3. Red Ribbon Week Activities
  - Campus Administrators shared their drug abuse awareness programs at each campus, including providing information through health classes and Red Ribbon Week activities at SMS and TAE
  - SISD PD officers will present a broad overview of the dangers of drugs and alcohol during assemblies at each campus. Presentations will be differentiated for age appropriateness. Parents are also invited to attend assemblies.
4. Fentanyl Poisoning Instruction Requirements
  - Resources from TEA regarding fentanyl abuse were shared with the committee.
  - The committee discussed current resources and instruction, including lessons through health classes, the availability of Narcan at each campus, and staff instruction on signs of an overdose.
  - The committee reviewed the new direct instruction regarding fentanyl poisoning required for 6-12 grades-Tucker's Law.
  - The committee agreed that a multi-layered approach including school/grade level assemblies as well as small group instruction would be most beneficial. Chief McHone offered to research law enforcement resources and potential presenters. The committee also suggested guest speakers to include first responders, medical professionals, and those personally impacted by fentanyl poisoning. Instruction should also include information for students on mental health services available on campus and resources for teachers who may provide these lessons.
5. Updates/Other Business
  - The committee requested a copy of last year's wellness plan and policy. Dr. Aycock will send that to all members.

6. The next meeting is December 6. Potential topics were addressed including recess/physical education and critical incident response training.
