

# November in 4th Grade

## Reading

Thank you for coming to our Natural Disaster presentations. Our next unit we will read some classic fairy tales. Our focus will be identifying key details, writing a summary and describing characters.

## Math

During November the students will be digging into the world of decimals and fractions! This is a very IMPORTANT unit as it is pretty new information. Please work on any fractions or decimals that you see around your world (grocery store, gas station, baking)

## Writing

This month we are working on writing our own fairytale! Students will write a beginning, middle, and ending to a fairytale and will then make slides with pictures that connect with their writing.

## Science/ Social Studies

During November we will work on the history of the United States. We will also be working on our first science unit of the year which is a FAVORITE! Energy and magnetism..

## Important Information/Dates

Donations wanted: Classroom **healthy** snacks: goldfish, Mott's fruit snacks, or pretzels

### **No School:**

November 5th Recordkeeping day/Election  
November 26, 27, and 28
