment include trade, transportation, and utilities (20.7%), professional and business services (20.6%), public administration including education (12.4%), health services (9.8%), leisure and hospitality (9.6%), manufacturing (6.9%), and financial activities (6.3%). Numerous corporations and nonprofits locate their headquarters in DFW. Each year additional corporations elect to relocate their headquarters to DFW, bringing additional jobs and growth to the local economy.

During 2023-2024, the local economy continued to experience low unemployment and continued growth in employment and wages. According to the Federal Reserve Bank of Dallas (Dallas Fed), as of August 2024 the DFW unemployment rate was 3.9%, which was below the state's jobless rate of 4.1%. In the quarter ended August 2024, DFW employment rose an annualized 1.3%, marginally slower than the state's 1.6% increase. For the twelve months ended August 2024, average hourly earnings had grown 1.6% to \$34.57. According to the Dallas Chamber of Commerce, the consumer price index was 4.1% as of July 2024.

Housing in DFW during 2023-2024 was marked by a continuation of elevated home prices driven by low inventories and high interest rates. As of August 2024, the inventory for existing single-family homes was low at 3.5 months of supply, well below the six-month benchmark for a normal market. Year over year, home prices were up 3.9% in Dallas, slightly lower than the nation's 5.7% increase. Homebuilding activity buoyed the DFW area's supply of new homes for sale, keeping price appreciation somewhat muted. Multifamily building construction was elevated compared with historical levels, with the DFW metroplex ranking among the busiest large U.S. metros in apartment construction.

Overall, the local economy is expected to have positive prospects for future economic growth given the region's ability to attract diverse corporate interests and populations.

LONG-TERM FINANCIAL PLANNING

The District's multi-year forecast for the General Fund was last updated in June 2024. Key revenue assumptions included 4.0% property value growth, an average Maintenance and Operation (M&O) tax rate of \$.75963 per \$100 of value, and an average annual drop in enrollment of 1,912 through 2025-2026. The forecast showed little revenue growth largely driven by state-required tax rate compression, with 2026-2027 revenues totaling only \$1.718 billion. The forecast showed expenditures growing to \$1.820 billion by 2026-2027. The forecast projected General Fund annual deficits for the next three years, including a projected deficit of \$102 million in 2026-2027. Local revenue was projected to comprise a widening percentage of total revenue relative to state revenue, and expenditures were anticipated to include sizable state recapture payments of up to \$80 million annually. Total fund balance was projected to decline to \$291 million by 2026-2027. A portion of the decline was assigned fund balance set aside for the continuation of programs after the exhaustion of federal emergency relief funding.

Although the District budgets conservatively, total taxable values increased by 10.0% in 2024 and enrollment increased by over 3,000 students above budgeted projections for the 2024-25 school year. Also, despite projecting a \$186 million deficit budget for 2023-24 school year, the district ended the year adding \$28.7 million to the fund balance. The district also anticipates reducing its overall deficit for the 2024-25 school year.

Board of Trustees and the Citizens of the Dallas Independent School District Page 6 November 21, 2024

Regarding federal revenue in the General Operating Fund, the District projects to continue to add the Build America Bonds (BABs) and Qualified School Construction Bonds (QSCBs) rebates to the General Operating Fund revenues. The BABs and QSCBs subsidies end in 2035 and 2033, respectively. BABs and QSCBs are taxable municipal bonds that carry special tax credits and federal subsidies for either the bond issuer or the bondholder. There is flexibility to deposit the BABs tax rebate into the General Operating Fund or the Interest and Sinking (I&S) Fund. Management made the decision to recognize the BABs subsidy rebate in the General Fund.

In federal programs, the District has received funding authorization under the American Rescue Plan (ARP), also known as ESSER III. The District expects to receive reimbursement on eligible expenditures during the eligibility period of the federal award which ends September 2024. The District continues to seek to obtain reimbursements for coronavirus-related expenditures through other, smaller federal programs.

The District continues to invest in the renovation and replacement of aging District facilities and equipment. For context, the average age of all school buildings in 2023-2024 was 54.0 years. The District has typically pursued these improvements through voter-approved bond referendums. Recent major bond programs are summarized below.

Voters approved a \$1.6 billion bond referendum on November 3, 2015. The 2015 Bond Program includes plans to construct five new schools, including one high school and four elementary schools. In addition, the program will construct 12 additions to existing schools, including six high schools, one middle school, and five elementary schools. The program includes renovations and improvements to 128 existing District facilities including roofs, HVAC, building envelopes, interior improvements, site improvements, exterior façade improvements, plumbing, technology, gyms, locker rooms, libraries, science labs, cafeterias, auditoriums, performing arts, fine arts, and athletic facilities, and administration areas in schools. The District's 2015 Bond Program also includes \$100 million for technology improvements to campuses.

On November 6, 2018, voters approved a \$75 million bond proposition for the purchase of approximately \$53 million of new buses to replenish the District's current fleet inherited from Dallas County Schools as well as vehicles to support transportation services. The District is actively making such periodic replacement bus purchases. The remaining \$22 million will be used to renovate the student transportation service centers.

On November 3, 2020, voters approved two bond propositions totaling \$3.542 billion. The main general-purpose proposition was for \$3.272 billion for the construction, acquisition, and equipment of school buildings and for the purchase of necessary sites for school buildings. The main proposition includes projects at more than 200 of the District's campuses. Voters also approved a special proposition for \$270 million for the acquisition and updating of District technology equipment.

RELEVANT FINANCIAL POLICIES

The Board has adopted a local fund balance policy to maintain a fund balance in which the year-end unassigned fund balance finances three months of operating expenditures. As of June 30, 2024, the General Fund unassigned fund balance was \$675.0 million. This met the fund balance policy goal, as the 2024-2025 Adopted Budget includes \$1.9 billion of operating expenditures, and three-twelfths of this total is \$472.4 million. As of June 30, 2024, the General Fund ending unassigned fund balance was sufficient to finance approximately 4.3 months of operating expenditures.

The Board considered key compensation priorities in adopting the District's 2024-2025 General Operating Budget. Those priorities included: 1) ensuring market competitive starting salaries with opportunities for annual salary increases, 2) a \$16.50 minimum hourly wage focused on support and operations staff, 3) strategic compensation for teachers, principals, assistant principals, and principal supervisors to reward effectiveness, 4) and high priority stipends as a performance incentive for highly effective employees at high priority campuses.

Board of Trustees and the Citizens of the Dallas Independent School District Page 7 November 21, 2024

AWARDS AND ACKNOWLEDGMENTS

AWARDS

The District continues to earn recognition for strong financial management and to receive awards for financial reporting and budget presentation.

The FIRST (Financial Integrity Rating System of Texas) program is a financial accountability system for Texas school districts developed by the Texas Education Agency in response to Senate Bill 875 of the 76th Texas Legislature in 1999. FIRST measures and rates districts' financial performance, toward the dual goals of improving the quality of Texas school districts' financial management practices and encouraging districts to provide the maximum possible allocation of district resources toward direct instructional purposes. Dallas ISD was rated "Superior" for 2023-2024. The rating of Superior is the highest possible rating and demonstrates the soundness of Dallas ISD's financial management practices.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2023. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. To be awarded a Certificate of Achievement, the District published an Annual Comprehensive Financial Report in which contents conformed to program standards. The report satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. The 2023-2024 fiscal year ACFR continues to meet the Certificate of Achievement program requirements and will be submitted to the GFOA to determine its eligibility for another GFOA Certificate of Achievement for Excellence in Financial Reporting Award.

The District received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting Award for the fiscal year ending June 30, 2023. This award certifies that the ACFR substantially conforms to the principles and standards of financial reporting as recommended and adopted by ASBO. A Certificate of Excellence is valid for a period of one year. The 2023-2024 fiscal year ACFR continues to meet the Certificate of Excellence program requirements and will be submitted to ASBO to determine its eligibility for another ASBO Certificate of Excellence in Financial Reporting Award.

The District received the ASBO Meritorious Budget Award for its 2023-2024 fiscal year budget. This award certifies that the budget adheres to the principles and standards of ASBO International's Meritorious Budget Award criteria. A Meritorious Budget Award is valid for a period of one year. The 2024-2025 fiscal year budget continues to conform to the program requirements and will be submitted to ASBO to determine its eligibility for another ASBO Meritorious Budget Award.

The District received a Transparency Star in the area of Contracts and Procurement from the State of Texas Comptroller of Public Accounts. This award recognizes the District's ability to display financial transparency and meet industry-specific criteria with the use of public funds. This is the first time the District has achieved such recognition from the State of Texas.

The District earned the Texas Association of School Business Official's (TASBO) Purchasing Award of Merit for the third year. This award recognizes public school districts for following professional standards in the acquisition of goods and services.

The District earned the Achievement of Excellence in Procurement award from the National Procurement Institute for the first time. This award recognizes leadership, innovation, and excellence in public procurement.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the Finance and Accounting Services Division. Our thanks go to all members of these departments who assisted and contributed to its preparation. The District thanks the members of the Board of Trustees for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Independent Auditor's Report

Board of Trustees
Dallas Independent School District
Dallas, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dallas Independent School District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information and notes to the budgetary comparison, and TRS pension and other post-employment benefits schedules and notes to the TRS pension and other post-employment benefits schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Trustees
Dallas Independent School District

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and other statements, required Texas Education Agency schedules, statistical section, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and other statements, required Texas Education Agency schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and other statements, required Texas Education Agency schedules, and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 1, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

WEAVER AND TIDWELL, L.L.P.

Weaver and Siduell, L.S.P.

Dallas, Texas November 1, 2024

This section of the District's Annual Comprehensive Financial Report (ACFR) discusses and analyzes the District's financial performance for the fiscal year ended June 30, 2024. The intent of this management discussion and analysis is to look at financial performance as a whole. Therefore, readers should also review the transmittal letter, financial statements, and the notes to the basic financial statements to further enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

The District's total combined net position as presented on the Government-wide Statement of Net Position was \$768.1 million for the year ended June 30, 2024. The net position increased by \$75.3 million.

The District's governmental funds financial statements reported a combined ending fund balance of \$2,004.4 million. This balance consists of \$1,034.9 million in the General Fund of which \$336.9 million is assigned, \$22.9 million is nonspendable, and \$675 million is unassigned and available for spending at the District's discretion. Restricted fund balance totals \$874.6 million and is used by the Debt Service Fund, Capital Projects Fund and Non-Major Funds. Fund balance in the Debt Service Fund also consists of \$78.8 million of assigned fund balance. The Non-Major Funds include \$8.3 million of assigned fund balance and \$7.8 million of nonspendable fund balance.

For the year ended June 30, 2024, total revenue from all sources, including extraordinary items, was \$2.8 billion. Program revenues accounted for \$552.8 million of total revenues. General revenues accounted for \$2.2 billion.

The General Fund had \$1.8 billion in revenues, which primarily consisted of property taxes and state aid. Expenditures were \$1.7 billion. Other financing sources and uses were \$1.5 million and consisted of a \$1.4 million transfer out to Internal Service Funds and \$7.2 million to the Debt Service Fund. This resulted in an increase to the fund balance of \$1.5 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The statements are followed by a section of required supplementary information and a section of other information that further explains and supports the information in the financial statements.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the school district's finances in a manner similar to a private sector business. The government-wide statements are comprised of the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the District as a whole and present both long-term and short-term information about the District's overall financial status. The District's basic services are primarily financed by property taxes and inter-governmental revenues, and include instruction, extracurricular activities, curriculum, staff development, health services, general administration, and plant maintenance and operations.

The Statement of Net Position presents information on all of the District's assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Over time, increases or decreases in the District's net position may serve as a useful indicator of the District's financial health. The Statement of Net Position includes all of the District's non-fiduciary assets and liabilities.

The Statement of Activities presents information for all of the current year's revenues and expenses regardless of when revenue is received or expenses paid. Thus, some revenues and expenses reported in this statement will result in cash flows in future fiscal periods.

Fund Financial Statements. The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements. The fund financial statements provide more detailed information about the District's most significant funds rather than the District as a whole. Funds are a governmental accounting tool that the District uses to track specific sources of funding and spending for particular purposes. Some funds are required by state law and by bond covenants. The Board of Trustees establishes other funds to control and manage resources for specific purposes or to delineate the use of certain taxes and grants.

The District has three kinds of funds:

- Governmental Funds—All of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets can readily be converted to cash flow and (2) the balances left at year end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine the availability of financial resources to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information immediately following the governmental funds statements that explain the relationship (or differences) between them. These include debt financing, capital assets, and revenue recognition.
- Proprietary Funds—Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The District's three proprietary funds are Internal Service Funds. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses the Internal Service Fund to report activities for its risk management, graphics, and insurance for auto liability expenses. The proprietary fund statements offer short and long-term financial information about the activities the District operates like a business.
- Fiduciary Funds—Fiduciary funds are used to account for resources held by the District in a custodial capacity. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. Fiduciary funds are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations. The fiduciary fund statement provides information about the financial relationships in which the District acts solely as a custodian for funds that belong to others. Per GASB 84, the District's fiduciary activity is reported in a separate Statement of Fiduciary Net Position and Changes in Fiduciary Net Position. Student Activity Funds are funds held by the district in a fiduciary capacity and the assets are for the benefit of the student organizations. The collection and disbursement amounts are controlled by a group which is governed by a representative student body.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements.

Combining and Other Statements. Immediately following the required supplementary information, combining statements are included for the Non-Major Funds, Internal Service Funds and Custodial Funds.

Exhibit 1 summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this overview section explains the structure and contents of each of the statements.

Exhibit 1 Major Features of the District's Government-wide and Fund Financial Statements

| Type of Statement | Government-wide | Governmental Funds | Proprietary Funds | Fiduciary Funds | |
|---|--|--|--|--|--|
| Scope | Entire District's government (except fiduciary funds) and the District's component units | The activities of the District that are not proprietary or fiduciary | Activities the District operates similar to private businesses | Instances in which the District is the trustee or agent for someone else's resources | |
| Required financial statements | Statement of Net Position Statement of Activities | Balance Sheet Statement of Revenues, Expenditures and Changes in Fund Balance | Statement of Net Position Statement of Revenues, Expenses and Changes in Fund Net Position Statement of Cash Flows | Statement of Fiduciary Net Position Statement of Changes in Fiduciary Net Position | |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | Accrual accounting and economic resources focus | |
| Type of asset/liability information | All assets and liabilities, both financial and capital, short-term and long-term | Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, and short- term and long-term | All assets and liabilities, both short-term and long-term | |
| Type of inflow/outflow information | All revenues and expenses during the year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during the year, regardless of when cash is received or paid | Not applicable to Custodial Fund | |

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position. As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's combined net position between fiscal years 2024 and 2023 increased by \$75.3 million. The District's net investment in capital assets is \$884.6 million and includes investments in capital assets (e.g. land, building, equipment, improvements, finance purchased assets, right-to-use lease assets, SBITA assets, and construction in progress) less any debt used to acquire those assets that is still outstanding. Of the remaining net position, \$234.7 million are restricted resources subject to external restrictions on how they are used, and (\$351.2) million are unrestricted resources.

The District uses the capital assets to provide services to students; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Exhibit 2 provides a summary of the Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position for governmental activities for years ended June 30, 2024 and 2023, respectively.

Exhibit 2 Net Position Governmental Activities

| | | | \$ Change Increase/ | % Change Increase/ |
|---------------------------|------------------|------------------|------------------------|-----------------------|
| | June 30, 2024 | June 30, 2023 | (Decrease) | (Decrease) |

| Capital Assets | 884,561,908 | 839,399,474 | 45,162,434 | 5.4% |
| Restricted | 234,709,292 | 208,269,527 | 26,439,765 | 12.7% |
| Unrestricted | (351,162,576) | (354,819,077) | 3,656,501 | (1.0%) |
| Total Net Position | \$ 768,108,624 | \$ 692,849,924 | \$ 75,258,700 | 10.9% |

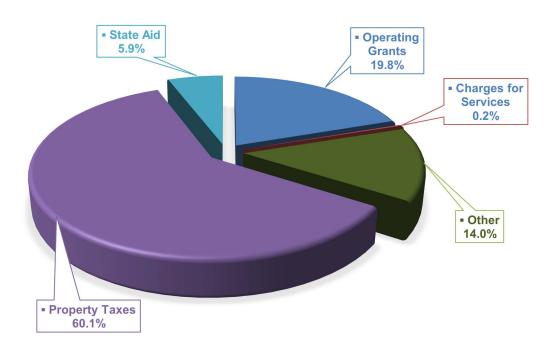

Other Financial Highlights. For the year ended June 30, 2024, the District's total revenues were \$2.8 billion. Exhibit 3 shows the year-over-year change in revenues and expenses. The District's total revenues increased \$31.2 million, or 1.1%, over the prior year, and the total expenses increased \$118.6 million or 4.6%, over the prior year.

| Extraordinary Item - Resource | _ | 5,362,281 | (5,362,281) | (100.0%) |
| Increase (decrease) in Net Position | 75,258,700 | 167,964,600 | (92,705,900) | (55.2%) |
| Net Position - Beginning | 692,849,924 | 524,885,324 | 167,964,600 | 32.0% |
| Net Position - Ending | \$ 768,108,624 | \$ 692,849,924 | \$ 75,258,700 | 10.9% |

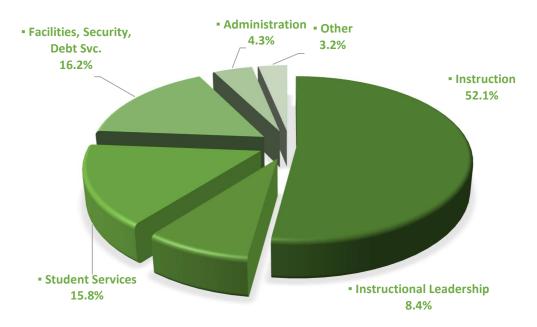

The District's revenue was generated from the following sources: 60.1% from property taxes, 5.9% from state aid, 19.8% from operating grants, 0.2% from charges for services, and 14.0% from miscellaneous revenue sources (See Exhibit 4).

Exhibit 4
Sources of Revenue
Governmental Activities

For the year ended June 30, 2024, the District's total cost of all programs and services was \$2.7 billion. Approximately 52.1% of the District's governmental activities were dedicated to instructional areas. Direct student services, such as counseling, nursing, and transportation services, comprised approximately 15.8% of governmental expenses. The costs to operate facilities, including utilities, security services and debt payments comprised 16.2% of the cost of all programs (See Exhibit 5).

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Fund Balance Analysis

For the fiscal year ended June 30, 2024, the District's governmental funds reported ending fund balances of \$2.0 billion. Of this amount, \$675 million constituted unassigned fund balance available for use in activities at the District's discretion. The remainder of the fund balance was designated as nonspendable, restricted, or assigned, to indicate that it was not available for new spending because it has already been purposed for bond projects, debt service and other obligations of the District.

The General Fund is the chief operating fund of the District. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned and total fund balance to the total fund expenditures. Unassigned fund balance represents 39.0% of the total 2024 General Fund expenditures, while total fund balance represents 59.8% of that same amount.

The increase in fund balance in the General Fund is primarily due to an increase in State Aid. In addition there was a decrease in Property Tax revenues. The collection of tax revenues for the year decreased primarily due to decrease in property tax rate. The Maintenance and Operations tax rate went down from \$0.942900 per \$100 of assessed value in fiscal year 2023 to \$0.771800 per \$100 assessed value in fiscal year 2024.

There were Budget-to-Actual variances in the General Fund. The variance between adopted budget and final budget in local and state revenue was due to the passing of homestead exemption after the budget was adopted, which shifted funding from local to state sources. The decrease in Property Tax collections and increase in State Aid occurred after the budget was approved, which resulted in a variance between adopted and actual budget. The variance between final budget and actual in local and state revenue was due to higher interest earnings than projected and lower collection of property taxes than projected, due to

refunds. The increase in State Aid was due to lower property taxes and higher than projected ADA which increased state funding.

The budget to actual variance in federal revenue was due to increased indirect costs related to ESSER funds and \$19.5 million was received from the Texas Division of Emergency Management for FEMA reimbursements of COVID related costs that the District has incurred.

Budgeted expenditures exceeded Actual expenditures in all functions, and most significantly in functions 11 and 91. Budget exceeded Actuals in function 11 due to reclassing eligible expenditures to ESSER funds. Budget exceeded Actuals in function 91 due to the \$100k homestead exemption increase which was not included in the budget and resulted in decreased recapture cost.

The Debt Service Fund had a total fund balance of \$361.8 million, of which \$283.0 million was restricted for the payment of debt service requirements. The Debt Service fund balance increased by \$58.5 million due to increased property tax collections. The collections were increased due to the amount of debt being serviced being greater in fiscal year 2024 than fiscal year 2023. The I&S tax rate remained the same. The debt per levy in fiscal year 2023 was \$394,303,973 and in fiscal year 2024 was \$426,037,144 which resulted in the increase.

The Capital Projects Fund had a total fund balance of \$578.7 million. A decrease in fund balance of \$105.9 million in the Capital Projects Fund is primarily due to increase in construction expenditures committed to the Bond Program as discussed below. During the fiscal year, 2024 Series Bond was issued for \$482.6 million on January 15, 2024. DISD Unlimited Commercial Paper Notes Series 1A were issued for \$30.0 million on August 15, 2023, of which \$17.2 million was defeased on February 15, 2024 and \$12.8 million was refunded on February 15, 2024. For more information, please see Note J.

ESSER III Fund was a major fund in fiscal year 2024. The ESSER III funding was used to account, on a project basis, to help safely reopen and sustain the safe operation of schools and address the impact of the coronavirus pandemic on students. This program is authorized by the American Rescue Plan (ARP) Act of 2021, Elementary and Secondary School Relief (ESSER III) Fund. The increased revenues and expenditures in ESSER III grant is due to the addition of teachers on all campuses to provide instruction to students along with an increase in curriculum and development support.

Non-Major Governmental Funds consist of Special Revenue Funds. Non-Major Governmental Funds have a total fund balance of \$29.0 million, representing a decrease for the current year of \$8.5 million due to a decrease in revenue in the Food Services Fund. The original budget was based on an anticipated CEP rate of 96% reimbursement. However, reimbursements were claimed at a rate of 83% due to a reduction in the total economically disadvantaged students, a decrease in enrollment, and a decrease in participation by the disadvantaged students. The ESSER II grant ended in September 2023 and resulted in a significant reduction of revenue and expenditures for fiscal year 2024. For State Instructional Materials fund, TEA increased the biennial allocation resulting in increased revenue and expenditures for instructional materials.

Net Position Analysis

In fiscal year 2024, total revenue increased \$31.2 million primarily due to an increase in State Aid and investment earnings. State Aid increased due to an increase in School Foundation Program. The collection of tax revenues for the year decreased due to decrease in property tax rate. Charges for Services for fiscal year 2024 decreased due to no additional funding to mitigate the repair costs in Fiscal Year 2023, in some schools due to rain damage.

Program revenues increased primarily due to increased reimbursements in ESSER III grant and State Instructional Materials fund and decreased due to end of ESSER II grant.

In fiscal year 2024, expenses increased by \$118.6 million due to increased payroll costs and costs of supplies. There was also a decrease in recapture costs to Texas Education Agency. An increase in unrestricted grants and contributions was due to a decrease in GASB 75 adjustments resulting from a decrease in the measure of the OPEB expense.

The District reported a decrease in the deficit in unrestricted net position from prior year to \$351.2 million. The primary reason for the deficit is the implementation of the Governmental Accounting Standards Board (GASB) Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

Capital Assets. At June 30, 2024, the District had \$4.4 billion of capital assets, net of depreciation and loss on disposition of assets, including land, equipment, buildings, and vehicles. This amount represents a net increase of \$416.9 million or 10.5% over last year. See Exhibit 6.

| Net Book Value | \$ 4,407,313,836 | \$ 3,990,429,705 | \$416,884,131 | 10.45% |

For the year ended June 30, 2024, the District's capital spending totaled \$655.0 million in land, construction in progress, buildings, leases, building improvements and capital equipment. These expenditures resulted primarily from the projects committed to the 2015 and 2020 bond programs. The remaining \$29.5 million was Right-to-Use Lease Assets and SBITAs.

In addition, \$51.9 million in building and capital equipment were retired during the fiscal year. For more information on the District's capital assets, see Note H in the financial statements.

The Dallas ISD 2020 Bond Program was voted on during the November 3, 2020, general election. Voters approved the bond package, which amounted to \$3.54 billion, marking the largest bond initiative in the district's history. Voters said yes to Proposition A, which includes \$3.27 billion to fund repairs and upgrades to more than 200 of the district's 230 campuses. Proposition B, provides \$270 million to cover the cost of purchasing and updating district technology. The 2020 Program includes plans to construct 16 replacement schools and over 200 renovations. The program includes renovations and improvements to existing District facilities including roofs, HVAC, building envelope, interior improvements, site improvements, exterior façade improvements, plumbing, technology, storm shelters, libraries, science labs, performing arts, fine arts, and administration areas in schools. This fall 2024, the district opened five replacement campuses at John Quincy Adams Elementary School, Everette L. DeGolyer Elementary School, Geneva Heights Elementary School, Hall Personalized Learning Academy, and George Peabody Elementary School. The Construction Services & Bond Office will open three more schools in January 2025 at Albert C. Black, Jr. STEAM Academy, Marcus Leadership Academy, and Martha Turner Reilly Elementary School.

Debt Administration. For the year ended June 30, 2024, the District had \$5.6 billion in long-term debt outstanding. This represents a net increase of \$380.2 million, or 7.3%, over last year. (See Exhibit 7).

Exhibit 7 District's Long Term Debt

| | June 30, 2024 | June 30, 2023 | \$ Change Increase/ (Decrease) | % Change Increase/ (Decrease) |

| Net Pension Liability (District's Share) | 858,392,252 | 715,831,452 | 142,560,800 | 19.92% |
| Net OPEB Liability (District's Share) | 326,403,402 | 350,550,625 | (24,147,223) | (6.89%) |
| Long-Term Debt Outstanding | \$ 5,586,382,464 | \$ 5,206,169,293 | \$380,213,171 | 7.30% |

For the year ended June 30, 2024, under GASB Statement No. 87, the ending balance of the lease liability is \$11,671,511 and the total ending liability for financed purchases was \$910,478.

For the year ended June 30, 2024, under GASB Statement No. 96, the ending balance of subscription liability is \$46,150,253.

The District's bonds presently carry ratings as follows: Moody's Investor Series "Aaa", Standard & Poor's "AAA" and Fitch "AAA" as guaranteed by the Permanent School Fund (PSF). The District's underlying debt ratings are as follows: Moody's Investor Series "Aa1", AA+ from Standard & Poor's, and AA+ from Fitch. For more information on the District's long-term debt, see Note I in the financial statements.

BUDGETARY HIGHLIGHTS

Revenue

- Amendment approved to decrease revenue by \$243.9 million for current year taxes.
- Amendment approved to decrease revenue by \$2.0 million for prior year taxes.
- Amendment approved to increase revenue by \$2.0 million for Penalties & Interest.
- Amendment approved to increase revenue by \$34.7 million for Investment Earnings.
- Amendment approved for \$1.1 million increase for per Capita Appointment.
- Amendment approved to increase revenue by \$57.4 million for School Foundation Program.
- Amendment approved to increase revenue by \$3.0 million from Federal Sources.
- Amendment approved to increase revenue by \$5.5 million for Indirect Cost through TEA.
- Amendment approved to increase revenue by \$3.8 million for School Health and Related Services.
- Amendment approved for \$18.7 million increase from Federal Revenue by State other than TEA.
- Amendment approved to increase revenue by \$2.2 million due to increase in tax collection from higher TAV growth in Debt Service fund.
- Amendment approved for \$10.8 million decrease in revenue due to National School Lunch Program.

Expenditures

- Amendment approved to increase expenditures by \$1.2 million to High School Assistant Principals, based on identified needs of Students and Campus.
- Amendment approved to increase expenditures by \$4.5 million to fund the HB3 Armed Officer requirement from the Unassigned Fund Balance.
- Amendment approved to increase expenditures by \$1.5 million to fund the Technology Project from the Unassigned Fund Balance.
- Amendment approved to increase Fiscal Year 2023-2024 expenditure budget by the amount of unspent purchase order balances from Fiscal Year 2022-2023 Assigned Fund Balance totaling \$10.1 million.
- Amendment approved to increase expenditures by \$1.1 million for the HB Bell renovation for the DAEP campus relocation.
- Amendment approved to increase expenditures by \$0.5 million for HB3 implementation materials and equipment for 15 New Peace Officers and 25 New Armed Security Officers.
- Amendment approved to decrease expenditures \$151.3 million for Recapture costs.
- Amendment approved to increase expenditures by \$2.2 million due to 2024 Bond Sale Issuer Contribution in Debt Service Fund.
- Amendment approved to increase expenditures by \$1.3 million due to Food and Commodities consumption.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In June 2024, the Board of Trustees adopted the 2024-25 budget, which supports the District's goals.

The primary factors considered in preparing the District's budget for the 2024-25 fiscal year included a 5% increase in local property values and a 98.0% property tax collection rate. The Maintenance and Operations tax rate was lowered to \$0.755200 per \$100 valuation for the 2024-25 year. The Interest and Sinking ("I&S") tax rate remained at \$0.242035 per \$100 valuation for the 2024-25 year.

Student enrollment is projected to be 137,529 in 2024-25.

Dallas Independent School District Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2024

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the funding it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District's Finance and Accounting Services Division.

Dallas Independent School District Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2024

| Total Fund Balances - Governmental Funds (from C-1) | \$2,004,363,034 |
|---|-----------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets net of accumulated depreciation, less assets held in Internal Service Funds, are not financial resources and therefore are not reported as assets in governmental funds. The total amount in governmental funds, including Construction in Progress, and not including Financed Purchases, Right-to-Use assets, and SBITA assets, is \$4,349,709,899. The sum of these, results in an increase in net position in the amount of \$4,407,264,470. | |
| Net Capital Assets - Governmental Funds | |
| Financed Purchase Assets, net 1,452,912 | |
| Right-to-Use Lease Assets, net 10,911,544 | |
| SBITA Assets, net 45,190,115 | |
| Capital Assets, net | 4 407 004 470 |
| (other than Financed Purchases, Right-to-Use Lease Assets, and SBITAs) | 4,407,264,470 |
| Some liabilities, including bonds payables, are not due and payable in the current period and therefore are not reported in the governmental funds. The liabilities associated with the financing lease and those associated with the Right-to-Use leases and SBITAs were also not reported in the governmental funds and must be reported in the government-wide statement. The decrease in the ending net position from these totals is \$4,348,045,614. | |
| Bonds and Notes Payable (4,117,920,000) | |
| Deferred Losses on Refundings 42,942,185 | |
| Premium on Bonds (201,827,603) | |
| Financed Purchase Liability, less Internal Service liability of \$28,442 (882,035) | |
| Right-to-Use Lease Liability (11,671,511) | |
| SBITA Liability (46,150,253) | (4.040.045.044) |
| Arbitrage Liability (12,536,397) | (4,348,045,614) |
| Generally accrued interest is not due and payable in the current period and therefore is not reported as a liability in the governmental funds. The accrued interest on long term debt is \$66,263,299 in the Debt Service Funds and \$2,713,964 in the General Fund, for a total of \$68,977,263. (See A-1) | (68,977,263) |
| Certain financial resources are not available to pay for current period expenditures and therefore are deferred in the governmental funds. These Deferred Inflow of Resources must be adjusted to recognize as revenues those earned in the current reporting period. The effects of these changes are as follows: | |
| Deferred Resource Inflow for Property Taxes 35,882,665 | |
| Medicaid/SHARS 6,975,584 | 42,858,249 |
| Internal service funds are used by management to charge the costs of certain activities, such as workers' compensation. | |
| The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position | |
| (see D-1). | 12,330,594 |
| The government-wide statement includes the District's proportionate share of the TRS net pension liabilities, as well as certain pension related transactions accounted for as Deferred Inflows and Outflows of Resources. | |
| Net Pension Liability (858,392,252) | |
| Deferred Outflows of Resources - TRS Pension 331,646,020 | |
| Deferred Inflows of Resources - TRS Pension (34,842,141) | (561,588,373) |
| The impact on the ending net position related to the TRS OPEB plan came from the following: | . , |
| Net OPEB Liability (326,403,402) | |
| Deferred Outflows of Resources - TRS OPEB 89,300,291 | |
| Deferred Inflows of Resources - TRS OPEB (482,993,362) | (720,096,473) |
| Defended fillitions of nesolutions - Indian Office (462,993,302) | (120,090,413) |

Dallas Independent School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Fiscal Year Ended June 30, 2024

Total Net Change in Fund Balances - Governmental Funds (from C-2)

(27,211,099)

Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. Capital assets additions in Note H represent the capital outlays spent in the governmental funds but should be recognized as assets in government-wide financial statements. Capital outlays this current period, adjusted for dispositions, contributions, and initial outlays for SBITAs, were \$655,029,348 (excluding internal service funds' capital assets). Depreciation expenses are not reported in governmental funds statements, but are reported in government-wide statements. The current year's depreciation, excluding internal service funds and including the depreciation for the financed purchase, the right-to-use leases, and SBITAs was \$216,450,452. The loss of \$51,055,779 was caused by the deletion of the District's assets. The change in net position from these activities is \$415,777,869.

| Capital Asset Additions - Governmental Funds | 655,029,348 |
|---|---------------|
| Total Depreciation Expense - Governmental Funds | (216,450,452) |
| Gain/Loss from Capital Assets Deletions | (51,055,779) |
| SBITA Agreements current year modifications | 28,254,752 |

254,752 415,777,869

\$

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not expensed in the current period. The principal payment includes the principal payments for the financed purchases, right-to-use leases, and the SBITAs. The District also entered into SBITA arrangements this year. These were recorded in 7949 in the fund level statements. This must be reclassified and shown as an increase in the long term liability. The total impact of these is to increase the change in net position by \$277,563,831.

| Principal Payments | 222,675,000 | |
|---|--------------|-------------|
| Principal Payment Financed Purchases | 2,361,199 | |
| Principal Payment Right-to-Use Lease | 3,853,807 | |
| SBITA Principal Payment and current year write offs | 44,552,246 | |
| Arbitrage Liability | (12,536,397) | |
| Redemption of Commercial Paper | 12,800,000 | |
| Amortization of Loss on Bond Refunding | (6,596,784) | |
| Amortization of Bond Premium | 38,674,512 | |
| New SBITA Liability | (1,013,333) | |
| SBITA Agreements current year modifications | (27,206,419) | 277,563,831 |

The District issued new Series 2024 bonds for \$482,610,000 with a premium of \$34,127,618. There was a \$30,000,000 issue of commercial paper. These are recognized as Other Financing Sources in the governmental funds, but these must be reclassified for the government-wide statements as in increase in long-term debt. The effect of this reclassification will decrease the change in net position in the Statement of Activities. The total impact on the change in net position from these two actions was a decrease in the amount of \$546,737,618.

(546,737,618)

In the fund level statements, revenues are reported when they are available. In the Statement of Activities, revenues are reported when they are earned. The revenues which were earned in prior years must be reclassified from revenues and reported as part of the beginning net position. This includes revenues from property taxes and revenues earned in prior periods for the Medicaid/SHARS program. There was an adjustment made for the taxes due to a change between what was estimated to be collected in the previous year and what was actually collected and continued to be estimated to be collected in the current year. The total change in the change in net position due to the SHARS adjustments was a decrease in net position by \$21,832,953. The adjustments for tax revenues and the adjustment for estimated differences cause an increase in revenues in the amount of \$1,276,584. The net effect of all of these adjustments was a decrease in the change in net position in the amount of \$20,556,369.

(20,556,369)

Dallas Independent School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities (Continued) For the Fiscal Year Ended June 30, 2024

Interest on long term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires the use of current financial resources. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. Interest paid during this fiscal year was accrued in the prior year. This was in the amount of \$53,169,717. The change in net position will increase by that amount. The interest accrued this year to be paid next year is \$68,977,263, which includes the interest accrued for Lease Purchases, Right-to-Use Lease Liabilities, and SBITA Liabilities, in addition to other liabilities in the governmental funds. The net increase in accrued interest is (\$15,807,546). The change in ending net position will decrease by that amount.

| Interest Accrued in FY23 but Paid in FY24 | 53,169,717 | |
|---|--------------|--------------|
| Interest Should be Accrued in FY24 | (68,977,263) | (15,807,546) |

The District uses Internal Service Funds to charge the costs of certain activities to appropriate functions in other funds. The net change in net position of Internal Service Funds is reported with governmental activities. The net effect of this consolidation is to decrease the change in net position. (See D-2.)

(1,411,046)

Adjustments were required for GASB 68 for the current fiscal year. The necessary changes in the ending net pension liability and the deferred resource outflow related to the TRS Pension and the deferred resource inflow related to the TRS Pension resulted in a decrease in the change in net position. The sum of these changes causes a decrease in net position in the amount of \$(81,483,885).

| Increase in Deferred Outflows of Resources - Pension | 37,528,173 | |
|--|---------------|--------------|
| Decrease in Deferred Inflows of Resources - Pension | 23,548,742 | |
| Increase in Ending Net Pension Liability | (142.560.800) | (81.483.885) |

Adjustments were required for GASB 75 for the current fiscal year. The necessary changes in the District's ending net OPEB liability, the deferred resource outflow related to the TRS OPEB, and the deferred resource inflow related to the TRS OPEB resulted in an increase in net position in the amount of \$75,124,563. This resulted from the following changes:

| Decrease in Deferred Outflows of Resources - OPEB | (11,820,798) | |
|---|--------------|------------|
| Decrease in Deferred Inflows of Resources - OPEB | 62,798,138 | |
| Decrease in Ending Net OPEB Liability | 24,147,223 | 75,124,563 |

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Dallas Independent School District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in GASB Statement No. 56, and complies with the requirements of the Texas Education Agency's Financial Accountability System Resource Guide (FASRG) and the requirements of contracts and grants of agencies from which the District receives funds.

Reporting Entity. The Board of Trustees (the "Board") consists of nine members and has governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Dallas Independent School District (the "District"). Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters.

In evaluating how to define the government for financial reporting purposes, the District's management has considered all potential component units. By applying the criteria set forth in Generally Accepted Accounting Principles ("GAAP"), the District has determined that no other organizations require inclusion in its reporting entity.

Government-wide and Fund Financial Statements. The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information on all non-fiduciary activities of the District. The effect of the interfund activity in the government-wide statements eliminates services provided and used in the process of consolidation. Governmental activities are mainly supported by tax revenues and intergovernmental revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. All capital asset depreciation is reported as a direct expense of the functional program that benefits from the use of the capital assets. Program revenues include: 1) charges for services and tuition charged by a given function and 2) grants and contributions that are restricted to meeting operational requirements of a particular function. Taxes, state aid, grants and contributions not restricted to specific programs are properly excluded from program revenues and reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Basis of Accounting/Measurement Focus. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures and claims and judgments are recorded only when matured and payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long term debt and acquisitions under notes payable are reported as other financing sources. Property tax revenues and revenues received from the State of Texas and investment earnings are considered to be susceptible to accrual and so have been recognized as revenues in the current period. Property taxes collected within 60 days of year-end and included in revenue were \$1,058,333 and \$228,853 for the General Fund and Debt Service Fund, respectively.

Grant revenues and contributions are recognized when all eligibility requirements have been met. Grant funds received in advance are recorded as unearned revenue until earned. Contributions received with

purpose restrictions are recorded as revenue and the related fund balance is designated until restrictions are satisfied. Amounts reported as program revenues include operating grants and contributions, food services user charges, rentals and tuition. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. The Texas Education Agency (TEA), through its application of state law, allocates state revenues to school districts by formula allocation. The District receives two allocations, a per capita allocation and a foundation program allocation. The District also recognizes revenues for the state's share of the contributions to the Teacher Retirement System of Texas. See Note M for additional information on the employee's retirement plan. Other state revenues are received through other state miscellaneous programs on an allocated basis. Charges for services and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received.

The District has accrued state aid revenues of \$85,263,020 which is included in Receivables from Other Governments in the governmental funds balance sheet, to reflect cash that will be received in fiscal year 2025, which was generated by attendance and the type of instructional services provided in fiscal year 2024, fiscal year 2023 property value audit, and fiscal year 2023 and 2022 recapture cost overpayment refunds. The District has also accrued an offsetting liability of \$55,323,818 which is included in Due to Other Governments, to reflect an anticipated Texas Education Agency final fiscal year 2024 recapture payment that will occur in 2025.

The District, by law, is required to prepare and file a budget with the Texas Education Agency (TEA). Activities of the General Fund, Food Services Fund, and Debt Service Fund are included in the District's formally adopted budget. Budgets for Special Revenue funds (other than the Food Services Fund) and Capital Projects Fund are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the functional category level with each fund. These functional categories are defined by TEA and identify the purpose of transactions. Oversight control of all expenditures is maintained at this level by the Finance and Accounting staff. TEA requires school districts to present exhibits with budget comparison for Food Services Fund (Exhibit J-2) and the Debt Service Fund (Exhibit J-3). These exhibits are in the financial section of the Annual Comprehensive Financial Report.

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts. The District reports the following Major Governmental funds:

- The General Fund is the District's primary operating fund. It accounts for all financial resources of
 the District, except those required to be accounted for in another fund. All general tax revenues
 and other receipts not allocated by law or contractual agreement to some other funds are accounted
 for in this fund.
- The Debt Service Fund accounts for the use of ad valorem taxes and other revenues collected for the purposes of retiring bond principal and paying interest when due. The main source of revenue for debt service is the apportionment of local property taxes.
- The Capital Projects Fund is used to account for proceeds from long term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.
- The ESSER III Fund is used to account, on a project basis, to help safely reopen and sustain the safe operations of schools and address the impact of the coronavirus pandemic on students. This program is authorized by the American Rescue Plan (ARP) Act of 2021, Elementary and Secondary School Relief (ESSER) fund.

The District reports the following Non-Major funds:

 The Special Revenue Funds are used to account for Food Services activities, federal and state financed programs and other local programs. The budget for the Food Services Fund is adopted by the Board each fiscal year. The budget for the Campus Activity Fund is adopted based on the prior year's ending fund balance.

The District reports the following Proprietary Funds:

Internal service funds provide services from one department to other departments of the District on a cost-reimbursement basis. Internal service funds distinguish operating revenues from non-operating revenues. Operating revenues and expenses generally result from providing services and delivering goods in connection with an internal service fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The District reports the following internal service funds:

- The Graphics Shop Fund is used to account for printing services.
- The Risk Management Fund is used to account for the costs associated with the workers' compensation self-funded program. Accrued liabilities include provisions for claims reported and claims incurred but not reported for workers' compensation insurance. The provision for reported claims is determined by estimating the amount that will ultimately be paid to each claimant. The provision for claims incurred but not yet reported is estimated based on the District's experience since the inception of the program.
- The Auto Liability Insurance Fund was established on July 1, 2018, to accumulate and allocate all
 externally incurred liability expenses relating to student transportation and white fleet vehicle
 accidents such as physical damage, third party medical claims, and third party administrator costs,
 as well as contracted services and parts to repair district buses damaged in such incidents.

The District reports Custodial Funds as Fiduciary Funds. Custodial Funds are custodial in nature and account for activities of student and employee groups. Custodial funds use the accrual basis of accounting to recognize assets and liabilities. The Custodial Funds exist with the explicit approval of, and are subject to revocation by, the Board. The District reports the following Custodial Fund:

• The Student Activity Fund accounts for the receipt and disbursement of monies from student activity organizations, for which the District solely acts as a custodian.

Assets, Liabilities, and Deferred Outflows and Inflows of Resources

Cash, Cash Equivalents and Investments. The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of 3 months or less from the date of acquisition. All investments in pools are considered cash equivalents.

Investments can consist of certificates of deposit, U.S. Treasury instruments, U.S. Government agency obligations, commercial paper, investments in government sponsored enterprises, repurchase agreements, and obligations of states and their political subdivisions. Investments with maturities at the time of acquisition of over 12 months are recorded at fair value. Fair value is determined by the amount by which a financial instrument could be exchanged in a current transaction between willing parties. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments. See Note B for additional discussion.

Property Taxes. Property taxes are levied each October 1 on the assessed value as of the prior January 1 for all real and business personal property located in the District. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the subsequent year. On January 1 of each year a lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period and 60 days thereafter. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes and historical experience of adjustments to tax receivables. Uncollectible taxes are written off according to the Texas Property Tax Code. See Note C for the discussion of the write-off of uncollectible taxes in the current year.

Interfund Receivables and Payables. Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. All legally authorized transfers are appropriately treated as transfers and are included in the results of operations. Such balances are eliminated within the governmental activities for the government-wide financial statements. See Note F for additional discussion.

Inventories and Prepaid Items. The consumption method is used to account for inventories of supplies and materials. Under this method, these items are carried in an inventory account of the respective fund at cost, using the weighted average method of accounting and are subsequently charged to expenditures when consumed or requisitioned. Although food commodities are received at no cost, their fair value is supplied by the Texas Department of Agriculture and is recorded as inventory on the date received. Prepaid items on the balance sheet are accounted for using the consumption method and are recognized as expenditures over the periods in which the service is provided. In the governmental funds, inventories and prepaid items are reported as nonspendable fund balance.

Capital Assets. Capital assets, which include land, buildings, furniture and equipment, construction in progress, financed purchase assets, and right-to-use lease assets are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Construction cost includes direct and all indirect costs. Donated capital assets are measured at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized, and land and construction in progress are not depreciated. Financed purchase assets are District owned assets and follow the depreciation of regular capital assets. Capital assets and right-to-use assets of the District are depreciated and amortized using the straight-line method over the following estimated useful lives:

| Asset Classification | Useful Life in Years |
|---|-------------------------|
| Buildings: | |
| Buildings – Permanent | 40 |
| Buildings – Improvements | 20 |
| Portable Buildings and Building Systems | 15 |
| Right-to-Use Lease Buildings | Lease term |
| Equipment: | |
| Heavy Installed Equipment | 20 |
| Maintenance/Warehouse/Custodial Equipment | 15 |
| Heavy Equipment – Tractors/Construction Equipment | 12 |
| Furniture and Fixture Equipment – Others | 10 |
| Kitchen Equipment | 10 |
| Other Vehicles | 10 |
| Buses | 7 |
| Trucks and Vans | 7 |
| Automobiles | 5 |
| Technology Equipment | 3 |
| Software | 3 |
| Right-to-Use Lease and SBITA Equipment | Lease term |

Deferred Outflows and Inflows of Resources. In addition to assets, the Statement of Net Position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net asset that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditures) until then. The District has three items that qualify for reporting in this category. They are deferred loss on refunding, TRS pension costs, and TRS OPEB costs, which are reported in the Government-wide Statement of Net Position.

In addition to liabilities, the Statement of Net Position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net asset that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until then. The District has four items that qualify for reporting in this category. They are related to TRS pension, TRS OPEB, unavailable revenue, and other deferred resource inflows. Unavailable revenue is reported only in the Governmental Funds Balance Sheet, and TRS pension investment earnings are reported only on the Government-wide Statement of Net Position. These amounts

are deferred and recognized as an inflow of resources in the period the amounts become available. See Note K for the detail of other deferred resource inflows.

Compensated Absences. Certain employees are entitled to receive accrued vacation and compensatory pay in a lump-sum cash payment upon termination of employment with the District. The amount of \$2,049,188 represents the recorded liability for employees vested in accumulated vacation and compensatory pay. The General Fund, Food Services Fund, and the Internal Services Fund are used to liquidate compensated absences.

Long Term Obligations. In the government-wide financial statements, long term debt and other long term obligations are reported as liabilities under governmental activities. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred. Gains or losses on refundings are capitalized and amortized over the shorter of the life of the new issuance or the life of the existing debt using the straight-line interest method, which approximates the interest method.

In the fund financial statements, bond premiums and discounts, as well as bond issuance costs are recognized in the governmental funds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Encumbrances. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in the accounting system in order to assign the portion of the applicable appropriation, is employed in the governmental fund financial statements. Encumbrances that have not been liquidated are reported as an assigned portion of fund balance in the governmental funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the Net OPEB Liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Government-wide Net Position

Net position represents the difference between the sum of assets and deferred outflows of resources and the sum of liabilities and deferred inflows of resources. The District's net position is composed of the following:

Net Investment in Capital Assets. The component of net position that reports capital assets less both the accumulated depreciation and the outstanding balance of debt that is directly attributable to the acquisition, construction, or improvements of these capital assets.

Restricted for Federal and State Programs. The component of net position that reports the difference between assets and liabilities of the Federal and State special revenue programs that consists of assets with constraints placed on their use by the Department of Education, Health and Human Services, Labor, Agriculture or TEA.

Restricted for Debt Service. The component of net position that reports the difference between assets and liabilities of the Debt Service Funds net of accrued interest at June 30, that consists of assets with constraints placed on their use by the bond covenants.

Restricted for Other Purposes. The component of net position that reports the difference between assets and liabilities of the Restricted for Other Purposes Funds at June 30, that consists of assets with constraints placed on their use by external parties.

Unrestricted. The difference between the assets and liabilities that are not reported in net position invested in capital assets, net position restricted for debt service, net position restricted for federal and state programs, net position restricted for capital projects, and net position restricted for other purposes.

The District reported a decrease in the deficit in unrestricted net position from prior year to \$351.2 million. The primary reason for the deficit is the implementation of the Governmental Accounting Standards Board (GASB) Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

Governmental Fund Balances

According to the District's fund balance policy, fund balance is comprised of the following components:

Nonspendable Fund Balance. The portion of fund balance that is not expendable or is legally earmarked for a specific use. Nonspendable fund balance reserves may include items like inventory or prepaid items.

Spendable Fund Balance. The portion of fund balance that is comprised of restricted, committed, assigned, and unassigned fund balances.

- **Restricted Fund Balance**. The portion of fund balance that reflects resources that are subject to externally enforceable legal restrictions imposed by parties outside the District. Restricted fund balances include funds for the Food Services, funds restricted for capital acquisitions, funds used to retire long term debts or resources from granting agencies.
- **Committed Fund Balance**. The portion of fund balance that reflects resources whose use is limited based upon resolutions by the District's Board of Trustees. At June 30, 2024, the District had no committed fund balance.
- **Assigned Fund Balance**. The portion of fund balance that is self-imposed by the District to be used for a particular purpose. The assigned fund balance can only be removed by the Superintendent of Schools or the Chief Financial Officer.
- Unassigned Fund Balance. The portion of the spendable fund balance within the General Fund
 that has not been classified within any categories above. It is the portion of fund balance available
 to finance operating expenditures.

In general, it is in the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which restricted and unrestricted (i.e. committed, assigned, or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used after the other resources have been used.

As of the end of the current fiscal year, the District's Governmental Fund Balance was \$2,004,363,034 reported as follows:

| Fund Balances | General Fund | Deb | ot Service Fund | Capital Projects Fund | | Non-Major Governmental Funds | | | Total Sovernmental Funds |
|-----------------------------------|---------------------|-----|-----------------|--------------------------|-------------|------------------------------------|------------|----|--------------------------------|
| Nonspendable | | | | | | | | | |
| Inventories | \$ 12,647,171 | \$ | - | \$ | - | \$ | 6,566,833 | \$ | 19,214,004 |
| Prepaid Items | 10,302,284 | | - | | - | | 1,196,677 | | 11,498,961 |
| Restricted | | | | | | | | | |
| Federal or State Grants | - | | - | | - | | 9,315,200 | | 9,315,200 |
| Capital Acquisition | - | | - | | 578,672,812 | | - | | 578,672,812 |
| Debt Services | - | | 282,962,713 | | - | | - | | 282,962,713 |
| Local | - | | - | | - | | 3,645,132 | | 3,645,132 |
| Assigned | | | | | | | | | |
| Retirement of Loans/Notes Payable | - | | 78,836,971 | | - | | - | | 78,836,971 |
| Other Assigned Fund Balance | 336,913,014 | | - | | - | | 8,304,227 | | 345,217,241 |
| Unassigned | 675,000,000 | | | | <u> </u> | | <u> </u> | | 675,000,000 |
| Total Fund Balances | \$ 1,034,862,469 | \$ | 361,799,684 | \$ | 578,672,812 | \$ | 29,028,069 | \$ | 2,004,363,034 |

The Other Assigned Fund Balance consists of \$256.4 million to fund the continuation of programs after ESSER funding is exhausted, \$64.5 million for the future payment of QSCB notes, and \$6.5 million for anticipated capital expenditures. Additionally, \$9.5 million is earmarked for encumbrances carried forward to fiscal year 2025 as detailed below.

Note: Encumbrances are documented by purchase orders and contracts. They are commitments to expend resources. Appropriations lapse at June 30 and encumbrances outstanding at that time are either canceled or provided for in the subsequent year's budget. Outstanding encumbrances at June 30, 2024, that were subsequently provided for in the 2024-2025 budget totaled \$9,520,481 in Other Assigned Fund Balance in the General Fund, and were broken down by functions as follows:

| Function 11 - | Instruction | \$ 227,626 |
|---------------|---|-----------------|
| Function 34 - | Student Transportation | 58,423 |
| Function 36 - | Cocurricular/Extracurricular Activities | 285,381 |
| Function 41 - | General Administration | 474,153 |
| Function 51 - | Facilities Maintenance and Operations | 1,050,958 |
| Function 52 - | Security and Monitoring Services | 1,831,095 |
| Function 53 - | Data Processing Services | 5,515,865 |
| Function 81 - | Facility Acquisition & Construction | 76,980 |
| | Total | \$ 9,520,481 |

Data Control Codes. In accordance with the Financial Accountability System Resource Guide published by the TEA, the District has adopted and installed an accounting system which meets the minimum requirements prescribed by the State Board of Education and has been approved by the state auditor. The TEA requires the display of these codes in the financial statements filed with the TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

GASB 87 Leases

GASB Statement No.87, *Leases*, was issued in June 2017 and provides better information of financial statements to the users by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

Lessee

The District is a lessee for noncancellable leases of buildings, copiers, and other equipment. The District recognizes a lease liability, reported with long-term debt, and a right-to-use lease asset reported with other capital assets, in the government-wide and proprietary fund financial statements. The District recognizes lease liabilities with an initial, individual value of \$50,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate
 charged by the lessor is not provided, the District generally uses its estimated incremental borrowing
 rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the District is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lessor

The District is a lessor for noncancellable leases of buildings and grounds. The District recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease receivable are composed of fixed payments
 from the lessee, variable payments from the lessee that are fixed in substance or that depend on an
 index or a rate, residual value guarantee payments from the lessee that are fixed in substance, and
 any lease incentives that are payable to the lessee.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

GASB 96 SBITA (Subscription Based Information Technology Arrangements)

A SBITA is defined as a contract that conveys control of the right to use another party's (an SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

The District has implemented a threshold of \$50,000 for GASB 96 per annual subscription cost.

Under this Statement, the District recognizes a right-to use subscription asset—an intangible asset—and a corresponding subscription liability at the commencement of the subscription term when the subscription asset is placed into service. The subscription liability is initially measured at the present value of subscription payments expected to be made during the subscription term. Future subscription payments are discounted using the incremental borrowing rate specified in the agreement. If the interest rate is not specified, Dallas ISD uses the yield rates of bonds issued by the District.

The District recognizes amortization of the principal payment on the subscription liability as an outflow of resources.

NOTE B: CASH, CASH EQUIVALENTS AND INVESTMENTS

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with The Bank of New York Mellon, under a tri-party collateral agreement between the District, the depository bank and The Bank of New York Mellon. The Bank of New York Mellon deposits approved pledged securities, as authorized by Chapter 2257, Collateral for Public Funds of the Government Code, in an amount sufficient to protect the District's funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") coverage. In order to maximize return on cash balances, the District uses consolidated bank accounts from which all disbursements are made, with cash in excess of the District's total daily requirement being invested for future needs.

At June 30, 2024, the net carrying amount of the District's cash deposits, excluding student activity fund deposits of \$3,014,508, was \$(18,097,589). The bank balance of \$12,000,000 was on deposit with the contracted depository bank. District funds are insured up to \$250,000 for the combined amount of all time and savings accounts, and up to an additional \$250,000 for the combined total of all Demand Deposit Accounts (DDA's). Interest-bearing accounts were collateralized by pledged United States government securities with a fair value of \$16,011,552 at June 30, 2024, held by The Bank of New York Mellon. Because The Bank of New York Mellon holds the pledged securities in trust on behalf of the District, the deposits were deemed collateralized under Texas law. All campus activity funds were centralized and were on deposit with the contracted depository. Custodial and activity funds were in separate non-interest-bearing bank accounts at the depository bank, and as such, have full FDIC coverage of \$250,000 per bank account. At June 30, 2024, cash on hand in Custodial Funds totaled \$3,014,508 and was on deposit with the contracted depository and separate bank accounts. The District's Custodial Fund bank balance on June 30, 2024, was covered by federal depository insurance or by collateral held in the District's name.

In addition, the following is disclosed regarding coverage of combined cash and certificates of deposit balances on the date of highest deposit:

- a. Depository bank: Wells Fargo Bank, N.A.
- b. The date of highest deposit was October 9, 2023, with combined cash and certificates of deposit balance of \$132.121.461.
- c. On October 10, 2023, the amount of bonds, securities pledged, and FDIC coverage was \$191,746,785.
- d. The FDIC coverage portion of the collateral listed above was \$250,000/\$250,000.
- e. The District had no occasions during the year of not being sufficiently collateralized, in which the pledged collateral requirement was less than the collateral requirement.

The Texas legislature passed the Public Funds Investment Act of 1995 ("Public Funds Investment Act") which authorizes the District to invest its excess funds in the following:

- Obligations of the United States or its agencies and instrumentalities,
- Obligations of the State of Texas or its agencies, and instrumentalities,
- Other obligations guaranteed by the United States or the State of Texas or their agencies and instrumentalities,
- Public funds investment pools,
- No load money market funds with a weighted average maturity of 90 days or less,
- Fully collateralized repurchase agreements,
- Obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality not less than an "A", or its equivalent, by a nationally recognized investment rating firm,
- Commercial paper having a stated maturity of 365 days or fewer from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or one nationally recognized credit agency and is fully secured by an irrevocable letter of credit,
- Guaranteed investment contracts for bond proceeds investment only, with a defined termination
 date and secured by U.S. Government direct or agency obligations approved by the Texas Public
 Funds Investment Act in an amount equal to the bond proceeds,
- Guaranteed or secured certificates of deposit, issued by state and national banks domiciled in Texas, and insured by federal depository insurance or secured by the obligations mentioned above,
- Bonds issued, assumed or guaranteed by the State of Israel, and
- Secured corporate bonds rated not lower than "AA—" or the equivalent.

The Public Funds Investment Act requires an annual review and approval of investment policies and practices. The review disclosed that in this area of investment practices, management reports and establishment of appropriate policies, the District materially adhered to the requirements of the Public Funds Investment Act. Additionally, investment practices of the District were in accordance with local policies, which are more restrictive than state statutes.

As of June 30, 2024, the following are the District's cash equivalents and investments, with respective maturities and credit rating:

| Type of Investment | Book Value | Percent | Fair Value | Percent | Maturity in Less Than 1 Year | Maturity in 1-10 Years | Maturity in Over 10 Years | Credit Rating |
|--|------------------|---------|------------------|---------|---------------------------------|------------------------|------------------------------|------------------|

^{*}Total cash and cash equivalents and total investments include accrued interest. The TERM investments accrued interest and Sweep account accrued interest are reported in the investment pool and money market section above.

In accordance with the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, the District's investments with a maturity date of greater than one year have been recorded at fair value based upon quoted market prices as of June 30, 2024 with an increase or decrease in fair value being recorded as a component of earnings on investments. Investment Pools are measured at amortized cost or net asset value, i.e., fair value. As such, these investments are not required to be reported in the fair value hierarchy.

The TexPool and Lone Star Overnight investment pools are external investment pools measured at amortized cost. To meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity, and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have a weighted average maturity of 60 days or less, and a weighted average life of 120 days or less. Investments held are highly rated by nationally recognized statistical rating organizations, have no more than 5% of the portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. TexPool and Lone Star Overnight have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium, or national or state emergency that affects the pool's liquidity.

Texas CLASS, Texas Range, LOGIC, and TX-Fit investment pools are external investment pools measured at net asset value. Texas CLASS, Texas Range, LOGIC, and TX-Fit's strategy is to seek the preservation of principal, liquidity, and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pools. Texas CLASS, Texas Range, LOGIC, and TX-Fit have a redemption notice period of one day and may be redeemed daily. The investment pools' authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium, or national or state emergency that affects the pool's liquidity.

The District uses an Allspring Treasury Plus Money Market account rated AAAm/Aaa-mf as a sweep account for excess overnight funds. District bank accounts, other than zero balance accounts, utilize the sweep for bank balances above a predetermined threshold value.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application*, provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is based on the lowest priority level input that is significant to the entire measurement.

The District has recurring fair value measurements as presented in the table below. The District's investment balances and weighted average maturity of such investments are as follows:

| | Fair Value Measurements Using | | | | | | | | |
|--|-------------------------------|----------------------------|----|--|---|-------------|----|--------------------------------------|------------------|
| | l 20 2004 | | Ac | uoted Prices in tive Markets for dentical Assets | Significant Other Observable Inputs | | | Significant nobservable Inputs | Percent of Total |

U.S. Government Agency Securities and Commercial Paper are classified in Level 2 of the fair value hierarchy and are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk. In accordance with the District's investment policy, investments are made in a manner that ensures the preservation of capital in the overall portfolio, and offsets during a twelve-month period any market price losses resulting from interest-rate fluctuations by income received from the balance of the portfolio. The District's investment strategy states that no individual transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio. Some investments are also purchased with longer maturities to match the \$143.3 million General Fund liability for 2013 QSCB notes due in August 2033. These bear a risk that market interest rates could at some point exceed the yield of the investments purchased.

Credit Risk. State law limits investment purchases in commercial paper to not less than A1-P1 or equivalent rating by at least two nationally recognized credit rating agencies. The District's investments in Local Government Investment Pools (LGIP's) include: Texas CLASS, LOGIC, Lone Star, TexPool, Texas Range Daily, Texas Range Fixed Term, and TX-Fit. These are all public funds investment pools operating in full compliance with the Public Funds Investment Act. All are rated "AAAm/AAAf" by Standard and Poor's. The District's no-load money market fund maintains weighted-average maturity of 90-days or less. This money market fund invests only in first-tier securities. Under SEC Rule 2a-7 of the 1940 Act, a first-tier security is a debt instrument that is an eligible investment for money market funds and has received a rating in the highest short-term category from a nationally recognized statistical rating organization. On August 5, 2011, Standard and Poor's, one of three nationally recognized raters of US debt and securities, downgraded the rating of long-term US sovereign debt from AAA to AA+. Both rating agencies have maintained a "Stable" outlook for long-term US sovereign debt. Moody's has maintained its highest rating of Aaa. The District utilizes Wells Fargo Securities for money market investments and Wells Fargo Bank, N.A. for the daily operating funds.

Concentration of Credit Risk. The District's investment portfolio is diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from overconcentration of assets in a specific class of investments, specific maturity or specific issuer.

Custodial Credit Risk – Deposits. This is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. All deposits not covered by FDIC insurance but held in the depository bank, Bank of America, were fully collateralized.

Custodial Credit Risk – Investments. This is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District also uses an Insured Cash Shelter Account, similar to a Certificate of Deposit Account Registry Service (CDARS) program, which holds investment balances of \$250,000 or less at multiple depositories to maintain full FDIC coverage for the whole account.

Foreign Currency Risk. As of June 30, 2024, there are no foreign currency investments in the District's portfolio.

During the 2023-2024 fiscal year, the Federal Reserve increased the Fed funds rate from 5.25% to 5.50% by the end of June 2024. The quick rise in rates resulted in older securities on the District's portfolio losing value to stay competitive in the new environment. Subsequently, the year-end GASB 31 mark-to-market entry resulted in an unrealized loss for the overall portfolio's earnings. The District holds all securities until maturity; therefore, this is a book loss and not a loss of cash.

NOTE C: LOCAL REVENUES AND PROPERTY TAXES

Local and intermediate sources are comprised of the following:

| | General Fund | ebt Service Fund | Сар | oital Projects Fund | Non-Major Funds | | Total Governmental Funds | |

Property Taxes. The appraisal of property within the District is the responsibility of the Dallas County Appraisal District. The District's ad valorem property tax is levied each October 1 on the assessed value as of the prior January 1 for all real and business personal property located in the District. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the subsequent year. On January 1 of each year a tax lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed. The assessed value of the roll on January 1, 2023 was \$237,679,689,420. After deductions of all exemptions and reductions provided by law and those granted by the District, the 2023 tax year levy was based on property values of \$176,022,948,626.

The tax rates assessed for the year ended June 30, 2024, to finance General Fund operations and the payment of principal and interest on long term debt were \$0.771800 and \$0.242035 per \$100 valuation, respectively, for a total of \$1.013835 per \$100 valuation. The resolution levying the ad valorem taxes specifies the individual tax rates for the General Fund and Debt Service Fund. Current tax collections for the year ended June 30, 2024, were 98.0% of the adjusted tax levy.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. The District has provided an allowance for estimated uncollectible property taxes and estimated adjustments within the General Fund and Debt Service Fund of \$45,654,927 and \$12,399,891 respectively, based upon historical collection experience and historical adjustment experience.

The Texas Property Tax Code directs tax collectors to cancel and remove from the tax rolls real property taxes that have been delinquent more than 20 years and personal property taxes that have been delinquent more than 10 years. Additionally, the Texas Property Tax Code provides that personal property may not be seized and a suit may not be filed to collect a tax on personal property that has been delinquent more than four years.

NOTE D: RECEIVABLES

Property tax receivable as of June 30, 2024, for the District's Major Funds and Non-Major Funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

| | General | D | ebt Service | Totals |
|-----------------------------------|------------------|----|--------------|------------------|
| Property Taxes | \$ 75,497,622 | \$ | 19,727,046 | \$ 95,224,668 |
| Less: Allowance for uncollectible | (45,654,927) | | (12,399,891) | (58,054,818) |
| Totals | \$ 29,842,695 | \$ | 7,327,155 | \$ 37,169,850 |

In addition, the District has recorded a state aid receivable of \$85.3 million and a receivable from other governmental entities of \$154.2 million as of June 30, 2024.

NOTE E: UNEARNED REVENUE

Governmental funds defer revenue recognition in connection with resources that have been received but not yet earned. As of June 30, 2024, the components of unearned revenue reported in the General Fund and Non-Major Governmental funds were as follows:

| | General | | N | lon-Major | Totals | | |
|--------|---------|--------|----|-----------|--------|-----------|--|
| Grants | \$ | - | \$ | 9,247,858 | \$ | 9,247,858 | |
| Other | | 65,275 | | <u>-</u> | | 65,275 | |
| Totals | \$ | 65,275 | \$ | 9,247,858 | \$ | 9,313,133 | |

NOTE F: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund balances at June 30, 2024, consisted of the following individual fund receivables and payables:

| Fund | Receivables | Payables | | |
|-------------------------------------|---------------|---------------|--|--|
| General Fund: | | | | |
| ESSER III American Rescue Plan Fund | \$ 55,463,080 | \$ - | | |
| Non-Major Governmental Funds | 39,804,006 | - | | |
| Internal Service Funds | | 1,311,789 | | |
| | 95,267,086 | 1,311,789 | | |
| ESSER III American Rescue Plan Fund | | | | |
| General Fund | <u> </u> | 55,463,080 | | |
| | - | 55,463,080 | | |
| Non-Major Governmental Funds: | | | | |
| General Fund | | 39,804,006 | | |
| | - | 39,804,006 | | |
| Internal Service Funds: | | | | |
| General Fund | 1,311,789 | | | |
| | 1,311,789 | | | |
| | \$ 96,578,875 | \$ 96,578,875 | | |

The interfund receivable and payable between General Fund and Major and Non-Major Governmental Funds occurs when expenditures take place before the reimbursement is received from the granting agency. Transfers occur monthly, unless significantly larger payments are noted, and the transfer occurs more frequently. All interfund balances are expected to be repaid within the next fiscal year.

Interfund transfers are defined as "flows of assets without equivalent flows of assets in return and without a requirement for repayment". Interfund transfers during the year ended June 30, 2024, were as follows:

| Transfer Out | Transfer In | Amount |
|-----------------------|------------------------------|----------------|
| General Fund | Debt Service | 7,167,000 * |
| General Fund | Internal Service Fund | 1,400,000 ** |
| Internal Service Fund | Non-Major Governmental Funds | 402,108 *** |
| Internal Service Fund | General Fund | 7,640,056 **** |

^{*\$7.2} million transferred from the General Fund to the 2013 Qualified School Construction Bonds Fund to provide for the QSCB principal of \$143.3 million due in August 2033.

^{**}In fiscal year 2024, the District transferred \$1.4 million from the General Fund to cover \$0.4 million of Graphics Shop costs and \$1.0 million of Auto Liability Insurance costs.

^{***}In fiscal year 2024, the District transferred \$0.4 million from the Risk Management Fund to the Food Services Fund to cover Food Service costs.

^{****}In fiscal year 2024, the District transferred \$7.6 million from the Risk Management Fund to the General Fund to reduce excess net position in the Risk Management Fund.

NOTE G: FINANCED PURCHASES, LEASES, AND SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

Financed Purchases

Dallas ISD has entered into multiple arrangements for the purpose of financing the purchase of various equipment. These arrangements incur interest at 3.827% annually and have 3 year terms expiring in 2025.

The annual debt service requirement to amortize the financed purchase liabilities outstanding at June 30, 2024 are as follows:

| Fiscal Year | P | Principal | | Interest | | Total | | |
|-------------|----|-----------|----|----------|----|---------|--|--|
| 2025 | \$ | 910,477 | \$ | 9,771 | \$ | 920,248 | | |
| Total | \$ | 910,477 | \$ | 9,771 | \$ | 920,248 | | |

The value of the financed assets as of June 30, 2024 was \$7,520,455 and had accumulated amortization of \$6,067,543.

Leases Payable

Dallas ISD has entered into multiple lease agreements as a lessee. The leases allow Dallas ISD the right to use copy machines, buildings, and other equipment over the term of the lease. Dallas ISD is required to make monthly, quarterly, or annual payments at its incremental borrowing rate, which was computed at the beginning of each fiscal year based on the weighted average yield rate of most recently launched bonds. These arrangements incur interest at 3.827% annually.

The lease rate, term, and ending lease liability are as follows:

| | Liability at Commencement | | Lease Term in Months | | Ending Balance |
|-------------------------|------------------------------|------------|-------------------------|----|-------------------|
| Governmental Fund | | | | , | |
| Furniture and Equipment | \$ | 178,149 | 13 - 96 | \$ | 129,141 |
| Buildings | | 14,057,703 | 26 - 468 | | 11,542,370 |
| Total Governmental Fund | | | | | 11,671,511 |

The future principal and interest lease payments as of fiscal year-end are as follows:

Governmental Fund

| Year Ended June 30, | Principal | | _ | Interest | | Total | |
|-------------------------|-----------|------------|---|----------|-----------|-------|------------|
| 2025 | \$ | 2,139,336 | | \$ | 167,620 | \$ | 2,306,956 |
| 2026 | | 1,087,800 | | | 130,335 | | 1,218,135 |
| 2027 | | 498,809 | | | 117,028 | | 615,837 |
| 2028 | | 196,897 | | | 113,606 | | 310,503 |
| 2029 | | 200,595 | | | 110,445 | | 311,040 |
| 2030-2034 | | 957,666 | | | 509,925 | | 1,467,591 |
| 2035-2039 | | 1,005,237 | | | 439,763 | | 1,445,000 |
| 2040-2044 | | 1,080,110 | | | 364,890 | | 1,445,000 |
| 2045-2049 | | 1,160,985 | | | 284,015 | | 1,445,000 |
| 2050-2054 | | 1,247,671 | | | 197,329 | | 1,445,000 |
| 2055-2059 | | 1,340,830 | | | 104,170 | | 1,445,000 |
| 2060-2062 | | 755,575 | | | 15,090 | | 770,665 |
| Total Governmental Fund | \$ | 11,671,511 | _ | \$ | 2,554,216 | \$ | 14,225,727 |

The value of the right-to-use assets at June 30, 2024 was \$18,800,397 and had accumulated amortization of \$7,861,430.

Leases Receivable

Dallas ISD has entered into multiple lease agreements as a lessor. The leases allow the tenants the right to use buildings and grounds over the term of the lease. Dallas ISD receives monthly, quarterly, or annual payments from tenants. Interest revenue is calculated at the weighted average yield rate of most recently launched bonds.

The future lease receivables and interest amount as of fiscal year end are as follows:

| Year Ended June 30, | Principal | | Interest | | Total | |
|---------------------|-----------|-----------|----------|---------|-------|-----------|
| 2025 | \$ | 312,562 | \$ | 31,370 | \$ | 343,932 |
| 2026 | | 240,742 | | 23,961 | | 264,703 |
| 2027 | | 116,130 | | 17,960 | | 134,090 |
| 2028 | | 113,659 | | 15,305 | | 128,964 |
| 2029 | | 119,594 | | 12,522 | | 132,116 |
| 2030 - 2034 | | 362,108 | | 23,604 | | 385,712 |
| Total | \$ | 1,264,795 | \$ | 124,722 | \$ | 1,389,517 |

The balance of the deferred inflow as of the end of the current fiscal year was \$1,207,724 and had amortization of \$462,125 in the year. The total amount of inflows of resources from lease revenue was \$462,125, and interest revenue of \$28,234 was recognized in the current fiscal year from leases totaling \$490,359.

Subscription-Based Information Technology Arrangements (SBITA)

The District has 56 subscription contracts as of June 30, 2024. The District has implemented a threshold of \$50,000 for GASB 96 per annual subscription cost. Future subscription payments should be discounted using the interest rate the SBITA vendor charges. If the interest rate cannot be readily determined, the District uses the yield rates of bonds issued by the District. For fiscal year 2024, the District used 3.827% as the interest rate. The SBITA term and ending subscription liability are as follows:

| | iability at mencement | Lease Term in Months | Ending Balance |
|-------------------------|--------------------------|----------------------|-------------------|
| Governmental Fund | | | |
| Software | \$ 90,701,779 | 13 - 96 | \$ 46,150,253 |
| Total Governmental Fund | | | 46,150,253 |

The subscription liabilities are recorded in the government-wide fund. The principal and interest are liquidated at the fund level through the General Fund, Non-Major Governmental Funds, and the Capital Projects Fund.

| Fiscal Year | Principal | Interest | Total |
|-------------|---------------|--------------|---------------|
| 2025 | \$ 15,484,450 | \$ 1,396,715 | \$ 16,881,165 |
| 2026 | 13,047,358 | 939,569 | 13,986,927 |
| 2027 | 11,691,729 | 542,780 | 12,234,509 |
| 2028 | 4,863,229 | 206,369 | 5,069,598 |
| 2029 | 619,348 | 29,032 | 648,380 |
| 2030-2034 | 444,139 | 11,091 | 455,230 |
| Total | \$ 46,150,253 | \$ 3,125,556 | \$ 49,275,809 |

The value of the subscription assets as of the end of the current fiscal year was \$84,444,591 and had accumulated amortization of \$39,254,476.

NOTE H: CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2024, is as follows:

| | Balance at June 30, 2023 | Additions | Transfers | Deletions | Balance at June 30, 2024 |
|---|-------------------------------|-----------------------------|---------------------------|------------------------------|-------------------------------|

Capital assets include assets recorded in Internal Service Funds, net of depreciation/amortization, of \$49,366.

Depreciation/amortization is allocated to functions of governmental activities by specific identification whenever possible. Depreciation related to campus facilities is allocated to functions based on the relative square footage of the respective functional areas. Technology equipment is allocated in total to data processing services.

The District has active construction projects. These projects include new school construction and renovation of existing facilities. The total construction commitments as of June 30, 2024, are \$838,777,313 for projects under the bond programs.

NOTE I: LONG TERM OBLIGATIONS

The District's long-term debt includes general obligation bonds, maintenance tax notes and provisions for workers' compensation liability. Bond premiums and deferred losses on refundings are amortized using the effective interest method.

General Obligation Bonds. These bonds are secured by ad valorem taxes levied against all taxable property and are serviced by the Debt Service Fund with an apportionment of the ad valorem tax levy. Interest rates on the bonds range from 0.00% to 6.00% and are due through 2054. At June 30, 2024, \$355,602,164 in cash, cash equivalents, investments, and accrued interest is restricted or assigned in the Debt Service Fund to service the outstanding bonds:

Maintenance Tax Notes. On December 1, 2013, the District issued \$143,340,000 in Limited Maintenance Tax Qualified School Construction Bonds. The Maintenance Tax Notes are paid from the General Fund. The amount outstanding for Maintenance Tax Notes as of June 30, 2024 was as follows:

| Series | Maintenance Tax Notes Maturity or Mandatory Redemption Date | Yield Rates | Princ | Outstanding cipal Amount thousands) |
|--------|--|-------------|-------|-------------------------------------|
| 2013 | Principal due at maturity - interest due each February 15 and August 15 from | | | |
| | August 15, 2014 to August 15, 2033 | 5.05% | \$ | 143,340 |
| | | Total | \$ | 143,340 |

As of June 30, 2024, the District has transferred \$78,836,971 from the General Fund to a specially established Debt Service fund for the 2013 Qualified School Construction Bonds Fund to pay the 2013 Limited Maintenance Tax Qualified School Construction Bonds (QSCB) due in 2033. In addition, the District expects to annually transfer \$7,167,000 from the General Fund to the 2013 Qualified School Construction Bonds Fund to provide for the QSCB principal of \$143,340,000 due in August 2033.

Variable Rate Debt. The District currently has no variable rate debt.

Debt Issuance. As of June 30, 2024, the District has \$45,000,000 remaining of the \$75 million 2018 Transportation Bond Authorization, \$1,800,375,000 remaining of the 2020 School Building Bond Authorization, and \$140,000,000 remaining of the 2020 Technology Bond Authorization.

In January 2024, the District issued \$482,610,000 in "Unlimited Tax School Building and Refunding Bonds, Series 2024" with interest rates of 5.00%. The District received a net premium of \$34,127,618. The total proceeds, less issuance costs and underwriter's discount of \$1,300,272 and \$2,078,158, respectively, were used for school building construction and renovation and to refund Commercial Paper. Principal and interest payments are due every February 15 and August 15, beginning February 15, 2025, until February 15, 2054. The total interest requirements of these bonds aggregate \$413,483,791, as of June 30, 2024. The proceeds were invested in local government investment pools, commercial paper, or US government agencies. The debt is subject to federal arbitrage regulations and is serviced by the Debt Service Fund.

The District's underlying debt rating was last changed on November 22, 2019, an increase by Standard & Poor's from AA to AA+ with outlook stable.

The following is a summary of the changes in the District's long-term debt for the year ended June 30, 2024:

| 2030-2034 | | 143,340 | | 32,568 | 175,908 |
| Totals | \$ | 143,340 | \$ | 68,753 | \$ 212,093 |

The District legally defeased certain bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liability for these defeased bonds are not included in the District's basic financial statements. There are currently \$389,870,000 defeased bonds that remain in escrow at June 30, 2024 that have not met their redemption date.

Arbitrage. The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment for each issue every five years. The estimated liability is updated annually for any tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. At June 30, 2024, the District had \$12,536,397 in arbitrage liability.

NOTE J: SHORT TERM OBLIGATIONS

Short Term Debt. In June 2021, the Board approved the issuance of Dallas Independent School District Unlimited Tax Commercial Paper Program, Series I, in an aggregate principal amount not to exceed \$300,000,000, and the issuance of Dallas Independent School District Unlimited Tax Extendable Commercial Paper Program, Series II, in an aggregate principal amount not to exceed \$200,000,000, for a total of \$500,000,000 available for the District's 2021 Commercial Paper Program. Up to \$300,000,000 in Commercial Paper may be issued against the Series I program, and up to \$500,000,000 in contracts may be entered into under both the Series I and Series II programs.

The purpose of the 2021 Commercial Paper Program is (i) the purchase of school buses and construction and equipping of the maintenance and operating facilities for the District, as authorized by the 2018 Transportation Bond Authorization, the 2020 Technology Bond Authorization, and the 2020 School Building Bond Authorization; (ii) constructing, improving, renovating and equipping school buildings of the District and acquiring real property therefore as authorized by the 2020 School Building Bond Authorization; acquisition and updating of District technology equipment, as authorized by the 2020 Technology Bond Authorization; and, (iii) refinancing, renewing, or refunding Notes or Loans from time to time under any credit agreement. The Commercial Paper Notes mature in not more than 270 days from issuance and are supported by a standby letter of credit with Bank of America, National Association. Under the 2020 Technology Bond Authorization, a note of \$30,000,000 of Commercial Paper, Series IA, was issued on August 15, 2023, at a rate of 3.70% and matured on February 15, 2024. This note was fully refunded by the Unlimited Tax School Building and Refunding Bonds, Series 2024.

The Commercial Paper is secured by a pledge of the proceeds of future general obligation bonds or loans issued by the District to pay the principal of the Commercial Paper issued, or by proceeds from ad valorem property taxes. As of June 30, 2024, the District had no outstanding balance of Commercial Paper issued.

Changes in the Commercial Paper are as follows:

| Description | June 30, 2024 | June 30, 2023 |
|-----------------------------------|---------------|---------------|
| Beginning of the Period Liability | \$ - | \$ 50,000,000 |
| Bonds Issued | (12,800,000) | (100,000,000) |
| Commercial Paper Retirements | (17,200,000) | (100,000,000) |
| Commercial Paper Issuances | 30,000,000 | 150,000,000 |
| End of the Period Liability | \$ - | \$ - |

NOTE K: DEFERRED INFLOWS OF RESOURCES

Governmental funds report an amount that represents an acquisition of net position for a future period that will not be recognized as revenue until that time. As of June 30, 2024, the District had the following Deferred Inflows of Resources reported in the General Fund and Debt Service Fund:

| | General | | bt Service | <u> </u> | | |
|----------------|------------------|----|------------|----------|------------|--|
| Property Taxes | \$ 28,784,362 | \$ | 7,098,303 | \$ | 35,882,665 | |
| GASB 87 Leases | 1,207,724 | | - | | 1,207,724 | |
| Medicaid/SHARS | 6,975,584 | | - | | 6,975,584 | |
| Totals | \$ 36,967,670 | \$ | 7,098,303 | \$ | 44,065,973 | |

NOTE L: GENERAL FUND FEDERAL SOURCE REVENUE

Federal revenues recorded in the General Fund consist of the following:

| Build America Bonds Subsidy | \$ 17,053,324 |
|---|-------------------|
| E-Rate | 4,920,498 |
| Federal Revenue Distributed by Other Texas Agencies | 191,916 |
| Indirect Cost Reimbursement | 33,859,566 |
| Junior Reserve Officer Training Corps | 2,669,075 |
| School Health and Related Services | 19,343,847 |
| Qualified School Construction Bonds Subsidy | 6,824,714 |
| Emergency Connectivity Fund Revenue from USAC | 1,097,603 |
| Texas COVID-19 Pandemic Revenue | 21,150,166 |
| Total | \$ 107,110,709 |

NOTE M: DEFINED BENEFIT PENSION PLAN

Teacher Retirement System of Texas Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the TRS's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity, except for members who are grandfathered where the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as previously noted in the Plan Description above.

Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article XVI, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Rates for such plan fiscal years are as follows:

| | Contribution Rates | | |
|--|--------------------|-------|--|
| | 2023 | 2024 | |
| Member | 8.00% | 8.25% | |
| Non-employer contributing entity (State) | 8.00% | 8.25% | |
| Employers | 8.00% | 8.25% | |

The contribution amounts for the District's fiscal year 2024 are as follows:

| Dallas ISD 2024 Employer Contributions | \$ 67,381,615 |
|--|-------------------|
| Dallas ISD 2024 Member Contributions | \$ 111,956,554 |
| Dallas ISD 2024 NECE On-Behalf Contributions | \$ 58.588.531 |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.
- Public education employer contribution all public schools, charter schools and regional education service centers must contribute 1.8% of the member's salary beginning in fiscal year 2023, gradually increasing to 2.0% in fiscal year 2025.

Actuarial Assumptions. Roll Forward. The actuarial valuation of the total pension liability was performed as of August 31, 2022. Update procedures were used to roll forward the total pension liability to August 31, 2023 and was determined using the following actuarial methods and assumptions:

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Fair Value
Single Discount Rate 7.00%
Long-Term Expected Rate 7.00%

Municipal Bond Rate as of August 2021 4.13% - The source for the rate is the Fixed Income

Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity

index's "20-Year Municipal GO AA Index."

Last year ending August 31 in Projection Period (100 years) 2122

Inflation 2.30%

Salary Increases 2.95% to 8.95% Including Inflation

Ad Hoc Post Employment Benefit Changes N

Mortality rates

The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioners Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published projection scale ("U-MP"). The active mortality rates were based on the published PUB(2010) Mortality Tables for Teachers, below median, also with full generational

mortality.

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2021 and adopted in July 2022.

Discount Rate. A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the rates set by the legislature in the 2019 session. It is assumed that future employer and state contributions will be 9.50% of payroll in fiscal year 2024 gradually increasing to 9.56% in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2023 are summarized below:

| | Target | Long-Term Expected Geometric Real Rate | Expected Contribution to Long-Term Portfolio |
|---------------------------|--------------|---|--|
| Asset Class* | Allocation** | of Return*** | Returns |
| Global Equity | | | |
| U.S. | 18.0% | 4.0% | 1.0% |
| Non - U.S. Developed | 13.0% | 4.5% | 0.9% |
| Emerging Markets | 9.0% | 4.8% | 0.7% |
| Private Equity | 14.0% | 7.0% | 1.5% |
| Stable Value | | | |
| U.S. Treasuries | 16.0% | 2.5% | 0.5% |
| Absolute Return | - | 3.6% | - |
| Stable Value Hedge Funds | 5.0% | 4.1% | 0.2% |
| Real Return | | | |
| Real Assets | 15.0% | 4.9% | 1.1% |
| Energy, Natural Resources | | | |
| and Infrastructure | 6.0% | 4.8% | 0.4% |
| Commodities | - | 4.4% | - |
| Risk Parity | 8.0% | 4.5% | 0.4% |
| Asset Allocation Leverage | | | |
| Cash | 2.0% | 3.7% | 0.0% |
| Asset Allocation Leverage | (6.0%) | 4.4% | (0.1%) |
| Inflation Expectation | | | 2.3% |
| Volatility Drag**** | | | (0.9%) |
| Total | 100.0% | | 8.0% |

^{*} Absolute Return includes Credit Sensitive Investments. ** Target Allocation based on the FY2023 policy model.

^{***} Capital Market Assumptions come from Aon Hewitt (as of 08/31/2023).
**** The volatility drag results from the conversion between arithmetic and geometric mean returns.

Discount Rate Sensitivity Analysis. The following table presents the District's proportionate share of the TRS net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

| | 1% Decrease | | 1% Increase |
|------------------------------|---------------------------|------------------------|---------------------------|
| | in Discount Rate 6.00% | Discount Rate 7.00% | in Discount Rate 8.00% |
| DISD's proportionate share | • | | |
| of the net pension liability | \$ 1,283,343,955 | \$ 858,392,252 | \$ 505,044,684 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2024, Dallas Independent School District reported a liability of \$858,392,252 for its proportionate share of TRS's net pension liability. This liability reflects a reduction for state pension support provided to Dallas Independent School District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability | \$ | 858,392,252 |
|--|------|---------------|
| State's proportionate share that is associated with the District | | 782,933,849 |
| Total | \$ 1 | 1,641,326,101 |

The net pension liability was measured as of August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023. The net pension liability is typically liquidated by the General Fund.

At the measurement date of August 31, 2023, the District's proportion of the collective net pension liability was 1.2496547777% which was an increase of 0.0438901474% from its proportion measured as of August 31, 2022.

For the fiscal year ended June 30, 2024, the District recognized pension expense of \$267,081,738 and revenue of \$58,588,531 for support provided by the State.

On June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources: (The amounts shown below will be the cumulative layers from the current and prior years combined).

| | Deterred Outflows of Resources | Deferred Inflows of Resources | | |
|--|--------------------------------|-------------------------------|--|--|
| Difference between Expected and Actual Economic Experience | \$ 30,584,807 | \$ 10,394,191 | | |
| Changes in Assumptions | 81,187,093 | 19,868,333 | | |
| Difference Between Projected and Actual Investment Earnings | 124,916,910 | - | | |
| Changes in Proportion and Difference between Employer | | | | |
| Contributions and Proportionate Share of Contributions | 38,362,821 | 4,579,617 | | |
| Contributions paid to TRS subsequent to the measurement date | | | | |
| of the net pension liability | 56,594,389 | - | | |
| Total | \$ 331,646,020 | \$ 34,842,141 | | |

Dallas Independent School District reported \$56,594,389 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended June 30: | Pension Expense Amount |
|------------------------|------------------------------|
| 2025 | \$ 50,803,619 |
| 2026 | 34,056,733 |
| 2027 | 113,152,020 |
| 2028 | 36,652,937 |
| 2029 | 5,544,181 |
| Total | \$ 240,209,490 |

Change of Assumptions Since the Prior Measurement Date

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

Change of Benefit Terms Since the Prior Measurement Date

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the Net Pension Liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which was paid January 2024. Therefore, this contingent liability was not reflected as of measurement period ending August 31, 2023.

NOTE N: OTHER POST-EMPLOYMENT BENEFITS

Texas Public School Retired Employees Group Insurance Program Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Postemployment Benefit (OPEB) plan that has a special funding situation. TRS-Care was established in 1986 by the Texas Legislature and is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees in accordance with the Texas Insurance Code, Chapter 1575. The Board may adopt rules, plans, procedures and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). The Board of Trustees of TRS is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

The premium rates for retirees are reflected in the following table:

TRS-Care Monthly Premium Rates

| | Med | dicare | Non-l | Medicare |
|--|-----|--------|-------|----------|
| Retiree or Surviving Spouse | \$ | 135 | \$ | 200 |
| Retiree and Spouse | | 529 | | 689 |
| Retiree or Surviving Spouse and Children | | 468 | | 408 |
| Retiree and Family | | 1,020 | | 999 |

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

Rates for such plan fiscal years are as follows:

| | Contribution Rates | | |
|---|--------------------|-------|--|
| | 2023 | 2024 | |
| Active Employee | 0.65% | 0.65% | |
| Non-Employer Contributing Entity (State) | 1.25% | 1.25% | |
| Employers | 0.75% | 0.75% | |
| Federal/Private Funding Remitted by Employers | 1.25% | 1.25% | |

The contribution amounts for the District's fiscal year 2024 are as follows:

| Dallas ISD 2024 Employer Contributions | \$ 13,206,114 |
|--|------------------|
| Dallas ISD 2024 Member Contributions | 8,864,883 |
| Dallas ISD 2024 NECE On-Behalf Contributions | 15.432.980 |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

The State of Texas also contributed \$7,694,916, \$7,181,905 and \$4,907,939 in 2024, 2023, and 2022, respectively, for on-behalf payments for Medicare Part D.

TRS-Care received a supplemental appropriation from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

Actuarial Assumptions. The actuarial valuation of the total OPEB liability was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Demographic Assumptions
Rates of Mortality
Rates of Retirement
Rates of Termination
Rates of Disability

Economic Assumptions
General Inflation
Wage Inflation

See Note M for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2021.

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non-Medicare retirees. There was an initial prescription drug trend rate of 7.75% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Additional Actuarial Methods and Assumptions:

Actuarial Cost Method

Single Discount Rate

Aging Factors

Aging Factors

Election Rates

Based on Plan Specific Experience

Normal Retirement: 62% participation prior to age
65 and 25% participation after age 65. 30% of pre65 retirees are assumed to discontinue coverage at
age 65.

Expenses

Third-party administrative expenses related to the

delivery of healthcare benefits are included in the

age-adjusted claims costs.

Ad Hoc Post Employment Benefit Changes None

Discount Rate. A single discount rate of 4.13% was used to measure the total OPEB liability at August 31, 2023. This was an increase of 0.22% in the discount rate since the August 31, 2022 measurement date. The plan is essentially a "pay-as-you-go" plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments to current plan members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2023.

Sensitivity of the Net OPEB Liability Discount Rate Sensitivity Analysis. The following table presents the District's proportionate share of the TRS-Care net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (4.13%) in measuring the net OPEB liability.

| | 1% Decrease | Current Single | 1% Increase |
|--|---------------------------|------------------------|---------------------------|
| | in Discount Rate 3.13% | Discount Rate 4.13% | in Discount Rate 5.13% |
| DISD's proportionate share of the net OPEB liability | \$ 384,435,241 | \$ 326,403,402 | \$ 279,048,049 |

Healthcare Cost Trend Rates Sensitivity Analysis. The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

| | 1 | 1% Decrease | | Current Single | | 1% Increase in | |
|----------------------------|----|-----------------------------|----|--------------------------|----|--------------------------|--|
| | | in Healthcare Trend Rate | | Healthcare Trend Rate | | Healthcare Trend Rate | |
| DISD's proportionate share | - | | | 11011011100 | - | | |
| of the net OPEB liability | \$ | 268,776,867 | \$ | 326,403,402 | \$ | 400,540,137 | |

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. On June 30, 2024, the District reported a liability of \$326,403,402 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided by the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District are as follows:

| District's proportionate share of the collective net OPEB liability | \$ 326,403,402 |
|---|-------------------|
| State's proportionate share that is associated with the District | 393,855,875 |
| Total | \$ 720,259,277 |

The net OPEB liability was measured as of August 31, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023. The net OPEB liability is typically liquidated by the General Fund.

At the measurement date of August 31, 2023, the employer's proportion of the collective net OPEB liability was 1.4743829805% which was an increase of 0.0103395993% from its proportion measured as of August 31, 2022.

For the fiscal year ended June 30, 2024, the District recognized net OPEB revenue of \$146,116,522 due to recognition of deferred inflows in excess of deferred outflows and current year expense. OPEB revenue of \$84,198,073 was recognized for support provided by the State.

On June 30, 2024, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to other postemployment benefits from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Difference Between Expected and Actual Economic Experience | \$ 14,767,280 | \$ 274,606,635 |
| Changes in Actuarial Assumptions | 44,551,685 | 199,865,462 |
| Difference Between Projected and Actual Investment Earnings | 141,025 | - |
| Changes in Proportion and Difference Between Employer's | | |
| Contributions and Proportionate Share of Contributions | 18,750,518 | 8,521,265 |
| Contributions Paid to TRS Subsequent to the Measurement | | |
| Date (to be calculated by employer) | 11,089,783 | - |
| Total | \$ 89,300,291 | \$ 482,993,362 |

Dallas Independent School District reported \$11,089,783 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ended June 30: | OPEB Expense Amount |
|---------------------|------------------------|
| 2025 | \$ (89,069,555) |
| 2026 | (74,098,900) |
| 2027 | (53,831,312) |
| 2028 | (59,280,401) |
| 2029 | (51,830,593) |
| Thereafter | (76,672,093) |
| Total | \$ (404,782,854) |

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

 The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Changes in Benefit Terms. There were no changes in benefit terms since the prior measurement date.

NOTE O: RISK MANAGEMENT / AUTO LIABILITY

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District purchases commercial insurance to cover property losses. There were no significant reductions in insurance coverage from the prior year. There have been no claim settlements in excess of insurance coverage in the last three years.

Workers' Compensation. Beginning in 1989, the District moved from a self-insured workers' compensation program administered by a third party to a self-insured program administered by the District. The District currently reports all of its risk management activities in its Internal Service Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The provision for reported claims and for claims incurred but not yet reported is determined by an actuary for the District management. The District has an agreement with a third party administrator to contract directly with medical providers for their workers' compensation program and their injured employees. At June 30, 2024, the accrued liability for workers' compensation self-insurance of \$9.4 million includes incurred but not reported claims.

This liability is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred as of the date of the financial statements, and the amount of loss can be reasonably estimated. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing the liability does not necessarily result in an exact amount. This liability is the District's best estimate based on available information and management's estimate of administration costs necessary to provide future claims management.

Auto Liability. On July 1, 2018, the District established an internal service fund to accumulate and allocate all externally incurred liability expenses relating to student transportation and white fleet vehicle accidents

such as physical damage, third party medical claims, and third party administrator costs, as well as contracted services and parts to repair district buses damaged in such incidents.

Changes in the reported accrued liability for Risk Management and Auto Liability resulted from the following:

| Fiscal Year | Balance at ginning of Year | Year Claims and Jes in Estimates | Claims Payments | Balance at End of Year | |
|-------------|-------------------------------|---|--------------------|---------------------------|------------|

Health Insurance. The Board of Trustees approved the District's participation in the Teacher Retirement System (TRS) Active Care Health Insurance Program as sponsored by the Teacher Retirement System. From September 1, 2014 until August 31, 2020, the TRS-ActiveCare Health Insurance Program was administered by Aetna and CVS/Caremark Pharmacy. Effective September 1, 2020, the TRS-ActiveCare Health Insurance Program was administered by Blue Cross Blue Shield of Texas (BCBSTX). Effective January 1, 2024, Express Scripts began administering the TRS-Care Pharmacy benefits. This is a premium based plan. Employees pay for the insurance on a monthly basis.

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended June 30, 2024 and 2023, these on-behalf payments were \$7,317,946 and \$7,181,905, respectively, and were recorded as equal revenues and expenditures in the General Fund.

NOTE P: LITIGATION, CONTINGENCIES AND COMMITMENTS

The District participates in a number of federal and state financial assistance programs. These programs are governed by various statutory rules and regulations, and amounts received and receivable under the funding programs are subject to periodic audit and adjustment by the funding agencies. The District is also subject to audit by the Texas Education Agency, including student attendance data upon which many payments from the agency are based. Any non-compliance could result in questioned costs or refunds to be paid back to the granting agencies. The District has established appropriate liabilities for these items.

There are other claims and lawsuits arising principally in the normal course of operations. In the opinion of the District's management, the potential losses, after insurance coverage, on all allegations, claims, and lawsuits will not have a material effect on the District's financial position, results of operations, or liquidity.

NOTE Q: NEW ACCOUNTING PRONOUNCEMENTS

Statement No. 100: Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62. Statement 100 was issued in June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Statement 100 defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. In addition, this Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections. This statement became effective for the District in fiscal year 2024. The District implemented GASB 100 in fiscal year 2024. The implementation had no significant effect on the District's financial statements.

Statement No. 101: Compensated Absences. Statement 101 was issued in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. Further, this Statement requires that a liability for certain types of compensated absences—including parental leave, military leave, and jury duty leave—not be recognized until the leave commences. This Statement also requires that a liability for specific types of compensated absences not be recognized until the leave is used. This Statement becomes effective for the District in fiscal year 2025. The District has not yet determined the impact of this Statement.

Statement No. 102: *Certain Risk Disclosures.* Statement 102 was issued in December 2023. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This Statement becomes effective for the District in fiscal year 2025. The District has not yet determined the impact of this Statement.

Statement No. 103: *Financial Report Model Improvements.* Statement 103 was issued in April 2024. The objective of this Statement is to establish new accounting and financial reporting requirements – or modify existing requirements – related to the following:

- Management's discussion and analysis
- Unusual or infrequent items
- Presentation of the proprietary fund statement of revenues, expenses, and changes in fund net position
- Information about major component units in basic financial statements
- Budgetary comparison information
- Financial trends information in the statistical section

This Statement becomes effective for the District in fiscal year 2026. The District has not yet determined the impact of this Statement.

Statement No. 104: *Disclosure of Certain Capital Assets.* Statement 104 was issued in September 2024. This Statement establishes requirements for certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments.* It also establishes requirements for capital assets held for sale, including additional disclosures for those capital assets. This Statement becomes effective for the District in fiscal year 2026. The District has not yet determined the impact of this Statement.

NOTE R: SUBSEQUENT EVENTS

The District's management has reviewed its financial statements and evaluated subsequent events for the period of time from its year ended June 30, 2024 through November 1, 2024, the date the financial statements were issued. Management is not aware of any subsequent events, other than those described above, that would require recognition or disclosure in the accompanying financial statements.

In August 2023, Texas Senate Bill 2 (SB2) was signed into law by the Texas governor. SB2 requires Maintenance and Operations (M&O) tax rate compression plus a \$100,000 homestead exception. To comply with SB2, the District adopted an M&O tax rate of \$0.7552 for 2024-2025. SB2 is expected to reduce the District's local revenue and increase the State's portion of school funding, but it does not increase overall funding to the District. SB2 is also expected to decrease recapture payments because of reduced local revenue.

REQUIRED SUPPLEMENTARY INFORMATION

Dallas Independent School District Notes to the Schedule of Revenues, Expenditures, and Changes in Fund Balance Budget and Actual – General Fund Required Supplementary Information For the Fiscal Year Ended June 30, 2024

The District uses Generally Accepted Accounting Principles (GAAP) as the budget basis.

- 1. Before June 30 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- 3. Before July 1, the Board legally adopts the budget through passage of a resolution.

After budget approval, amendments (transfers between functions within a campus or organization) will be subject to approval by the Budget Services Department. The Board must approve budget amendments affecting the District's overall functional alignment. All budget amendments are reported to the Board on a monthly basis by the chief financial officer. Additionally, fund level amendments which impact the fund balance require approval of the Board. Fund level amendments are executed following the approval by the Board of Trustees, and reflected in the official minutes.

The budget manager at the expenditure function/object level controls each budget. For budgetary purposes, appropriations lapse at fiscal year-end, and outstanding encumbrances at year-end are re-appropriated in the next year.

TEA requires the budgets for the governmental fund types to be filed with the TEA.

Note: GASB Codification, Vol. 2, P50.238 requires that the data in this schedule be presented as of the District's respective fiscal years, as opposed to the time periods covered by the measurement dates ending August 31 of the preceding year.

This schedule shows only the years for which this information is available. Additional information will be added until 10 years of data are available and reported.

Dallas Independent School District Notes to Teacher Retirement System and Other Post Employment Benefits Schedules Required Supplementary Information For the Fiscal Year Ended June 30, 2024

Pension Liability

Changes of Benefit Terms

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the Net Pension Liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election and was paid January 2024. Therefore, this contingent liability was not reflected as of measurement period ending August 31, 2023.

Changes of Assumptions

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

OPEB Liability

Changes of Benefit Terms

There were no changes in benefit terms since the prior measurement date.

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

 The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study. **COMBINING AND OTHER STATEMENTS**

Non-Major Governmental Funds

The Non-Major Governmental Funds, which are made up of Special Revenue Funds, are used to account for funds that are legally restricted for specified purposes excluding capital projects.

Texas Education for Homeless Children & Youth Continuation (Fund 206) — These funds are to be used to account for, on a project basis, allocation to local educational agencies to provide a variety of staff development and supplemental services, including in-service training, counseling, psychological services and tutoring. They also facilitate the identification, enrollment, attendance, and academic success of homeless children and youth by removing barriers and promoting school stability for students experiencing homelessness. This program is authorized under P.L. 107-110, McKinney-Vento Homeless Education Assistance Improvement as amended by ESSA of 2015, Title X, Part C and Subtitle VII-B, reauthorized by Title IX, Part A, of ESSA (42 U.S.C. 11431 et seq.).

<u>Title I, Part A – Improving Basic Programs (Fund 211)</u> – These funds are to be used to account, on a project basis, for funds allocated to local educational agencies to enable schools to provide opportunities for children served to acquire the knowledge and skills to meet the challenging State performance standards developed for all children. The funds also implement the redesign model that supports the aggressive improvement of learning environments that can substantially increase student achievement. This program is authorized under P.L. 107-110 and 107-11, ESEA of 1965.

<u>IDEA – Part B, Formula (Fund 224)</u> – These funds are to be used to account, on a project basis, for funds granted to operate educational programs for children with disabilities. This funding also includes capacity building and improvement (silver) sub-grants. This program is authorized under P.L. 108-446.

<u>IDEA – Part B, Preschool (Fund 225)</u> – These funds are to be used to account, on a project basis, for funds granted for preschool children with disabilities. This program is authorized under P.L. 105-17.

IDEA – Part B, High Cost EDI and Evaluation Capacity Award (Fund 226) – High Cost Funds (HCF) are used to account for, on a project basis, the financial impact on districts that provide educational services to high-need children with disabilities. High-need children with disabilities receive educational services which exceed three times the average per pupil expenditure (APPE). HCF cover only costs identified in the child's Individualized Education Program (IEP) and associated with providing direct special education and related services. Evaluation Capacity Funds are used to secure appropriately certified and/or licensed staff for the purpose of completing evaluations for eligibility for special education services.

<u>Food Services Program (Fund 240)</u> – This fund is used to account for allowable expenditures, as determined under the National School Lunch Program, Summer School, Emergency Operational Cost Reimbursement, Fresh Fruit & Vegetable, and Child & Adult Care Food Programs, for the operation and improvement of the National Breakfast and Lunch Programs.

Perkins V: Strengthening CTE for the 21st Century (Fund 244) – These funds are to be used to account, on a project basis, for funds granted to provide career and technology education to develop new and/or improve career and technology education programs for paid and unpaid employment. Full participation in the basic grant is from individuals who are members of special populations. This program is authorized by P.L. 109-270.

<u>Title II, Part A – Supporting Effective Instruction (Fund 255)</u> – These funds are used to provide financial assistance to LEAs to increase student academic achievement through improving teacher and principal quality and increasing the number of highly qualified teachers in classrooms and highly qualified principals in schools and hold LEAs accountable for improving student academic achievement. They also afford the opportunity to build strong campus leaders and help support internal leadership pipelines through full-time, year-long principal residencies. This program is authorized under P.L. 107-110.

<u>Title III, Part A – English Language Acquisition (Fund 263)</u> – These funds are used to account, on a project basis, for funds granted to improve the education of limited English proficient children, by assisting the children to learn English and meet State academic content and student academic achievement standards. This program is authorized under P.L. 107-110.

<u>Medicaid Administrative Claiming Program – MAC (Fund 272)</u> – These funds are used to account, on a project basis, for funds allocated to local education agencies for reimbursement of eligible administrative costs for activities attributed to the implementation of the Medicaid state plan.

<u>ARP Homeless I – TEHCY Supplemental (Fund 278)</u> – These funds are used to account, on a project basis, for funds allocated to local education agencies to increase the capacity to address the unique needs of homeless children and youth to meet state-mandated standards for graduation and persist to postsecondary.

TCLAS – ESSER III (Fund 279) – These funds are used to account, on a project basis, for funds allocated to local education agencies to increase accessibility of learning acceleration supports, allow more targeted services, and develop coordinated, coherent supports for students. This grant program is authorized by the CARES Act, American Rescue Plan (ARP) Act of 2021, Elementary and Secondary School Emergency Relief (ESSER III) Fund, and General Appropriations Act (GAA), Article IX, Section 18.15 (TCLAS), 87th Texas Legislature.

<u>ARP Homeless II (Fund 280)</u> – These funds are used to account, on a project basis, for funds allocated to local education agencies to increase the capacity to identify, enroll, and provide wraparound services to address the unique needs of homeless children and youth due to the impact of COVID-19 pandemic.

Coronavirus Response and Relief Supplemental Appropriations – CRRSA ESSER II (Fund 281) – These funds are to be used to account, on a project basis, to prevent, prepare for, or respond to the COVID-19 pandemic, including impact on the social, emotional, mental health, and academic needs of students. This program is authorized by the Coronavirus Response and Relief Supplemental Appropriations Act of 2021, Section 313 Elementary and Secondary School Emergency Relief (ESSER II) Fund.

<u>IDEA-B Formula-ARP (Fund 284)</u> – These funds are to be used to account, on a project basis, for funds granted to operate educational programs to support special education and related services for children ages 3-21.

Other Federal Special Revenue Funds (Fund 289) – These funds are to be used to account, on a project basis, for federally funded special revenue funds that have not been previously mentioned. This fund includes the Indian Education; Refugee School Impact; Home Instruction for Parents of Preschool Youngsters (HIPPY); Title IV, Part A, Subpart I; LEP Summer School; and COVID-19 School Health Support Grant. These programs are designed to address the unique and culturally related needs of students.

<u>SSA IDEA, Part B – Discretionary Deaf (Fund 315)</u> – These funds are used to account, on a project basis, for funds used to support an Education Service Center ("ESC") special education component, priority projects in secondary special education, and adaptive/assertive devices component through ESCs, private residential placements, state school student support, support of student in care and treatment or hospital facilities, enhanced Braille production, and other emerging needs.

SSA IDEA, Part C – Deaf - Early Intervention (Fund 340) – These funds are used to account, on a project basis, for funds granted to assist local Regional Day School for the Deaf programs and the Texas School for the Deaf in providing direct services to hearing impaired infants to toddlers, age's birth through two years of age. This program provides supplemental and appropriate series to eligible students that are provided by a certified and trained teacher. This program is authorized under P.L. 101-119.

<u>Statewide Services for Students with Visual Impairments (Fund 385)</u> – These funds are used to account, on a project basis, for funds used to support LEA/SSA VI/O&M programs to support students with visual impairments.

<u>Texas Successful Schools Program (Fund 393)</u> – This fund classification is used to account, on a project basis, for grant monies applied for by school districts after being notified by TEA of their eligibility based on Academic Excellence Indicator System (AEIS) criteria. (TEC 39.091)

<u>Advanced Placement Incentives (Fund 397)</u> – This fund classification is used to account, on a project basis, for funds awarded to school districts under the Texas Advanced Placement Award Incentive Program, Chapter 28, Subchapter C, TEC.

Student Success Initiative – SSI Community Partnerships Initiatives Implementation Continuation (Fund 404) – This fund classification is used to account, on a project basis, for funds granted for teacher training and allocations to schools to implement scientific, research-based programs for students who have been identified as unlikely to achieve the third grade STAAR reading standard by the end of the third grade. This program supports significant improvements in educational and developmental outcomes for children and youth who live in distressed communities by providing access to great schools and creating strong partnerships to increase family and community support that will prepare students to receive an excellent education from early learning and progressing to college and a career.

<u>State Instructional Materials (Fund 410)</u> – This fund classification is used to account, on a project basis, for funds awarded to school districts under the textbook allotment. (TEC Chapter 31, Subchapter B).

Other State Special Revenue Funds (Fund 429) – These are state funded special revenue funds not otherwise listed. This fund includes the Dyslexia Funding Support, Math and Literacy Achievement Academies, Dual Credit, Read to Succeed, Safety and Security, and TCCP Chapter 5. The goal of these programs is to improve educator effectiveness in Texas public schools and to create a transformative school model to equip students with STEM based knowledge and skills needed to qualify for 21st Century careers. The programs will improve student performance by fostering safe, open, supportive, and collaborative campus cultures that allow teachers and students to seek and attain growth within their field.

SSA Regional Day School - Deaf (Fund 435) – These funds are used by the fiscal agent of a shared services arrangement to account, on a project basis, for funds allocated for staff and activities of the Regional Day School Program for the Deaf.

<u>Campus Activity Funds (Fund 461)</u> – This fund classification is used to account for transactions related to a principal's activity fund if the monies generated are not subject to recall by the school district's board of trustees into the General Fund. Gross revenues from sales are recorded in revenue object code 5755. The cost of goods sold is recorded in Function 36, using the appropriate expenditure object code.

Other Local Special Revenue Funds (Fund 499) – These are locally funded special revenue funds not otherwise listed. These funds include Dallas Education Foundation; Wallace Foundation; Community Foundation; Dell Foundation; HIPPY; Autism: A+; Head Start; Raising Blended Learners Initiative; CRIS-Bill & Melinda Gates; NextGen-Personalized Learning; Neiman Marcus; Korean Education; and New School Venture. These programs are designed to address expanded learning time programs for poor city children, enhance college readiness through development of performance metrics, and the pursuance of personalized, rigorous, and relevant learning experiences.

Internal Service Funds

The Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments on a cost reimbursement basis. These funds are as follows:

Graphics Shop – This fund is used to account for printing services.

<u>Risk Management</u> – This fund is used to account for the costs associated with the worker's compensation self-funded program.

<u>Auto Liability Insurance</u> – This fund is used to account for all externally incurred liability expenses relating to student transportation and white fleet vehicle accidents, as well as contracted services and parts to repair vehicles damaged in such incidents.

⁽¹⁾ Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. The overlapping percentage represents an estimate of the overlapping geographic area between the District and the respective governments listed above. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses within the boundaries of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

COMPLIANCE SECTION

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Trustees Dallas Independent School District Dallas, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dallas Independent School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 1, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Board of Trustees

Dallas Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WEAVER AND TIDWELL, L.L.P.

Weaver and Sidwell, L.S.P.

Dallas, Texas November 1, 2024

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance Required by the Uniform Guidance

Board of Trustees Dallas Independent School District Dallas, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Dallas Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on
 a test basis, evidence regarding the District's compliance with the compliance requirements
 referred to above and performing such other procedures as we considered necessary in the
 circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit
 in order to design audit procedures that are appropriate in the circumstances and to test and
 report on internal control over compliance in accordance with the Uniform Guidance, but not
 for the purpose of expressing an opinion on the effectiveness of the District's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance.

Board of Trustees
Dallas Independent School District

Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Dallas Independent School District Notes to the Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2024

1. The District utilizes the fund types specified in the Texas Education Agency Resource Guide.

Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state awards generally are accounted for in a special revenue fund. Generally, unused balances are returned to the grantor at the close of specified grant periods.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. All federal grant funds were accounted for in the special revenue funds, which are governmental funds. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for the governmental funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on long term debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until earned. The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting.

- The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before
 the ending date of the federal project period extends 30 days beyond the federal project period ending date, in accordance
 with provisions in Section H: Period of Performance of Federal Funds, Part 3, OMB Circular A-133 Compliance Supplement.
- 3. The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with rules and regulations governing the grants, refund of any money received may be required and the collectability of any related receivable at June 30, 2024, may be impaired. The District has not elected to use the 10% de minimis indirect cost rate of the Uniform Guidance.
- The Schedule of Federal Awards also includes indirect costs in the amount of \$33,861,987.

The following table reconciles total expenditures per The Schedule of Expenditures of Federal Awards for federal program revenues in the Non-Major Governmental Funds and the ESSER III Grant Emergency Relief Fund per Exhibit C-2:

| Total federal programs revenue per Exhibit C-2 | | 488,330,225 |
