

SOCIAL STUDIES DEPARTMENT

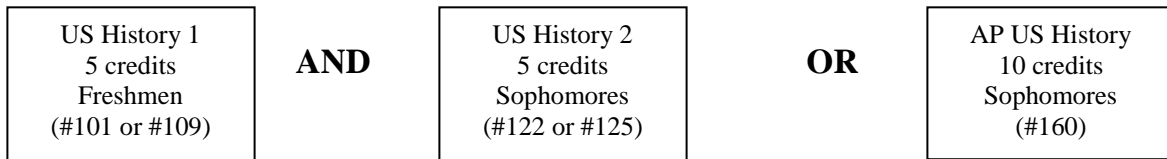

Supervisor: Rebecca Lucas - 908-284-7149, rluca@hcrhs.org

For Social Studies, students are required to take 10 credits in United States History and 5 credits in World History to graduate. This chart represents possible sequencing in the core areas as well as elective offerings organized into areas of student interest. In most cases, sequencing need not be constant, but please read the course selections and credits carefully, paying attention to a students' interests and learning habits before selecting courses.

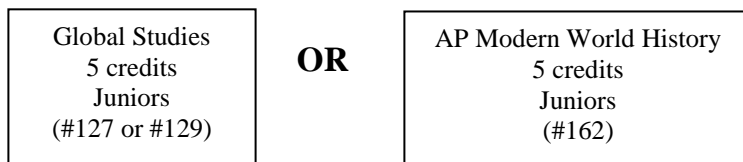

We encourage students to challenge themselves in their course selections and we respectfully ask students and parents to understand that the demands of higher-level courses can be significant. If you are considering a change in level, talk to your current teacher and counselor for guidance.

Core Graduation Requirements

10 credits in United States History

5 Credits in World History

ELECTIVES

Descriptions and grade levels for all department electives are listed in the course descriptions in the Program of Studies on website. Please read the course descriptions carefully prior to making your selection.
