# Bluejacket AMP

Advanced Manufacturing Program

**Cambridge-Isanti  
High School**

”

*“The only way to do great work is to love what you do.”*

## Our Mission

Bluejacket AMP aims to create relevant, hands-on work experiences for the students involved. Students in AMP will develop work skills and be on the path to their future career.

As this future workforce is created, local manufacturers will have an employee pipeline to their company.

## About Bluejacket AMP

Bluejacket AMP is a partnership between Cambridge-Isanti High School and local manufacturing employers. Students are paid interns and are allowed DLI age exemptions with approved industry machinery and equipment. Employers receive training and support in areas that will help recruit and retain employees.

## Sign up Now!

*Limited spots available, see Katie Soler or your school counselor to register.*

## Why do an internship in manufacturing?

Learn a Trade

Gain Experience

Earn money while you learn

Start your future today

Must be in 11th or 12th grade to participate in **Bluejacket AMP**
