## Phaedrus- Alternative High School

Founded in 1977, Edgemont High School's alternative school, Phaedrus, is a half-day program that serves approximately thirty juniors and seniors possessing a wide range of academic abilities and interests, representing a microcosm of the greater high school population. The program, to which students must apply, seeks to create a dynamic and democratic school community where students develop as leaders and independent learners. Participants fulfill their English and social studies requirements within Phaedrus, and their science, math, world language, and elective requirements in the regular high school. Students enrolled in Phaedrus receive descriptive evaluations rather than grades and do not receive a computed GPA.
