

RE-ENGINEERING HIGH SCHOOL EDUCATION TO EXPAND ECONOMIC OPPORTUNITY FOR ALL STUDENTS.

3DE is positioning students for economic opportunity and choice-filled lives by ensuring students are graduating with the skills, mindsets, and behaviors to be competitive in a rapidly changing economy.

WHY 3DE

Given the speed at which change is occurring, today's complexities require a transformative and comprehensive approach to education that will position students for expanded economic opportunity and choice-filled lives.

3DE IS PREPARING STUDENTS FOR THAT NEXT STEP AFTER HIGH SCHOOL. IF STUDENTS HAVE A BETTER IDEA OF WHERE THEY'RE GOING, AND HAVE THE SKILL SET TO DO SO, WE ALL BENEFIT.

DR. MARK DANIEL | SUPERINTENDENT, FWCS

3DE systematically addresses the structural inequalities in education by providing access to in-demand careers, fostering school stability through teacher and student engagement, and building a culture of inclusionary instruction and individual value. With a brand network of education and corporate partners, coupled with expertise in experiential design, 3DE provides a turnkey model to optimize today's high school experience.

The result is a learning environment that reflects the dynamic pace of activity and interconnectedness of life beyond the classroom walls, and innovation that can become a catalyst for transformation throughout the broader school.

3DE WAS THE FIRST TIME I WAS GENUINELY INTERESTED TO GO TO SCHOOL, TO BE ACTIVELY PRESENT IN CLASS.
