

Our Space Neighborhood

The Sun is the center of our space neighborhood (the Solar System). Orbiting around the Sun are planets, comets, rocks, and other things. It is a busy neighborhood!

There are 8 planets that revolve around the Sun. They are:

Mercury,
Venus,
Earth,
Mars,
Jupiter,
Saturn,
Uranus, and
Neptune.

To help us remember what the names of the 8 planets are, we learn the sentence: My Very Educated Mother Just Served Us
Nachos.

Make your own sentence to help you remember the names of the planets.

M _____ V _____ E _____

M _____ J _____ S _____

U _____ N _____.
