# Committee Norms and Expectations

# Committee Norms

## Establishing norms:

- Encourages behaviors that allow groups to work together successfully.
- Allows groups to dialogue, engage productively in conflict, discuss and decide, invent and problem solve.
- Make it safe to examine one's practice and talk about difficult to discuss topics.

## Key Question:

**How must we conduct ourselves to allow us to work together most successfully to accomplish our goals?**

# Norms

Be fully present.

Listen to understand and ask questions for clarification.

Take care of your needs.

Be open to new ideas.

Invite and welcome the contributions of every member.

Support the group's recommendation after consensus is reached.

Be mindful of how often and how long you speak.

Questions and challenges are welcomed. Question and challenge the idea, not the person.

# Clarifying Decision-Making Process

## Defining Consensus

Defours et al - Definition of Consensus:

**All points of view have been heard.**

**The will of the group is evident even to those who most oppose it.**

If all members of a committee/group must agree - or if every member of a committee can veto taking action - groups will be subjected to constant inaction... a state of perpetual status quo.

Without a shared understanding of consensus, persons determine their own standards.

Consensus decision making is a group decision making process that seeks consent of all participants where everyone's opinions are heard and understood. It is an acceptable resolution; one that can be supported, even if it is not the "first choice" or "favorite" of each individual.

# Clarifying Decision-Making Process

## Defining Consensus

Consensus is...

- Consenting to a proposal because **group members choose to cooperate** with the direction of the **group rather than insist on their personal preference.**
- ***“Is this proposal something you can live with?”*** While group members may be willing to go along with a proposal, **they do not actually need to favor it above another choice.**
- To ***“consent”***. This means that even if group members disagree, **there is still overall consent to move forward** in order to settle the issue.

# Overview of Committe Process

As a committee we will be tasked with scoring the submitted curricular materials in order to determine the best product for adoption. Please review the rubric the committee chose (in the additional documents file) and make any changes/additions relevant to our Intro to Statistics adoption.
