

Network Usage and Safety Guidelines

@bmtisd.com

If Beaumont ISD owns the Devices, mifi, Google Drive, wifi, and network you are using, then BISD can and will monitor at all times, even at home, what you are doing with their equipment.

BISD is required to monitor devices and networks to protect students.

Your Digital Footprint Last Forever

Your digital footprint is everywhere you go, and everything you upload, or post to the web. *This is true on BISD devices and Personal Devices such as your phone.

Once you post or press send it is no longer in your control.

What are some ways that your digital footprint might negatively affect you?

Plagiarism

Plagiarism is taking someone else's work or ideas and passing them off as one's own.

Just because you can copy, download others words, art, pictures, videos, or music, does not mean that you should.

You should always site the source when copying.

Google has tools to make citing sources and finding Free to Reuse images easy.
