THE PLAN

SAVE THE LANDMARK. Our goal is to restore the main portion of the building by keeping it on the “preservation list” which allows the land to keep its Historical Value with the Historic Harrisburg Association. Also saves the district millions of dollars by covering the cost of the building we want to preserve.

HOW..

The portion of the front of the building including the east and west wing we would keep to retain the Historical value of the building. The center back portion of the building is where we would demolish and remove from the building. This would cut cost in half and still preserve what's in place.

This plan would take us about 2-3 years to fully execute.

FUNDING FOR PROJECT

BEFORE

RENOVATIONS

- Funding for Demolition would come from the District. (6.8 Million was the initial cost for demolishing the entire school.) We would utilize a fraction of that money to remove the backend of the building. Saving the District millions of dollars by preserving the front portion of the building.

DURING

RENOVATIONS

- GRANTS
- DONATIONS
- INVESTORS
- FUNDRAISING
- The community can purchase a piece of the building stone as a memoir/keepsake.
- VOLUNTEERISM - Campaigning to get the city involved.

AFTER

RENOVATIONS

- Grants will continue for the programs we are facilitating in the building as well as donations and fundraising.
- Revenue from the businesses
- Patronizing all the Alumni's.
- Patronizing all businesses in Central PA.

WILLIAM PENN

Skyview of the full building. Demolition of the back portion of the school but preserving the face of the building. It would keep its Historical Value.

FRONT VIEW

The front portion of the building will be completely renovated by our organization and the help from the community. We will cover the cost for removal of asbestos and decay from the building. The renovations will begin soon after.

Represents what would be demolished.

THANK YOU
