Enrichment Programs for 2021-2022

Grades K-2

Students will have their instruction differentiated by the classroom teacher to accommodate enrichment activities. These activities will take place during small group instructional time. The center based learning block and the Math second block are dedicated times to offer enrichment in a small group setting.

Grades 3-5

Students will have their instruction differentiated by the classroom teacher to accommodate enrichment activities. These activities will take place during small group instructional time. The center based learning block and the Math second block are dedicated times to offer enrichment in a small group setting.

Beginning January 3, 2021, these grades will also have access to a STEAM based enrichment pull out program that will take place during the center based block. Students that qualify will take part in STEAM lessons with a designated teacher. STEAM lessons will also take place in the whole group setting as well.

Grades 6-8

Students who qualify for enrichment will take part in a year-long series of activities. These will range from a research project and presentation to creating and organizing a service project. 8th grade students who qualify for enrichment will be offered Algebra I
