

Dual Enrollment classes at Prescott Unified School District are offered for Yavapai College classes being taken on our Prescott High School campus. The class is taught by a college-certified PHS instructor during the normal high school day. Students pay an incredibly reduced tuition rate, \$10 a credit hour. Upon course completion, the grade and credit are immediately placed on a college transcript. For the 2024/25 school year, PHS has 394 students, grades 9-12, taking 25 different Yavapai College courses on the PHS campus.

Prescott High School also offers high school credit for Concurrent Enrollment. This occurs when a PHS student takes a class at Yavapai College, with a YC instructor, and with YC fees, but full elective credit is awarded at Prescott High School.

To help service students with these options, an on-site Prescott High School advisor is also employed with Yavapai College and Yavapai College sends one of their advisors to Prescott High School at least two days a week.

Every year dozens of PHS Seniors graduate with a high school diploma as well as multiple credits toward a college degree. This saves our recent PHS alumni time as they pursue an Associate's or Bachelor's degree, and saves families thousands of dollars in college tuition!
