

World Language Readers Review

The World Language Supplemental Resource Sub-Committee is presenting a list of 7-12 Readers to be approved for use in PV Schools. This process has been created to fulfill the requirements of ARS 15-721 and ARS 15-722. In addition, we want to create standardized guidance for 7-12 world language classrooms.

PV teachers use Readers, similar to a novel in an English class, to assign to students to become immersed with the language. This helps with learning the fluency of the language, provides real-world connections, and ensures cultural relevance.

Thank you for your time and interest in PV Schools'
World Language Supplemental Resources!
