School Goals

Our goals center on scaffolding support for all students to access academic rigor and graduate college and career ready. In order to know, value, and empower students to achieve their dreams, we use the 5 Dimensions of Teaching and Learning Instructional Framework, equitable assessment practices, engaging learning environments, positive classroom cultures, and focused academic language instruction. Additionally, we target our most vulnerable students and utilize a 9th grade on-track team to ensure students feel seen and supported as they work toward graduation and postsecondary opportunities.

State Goals

The Oregon Department of Education is collaborating with school districts and communities across the state to achieve a 90% on-time graduation rate by 2027. Grounded in the pillars of Academic Excellence, Belonging and Wellness, and Reimagined Accountability, ODE prioritizes evidence-based practices to boost early literacy, attendance, and student engagement. We are committed to closing opportunity and achievement gaps for marginalized students and securing long-term success for all of Oregon's learners by investing in culturally responsive practices, fostering inclusive environments and always driving for continuous improvement.

Safe & Welcoming Environment

Common expectations, social-emotional learning, and safety and security systems allow our students to feel safe, seen, and welcome on our campus. Technology, systems, and people support mental health, physical safety, and positive classroom environments across our school. Students are connected through an advisor, and access academic and social support through our Advisory and Falcon Time weekly schedule.
