March 10 Preschool Registration

March 25-28 - Spring Break

March 31 - Classes Resume

Blue Hall

Kindergarten

The blue hallway kinders have been hard at work learning all about school this first trimester. They are learning their letters, figuring out how to read and write words, and learning LOTS of new vocabulary words they are using every day. At the beginning of November we took a quick break from all the hard work to celebrate being in school for 50 days! It was a full 50's sock hop including snazzy outfits, dances, activities, and shirley temple floats.

BLUE HALL FIRST GRADE

This trimester has been an exciting and enriching time for our first graders! The students have been actively engaged in a variety of activities that combine creativity and critical thinking. Here's a glimpse of what we've been up to: Our students explored the wonders of fall by conducting research and writing informative pieces about the changes that occur during the fall season. Students took on the challenge of disguising their pumpkins and turkeys to "hide" them in plain sight! These fun projects encourage creative expression. In math, students have been building a strong foundation in addition and subtraction by learning and practicing various strategies. This trimester has been filled with discovery, creativity, and growth. We're proud of how much our first graders have accomplished and look forward to more exciting learning in the months ahead!

Blue Hall

Mrs. Fire's Class

The school year has been off to a great start for the students. Since starting the year, they have done All About Me and Apples units. The students loved all the hands-on learning! We are now getting ready to start a unit on community helpers. Some of our favorite activities so far have been apple stamping and our class turkey. This year has been off to a great start!

Blue Hall

Mrs. Globis' Class

Our team works diligently to provide behavioral support and specially designed instruction to students who may need extra assistance. We take pride in building meaningful relationships with students to help support both their academic and social emotional growth. We develop specially designed instruction to meet the varying needs of all the students we work with and enjoy collaborating with all staff to best meet the needs of our students.
