

Site Council Meeting

Thursday, November 21, 2024 / 5:00-6:00 pm / Media Center

Agenda

Bathroom Protocols

Notes

- RA's are stationed on each floor near bathrooms.
- Broke out into smaller groups to discuss bathroom policies. Principal Amin presented the current strategy to supervise bathrooms. The current plan is first floor bathrooms are open all day and second and third floors are open during passing time. During class time, the RAs will open the bathroom doors for students.
- Principal Amin collected feedback from the Site Council. The feedback was positive about the structure and plan to supervise bathrooms. One parent suggested that we rotate which floor is open all day so that it is just not the first floor. There was also a suggestion to survey the students.
- Discussed other schools having vape detectors and had data to show why they are needed.
- Principal Amin will visit a few more groups before deciding how to amend the current strategy and/ or how to improve it. Then we will communicate the plan to the school community.

Next Meeting

When: Thursday, December 19, 2024

Time: 5:00 - 6:00 pm

Location: Media Center.
