

MISSISSIPPI DEPARTMENT OF EDUCATION CHILD FIND

Are you concerned about the speech, development, learning, or behavior of a child?

Child Find is an effort by the Oxford School District to locate, identify, and evaluate children with disabilities who may need early intervention.
From birth to 21 years of age.

Anyone concerned about a child's speech, learning, behavior, or development can make a **Child Find** request.

A multidisciplinary evaluation will involve a series of observations conducted by two or more specialists with the child and caregivers.

Who should I contact?

For birth to 2 years of age, contact the local Health Department. For a child 3 years of age to 21 years of age, contact Oxford School District.

What should I bring to determine if a multidisciplinary evaluation is necessary?

Although you are not required to bring anything with you, any records you have can assist in describing your concerns about a child.

Identify. Locate. Evaluate.
