November 18, 2024

To the Board of Trustees and the Citizens of Midland Independent School District:

The Office of Financial Services is pleased to submit this annual comprehensive financial report of the Midland Independent School District (MISD) for the fiscal year that ended June 30, 2024. This report has been prepared to provide the Board of Trustees, citizens of the District, representatives of financial institutions and rating agencies, and other interested parties information concerning the financial condition of the District.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. As a basis for making these representations, the management of the District is responsible for designing, implementing, and maintaining adequate, efficient, and effective systems of internal control. These systems of control provide reasonable, but not absolute, assurance that: (1) District assets and critical records are safeguarded from loss, theft, or misuse; (2) Authorized transactions are promptly and accurately recorded; (3) District resources are efficiently and economically employed; and (4) Financial reports are prepared in conformity with Generally Accepted Accounting Principles, (GAAP). The concept of reasonable assurance recognizes the cost of implementing internal controls should not outweigh their benefits and that management makes estimates and judgments in the normal course of daily business. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

This report includes all funds of the District and any activities over which the Board has oversight responsibilities and/or authority to make decisions. The District is not a component unit, but has one component unit, the Midland Education Foundation, Inc. A component unit is a legally separate organization that a primary government must include as part of its financial reporting entity for fair representation and conformity with GAAP.

The Texas Education Code requires an annual audit of the District's financial statements by independent certified public accountants selected by the Board. The Board selected Eide Bailly, LLP, a firm of licensed certified public accountants, to audit this year's financial statements. The independent auditors' report is presented as the first component of the financial section of this report.

### **DISTRICT PROFILE**

Midland Independent School District, located in Midland, TX, is one of approximately 1,200 school districts (both public and charter districts) in the state of Texas. The District encompasses approximately 765 square miles in Midland County. In the 2023-2024 school year, the district served 28,752 students from pre-kindergarten through grade 12. The District currently operates two high schools (grades 10-12), two

## OFFICE OF FINANCIAL SERVICES

432-240-1000 • midlandisd.net

freshmen centers, one early college high school, two alternative education high schools, five junior high schools, and 26 elementary schools. The age and square footage of District facilities are included in Table 19 of the Statistical Section. The District's student enrollment has increased by 22% in the past ten years and it expects to enroll more than 29,384 students in the 2024-2025 school year. Recent statistics indicate a student population that is approximately 67% Hispanic, 22% Caucasian, 7% African-American, 2% Asian, and 2% two or more races.

The District is governed by a seven-member Board of Trustees elected by the registered voters of the District. Major responsibilities of the Board include selecting a superintendent of schools, approving personnel as recommended by the superintendent, adopting goals for the district, reviewing and acting on policies, adopting an annual budget and setting the tax rate, and communicating the district's progress to the public. As a policy-making body, the Board delegates the day-to-day administration and operation of the District to the superintendent.

The mission of the District is to ensure that all students will graduate college, career, or military ready. This goal is achieved through our Strategic Plan and the three foundational pillars: Student Experience, Staff Development, and Community Engagement. Our Strategic Plan serves as a comprehensive road map holding us accountable for enhancing the academic success of our students, school, and staff.

The plan encompasses 28 initiatives, each with defined success metrics to monitor the effectiveness. A college-ready student is an academically prepared for postsecondary education without the need for remediation. We also acknowledge that not all students will pursue the college path. A career-ready student is equipped with the necessary academic, employability, and technical skills required for success in the workforce. These skills include critical thinking, adaptability, technological proficiency, responsibility, persistence, and teamwork.

### **FINANCIAL INFORMATION**

The District takes pride in its commitment to providing responsible stewardship of financial resources needed to support students, educators, staff, parents, and the community. The philosophy has fostered a strong fund balance over the years, enabling the District to adopt effective financial practices and guidelines. This commitment ensures that the primary focus remains on student education and supports the District's mission.

Since April 2021, Moody's has rated the District as an Aa1. The Aa1 rating reflects a stable and healthy financial profile. The District also has an AA bond rating from S&P Global.

### **BUGETARY CONTROL**

State law requires that every local education agency in Texas prepare and file an annual budget of anticipated revenues and expenditures with the Texas Education Agency. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board. The budget itself is prepared utilizing a detailed line-item approach for governmental fund types and is prepared in accordance with the budgeting requirements as outlined in the Financial Accountability System Resource Guide for Texas school districts.

## OFFICE OF FINANCIAL SERVICES

Midland Independent School District  
615 W. Missouri Ave., Midland, TX 79701  
432-240-1000 • midlandisd.net

It is the intent of the District that the budgetary process results in the most effective mix of the educational and financial resources available while attaining the goals and objectives of the District. The ultimate decision on the level of funding and the programs to be funded rests with the Board. After considering all factors, the Board sets an ad valorem tax rate that generates sufficient revenues to support the expenditure budget of the District.

The budget may be amended during the year to address unanticipated or changing needs of the District. A change to functional expenditure categories, revenue objects, or other sources and uses accounts requires Board approval. The District also maintains an encumbrance accounting system as a budgetary control.

### **ECONOMIC OUTLOOK**

#### Local Economy

Midland, TX, is located in the heart of the Permian Basin oil region, which is the second-largest oil and gas shale in the world. Midland is home to large national companies, high-paying jobs, expanding family businesses, and entrepreneurs seeking growth opportunities.

As of June 2024, Midland County ranks 6<sup>th</sup> in the nation based on Barrels of Oil Equivalent per Day, (BOE/D). Currently there are 15,217 wells in Midland County of which 74% are producing. This is a 5% increase from the previous year. The price per oil barrel has remained steady for the month of June, which indicates a sustainable price for the Region.

### **LONG-TERM FINANCIAL PLANNING**

The Board recognizes the significance of adopting balanced budgets, sustaining a healthy fund balance, and long-range financial planning. Over the past ten years, management has also actively reduced the District's debt, saving over \$56 million in future interest payments through advanced redemption as bonds become callable, advanced refunding as opportunities become available, or refinancing of bonds. The District reviews its long-term debt service annually and considers accelerated redemption or restructuring when financially advantageous.

The 86<sup>th</sup> Texas Legislature passed House Bill 3 (HB3) on June 11, 2019. HB3 made significant changes to the state's funding formula and provided property tax relief through the compression of the school district's Maintenance and Operations (M&O) property tax rate. Districts with property values growth of more than 2.5% per year are required to compress maintenance and operations tax rates. Also, a transition provision, Equalized Wealth Transition Grant ("transition"), holds the district harmless in that it ensures the district will receive at least 3% more funding than if calculated under prior law. Transition funds are only available for five years, which have now ended. Additionally, the appropriations to prevent, prepare for, and respond to the coronavirus pandemic, ESSER III have now ended as of September 2024.

The district's management has developed a strategic plan using the results of stakeholder engagement sessions and needs assessments conducted during the of Spring 2023. The plan can be split in 3 major categories: Student Experience, Grow & Develop Staff and Engage & Act. This plan is aligned with the Lone Star Governance initiatives and bond planning. Future long-term financial planning is based on the strategic plan, and the budget process will be aligned to support these goals.

### **DISTRICT INITIATIVES**

The District began its transition from a Managed Instruction Theory of Action to an Earned Autonomy Theory

## OFFICE OF FINANCIAL SERVICES

Midland Independent School District  
615 W. Missouri Ave., Midland, TX 79701  
432-240-1000 • midlandisd.net

of Action with the ultimate goal of having implemented a System of Great Schools (SGS) Theory of Action by 2027. SGS is the development of a collaborative vision between the community and the school district to innovate and support choice options to enable all families to ensure that all students are sitting in seats in high-performing schools.

The District is part of the Texas Strategic Resource Use Network, which supports cross-functional teams and district leaders in leveraging a “Do Now, Build” approach to organize resources in ways that lead to sustainable transformation. This year, MISD is participating in the Annual School Budget Planning pathway, which seeks to improve the budgeting practices in the district.

### AWARDS AND ACKNOWLEDGMENTS

The District was awarded an “A-Superior Achievement” under the Financial Integrity Rating System of Texas (FIRST), a financial accountability rating system for Texas school districts. The primary goal of FIRST is to achieve quality performance in the management of school districts' financial resources. The superior achievement rating is the state’s highest, demonstrating the quality of the District’s financial management practices and the high level of performance in the management of their financial resources.

The Government Finance Officers Association of the United States and Canada, (GFOA) has awarded the Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ending June 30, 2024. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

The Association of School Business Officials International, (ASBO) recognized the District with the Certificate of Excellence in Financial Reporting for the 2023-2024 fiscal year. This award represents a significant achievement and reflects the District’s commitment to transparency and high-quality financial reporting.

The preparation of this report on a timely basis would not have been possible without the dedicated efforts of the District’s entire Financial Services staff. We appreciate all members who assisted and contributed to the preparation of this report. We would also like to acknowledge Eide Bailly, LLP, for their assistance in the production of the report. Finally, we would like to thank the Board of Trustees for their continued interest and leadership in support of the District’s financial management.

Respectfully submitted,

## Independent Auditor's Report

The Board of Trustees of  
Midland Independent School District  
Midland, Texas

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Midland Independent School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the District as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Adoption of New Accounting Standard***

As discussed in Note 1 and 16 to the financial statements, the District has adopted the provisions of Government Accounting Standards Board (GASB) Statement No. 100, *Accounting Changes and Error Corrections*, for the year ended June 30, 2024. Accordingly, the presentation and disclosure of the accounting change in the financial statements conform to the requirements of the new standard for the year ended June 30, 2024, to restate beginning fund balance. Our opinions are not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that Management’s Discussion and Analysis, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund (Exhibit G-1), Schedule of the District’s Proportionate Share of the Net Pension Liability – Teacher Retirement System of Texas (Exhibit G-2), Schedule of the District’s Contributions to the Pension Plan – Texas Retirement System of Texas (Exhibit G-3), Schedule of the District’s Proportionate Share of the Net OPEB Liability (Exhibit G-4), Schedule of the District’s Contributions to the OPEB Plan (Exhibit G-5) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The combining nonmajor fund financial statements, TEA required schedules and the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, TEA required schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, statistical section, and Exhibit L-1 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we also have issued our report dated November 12, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Abilene, Texas  
November 12, 2024

This section of the District's Annual Comprehensive Financial Report (ACFR) discusses and analyzes the District's financial performance for the fiscal year ending on June 30, 2024. This management discussion and analysis intend to look at financial performance as a whole. Therefore, readers should also review the transmittal letter, financial statements, and notes to the basic financial statements to further enhance their understanding of the District's financial performance.

## FINANCIAL HIGHLIGHTS

- The 86<sup>th</sup> Texas Legislature passed House Bill 3 (HB3) on June 11, 2019. HB3 made significant changes to the state's funding formula and provided property tax relief through the compression of the school district's Maintenance and Operations (M&O) property tax rate. Districts with property values growth of more than 2.5% per year are required to compress maintenance and operations tax rates. Also, a transition provision, Equalized Wealth Transition Grant ("transition"), holds the district harmless in that it ensures the district will receive at least 3% more funding than if calculated under prior law. Transition funds are only available for five years, which have now ended.
- At the close of the twelve-month period ending June 30, 2024, the District's total net position was \$462.7 million. The net position consists all of the District's assets and liabilities associated with the operation of these funds.
- The government-wide statements reported total revenues of \$597.0 million, which supported the total net expenditures of \$484.8 million. This resulted in an increase of net position of \$112.2 million.
- The governmental fund financial statements reported a combined ending fund balance of \$1.27 billion for the twelve-month period ending June 30, 2024. This balance consists of \$230.2 million in the General Fund, \$117.1 million in the Debt Service Fund, \$906.2 million in Capital Projects, \$12.4 million in Other Non-Major Governmental Funds.
- 2023-2024 property values increased by 10% and the total tax rate decreased by \$0.0378 from the prior year, resulting in the following for the General Fund:
  - Local property tax revenue of \$322 million decreased by \$56 million, or 15%, from the prior year.
  - Recapture expense of \$91.7 million decreased by \$73 million, or 44%, from the prior year.
  - State revenue of \$77 million decreased by \$5 million, or 6.5%, from the prior year.
- The General Fund had \$428.5 million in revenues, which primarily consisted of local property taxes and state aid. Expenditures of \$431.6 million, including \$91.7 million in recapture, resulted in an increase in fund balance by \$115 thousand for the twelve-month period ending June 30, 2024.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The statements are followed by a section of required supplementary information, required TEA schedules, and other information that further explains and supports the information in the financial statements.

The basic financial statements include two kinds of statements that present different views of the District:

## Midland Independent School District

Management’s Discussion and Analysis

Twelve Months Ended June 30, 2024

- The first two statements are *government-wide financial statements* that provide both long-term and short-term information about the District’s overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the government, reporting the District’s operations in more detail than the government-wide statements.
  - The *governmental funds* statements tell how general government services were financed in the short term as well as what remains for future spending.
  - *Proprietary fund* statements offer short- and long-term financial information about the activities the government operates like businesses.
  - *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Major features of the District’s *government-wide* and *fund financial statements* are summarized below:

Type of Statement	Government-Wide	Fund Financials		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
<b>Scope</b>	Entire District’s government (except fiduciary funds)	The activities of the District that are not propriety or fiduciary	Activities the District operates similar to private business-health insurance and worker’s compensation	Instances in which the District is the trustee or agent for someone else’s resources
<b>Required Financial Statements</b>	<ul style="list-style-type: none"> <li>• Statement of net position</li> <li>• Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>• Balance sheet</li> <li>• Statement of revenues, expenditures, and changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>• Statement of net position</li> <li>• Statement of revenues, expenditures, and changes in fund balance</li> </ul>	<ul style="list-style-type: none"> <li>• Statement of fiduciary net position</li> <li>• Statement of change in net position</li> </ul>
<b>Accounting Basis and Measurement Focus</b>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<b>Type of Asset/Liability Information</b>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
<b>Type of Inflow/Outflow Information</b>	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after year-end, expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenue and expenses during the year, regardless of when cash is received or paid.	Agency funds do not report revenue and expenditures.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

### Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector company. These statements include:

**The Statement of Net Position.** The Statement of Net Position (Exhibit A-1) focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of what the District owns (assets), what it owes (liabilities), and the net difference (net position). Net position may be further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in the District's net position may serve as a useful indicator of whether the financial health is improving or deteriorating.

**The Statement of Activities.** The Statement of Activities (Exhibit B-1) presents information showing how the net position of the District changed over the year by tracking revenues, expenses, and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing for when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

To assess the overall health of the District, additional nonfinancial factors should be considered, such as changes in the District's property tax base, student enrollment, and facility conditions.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities—Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.
- Component units—The District includes another entity in its report. Although legally separate, "component units" are important because the District is financially accountable for them. Midland Education Foundation, Inc., a nonprofit organization that provides support to the District, teachers, and students, is included here.

### Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, rather than the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by State law and by bond covenants, while many other funds are established by the District to help manage resources for particular purposes and compliance with various grant provisions. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds.** Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets can readily be converted to cash flow in and out of those funds and (2) the balances left at year-end that are available for spending in future periods. Consequently, the governmental fund statements provide a

detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's educational programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement that explain the relationship (or differences) between them.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered major funds. Data from the other governmental funds, including the National School Breakfast and Lunch Program, are combined into a single aggregated presentation as nonmajor funds.

**Proprietary Funds.** Services for which the District charges users (other units of the District) a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long and short-term financial information. The District uses internal service funds to report activities that provide supplies and services for the District's Print Shop, Self-insurance program, Employee Housing, and Employee Childcare.

**Fiduciary Funds.** The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that, because of a trust arrangement, may be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. Fiduciary funds are excluded from the District's government-wide financial statements because these resources are not available to finance District operations.

### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents other supplementary information, including schedules required by the Texas Education Agency.

### GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's Net Position ended June 30, 2024 with \$462,666,808. This is an increase from the previous year of \$112.2 million. The Net Position is comprised of the Net Investment in Capital Assets at \$238.8 million; Restricted for Grants at \$10.7 million; Restricted for Debt Service at \$107.0 million, Restricted for Construction at \$3.6 million, Restricted for Other Purposes (SB 1882) at \$7.9 million and Unrestricted at \$94,595,113. The table below compares the statement of net position year over year:

Midland Independent School District

Restricted	129,230,954	28	36,840,478	11	92,390,476	251		
Unrestricted	94,595,113	20	111,416,323	32	(16,821,210)	-15		
<b>Total net position</b>	<b>\$ 462,666,808</b>	<b>100</b>	<b>\$ 350,450,048</b>	<b>100</b>	<b>\$ 112,216,760</b>	<b>32</b>		

The chart below demonstrates the distribution of the overall net position:

The District's capital assets, which consist of the District's land, buildings, building improvements, vehicles, and equipment, represent about 44 percent of total assets. The remaining assets consist mainly of investments, cash, grants, property taxes receivable, state revenue receivable, and prepaid assets.

The District's long-term liabilities include repayment of general obligation bonds and net pension and OPEB liability. Other liabilities consist almost entirely of recapture and payables on accounts, salaries and benefits.

The District's net position includes its investment in capital assets (e.g., land, buildings, and equipment) less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of the unrestricted net position may be used to meet the district's ongoing obligations to students, employees, and creditors.

The change in net position is attributed to the following:

- Property values resulted in a 10% increase in the property tax base which was offset by a decrease in the M&O tax rate of \$0.1851 and an increase in the I&S tax rate of \$0.1473. These changes decreased current assets related to property taxes receivable from the levy.
- State revenues all decreased by 1.5% over the prior year.
- These values were offset by significant growth in long term investments.

#### **Governmental Activities**

Funding for government-wide activities is by the specific program revenue or through general revenues such as property taxes and investment earnings. Revenues for the District's governmental activities increased by \$28 million while total expenses increased by \$5.8 million, this still resulted in a net increase of net position of \$112 million.

#### **Revenues**

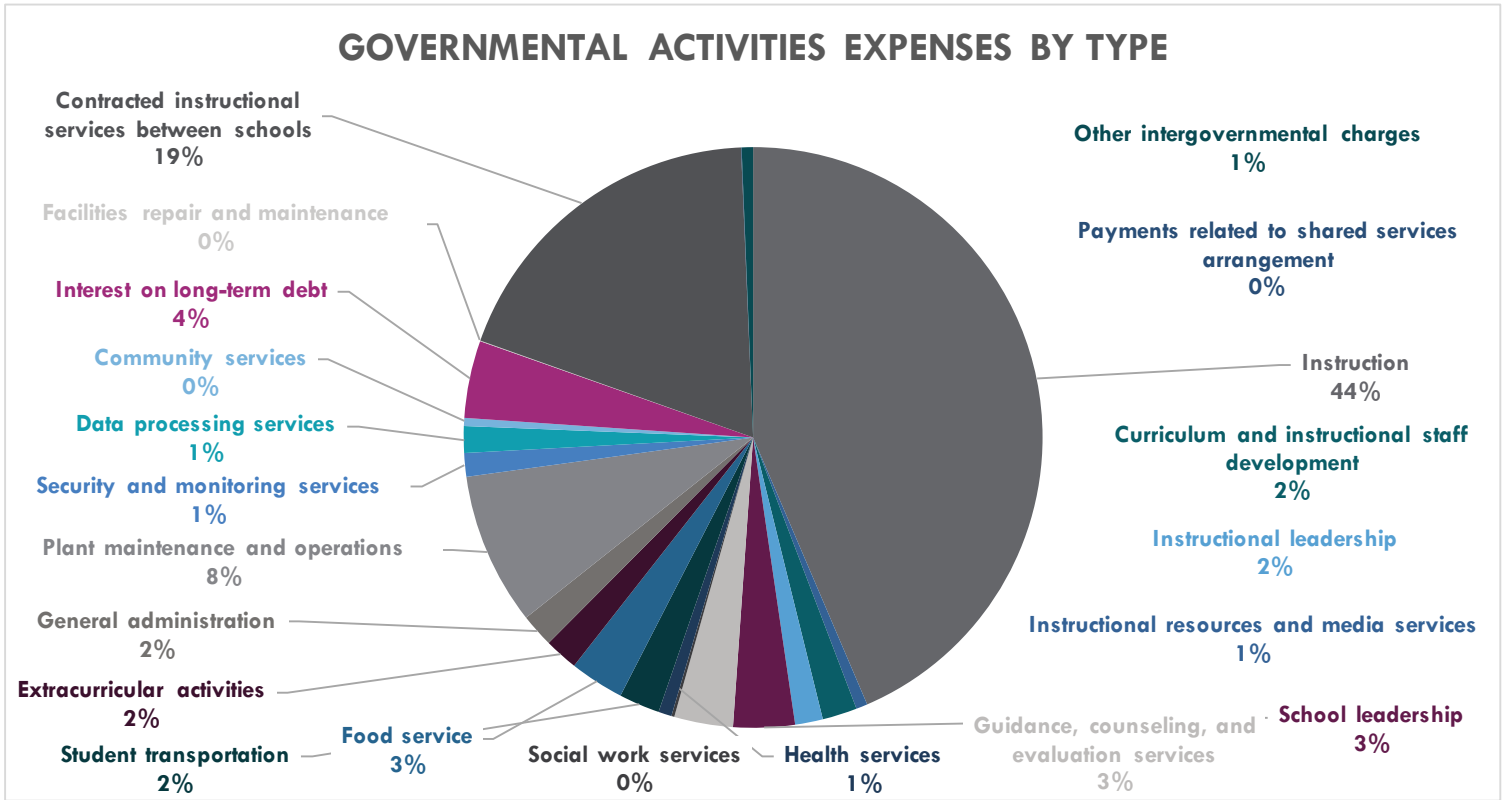

The District's total revenues were \$597 million, representing an increase of \$28 million from the previous year. The majority of this increase is due to an increase in property taxes due to the increase in the tax base offset by the decrease in the overall tax rate and an increase in investment earnings due to increased investment balances and interest rates. These increases were offset by reductions in federal funding due to the depletion of Federal Recovery Funds and a reduction in state aid. As seen below, approximately 71% of the District's revenue comes from local property taxes, 11% from state aid, 9% from state and federal sources, 1% from other grants, 2% from charges for services, and 5% from investment revenues.

#### Expenses

The District's total expenses were \$485 million, representing an increase of \$5.8 million from the previous year. The majority of the increase in expenses is due to increases in instructional expenses compared to fiscal year 2022-2023. The District's primary functional expenses are

- Instruction - \$211 million, or 44 percent of the total expenses
- Recapture ("Contracted instructional service") - \$91 million, or 19 percent
- Plant maintenance and operations - \$41 million, or 9 percent

In total, governmental activities increased the District's net position by \$112 million dollars. Key elements of this change are as follows:

## FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

### Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$1.27 billion. This is an increase of \$977.7 million in comparison with the prior year. Approximately 71.6 percent of this total amount (\$906 million) constitutes Capital projects, which has \$896.8 million restricted for spending in accordance with the 2024 Bond and \$9.4 million committed for future capital projects. The remainder of the fund balance is non-spendable, restricted, committed or assigned to indicate that it is not available for new spending because it has already been 1) used to purchase inventories or prepaids (\$1.3 million), 2) restricted to pay debt service (\$117.1 million), 3) restricted for grants of \$10.7 million, 4) restricted by cooperative partnership agreements (\$7.9 million), or 5) committed for other purposes of \$1.0 million, 6) assigned for future capital projects (\$55 million), self-insurance (\$2 million), and coverage for anticipated future state aid reduction (\$55.9 million). Assignments reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds.

**General Fund.** The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$108.8 million, while the total fund balance reached \$230.2 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The unassigned fund balance represents 25 percent of total General Fund expenditures, while the total fund balance represents 53 percent of that same amount.

The fund balance of the District's General Fund increased by \$116 thousand during the current fiscal year. Key factors in this growth are as follows:

- Expenditures totaled \$431 million which is a 7 percent increase from the previous year. Recapture was reduced from prior year obligations by \$73 million which offset increases in other expenditure areas.

**Debt Service Fund.** The Debt Service Fund has a total fund balance of \$117 million, all of which is restricted for the payment of debt service. The net increase in fund balance was \$99 million. Revenues totaled \$108 million which is a \$76 million increase from the previous year. Expenditures totaled \$9.6 million, which is a 30 percent decrease from the previous year. The increase was due to raising additional funds for a large defeasance that occurred after June 30, 2024.

**Capital Projects Fund.** The capital projects fund has a total fund balance of \$906,194,375, \$896.8 million of which is restricted for the 2024 bond projects and \$9.4 million is committed to capital acquisitions and improvements.

### Budgetary Highlights

The District adopts an annual appropriated budget for the General Fund, the National School Breakfast and Lunch Program, and the Debt Service Fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with statutory requirements.

**General Fund.** The most significant fund for the District is the General Fund, funded primarily through local property tax revenue. The District's budget amendments presented to the Board of Trustees throughout the year are summarized as follows:

- ***Variances of original expenditure budget compared to amended budget.***

The amended expenditure budget decreased by \$34 million from the original budget. The original budget was adopted with lower property values provided at the time by the Midland Central Appraisal District. These factors were considered in the original recapture calculation, which was higher than the final recapture amount. The final amendment was based on the knowledge of the final projected expenses for the fiscal year.

- ***Variances of amended budget to actual expenditures.***

Expenditures were \$8.5 million less than final budgeted amounts. This was largely due to a decrease in recapture of \$73 million and plant and maintenance expenditures less than budget by \$2 million. The actual revenue collected on 23-24 is lower than the final amended revenue for the same year by \$1 million.

- ***Variances of original revenue budget compared to actual revenue***

Actual revenues were less the original budget by \$45.3 million. The original budget was adopted with higher property values provided by the Midland Central Appraisal District at the time.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of 2024, the District had invested \$393.6 million in a broad range of capital assets, including land, buildings, and equipment. This amount represents a net increase of \$49.8 million, or 14 percent over last year. Major capital asset events conducted during the fiscal year included six HVAC replacement projects, flooring and roof replacements, and various construction in progress projects related to the 2024 bonds. Additional information on the District's capital assets can be found in Note 5 of this report.

Midland Independent School District

**Long-Term Debt**

At the end of 2024, the District had \$1.2 billion in long-term liabilities, including Bond 2024, general obligation bonds, net pension liability, and net OPEB liability. The District's long-term increased by \$911.0 million. Additional information on the District's long-term debt can be found in Note 6 of this report.

	Governmental Activities					
	2024		2023		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%

<b>Totals</b>	<b>\$ 1,182,823,253</b>	<b>100</b>	<b>\$ 271,840,411</b>	<b>100</b>	<b>\$ 910,982,842</b>	<b>335</b>

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The 2024-25 appraised property taxable values, based on October 7th, 2024 MCAD estimates, saw a 3.29% increase from the prior year. In addition, based on current enrollment and attendance experiences in 2023-24, the district is budgeting for a 2.93% increase in refined ADA.

The Maintenance and Operations (M&O) tax rate increased to \$0.6669 per \$100 valuation for the 2024-25 year due to the board adopting the 5th available golden penny not previously adopted due to implications with the Formula Transition Grant (FTG) the district has received over the past five years that expired starting with the 2024-25 fiscal year. The Interest and Sinking (I&S) tax rate decreased to \$0.2101 per \$100 valuation for the 2024-25 year. The district slightly decreased the I&S tax rate to ensure the overall tax rate remained flat at \$0.877 per \$100 valuation as the previous year's overall tax rate. In the 2024-25 fiscal year, the district plans to defease a large portion of the outstanding debt obligations prior to Series 2024, which was possible with the I&S tax rate. This saved taxpayers approximately \$35.8 million, totaling right over

\$92 million saved in interest payments since 2012 due to refinancing and defeasing existing debt obligations. The 2024-25 tax rate will also allow the district to defease additional debt in late summer of 2025 and is estimated to save tax payroll right under \$1 million in additional savings. Due to the Formula Transition Grant expiration (FTG), the district estimates a loss of 11.67% in local/state revenue we've been subject to receiving for the past five years that will no longer be available. In addition, the adoption of the 5th golden penny on the M&O tax rate, a property value increase of 3.29%, and a 2.93% increase in refined ADA resulted in a revised budget increase of \$6.7 million in property tax revenue and a decrease of \$39 million in state revenue. The decrease in state revenue is also attributed to the reduction of two 1882 partnerships no longer subject to receiving the additional 1882 funds from the state. The assumptions also decreased the estimated recapture amount for the 2024-25 fiscal year.

The current revised 2024-25 General Fund expenditures are budgeted \$13 million under the prior year's (2023-24) final expenditures. Major expenditure changes include the reduction in recapture expenditures.

In the past, the oil and gas industry has experienced booms and busts. The production of oil in the region has increased as compared to last year and is expected to maintain high production levels, which are the main driver of immigration and economic activity in the Permian Basin region. The District has maintained a healthy fund balance which is budgeted to remain at the same level for next year.

#### **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Financial Services Department at 615 West Missouri Avenue, Midland, TX 79701 or you can give us a call at 432-240-1018.

## Midland Independent School District

Reconciliation to the Governmental Funds Balance Sheet to the Statement of Net Position (Exhibit C-1r)  
June 30, 2024

---

Total Fund Balances - Governmental Funds (Exhibit C-1)		\$1,265,887,886
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and employee housing to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.		14,421,107
Capital assets, net of accumulated depreciation, less assets held in internal service funds are not financial resources and therefore are not reported as assets in governmental funds.		388,138,457
Some liabilities, including bonds payable are not due and payable in the current period and therefore are not reported in the funds:		
Bonds payable	(985,699,986)	
Other long-term debt	(6,260,923)	
Deferred charge on refunding	3,067,342	
Deferred gain on refunding	(2,149,177)	
Unamortized premiums on bonds payable	(51,566,344)	
Arbitrage rebate liabilities	(3,401,246)	
Accumulated accretion on capital appreciation bonds	<u>(364,497)</u>	(1,046,374,831)
Accrued interest is not due and payable in the current period and therefore is not reported as a liability in the governmental funds.		(10,879,695)
Certain assets are not available to pay for current period expenditures and therefore are deferred in the funds. These are:		
Deferred resource inflow for property taxes		4,840,673
The government-wide statements includes the District's proportionate share of the TRS net pension liabilities and TRS-Care net OPEB liabilities, as well as certain pension and OPEB related transactions accounted for as deferred inflows and outflows of resources:		
Net pension liability	(100,286,927)	
Deferred outflows of resources - TRS pension	39,811,315	
Deferred inflows of resources - TRS pension	(5,558,218)	
Net OPEB liability	(38,644,576)	
Deferred outflows of resources - TRS-Care OPEB	13,779,305	
Deferred inflows of resources - TRS-Care OPEB	<u>(62,467,688)</u>	<u>(153,366,789)</u>
Total Net Position - Governmental Activities (Exhibit A-1)		<u>\$ 462,666,808</u>

## Midland Independent School District

### Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities (Exhibit C-2r) Year Ended June 30, 2024

Total Net Changes in Fund Balances - Governmental Funds (Exhibit C-2)	\$ 977,681,713
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and employee housing, to appropriate functions to other funds. The change in net position of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase net position.	1,132,280
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. Net increase in accreted interest on capital appreciation bonds of \$91,124 decreases net position. The net effect of including the 2024 capital outlays of \$66,891,049, removing the remaining net book value of \$104,140, bond principal payments of \$4,860,000, amortization of deferred charges/gains on refunding of \$799,348, and other debt payments of \$2,635,844 is to increase net position.	74,096,166
Government funds report debt proceeds as financing sources when debt is first issued, whereas these are reported as long-term liabilities in the statement of net position. The net effect of reclassing debt proceeds of \$867,983,152 and premium of \$44,470,418 is to decrease net position.	(912,453,570)
2024 depreciation and amortization expense increases accumulated depreciation and amortization. The net effect of the current year's depreciation, less depreciation recorded in internal service funds, is to decrease net position.	(16,826,600)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing deferred tax revenue of \$4,840,673 as revenue and removing the prior year's tax collection of \$5,407,081.	(566,408)
Interest payable on long-term debt is accrued in the government-wide financial statements, whereas in the fund financial statements, interest expense is reported when due. The current year change in the accrual is an increase of \$9,103,367 and an increase in arbitrage liability of \$3,401,246. The net effect is to decrease net position.	(12,504,613)
Bond premiums are recorded as other financing sources when received in the fund financial statements but are capitalized and amortized in the government-wide financial statements. This is the current year amortization.	1,829,871
Changes in the deferred outflows of resources, deferred inflows of resources and net pension liability must be recorded as expenses. Changes in contributions made after the measurement date caused the change in net position to decrease in the amount of \$445,203. The District's share of the unrecognized deferred inflows and outflows for TRS as of the measurement date must be amortized and the District's proportionate share of the pension expense must be recognized. These cause the change in net position to decrease in the amount of \$9,146,381. The net effect is a decrease in net position.	(9,591,584)
Changes in the deferred outflows of resources, deferred inflows of resources and net OPEB liability must be recorded as expenses. Changes in contributions made after the measurement date caused the change in net position to decrease in the amount of \$65,349. The District's share of the unrecognized deferred inflows and outflows for TRS as of the measurement date must be amortized and the District's proportionate share of the OPEB expense must be recognized. These cause the change in net position to increase in the amount of \$9,484,854. The net effect is an increase in net position.	9,419,505

**Note 1 - Summary of Significant Accounting Policies****Reporting Entity**

The Board of Trustees, a seven-member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the Midland Independent School District (the District). The public elects the members of the Board of Trustees. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the TEA or to the State Board of Education are reserved for the trustees, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. The Midland I.S.D. Education Foundation is a component unit of the District. The Foundation's purpose is to support teachers and students of the District in the advancement of their educational careers and to provide grants for great ideas to develop creative learning in the classroom. The District has financial accountability because it must approve the members of the board of directors and a financial benefit/burden relationship exists. It is discretely presented in a separate column on the government-wide financial statements (Exhibits A-1 and B-1) in order to emphasize that it is legally separate from the District.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements, as well as the proprietary and fiduciary fund financial statements, are reported using the *economic resources measurement focus* and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

The Proprietary Fund Types and Fiduciary Funds are accounted for using the *economic resources measurement focus and the accrual basis of accounting*. Revenues are recognized in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

Property taxes and penalties and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

The District reports the following major governmental funds:

*The General Fund* – is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

*The Debt Service Fund* – a governmental fund type, is used to account for the District's current portion of voter approved debt and the Foundation School Program's facilities allotment for bonded indebtedness.

*The Capital Projects Fund* – a governmental fund type, is used to account for the proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.

Additionally, the District reports the following nonmajor fund types:

*Special revenue funds* - a governmental fund type, account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The District accounts for each federal and state grant in a separate special revenue fund.

The *internal service funds*, a proprietary fund type. Revenues and expenses are related to services provided to organizations inside the District on a cost reimbursement basis. Internal service funds inherently create redundancy because their expenses are recorded a second time in the fund that are billed for the services they provide. Therefore, on the government-wide financial statements, the operations of the internal service funds are consolidated and interfund transactions are eliminated. The District has an internal service fund for health, dental and workers' compensation benefits, an internal service fund for employee housing, an internal service fund for the District's internal print shop and another internal service fund for childcare for employees.

The *fiduciary funds*, the District has the following:

*Private purpose trust funds* – Donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Fund is the scholarship fund.

*Employee benefit trust funds* – These funds are used to account for other employee benefit funds that are provided by the District.

*Custodial funds* – The District accounts for resources held for others in a custodial capacity in custodial funds. The District's Custodial Fund is the student activity fund.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from *nonoperating items*. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the transportation internal service fund are District contributions for the transportation fund. Operating expenses include depreciation and other operating expense and administrative expense for administering the transportation fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources, as they are needed.

### Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are reported at fair value.

### Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

### Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental column in the government-wide financial statements and in the proprietary fund financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant and equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

<u>Capital Asset Class</u>	<u>Lives</u>
Buildings and improvements	40
Furniture and equipment	5-10

Right-to-use lease assets are recognized at the lease commencement date and represent the District's right to use an underlying asset for the lease term. Right-to-use lease assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to please the lease asset into service. Right-to-use lease assets are amortized over the shorter of the lease term or useful live of the underlying asset using the straight-line method. The amortization period varies from 3 to 5 years.

Right-to-use subscription IT assets are recognized at the subscription commencement date and represent the District's right to use the underlying IT asset for the subscription term. Right-to-use subscription IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at the commencement of the subscription term, less any subscription incentives received from the vendor at or before the commencement of the subscription term, plus any capitalizable initial implementation costs necessary to place the subscription asset into service. Right-to-use subscription IT assets are amortized over the shorter of the subscription term or useful life of the underlying asset using the straight-line method. The amortization period varies from 1 to 3 years.

### **Inventory and Prepaid Items**

The consumption method is used to account for inventories of supplies and materials. Under this method, these items are carried in an inventory account of the respective fund at cost, using the weighted average method of accounting and are subsequently charged to expenditures when consumed or requisitioned. Although food commodities are received at no cost, their fair value is supplied by the Texas Department of Agriculture and is recorded as inventory on the date received. Prepaid items on the balance sheet are accounted for using the consumption method and are recognized as expenditures over the periods in which the service is provided. In the governmental funds, inventories and prepaid items are reported as non-spendable fund balance.

### **Long-Term Liabilities**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

Lease liabilities represent the District's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the lease commencement date based on the present value of future lease payments expected to be made during the lease term. The present value of lease payments are discounted based on a borrowing rate determined by the District.

Subscription liabilities represent the District's obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. The present value of subscription payments are discounted based on a borrowing rate determined by the District.

### **Deferred Outflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense) until that time.

The District has three types of items that qualify for reporting in this category. The first item is deferred outflows related to pension and OPEB plans as a result of various estimate differences that will be recognized as expenses in future years, reported in the government-wide statement of net position. The second item is deferred outflows related to deferred charges on previous bond refundings and is reported in the government-wide statement of net position and will be recognized as expense in future years.

### **Deferred Inflows of Resources**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time.

The District has four types of items that qualify for reporting in this category. The first item, unavailable revenue from property taxes, arises under a modified accrual basis of accounting and is reported only in the Governmental Funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available. The second item is deferred inflows related to pension and OPEB plans as a result of various estimate differences that will be recognized as expenses in future years, reported in the government-wide statement of net position. The third item is deferred inflows related to leases where the District is the lessor and is reported in the governmental funds balance sheet and statement of net position. The deferred inflows of resources related to leases are recognized as an inflow of resources (revenue) on the straight-line basis over the term of the lease. The fourth item is deferred inflows related to deferred gains on previous bond refundings and is reported in the government-wide statement of net position and will be recognized as income in future years.

### **Property Tax**

In the governmental fund financial statements, property tax revenues are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by January 31 of the year following the October 1 levy date. The assessed value of the property tax roll (net of exemptions), upon which the levy for the June 30, 2024 fiscal year was based, was \$49,971,435,120. Taxes are delinquent if not paid by February 1. Delinquent taxes are subject to both penalty and interest charges plus delinquent collection fees for attorney costs.

Current tax collections for the year ended June 30, 2024 were 98% of the year-end adjusted tax levy. Allowances for uncollectible taxes within the General Fund are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2024, property taxes receivable, net of estimated uncollectible taxes, totaled \$6,611,396.

The tax rate to finance general governmental services was \$0.6595 per \$100 and the tax rate to finance the payment of principal and interest on long-term obligations was \$0.2175 per \$100 for the year ended June 30, 2024.

**Net Position**

Net position represents the difference between the sum of assets and deferred outflows of resources and the sum of liabilities and deferred inflows of resources. The District's net position is composed of the following:

*Net Investment in Capital Assets* is the component of net position that reports capital assets less both the accumulated depreciation and the outstanding balance of debt that is directly attributable to the acquisition, construction, or improvements of these capital assets. The net investment in capital assets is made up of the following:

Net carrying value of capital assets	\$ 393,572,835
Less:	
Outstanding principal of capital debt and other capital borrowings	(991,960,909)
Unamortized balance of original issue premiums	(51,566,344)
Outstanding balance of capital related liabilities, including accounts payable	(12,815,461)
Unamortized balance of capital related deferred inflows of resources	(2,149,177)
Plus:	
Unamortized balance of capital related deferred outflows	3,067,342
Unspent bond proceeds from capital related debt	900,692,455
Net investment in capital assets	<u>\$ 238,840,741</u>

*Restricted for Grants* is the component of net position that reports the difference between assets and liabilities of the Federal and State special revenue programs that consists of assets with constraints placed on their use by the Department of Education, Health and Human Services, Defense, Agriculture or TEA.

*Restricted for Debt Service* is the component of net position that reports the difference between assets and liabilities of the Debt Service Fund, net of accrued interest, at June 30, 2024, that consists of assets with constraints placed on their use by the bond covenants.

*Restricted for Other Purposes* is the component of net position that reports the difference between assets and liabilities that are restricted for other purposes at June 30, 2024, that consists of assets with constraints placed on their use by external parties.

*Unrestricted* is the difference between the assets and liabilities that are not reported in net position invested in capital assets, net position restricted for debt service, net position restricted for federal and state programs, net position restricted for capital projects, and net position restricted for other purposes.

**Fund Balance**

The District classifies governmental fund balance in accordance with Government Accounting Standards Board (GASB) 54, Fund Balance Reporting and Governmental Fund Type Definitions:

*Nonspendable* fund balance includes fund balance that cannot be spent either because it is not in spendable form or because of legal or contractual constraints. At June 30, 2024, the District had nonspendable fund balance of \$1,295,911 for amounts held in inventory.

*Restricted* fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. At June 30, 2024, the District had restricted fund balance for grant funding of \$10,724,733, debt service of \$117,061,615, construction of \$896,814,913, and amounts related to its partnerships with an institution of higher education, nonprofits, and open-enrollment charter schools operating and managing specific District campus locations of \$7,882,533.

*Committed* fund balance is established and modified by a resolution from the District's Board, the District's highest level of decision-making authority, and can be used only for the specific purposes determined by the Board's resolution. At June 30, 2024, the capital projects fund had a remaining fund balance of \$9,379,462 transferred from the General Fund for construction projects. At June 30, 2024, the District had \$1,013,367 committed for campus activity funds.

*Assigned* fund balance is intended to be used by the District for specific purposes but does not meet the criteria to be classified as restricted or committed. The Board has delegated the authority to assign fund balance to the Superintendent or the Chief Financial Officer. At June 30, 2024, the District had \$35,000,000 assigned for future capital projects; \$20,000,000 assigned for future technology replacements and projects; \$2,000,000 assigned for the District's self-insurance fund; and \$55,875,309 assigned to cover anticipated revenue reduction due to capping and eventual expiration of certain state allotments.

*Unassigned* fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. The general fund is the only fund that reports a positive unassigned fund balance. However, in other governmental funds, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. The District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The District does not have a formal minimum fund balance policy.

**Pensions**

The fiduciary net position of the Teacher Retirement System (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General Fund is typically used to liquidate pension liabilities.

**OPEB**

The fiduciary net position of the TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources relating to other-post employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account. The General Fund is typically used to liquidate OPEB liabilities.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Implementation of GASB Statement No. 100**

As of July 1, 2023, the District adopted GASB Statement No. 100, *Accounting Changes and Error Corrections*. The implementation of this standard requires additional presentation and disclosure requirements for accounting changes and error corrections. The financial statements have been updated to conform to the presentation requirements related to the accounting change in the financial statements for the year ended June 30, 2024. The additional disclosures required by this standard are included in Note 16.

### **New Accounting Pronouncements**

***GASB issued Statement No. 101, Compensated Absences.*** Statement 101 was issued in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. The District does not vest vacation and sick leave; therefore, as no liability exists for unused vacation and sick leave, this change is not applicable for the District.

***GASB issues Statement No. 102, Certain Risk Disclosures.*** Statement 102 was issued in December 2023. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a governments' vulnerabilities due to certain concentrations or constraints. The objective is achieved by providing users of financial statements with essential information that currently is not often provided. The disclosures will provide users with timely information regarding certain concentrations or constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. As a result, users will have better information with which to understand and anticipate certain risks to a government's financial condition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. Earlier application is encouraged. The District has not yet determined the impact of this Statement.

***GASB issued Statement No. 103, Financial Reporting Model Improvements.*** Statement 103 was issued in April 2024. The objective of this statement is to improve the financial reporting model's effectiveness in providing information for decision-making and assessing a government's accountability. The statement was issued in April 2024 and is the result of a reexamination project that began in 2013. The statement's requirements are intended to improve transparency, comparability and quality; address application issues and increase consistency. This statement will be effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. Earlier application is encouraged. The District has not yet determined the impact of this Statement.

## **Note 2 - Stewardship, Compliance and Accountability**

### **Budgetary Information**

Formal budgetary accounting is employed for all required Governmental Fund Types, as outlined in TEA's Financial Accounting Resource (FAR) module and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required Governmental Fund Types prior to June 19 of the preceding fiscal year for the subsequent fiscal year beginning July 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Debt Service Fund, and the Child Nutrition Program. The remaining special revenue funds adopt project-length budgets that do not correspond to the District's fiscal year.

### **Fair Value Measurements**

GASB Statement No. 72, *Fair Value Measurement and Application* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into three-level fair value hierarchy as follows:

Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.

Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.

Level 3 inputs are observable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

Market approach – uses prices generated by market transactions involving identical or comparable assets or liabilities.

Cost approach – uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).

Income approach – uses valuation techniques to convert future amounts to present amounts based on current market expectations.

**Note 3 - Detailed Notes on All Funds****Deposits and Investments**

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent, bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) coverage. In order to maximize return on cash balances, the District uses consolidated bank accounts from which all disbursements are made, with cash in excess of the District's total daily requirement being invested for future needs.

At June 30, 2024, the bank balance of \$17,157,964 was on deposit with the contracted depository bank. District funds are insured up to \$250,000 for the combined amount of all time and savings accounts, and up to an additional \$250,000 for the combined total of all Demand Deposit Accounts (DDA's). Interest-bearing accounts were collateralized by pledged United States government securities with a fair value of \$145,438,197 at June 30, 2024, held by Wells Fargo. Because Wells Fargo holds the pledged securities in trust on behalf of the District, the deposits were deemed collateralized under Texas law. All campus activity funds were centralized and were on deposit with the contracted depository.

**Investments**

The Texas legislature passed the Public Funds Investment Act of 1995 ("Public Funds Investment Act") which authorizes the District to invest its excess funds in the following:

- Obligations of the United States or its agencies and instrumentalities,
- Obligations of the State of Texas or its agencies, and instrumentalities,
- Other obligations guaranteed by the United States or the State of Texas or their agencies and instrumentalities,
- Public funds investment pools,
- No load money market funds with a weighted average maturity of 90 days or less,
- Fully collateralized repurchase agreements,
- Obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality not less than an "A", or its equivalent, by a nationally recognized investment rating firm,
- Commercial paper having a stated maturity of 365 days or fewer from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or one nationally recognized credit agency and is fully secured by an irrevocable letter of credit,
- Guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds,
- Guaranteed or secured certificates of deposit, issued by state and national banks domiciled in Texas, and insured by federal depository insurance or secured by the obligations mentioned above,
- Bonds issued, assumed or guaranteed by the State of Israel, and
- Secured corporate bonds rated not lower than "AA—" or the equivalent.

# Midland Independent School District

## Notes to Financial Statements

June 30, 2024

The Public Funds Investment Act requires an annual review and approval of investment policies and practices. The review disclosed that in this area of investment practices, management reports and establishment of appropriate policies, the District materially adhered to the requirements of the Public Funds Investment Act. Additionally, investment practices of the District were in accordance with local policies, which are more restrictive than state statutes.

As of June 30, 2024, the following are the District's cash equivalents and investments, with respective maturities and credit rating:

Type of Investment	Book Value	Percent	Fair Value	Percent	Maturity in Less Than 1 Year	Maturity in 1-10 Years	Credit Rating
Cash	\$ 18,396,362	1.3%	\$ 18,396,362	1.3%	\$ 18,396,362	\$ -	N/A

Investment Pools are measured at amortized cost or net asset value, i.e. fair value. As such, these investments are not required to be reported in the fair value hierarchy. U.S. treasury notes are valued using Level 1 inputs that are based on quoted market prices in active markets.

The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool Shares. Audited financial statements of the pool are available at First Public, 12008 Research Blvd., Austin, Texas 78759. In addition, TexPool is subject to review by the State Auditor's Office and by the Internal Auditor of the Comptroller's Office.

Lone Star Investment Pool is governed by an 11-member board and is a AAA rated investment program tailored to the investment needs of local governments within the state of Texas. Lone Star Investment Pool assists governments across Texas make the most of taxpayer dollars. Local officials can improve the return on their invested balances by pooling their money with other entities to achieve economies of scale in a conservative fund in full compliance with the Texas Public Funds Investment Act. Lone Star Investment Pool is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. Lone Star uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in Lone Star is the same as the value of Lone Star Shares. Lone Star is administered by First Public LLC, who also serves as the investment advisor. The reported value of the pool is the same as the fair value of the pool shares.

Texas CLASS is a local government investment pool emphasizing safety, liquidity, convenience and competitive yield. Since 1996, Texas CLASS has provided Texas public entities a safe and competitive investment alternative. Texas CLASS invests only in securities allowed by the Texas Public Funds Investment Act. Texas CLASS carries a letter of credit that ensures the integrity of the fund, making it the only investment pool in Texas backed by a letter of credit. The pool is governed by a board of trustees, elected annually by its participants. Texas CLASS is rated 'AAAm' by Standard and Poor's Ratings Services. The 'AAAm' principal stability fund rating is the highest assigned to principal stability government investment pools and is a direct reflection of Texas CLASS's outstanding credit quality and management. Texas CLASS uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in Texas CLASS is the same as the value of Texas CLASS Shares.

The TexasTERM Local Government Investment Pool was created by and for Texas local governments to provide investment programs tailored to the needs of Texas cities, counties, school districts and other public investors. TexasTERM portfolios seek to provide these investors with safety, flexibility and competitive yields. Shares are distributed by PFM Fund Distributors, Inc., member Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC). PFM Fund Distributors, Inc. is a wholly owned subsidiary of PFM Asset Management LLC. The District currently utilizes Texas DAILY, a money market portfolio with daily liquidity that is rated AAAm by Standard & Poor's. TexasTERM uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexasTERM is the same as the value of TexasTERM Shares.

TexSTAR is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, of the Texas Government Code, and the Public Funds Investment Act, chapter 2256, of the Texas Government Code. J.P. Morgan Investment Management Inc. serves as investment advisor and co-administrator with First Southwest. TexSTAR invests in treasury and agency securities and repurchase agreements fully collateralized by government securities. The pool maintains a weighted average maturity of 60 days or less. The pool seeks to maintain a constant dollar objective. TexSTAR uses amortized cost rather than market value to report net assets to compute share prices.

Local Government Investment Cooperative (LOGIC) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, of the Texas Government Code, and the Public Funds Investment Act, chapter 2256, of the Texas Government Code. J.P. Morgan Investment Management Inc. serves as investment advisor and co-administrator with First Southwest. LOGIC invests in treasury and agency securities and repurchase agreements as well as prime commercial paper. The pool maintains a weighted average maturity of 60 days or less. The pool seeks to maintain a constant dollar objective. LOGIC uses amortized cost rather than market value to report net assets to compute share prices.

### **Interest Rate Risk**

In accordance with the District's investment policy, investments are made in a manner that ensures the ensure the safety of the principal, to maintain liquidity and to maximize financial returns within current market conditions. Investments shall be made in a manner to ensure the preservation of capital in the overall portfolio, and offsets during a twelve-month period any market price losses resulting from interest-rate fluctuations by income received from the balance of the portfolio. The District's investment strategy states that no individual transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio.

### **Credit Risk**

The District's investments in Local Government Investment Pools (LGIP's) include: TexPool, Lonestar, Texas Class, Texas Term, LOGIC, and TexStar. These are public funds investment pools operating in full compliance with the Public Funds Investment Act. All are rated AAAM, AAA, or Aam by Standard and Poor's.

### **Concentration of Credit Risk**

The District's investment portfolio is diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from overconcentration of assets in a specific class of investments, specific maturity or specific issuer.

### **Custodial Credit Risk – Deposits**

This is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. All deposits not covered by FDIC insurance but held in the depository bank, Wells Fargo, were fully collateralized.

### **Foreign Currency Risk**

As of June 30, 2024, there are no foreign currency investments in the District's portfolio.

**Due from Other Governments**

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2024, are summarized below:

Governmental Activities	Local	State Grants/ Entitlements	Federal Grants	Total
General Fund	\$ 484,959	\$ 8,263,098	\$ -	\$ 8,748,057
Debt Service Fund	110,382	-	-	110,382
Nonmajor Governmental Funds	-	4,062,400	11,478,895	15,541,295
	<u>\$ 595,341</u>	<u>\$ 12,325,498</u>	<u>\$ 11,478,895</u>	<u>\$ 24,399,734</u>

**Interfund Receivables/Payable**

In the fund financial statements, interfund balances are the results of normal transactions between funds and will be liquidated in the subsequent fiscal year. Interfund balances at June 30, 2024, resulting from payroll and accumulated fund charges, consisted of the following individual fund balances:

Due From/To Other Funds	Interfund Receivables	Interfund Payables
General fund	\$ 24,525,768	\$ 7,399,413
Debt service fund	-	30,594
Capital projects fund	4,297,578	-
Internal service fund	3,297,824	-
Nonmajor governmental funds	17,344	24,688,347
Private purpose trust fund	-	20,160
Totals	<u>\$ 32,138,514</u>	<u>\$ 32,138,514</u>

Interfund transfers during the year ended June 30, 2024, consisted of the following individual balances:

Transfer Out	Transfers In	Amount
Capital projects fund	Debt service fund	\$ 450
General fund	Capital projects fund	5,515,854
Total		<u>\$ 5,516,304</u>

The interfund transfer between the Capital Projects Funds and Debt Service Fund is to fund an issuance charge for the bond issuance. The interfund transfer between the General Fund and Capital Projects Fund is made to commit fund balance for future construction projects. The interfund transfer between the General Fund and Nonmajor Governmental Funds is to supplement grant funding.

**Note 4 - Capital Asset Activity**

Capital asset activity for the District for the year ended June 30, 2024, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Governmental activities				
Capital assets, not being depreciated				
Land and improvements	\$ 19,361,548	\$ 5,504,508	\$ (104,140)	\$ 24,761,916

Total capital assets, net	\$ 343,799,286	\$ 52,273,000	\$ (2,499,451)	\$ 393,572,835

Estimated costs to complete current projects that are included in construction in progress as of June 30, 2024 are \$7,021,241.

Depreciation expense was charged to the District's functions as follows:

Governmental Activities		
11	Instruction	\$ 9,920,910
12	Instructional resources and media services	2,305
23	School leadership	854
31	Guidance, counseling, and evaluation services	-
33	Health services	19,769
34	Student transportation	1,303,909
35	Food service	100,013
36	Extracurricular activities	238,338
41	General administration	34,271
51	Plant maintenance and operations	1,645,724
52	Security and monitoring services	93,083
53	Data processing services	190,167
		<u>190,167</u>
	Total depreciation expense-governmental activities	<u>\$ 13,549,343</u>

Amortization expense was charged to the District's functions as follows:

Governmental Activities		
11	Instruction	\$ 22,954
34	Student transportation	2,255,247
41	General administration	67,646
51	Plant maintenance and operations	1,017,770
53	Data processing services	100,400
		<u>100,400</u>
	Total amortization expense-governmental activities	<u>\$ 3,464,017</u>

**Note 5 - Long-Term Debt**

The long-term indebtedness of the District pertains to the Governmental Activities of the District. Expenditures for the debt service requirements of the long-term debt are accounted for in the General Fund and Debt Service Fund.

On March 5, 2024, the District issued \$860,640,000 in Unlimited Tax School Building Bonds, Series 2024. The bonds were issued with a premium of \$44,470,418. The proceeds of the bond issuance were deposited to the Capital Projects Fund and will be used for the design, construction, acquisition, rehabilitation, renovation, expansion, improvement, and equipment of school buildings in the District, including two new high schools, middle school expansion, renovation and improvement, districtwide safety, security, and accessibility improvements, a new elementary school and rehabilitation and improvement of existing facilities, and (ii) paying the costs associated with the issuance of the Bonds.

As of June 30, 2024, the remaining outstanding principal of previously defeased bonds was \$90,820,000.

A summary of bond issuances and other general long-term debt original amounts issued, interest rates, and maturity dates as of June 30, 2024 is as follows:

Bond Issuances	Amounts Original Issued	Interest Rate Payable	Maturities
Unlimited Tax Refunding Bonds, Series 2015	\$ 38,495,000	1.30-5.00%	8.15.24 - 2.15.32
Unlimited Tax Refunding Bonds, Series 2016	26,000,000	0.80-4.00%	8.15.24 - 2.15.38
Unlimited Tax Refunding Bonds, Series 2017	54,335,996	3.50-5.00%	8.15.24 - 2.15.35
Unlimited Tax Refunding Bonds, Series 2020	39,344,986	1.70-5.00%	8.15.24 - 2.15.40
Unlimited Tax School Building Bonds, Series 2024	860,640,000	4.00-5.00%	2.15.25 - 2.15.54
<b>Other Long-Term Debt</b>			
Notes payable	\$ 1,154,403	3.12% - 9.04%	7.1.24 - 6.30.28

Midland Independent School District

Notes to Financial Statements

June 30, 2024

Payment requirements for the District's other long-term debt are as follows:

Year Ending June 30,	Principal	Interest	Total Requirements
2025	\$ 1,834,356	\$ 236,777	\$ 2,071,133
2026	1,466,630	162,095	1,628,725
2027	1,303,051	102,892	1,405,943
2028	1,309,060	46,521	1,355,581
2029	347,826	3,596	351,422
<b>Totals</b>	<b>\$ 6,260,923</b>	<b>\$ 551,881</b>	<b>\$ 6,812,804</b>

A summary in changes of total bonds payable and other long-term debt follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
Bonds payable					
General obligation bonds	\$ 129,919,986	\$ 860,640,000	\$ (4,860,000)	\$ 985,699,986	\$29,725,000
Deferred amounts					
For issuance premium/ discounts (CIB's)	8,925,797	44,470,418	(1,829,871)	51,566,344	-
Total bonds payable, net	138,845,783	905,110,418	(6,689,871)	1,037,266,330	29,725,000
Other long-term debt	1,553,615	7,343,152	(2,635,844)	6,260,923	1,834,356
Arbitrage rebate liabilities	-	3,401,246	-	3,401,246	-
Accretion on CAB	273,373	91,124	-	364,497	-
Governmental activities long-term liabilities	<u>\$ 140,672,771</u>	<u>\$ 915,945,940</u>	<u>\$ (9,325,715)</u>	<u>\$1,047,292,996</u>	<u>\$31,559,356</u>

There are a number of limitations and restrictions contained in the general obligation bond indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions as of June 30, 2024.

**Note 6 - Leases**

The District entered a master lease agreement to lease vehicles for District-wide use. Under the terms of the lease, the District pays various monthly rental fees that range between \$668 and \$2,283. The lease terminates in fiscal year 2029.

The District entered an agreement to lease dark fiber infrastructure beginning June 30, 2020. Under the terms of the lease, the District pays a monthly base fee of \$22,294 and paid an initial installation fee of \$4,358,000. The agreement can be extended upon mutual agreement by the District and the lessor; therefore, no additional periods are included as both parties must agree to extend the lease.

The District has entered into various office equipment leases beginning in fiscal year 2023. Under the terms of the leases, the District pays various monthly rental fees that range between \$269 and \$11,470. The leases terminated in fiscal year 2024.

At June 30, 2024, the District has recognized a right to use asset of \$3,430,639 and a lease liability of \$2,574,376 related to these agreements. During the fiscal year, the District recorded \$2,255,247 in amortization expense and \$106,826 in interest expense. The District used discount rates that ranged between 3.5% and 12.5%. The discount rates were based the stated rates in the agreements, if available. If no stated rates were available, the discount rates were based on the estimated incremental borrowing rate of the District.

Remaining obligations associated with these leases are as follows:

Year Ending June 30,	Principal	Interest	Total Requirements
2025	\$ 879,409	\$ 108,858	\$ 988,267
2026	560,753	73,244	633,997
2027	504,848	47,770	552,618
2028	497,118	21,660	518,778
2029	132,248	2,055	134,303
Totals	<u>\$ 2,574,376</u>	<u>\$ 253,587</u>	<u>\$ 2,827,963</u>

**Note 7 - Subscription-Based Information Technology Arrangement (SBITAs)**

The District has entered into twenty-two SBITA contracts for educational and productivity software. As of June 30, 2024, the value of the subscription liabilities was \$3,029,917. The District is required to make annual principal and interest payments of ranging from \$750 to \$767,580 through September 2028. The subscriptions have an interest rate of 3.50%.

Remaining obligations associated with these subscription agreements are as follows:

Year Ending June 30,	Principal	Interest	Total Requirements
2025	\$ 676,627	\$ 95,269	\$ 771,896
2026	696,263	71,317	767,580
2027	721,027	46,553	767,580
2028	746,671	20,909	767,580
2029	189,329	1,113	190,442
Totals	<u>\$ 3,029,917</u>	<u>\$ 235,161</u>	<u>\$ 3,265,078</u>

**Note 8 - Contingencies**

The District is not a party to any legal actions that are believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying financial statements for such contingencies.

The District participates in numerous state and federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2024, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

**Note 9 - Defined Benefit Pension Plan**

**Defined Benefit Pension Plan**

**Plan Description**

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401 (a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position**

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at [https://www.trs.texas.gov/Pages/about\\_publications.aspx](https://www.trs.texas.gov/Pages/about_publications.aspx) ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

**Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

**Contribution**

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86<sup>th</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	Contribution Rates	
	2023	2024
Member	8.00%	8.25%
Non-Employer Contributing Entity (State)	8.00%	8.25%
Employers	8.00%	8.25%
	2023	2024
Member Contributions	\$ 13,706,399	\$ 15,391,657
NECE On-Behalf Contributions	8,588,181	10,189,756
Employer Contributions	7,352,536	7,862,079

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools, and regional educational service centers must contribute 1.6% of the member's salary beginning in fiscal year 2021, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of the TRS the employer shall pay both the member contribution and State contribution as an employment after retirement surcharge.

### Actuarial Assumptions

The total pension liability in the August 31, 2022 actuarial valuation rolled forward to August 31, 2023 was determined using the following actuarial assumptions:

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual entry age normal
Asset Valuation Method	Fair value
Single Discount Rate	7.00%
Long-term expected Investment Rate of Return	7.00%
Municipal Bond Rate as of August 2023	4.13%
Last year ending August 31 in Projection Period (100 years)	2122
Inflation	2.30%
Salary Increases including inflation	2.95% to 8.95%
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions, please see the actuarial valuation report dated November 22, 2022.

**Discount Rate**

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 session. It is assumed that future employer and State contributions will be 9.5% of payroll in fiscal year 2024 gradually increasing to 9.56% in fiscal year 2025 and thereafter. This includes all employer and State contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target allocation as of August 31, 2023 (see page 56 of the 2023 TRS ACFR) are summarized on the following page.

**Teacher Retirement System of Texas  
Asset Allocation and Long-Term Expected Real Rate of Return as of August 31, 2023**

Asset Class	Target Allocation <sup>1</sup>	Long-Term Expected Geometric Real Rate of Return <sup>2</sup>	Expected Contribution to Long-Term Portfolio Returns
Global Equity			
U.S.	18.0%	4.0%	1.00%
Non-U.S. Developed	13.0%	4.5%	0.90%
Emerging Markets	9.0%	4.8%	0.70%
Private Equity	14.0%	7.0%	1.50%
Stable Value			
Government Bonds	16.0%	2.5%	0.50%
Absolute Return <sup>4</sup>	0.0%	3.6%	0.00%
Stable Value Hedge Funds	5.0%	4.1%	0.20%
Real Return			
Real Estate	15.0%	4.9%	1.10%
Energy and Natural Resources and Infrastructure	6.0%	4.8%	0.40%
Commodities	0.0%	4.4%	0.00%
Risk Parity			
Risk Parity	8.0%	4.5%	0.40%
Leverage			
Cash	2.0%	3.7%	0.00%
Asset Allocation Leverage	-6.0%	4.4%	-0.10%
Inflation Expectation			2.30%
Volatility Drag <sup>3</sup>			-0.90%
Expected Return	100%		8.00%

<sup>1</sup>Target Allocation based on the FY2023 policy manual.

<sup>2</sup>Capital Market Assumptions come from Aon Hewitt (as of 6/30/2023).

<sup>3</sup>The volatility drag results from the conversion between arithmetic and geometric mean returns.

<sup>4</sup>Absolute Return includes Credit Sensitive instruments.

**Discount Rate Sensitivity Analysis**

The following table presents the Net Pension Liability of the plan using the discount rate of 7.00%, and what the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase Discount Rate (8.00%)
Total TRS net pension liability	\$ 102,695,878,717	\$ 68,690,350,942	\$ 40,414,736,337
District's proportionate share of the net pension liability	\$ 149,934,510	\$ 100,286,927	\$ 59,004,935

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension**

At June 30, 2024, the District reported a liability of \$100,286,927 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 100,286,927
State's proportionate share that is associated with the District	116,271,778
	<hr/>
Total	\$ 216,558,705
	<hr/> <hr/>

The net pension liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023. At August 31, 2023, the employer's proportion of the collective net pension liability was 0.14599857% which was a decrease of .002294% from its proportion measured as of August 31, 2022.

**Changes since the Prior Actuarial Valuation**

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which will be paid in January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

**Note 10 - Postemployment Health Benefits****Plan Description**

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code, Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend the benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

**OPEB Plan Fiduciary Net Position**

Detailed information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet [https://www.trs.texas.gov/Pages/about\\_publications.aspx](https://www.trs.texas.gov/Pages/about_publications.aspx); by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

**Benefits Provided**

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-retirement benefit changes, including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

**Contributions**

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State’s contribution rate which is 1.25% of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee’s pay for fiscal year 2023. The following table shows contributions to the TRS-Care plan by type of contributor:

Contributions Rates		
	2023	2024
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
	2023	2024
Employer Contributions	\$ 1,498,118	\$ 1,566,771
Member Contributions	1,113,648	1,218,439
NECE On-behalf Contributions	2,004,725	2,182,265

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87<sup>th</sup> Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state’s actual obligation and then transferred to TRS-Care.

### Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2023. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022, TRS pension actuarial valuation that was rolled forward to August 31, 2023.

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth

The active mortality rates were based on PUB(201), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Rates. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

**Additional Actuarial Methods and Assumptions**

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	4.13% as of August 31, 2023
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	2.95% to 8.95%, including inflation
Healthcare Trend Rates	4.25% to 7.75% The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non-Medicare retirees. There was an initial prescription drug trend rate of 7.75% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.
Election Rates	Normal Retirement: 65% participation prior to age 65 and 25% participation after age 65; 30% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

**Discount Rate**

A single discount rate of 4.13% was used to measure the total OPEB liability. There was an increase of 0.22% in the discount rate since the previous year. Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2023 using the Fixed Income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

**Discount Rate Sensitivity Analysis**

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% lower than and 1% higher than the discount rate that was used (4.13%) in measuring the Net OPEB Liability.

	<u>1% Decrease in Discount Rate (3.13%)</u>	<u>Discount Rate (4.13%)</u>	<u>1% Increase Discount Rate (5.13%)</u>
Total TRS net OPEB liability	\$ 26,074,313,528	\$ 22,138,305,064	\$ 18,926,429,065
District's proportionate share of the Net OPEB liability	\$ 45,515,264	\$ 38,644,576	\$ 33,037,932

**Healthcare Cost Trend Rate Sensitivity Analysis**

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed:

	<u>1% Decrease in Healthcare Trend Rate</u>	<u>Current Single Healthcare Trend Rate</u>	<u>1% Increase in Healthcare Trend Rate</u>
Total TRS net OPEB liability	\$ 18,229,786,300	\$ 22,138,305,064	\$ 27,166,627,825
District's proportionate share of the Net OPEB liability	\$ 31,821,874	\$ 38,644,576	\$ 47,422,005

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs**

At June 30, 2024, the District reported a liability of \$38,644,576 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate share of the collective Net OPEB liability	\$ 38,644,576
State's proportionate share that is associated with the District	<u>46,630,621</u>
Total	<u>\$ 85,275,197</u>

The Net OPEB Liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At June 30, 2024, the District's proportion of the collective Net OPEB Liability was 0.1745597793% compared to .1801291197% as of June 30, 2023.

**Changes Since the Prior Actuarial Valuation**

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability since the prior measurement period:

- The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Change of Benefit Terms Since the Prior Measurement Date – There are no changes in benefit terms since the prior measurement date.

For the year ending June 30, 2023, the District recognized OPEB benefit of \$9,968,643 and revenue of \$1,827,190 for support provided by the State.

At June 30, 2024, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actuarial economic experience	\$ 1,748,374	\$ 32,512,091
Changes in actuarial assumptions	5,274,703	23,663,099
Difference between projected and actual investment earnings	16,697	-
Changes in proportion and differences between District contributions and the proportionate share of contributions	5,417,843	6,292,498
Contributions paid to TRS subsequent to the measurement date	1,321,688	-
Totals	\$ 13,779,305	\$ 62,467,688

\$1,321,688 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the year ended June 30, 2025.

The net amounts of the employer’s balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended June 30</u>	<u>OPEB Expense Amount</u>
2024	\$ (11,056,435)
2025	(9,283,986)
2026	(6,884,401)
2027	(7,694,765)
2028	(5,777,062)
Thereafter	<u>(9,313,422)</u>
Totals	<u>\$ (50,010,071)</u>

**Medicare Part D**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for TRS-Care to receive retiree drug subsidy payments from federal governments to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments have been recognized as equal revenues and expenditures by the District in the amounts of \$1,045,060, 864,133, and \$514,049 for the years ended June 30, 2024, 2023 and 2022, respectively.

**Note 11 - Revenues from Local and Intermediate Sources**

	<u>General</u>	<u>Debt Service</u>	<u>Capital Projects</u>	<u>Nonmajor Governmental</u>	<u>Total</u>

**Note 12 - Employee Defined Contribution Plan**

The District sponsors a 401 (a) plan for the benefit of its employees. The plan provides for discretionary monthly contributions up to the maximum of 3.0%. The percentage contributed by the District is determined annually by the Board of Trustees. Participants begin to vest in benefits after 3 years and become fully vested after 5 years. Participants are 100% vested in their personal contributions at all times. The Board of Trustees did not authorize a discretionary contribution for the year ended June 30, 2024.

**Note 13 - General Fund Federal Source Revenues**

Revenues from federal sources, which are reported in the General Fund, consist of:

School of Health and Related Services	N/A	\$ 793,805

National School Lunch Program	10.555	500,001
		<u>\$ 3,161,922</u>

**Note 14 - Risk Management**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2024, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

**Worker's Compensation**

GASB 10 requires that state and local governmental entities other than public entity risk pools are required to report an estimated loss from a claim as an expenditure/expense and as a liability if both of these conditions are met: a) Information available before the financial statements are issued indicates that it is probable that an asset had been impaired or a liability had been incurred at the date of the financial statements. It is implicit in this condition that it must be probable that one or more future events will also occur, confirming the fact of the loss. b) The amount of the loss can be reasonably estimated.

Beginning in 1997, the District changed from a self-funded worker's compensation plan to an outside provider for their worker's compensation coverage. The District remains liable for claims incurred prior to August 31, 1997 under the self-funded plan. These run-off claims are not significant and are included in the total accrued liabilities. The District remained fully-insured until March of 2001, at which time the District established its current self-funded program. The District has since maintained a self-insured retention of \$200,000 per occurrence. The District currently purchases excess coverage to statutory limits from the Texas Association of School Boards. The District does not purchase aggregate excess insurance. Claims administration is provided by the Texas Association of School Boards.

At June 30, 2024, the accrued liabilities for worker's compensation self-insurance of \$1,204,563 includes estimated incurred but not reported claims and is included in accrued expense liability.

	Year Ended June 30, 2024
Unpaid claims, beginning of fiscal year	\$ 1,204,563
Incurred claims (including IBNR's and changes in provisions)	416,356
Claim payments	(592,203)
	<hr/>
Unpaid claims, end of fiscal year	<u>\$ 1,028,716</u>

**Health Care Coverage**

The District sponsors a modified self-insurance plan to provide health care benefits to staff members and their dependents. Transactions related to the plan are accounted for in the Health Insurance Fund (the "Fund"), an internal service fund of the District. Partial staff member contributions are required for personal coverage and total staff member contributions are required for coverage of dependents. The District obtained excess loss insurance, which limited annual claims paid from the Fund for the year ended June 30, 2024, to \$290,000 for any individual participant and an aggregate limit equal to \$2,000,000. Estimates of claims payable and of claims incurred, but not reported at June 30, 2024, are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due. The District does not provide any post-retirement health benefits to its employees. Unpaid claims are included in the internal service fund as accrued liabilities.

Changes in the balances of claims liabilities during the year are as follows:

	Year Ended June 30, 2024
Unpaid claims, beginning of fiscal year	\$ 1,289,804
Incurred claims (including IBNR's and changes in provisions)	22,991,578
Claim payments	<u>(22,580,747)</u>
Unpaid claims, end of fiscal year	<u>\$ 1,700,635</u>

**Note 15 - Tax Abatements**

The District has approved a property tax abatement agreement with Pioneer Hutt Wind Energy, LLC for limitations on appraised value of property for school district maintenance and operations taxes pursuant to Chapter 313 of the Texas Tax Code. The qualified tax limitation agreements are for renewable energy electric generation projects.

Value limitation agreements are part of a state program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in statute. The projects under the Chapter 313 agreement must be consistent with the state's goals to "encourage large scale capital investments in the state." Chapter 313 of the Tax Code grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and data centers.

In order to qualify for a value limitation agreement, each applicant, is required to meet a series of capital investment, job creation, and wage requirements specified by state law. At the time of the applicant's approval, the agreements were found to have done so by both the District's Board of Trustees and the Texas Comptroller's Office, which recommended approval of the projects. The applications, the agreements and state reporting requirement documentation can be viewed at the Texas Comptroller's website. The agreements and all supporting documentation were assigned Texas Comptroller Application No. 1718.

After approval, the applicant companies must maintain a viable presence in the District for the entire period of the value limitation plus a period of years thereafter. In addition, there are specific reporting requirements, which are monitored on an annual and biennial basis in order to ensure relevant job, wage, and operational requirements are being met.

In the event that the applicant terminates the agreement without the consent of the District, or in the event that the applicant fails to comply in any material respect with the terms of the agreement or to meet any material obligation under the agreement, then the District shall be entitled to recapture of all ad valorem tax revenue lost as a result of the agreements together with the payment of penalty and interest, on that recaptured ad valorem tax revenue. Penalties and interest on said amounts shall be calculated in accordance with the methodology set forth in the Texas Tax Code. The agreements provide an administrative procedure to determine any company liability. Ultimately, enforcement of any payment obligations is through the local state district court.

There were no value limitations, abatement of any taxes, or other supplemental payments made to the District during the year ended June 30, 2024.

**Note 16 - Restatement**

During fiscal year ended June 30, 2024, there was a change within the financial reporting entity which resulted in the Capital Projects Fund being reported as a major fund instead of as a nonmajor fund which resulted in adjustments to and restatements of beginning fund balance as follows:

	Governmental Funds	
	Capital Projects Fund	Other Non-Major Governmental Funds
Beginning, as previously reported on June 30, 2023	\$ -	\$ 40,115,184
Change to or within the financial reporting entity	28,435,809	(28,435,809)
Beginning, as restated on July 1, 2023	\$ 28,435,809	\$ 11,679,375

**Note 17 - Subsequent Events**

On August 15, 2024, the District established a defeasance escrow to defease a portion of the District’s outstanding Unlimited Tax Refunding Bonds (Series 2015), Unlimited Tax Refunding Bonds (Series 2016), Unlimited Tax Refunding Bonds (Series 2017), and the Unlimited Tax Refunding Bonds (Series 2020). The District deposited existing resources with a paying agent for the defeased bonds in the amount of \$105,114,520, sufficient to provide the final payment and redemption of the defeased bonds.

Note: The information disclosed for each fiscal year is reported as of the District's fiscal year-end date.

Note 2: Plan information was unavailable prior to 2018.

## **Note 1 - Budget**

### **Budgetary Information**

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the general fund, debt service fund, and the National School Breakfast and Lunch Program special revenue fund. The Texas Education Code requires the budget to be prepared not later than June 19 and adopted by June 30 of each year. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

The following procedures are followed in establishing the budgetary data reflected in the fund financial schedules:

1. Prior to June 19 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to July 1, the budget is formally approved and adopted by the Board.

The appropriated budget is prepared by fund and function. The District's campus/department heads may make transfers of appropriations within a campus or department. Transfers of appropriations between campuses or departments require the approval of the District's management. Increasing any one of the functional spending categories, or revenues object accounts and other resources require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. All annual appropriations lapse at fiscal year-end.

Transfers out represent transfers from the general fund to the capital projects fund and other nonmajor governmental funds.

## **Note 2 - Pension**

### **Changes of Benefit Terms**

There were no changes to benefit terms that affected the measurement of the total pension liability during the measurement period.

### **Changes in the Size or Composition of the Population Covered by the Benefit Terms**

There were no changes in the size or composition of the population covered by the benefit terms during the measurement period.

**Changes of Assumptions**

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

**Note 3 - OPEB**

**Changes of Benefit Terms**

There were no changes in benefit terms since the prior measurement date.

**Changes in the Size or Composition of the Population Covered by the Benefit Terms**

There were no changes in the size or composition of the population covered by the benefit terms during the measurement period.

**Changes of Assumptions**

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability since the prior measurement period:

- The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Other Supplementary Information

# Midland Independent School District

## **COMBINING AND OTHER STATEMENTS**

Included in this section are combining nonmajor governmental funds financial statements and combining internal service funds financial statements.

## **GOVERNMENTAL FUNDS**

Following is a description of the purposes of the governmental funds:

### REPORTED AS MAJOR FUNDS IN THE BASIC FINANCIAL STATEMENTS

General Fund is the District's primary operating fund. It is used to account for all financial resources not required to be reported in another fund. It is always a major fund.

Debt Service Fund is the District's fund to account for the accumulation of resources and payments of principal and interest on general obligation bonds. Resources are provided by an annual ad valorem levy and State of Texas Foundation Program revenues. Proceeds of refunding bond issues are also accounted for in this fund.

Capital Projects Fund is the District's fund to account for the accumulation of resources and payments for construction of facilities. Resources are provided by transfers of resources based on action by the Board and issuances of school building bonds.

### NONMAJOR GOVERNMENTAL FUNDS

#### Special Revenue Funds

- Funds 200 through 296 are used to account for the receipt and expenditure of federally funded programs. Revenues are generally recognized to the extent of eligible expenditures.
- Funds 396 through 429 are used to account for the State of Texas funded programs. Revenues are generally recognized to the extent of eligible expenditures.
- Fund 461 through 499 are used to account for the receipt and expenditure of local and intermediate source funded programs.

## **INTERNAL SERVICE FUNDS**

Funds 753 through 798 are used to account for revenues and expenses related to services provided by organizations inside the District on a cost reimbursement basis.

## **FIDUCIARY FUNDS**

Private Purpose Trust Fund is the District's fund to account for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Fund is the scholarship fund.

Employee Benefits Trust Fund is the District's fund to account for other employee benefit funds that are provided by the District.

Custodial Fund is the District's fund to account for resources held for others in a custodial capacity in custodial funds. The District's Custodial Fund is the student activity fund.

# STATISTICAL SECTION

## (UNAUDITED - for Analytical Purposes Only)

This part of Midland Independent School District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

TABLE	CONTENTS
	<b>Financial Trends</b>
	<i>These tables contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.</i>
	Entity-wide Information:
1	Net position by component, last ten fiscal years
2	Changes in net position, last ten fiscal years
	Governmental Funds Information:
3	Fund balances of governmental funds, last ten fiscal years
4	Changes in fund balances of governmental funds, last ten fiscal years
	<b>Revenue Capacity</b>
	<i>These tables contain information to help the reader assess the District's most significant local revenue source, the property tax.</i>
5	Assessed value and actual value of taxable property, last ten tax years
6	Allocation of property tax rates and tax levies, last ten fiscal years
7	Property tax rates – Direct and overlapping governments, last ten fiscal years
8	Principal property taxpayers, current year and nine years ago
9	Property tax levies and collections, last ten fiscal years
	<b>Debt Capacity</b>
	<i>These tables present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.</i>
10	Outstanding debt by type, last ten fiscal years
11	Ratios of net general obligation bonded debt outstanding, last ten fiscal years
12	Direct and overlapping governmental activities debt as of June 30, 2023
13	Legal debt margin information, last ten fiscal years
	<b>Demographic and Economic Information</b>
	<i>These tables offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.</i>
14	Demographic and economic statistics, last ten fiscal years
15	Principal employers, current year and nine years ago
	<b>Operating Information</b>
	<i>These tables contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and activities it performs.</i>
16	Full-time equivalent district employees by function, last ten fiscal years
17	Operating statistics, last ten fiscal years
18	Teacher base salaries, last ten fiscal years
19	School building information, last ten fiscal years
Sources:	Unless otherwise noted, the information in these tables is derived from the annual comprehensive financial reports for the relevant year.

- (1) Expenditures for instruction have risen over the past ten years due to fast student growth.
- (2) Noncapital expenditures consist of total expenditures less capital outlays noted in the reconciliation of governmental funds to governmental activities. Debt service includes principal and interest only.
- (3) District changed the fiscal year from August 31st to June 30th, causing FY18 to be a ten month transition year.

Source: Midland Central Appraisal District

Note: Midland Central Appraisal District annually provides the District with appraised values for properties within the District's taxing authority. Appraised value equals actual value. Actual value less exemptions equals taxable value. Taxable value times the tax rate set by the District's Board of Trustees each fall equal the tax levy. Property is assessed at actual value; therefore, the assessed values are equal to the actual value. Tax rates are per \$100 of assessed value.

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. The percentage of overlapping debt is estimated using taxable assessed property values. Percentages were estimated by determining the portion of the overlapping taxing authority's taxable assessed value that is within the District's boundaries and dividing it by the overlapping taxing authority's total taxable assessed value.
- (2) Details regarding the District's outstanding debt can be found in the Notes to the Financial Statements. Outstanding debt includes unamortized premiums.

Single Audit Section  
June 30, 2024

# Midland Independent School District

**Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

To the Board of Trustees of  
Midland Independent School District  
Midland, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Midland Independent School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 12, 2024.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Independent Auditor's Report on Compliance for the Major Federal Program; Report on Internal Control over Compliance Required by the Uniform Guidance**

The Board of Trustees of  
Midland Independent School District  
Midland, Texas

### **Report on Compliance for the Major Federal Program**

#### ***Opinion on the Major Federal Program***

We have audited Midland Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2024. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major Federal program for the year ended June 30, 2024.

#### ***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

## **Auditor's Responsibility for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses or significant deficiencies, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Note 1 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2024. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or fund balance of the District.

**Note 2 - Summary of Significant Accounting Policies**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All federal expenditures were accounted for in the General Fund and Special Revenue Funds, components of the Governmental Fund type. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant.

School health and related services revenues are considered earned income at the local government level and thus are not included in the Schedule of Expenditures of Federal Awards. The following is a reconciliation of Federal Revenues on Exhibit C-2 to the Schedule of Expenditures of Federal Awards:

Total expenditures of federal awards per Exhibit K-1	\$	44,326,741
General fund - federal revenue		
School Health and Related Services (SHARS)		793,805
Total federal revenues per Exhibit C-2	\$	45,120,546

**Note 3 - Indirect Cost Rate**

The District is not eligible to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance because the District has previously received a negotiated indirect cost rate for its federal awards.

**Note 4 - Food Donation**

Nonmonetary assistance is reported in this schedule at the fair market value of the commodities received and disbursed.

**Section I – Summary of Auditor’s Results**

**FINANCIAL STATEMENTS**

Type of auditor's report issued	Unmodified
Internal control over financial reporting:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	None Reported
Noncompliance material to financial statements noted?	No

**FEDERAL AWARDS**

Internal control over major program:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	None Reported
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required reported in accordance with Uniform Guidance 2 CFR 200.516:	No

**Identification of major programs:**

<u>Name of Federal Program</u>	<u>Federal Financial Assistance Listing/ALN Number</u>
Child Nutrition Cluster	10.553; 10.555
Dollar threshold used to distinguish between type A and type B programs:	\$1,329,802
Auditee qualified as low-risk auditee?	Yes

**Section II – Financial Statement Findings**

The audit disclosed no findings required to be reported.

**Section III – Federal Award Findings and Questioned Costs**

The audit disclosed no findings and questioned costs required to be reported.

Midland Independent School District  
 Schedule of Required Responses to Selected School First Indicators (Exhibit L-1)  
 Year Ended June 30, 2024

Data Control Codes		Responses
SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year-end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end	\$ 364,497
