IB PYP Terminology

International Mindedness

International-mindedness is a view of the world in which people see themselves connected to the global community and assume a sense of responsibility towards its members. It is an awareness of the interrelatedness of all nations and peoples, and is a recognition of the complexity of these. Internationally minded people appreciate and value the diversity of peoples, cultures and societies in the world

The aim of all IB programs is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.
