

Mini Tennis Sessions FAQs

1. Which session is appropriate for my child?

The sessions are labelled and act as a guide. Once you have completed the session you believe most appropriate, the coaches will speak to you about suitability in the session. If there is a more suitable session available, then these will be discussed.

2. How do I find out availability?

Sessions are generally well attended and fill up fast. Please contact reception in person or via e-mail/telephone and someone will get back to you shortly.

There is also the option to book online please follow the below link.

3. My child is a good player/county level player are these sessions appropriate?

We have a wide range of sessions being delivered for all stages of development and there could be other options available if sessions are not appropriate

4. Can my child come for a taster?

Your child can come for a free taster session if there is space in that session

5. What happens when they become too good for the group?

Players will get moved around in sessions over time depending on their development and the suitability of the group.

If you are a school pupil, you DO NOT NEED to book via Scuba but instead contact Chris Johnson who will sort the session out on the school portal - SOCS.
