

Thank You for Your Support of the 23-24 Maclay Fund!

We are so grateful for the support of our dedicated donors whose generosity allows The Maclay Fund to provide vital, unrestricted support for our school's most pressing needs. Contributions directly enhance our academic programs, enrich extracurricular activities, and continually increase resources for our faculty and students. Your commitment to our community exemplifies the spirit of generosity and partnership that makes our school truly exceptional.

Over the past year, thanks to our community's investment in The Maclay Fund, we were able to make the following possible:

The Continued Growth of the Faculty Salary Growth & Supplementation Endowment

Thanks to the incredible generosity of a lead \$1 Million commitment, Maclay established the *Faculty Salary Growth & Supplementation Endowment*. This fund creates a pathway for the school to change the way our teaching faculty are compensated in a significant way in the long term. A portion of The Maclay Fund supports this endowment, ensuring that we are able to recruit and retain the most talented and passionate educators in our area.

Upgrades to The Marian Lawton Langford Library

This past summer, upgrades were completed to the library including new flooring, carpeting, and the addition of two classrooms. These enhancements create a welcoming and inspiring learning environment, where students can explore and engage with a wide range of resources.

New Middle School Robotics Equipment

Thanks to the support of The Maclay Fund, our Middle School purchased state-of-the-art robotics equipment, enriching our STEM educational initiatives. This funding has enabled us to offer hands-on learning experiences that inspire creativity and innovation among our students. The new robotics equipment not only enhances our curriculum but also prepares our students for future technological exploration.

The Expansion of College Counseling

The Maclay Fund supported the expansion our College Counseling Program by funding additional positions and enhancing the support available to both students and families. This expansion allows for more personalized guidance throughout the college application process, with additional counselors providing tailored advice and resources. New programs help ensure students and their families have the tools and knowledge needed to navigate the complexities of college admissions.

Continued Expansion of Fine Arts

The Maclay Fund has significantly expanded programs and resources for visual and performing arts across all three divisions, enriching the creative experiences of our students. The Maclay Fund has played a crucial role in advancing fine arts across our school community. The generous support has enabled the creation of a new Lower School Art Garden. This funding also facilitated the acquisition of a new slab roller for art classes in the Lower School, enhancing students' hands-on learning experiences. Upper School art students benefitted from increased enrichment experiences, including additional opportunities to curate and exhibit their artwork.

Upgrades to Athletics

Thanks to the generous support of the Maclay Fund, our Strength & Conditioning program received a significant boost with the addition of two new racks in the Weight Room. This essential funding has expanded our capacity, allowing more students to actively participate and benefit from tailored fitness programs.

The Maclay Fund has played a crucial role in enhancing our Athletic Training program by enabling the purchase of an electrical ultrasound machine. This state-of-the-art equipment supports our athletes by ensuring they receive optimal care and treatment.

Tennis Hitting Wall

The Maclay Fund generously supported the installation of a new tennis hitting wall, which is utilized by both our Physical Education classes and Maclay Tennis teams. This addition enhances our students' ability to practice and refine their tennis skills, offering a dedicated space for solo drills and skill development. The hitting wall serves as an essential training tool, benefiting players of all levels and contributing to the overall growth of our Athletics Program.

Thank You!
