

September in 4th Grade

Reading

We are off to a great start. Students are finishing the review of reading skills. We will be starting our unit on natural disasters in the world, country and state. Ask your student about how natural disasters occur, how the government prepares/ responses and how you can prepare.

Math

Our first math unit is multiplication. The students are working to be able to rapidly recall their facts and be able to apply their knowledge of multiplication to solve and use division problems. Any help with memorizing the multiplication facts at home would be very helpful!

Writing

We are working daily on the structures of writing. We are practicing and reviewing letter formation as well as writing in complete sentences.

Science/ Social Studies

We will focus on reading, constructing and interpreting many different kinds of maps.

Important Information/Dates

Donations wanted: Classroom **healthy** snacks: goldfish, Mott's fruit snacks, or pretzels

Conferences:

Tuesday, October 15th 3pm - 7pm

Wednesday, Oct. 16th 7am - 3pm

CONTACT INFO
