Lynch Hill School Primary Academy

Pupil Premium Strategy Statement 2024-2027

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
Number of pupils in school	896
Proportion (%) of pupil premium eligible pupils	31%
Academic year/years that our current pupil premium strategy plan covers **(but we will update this statement annually)**	2024-2027
Date this statement was published	Autumn 2024
Date on which it will be reviewed	Autumn 2025
Statement authorised by	Lindsey Tomlinson and the Governors
Pupil premium lead	Afua Okyere
Governor / Trustee lead	Denise Fletcher (C of G)

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£393,680
Pupil premium funding carried forward from previous years	£0
Total budget for this academic year	£393,680

Part A: Pupil premium strategy plan

Statement of intent

At Lynch Hill, we believe that every child should be equally valued, irrespective of abilities or individual differences and encouraged to develop to their full potential. We are committed to providing all children with an inclusive learning environment so that they can **aim high**, removing barriers to learning to enable them to **work hard** and ensure that their wellbeing is at the heart of all we do so that they know that we **care deeply.**

We intend to use the funding to ensure this commitment provides the best quality education in the classroom alongside exemplary student support to ensure that students can overcome barriers to success and fully access and embrace an education that ensures that they all succeed and flourish in their school lives and beyond regardless of any disadvantages.

Pupil premium strategy statement - The Pupil Premium Grant is allocated to schools by the government to provide funding for the following:

- Raising the attainment of disadvantaged pupils of all abilities to reach their potential;
- Supporting children and young people with parents in the regular armed forces.

Whilst allocated on a per pupil basis, the grant may be spent for the educational benefit of all pupils registered at our school. We recognise that not all children attracting Pupil Premium will need support or are disadvantaged and that not all pupils who are 'disadvantaged' or need support are eligible for pupil premium. The attainment of all pupils, including Pupil Premium children, is measured through termly pupil progress meetings where there is a focus on individual children to ensure that they are all meeting their targets. Those who are not will receive targeted support. Pupil Premium Funding and the impact of this is a regular item on the agenda at Local Governing Body Meetings.

Our School Non-Negotiables are:

WHAT ARE OUR NON-NEGOTIABLE EXPECTATIONS AT LYNCH HILL SCHOOL PRIMARY ACADEMY?

- Total commitment to improving the life chances of pupils – high expectations and a clear focus on pupil development, performance and growth. Commitment to the very highest pupil outcomes for our children at all key-stages. Staff focus on pupils with everything else as peripheral. ***We aim high, work hard and care deeply***.
- High quality leadership at all levels that is visible, has impact and action, and travels in the same direction. Leadership sets the tone for any organisation, and our leaders, at all levels, will inspire, be visible, act as role models for other leaders and for pupils, and will be proactive and build high performing, unified teams.
- Positive relationships, especially between staff, students and parents. Our immediate stakeholders need to feel that they are part of a supportive learning community Relationships set the tone for any organisation. All relations will be positive; we will seek to understand and

inspire our pupils, parents and wider community in a way that outstanding organisations can and should do.

- We will always strive and improve and do things better. Complacency has no place at Lynch Hill: we will always strive to be the very best we can be for the community we serve and there will be no excuses for under-performance.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	**Attendance** Attendance levels of our disadvantaged pupils are lower than national and lower than non-disadvantaged. We recognise that for pupils to make good or better progress they need to attend school regularly.
2	**Reading Fluency** Whilst all pupils make good progress in reading from their starting points and PSC results are strong for all pupils, fluency levels are not as strong as they should be.
3	**Writing skills and attainment** Whilst all pupils make good progress in reading from their starting points, writing attainment is still too low. Many children struggle to secure the fundamental skills for writing and the creativity and confidence to write independently and fluently. We need children to see themselves as authors and to develop the skills to be able to read as writers and write as readers.
4	**Maths Mastery skills** There is still more to be done in order to close the gap between disadvantaged and non-disadvantaged in maths across the school.
5	**SEND needs and undiagnosed SEND needs** The number of students joining LHSPA with undiagnosed SEND needs has increased, some with profound and severe learning difficulties. The process to gain the diagnosis, funding and provision takes time and is therefore funded by the school to ensure these students receive the support they need and the education they are entitled to.
6	**Emotional Health and Wellbeing** A high proportion of our disadvantaged students experience social, emotional and mental health issues that can impact their attendance and behaviour, and potentially have a detrimental impact upon what they are able to achieve academically. There is a growing need for support in the forms of our Pupil Support Lead, ELSA, Nurture, therapy sessions, along with further external support from SEBDOS etc
7	**Mobility and stability** Over recent years we have begun to experience much higher levels of mobility. This impacts the school's stability.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To improve achievement across all key stages, narrowing the gaps between disadvantaged and non-disadvantaged students.	• Data shows that we are diminishing the differences and closing the attainment and progress gap between disadvantaged pupils and their peers across the school. • Students make clear and sustained progress over time gaining the knowledge and skills they need to succeed in their next stage of their education.
To achieve and sustain improved levels of attendance for pupils who are disadvantaged.	• Diminish the attendance gap between disadvantaged and non-disadvantaged, with each year showing an incremental improvement in attendance of disadvantaged pupils, so that the attendance data for this group is in line with national for all pupils by the end of the academic year 2026-7
To improve reading fluency levels across all key stages for all students including those who are disadvantaged.	• Targeted support will demonstrate success with improving the fluency of pupils • This improvement will be clear in achievement in national tests as children can access the texts with greater speed. • Our whole school fluency strategy and the use of PiXL tools will demonstrate improvement in reading levels.
To improve writing outcomes across all key stages for all students including those who are disadvantaged	• Our whole school approach to writing, following the PiXL roadmap and bespoke PiXL surgeries will result in writing outcomes moving more in line with maths and reading results by 2027 • Pupil work will show that children have grasped age-appropriate fundamentals for writing and talk with greater confidence about their writing
To improve maths reasoning across all key stages for all students including those who are disadvantaged.	• Maths mastery to be fully embedded across the school demonstrating improved levels of maths reasoning skills through internal and national tests
To improve behaviour for learning and playground behaviour for those who struggle	Behaviour data will demonstrate: • Reductions in time outs/reflection time at lunchtime • Reduction in removal from class for identified children
To ensure the quality support and provision is given to students with undiagnosed SEND needs.	• Case studies of appropriate support and interventions put in place for students with undiagnosed needs • Successful applications of EHCPs leading to well-funded provision

To ensure new pupils to the school are well supported	• New pupils will report feeling well inducted and well supported

Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 190k

Teaching and Learning Toolkit | EEF

Activity	Evidence that supports this approach	Challenge number(s) addressed
To ensure we offer high quality CPD to improve the quality of our curriculum offer at LHSPA and are confident that Lynch Hill has experienced, well trained staff who can deliver quality first teaching and targeted interventions	The EEF Guide to the Pupil Premium states that quality first teaching for all is the best way to improve outcomes for our disadvantaged pupils. "The best available evidence indicates that great teaching is the most important lever schools have to improve pupil attainment. Ensuring every teacher is supported in delivering high-quality teaching is essential to achieving the best out-comes for all pupils, particularly the most disad-vantaged among them." For example, access to the RWI portal and the wealth of training materials, along with regular de-velopment days with the RWI consultant, enables all staff to ensure that children make the best start to early reading and writing.	2,3,4,5
PIXL approach to quality teaching and learning	The EEF Guide to the Pupil Premium states that quality first teaching for all is the best way to improve outcomes for our disadvantaged pupils. Being a PiXL school enables us to be part of a large network of thousands of schools, able to share best practice, access high quality resources, strategies and CPD in order to bring about brighter futures for all.	2,3,4,5,6
Embed the teaching of Maths mastery across the primary	Research by the Education Endowment Foundation showed that pupils on Mathematics Mastery Primary	4

	made two months' additional progress, when compared to pupils not on the programme. The DfE non-statutory guidance has been produced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches: The EEF guidance is based on a range of the best available evidence:	
Key PP meetings after each data point to help drive planning and interventions for the following term	The EEF Guide to the Pupil Premium reports that evidence informed leaders can help to improve outcomes for disadvantaged pupils Quality CPD opportunities for staff to come together with SLT and SENDCo to discuss barriers to learning and identify next steps and strategies. Thus, ensuring that teaching and learning at LHSPA is responsive to need.	1-7
Key SEN meetings after each data point to help drive planning and improvement strategies for the following term	The EEF Guide to the Pupil Premium reports that evidence informed leaders can help to improve outcomes for disadvantaged pupils Quality CPD opportunities for staff to come together with Inclusion team & SENDCo to discuss barriers to learning and identify next steps and strategies. Thus, ensuring that teaching and learning is responsive to need.	5
Appraisal – all staff have targets linked to performance of targeted groups with focus on PP, SEND	EEF states that Performance Pay can add + 1 month onto learners	1-6
Progress Tests, Analysis and Feedback	The EEF Guide to the Pupil Premium reports that evidence informed leaders can help to improve outcomes for disadvantaged pupils Feedback can add +8 months onto learners Following the PiXL assessment programme, staff complete QLAs in order to plan next steps and DTTR	2-6
Data Tracking	The EEF Guide to the Pupil Premium reports that evidence informed leaders can help to improve outcomes for disadvantaged pupils	1-5

Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

Budgeted cost: £ 108k

Activity	Evidence that supports this approach	Challenge number(s) addressed
To offer daily phonics interventions and 1:1 tutoring for struggling readers	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading, particularly for disadvantaged pupils: Phonics | Teaching and Learning Toolkit | EEF In England, positive effects have been found in studies where teaching assistants deliver high-quality structured interventions which deliver short sessions, over a finite period, and link learning to classroom teaching: Teaching Assistant Interventions | Teaching and Learning Toolkit | EEF Access to the RWI portal and regular Development Days ensures that high quality phonics sessions are delivered and daily 1:1 sessions for those pupils who need	2
To train staff to run Speech and Language therapy interventions for identified students that require support and assessment – Speech Links and Wellcomm	On average, oral language approaches have a high impact on pupil outcomes of 6 months' additional progress. It is important that spoken language activities are matched to learners' current stage of development, so that it extends their learning and connects with the curriculum. Oral language interventions | EEF	5
Pre-teaching sessions	EEF research shows that small group tuition can add +4 months onto a learner. Pre-teaching, particularly with regards to vocabulary, helps to prepare our children for future learning and helps to build confidence. These sessions support the children to be able to access future lessons at a level similar to their peers.	2-5
TAs in maths and English sessions	EEF research shows that TAs can add +1 month onto a learner TA support in core lessons, enables the teacher to provide targeted support and bespoke teaching	2,3
Small group interventions for core areas of the curriculum	EEF research shows that small group tuition can add +4 months onto a learner Small group interventions enable focussed teaching and learning and increased opportunities to meet and fully address individual needs.	2-4

More able challenge sessions	EEF research shows that small group tuition can add +4 months onto a learner Use of additional teacher capacity to provide a range of challenges for our most able pupils with the aim of addressing GD targets and raising aspiration.	2-4
Before/After school Booster sessions	EEF research shows that small group tuition can add +4 months onto a learner and extending school time can add +2 months Small group booster sessions enable focussed teaching and learning and increased opportunities to meet and fully address individual needs.	2-4
To utilise behaviour support programmes, including provision through SEBDOS for targeted students	Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions | Teaching and Learning Toolkit | EEF	5,6
To co-ordinate an Educational Psychologist to support diagnosis and applications as well as individual support strategies for identified individuals	We know that we require external support to diagnose and support SEND students that require further intervention. When used effectively, diagnostic assessments can indicate areas for development for individual pupils, or across classes and year groups: Diagnostic assessment | EEF	5,6

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 97k

Activity	Evidence that supports this approach	Challenge number(s) addressed
To embed our attendance strategy to ensure that attendance of disadvantaged pupils shows incremental improvements. Attendance strategy at LHSPA involves meetings with parents, rewards, class competitions etc	**DFE Report - Supporting the attainment of disadvantaged pupils; Articulating success and good practice'** - the authors discuss the importance of robust attendance data tracking and monitoring systems in schools, to address attendance issues. This allows patterns of absence to be scrutinised and then targeted interventions to be put in place. It also allows schools to monitor the effectiveness of any interventions they are putting in place to improve	1

	attendance and readjust as necessary. This is far more effective than general approaches to improving attendance and requires strong and determined leadership Working together to improve school attendance (applies from 19 August 2024)	
Nurture	EEF research shows that behaviour interventions can add +3 months onto learners with specific needs Nurture is a short-term, focused intervention for children with particular social, emotional and behavioural difficulties which are creating a barrier to learning within the classroom. Nurture support is not just limited to the Nurture group, the Nurture principles are demonstrated across the school by highly skilled staff	5,6
ELSA	EEF research shows that behaviour interventions can add +3 months onto learners with specific needs Social and emotional support for pupils with emotional needs to enable them to learn and manage their feelings and access class learning. Personalised support for children with individual needs to access the learning and make good progress towards their targets. Improve self-esteem, social skills and behaviour of identified pupils leading to increased confidence and attainment in the classroom.	5,6
Weekly Therapy	EEF research shows that behaviour interventions can add +3 months onto learners with specific needs	5,6
Behaviour Interventions	EEF research shows that behaviour interventions can add +3 months onto learners with specific needs	5,6
Rewards	Motivational factor – rewards are funded from a different budget Rewards are given for good attendance, significant improvements, consistency	1,6
Termly Jigsaw REST Scales	As part of the jigsaw PSHE package, the REST programme really increases teachers' understanding of how resilient and engaged pupils are. This increased understanding and 'culture of resilience', combined with the many methods for improving pupil's resilience and engagement contained in the resource, aids teachers in pro-actively improving children's well-being and mental health. Combined with other indicators, it can also assist	6

	teachers/schools in recognising that a child needs professional intervention. The Resilience Scale is an effective screening tool, enabling teachers to understand children's starting points and to inform appropriate interventions. Those children who have very low scores are identified and supported through interventions planned by our trained mentors. Please note, in EYFS, we use the Leuven scale.	
LHSPA Club Offer	EEF research shows that sports participation adds +2 months onto a learner The school provides a full club offer for pupils in KS1 and KS2 in order to raise engagement levels and aspiration.	1,6
Student Leadership Opportunities	Pupils are given the opportunity to develop their leadership skills whether as a member of the school council, as an Active ambassador or, in upper KS2 as Prefects, Sports Council members and Young Ambassadors. Such opportunities develop communication skills, confidence and raise aspiration	6
Targeted Parent Support and Communication	EEF research shows that parental engagement can add +3 months onto a learner Time given to discuss targets, attendance and next steps. Such communication enables parents and carers to better support their child in their educational journey. Parents are invited into school for assemblies or learning presentations in order to develop positive partnerships and attempt to remove any barriers between home and school.	1,5,6,7
Parent and Family Support from Inclusion Officer	The EEF Guide to the Pupil Premium states that attendance strategies improve outcomes for disadvantaged pupils Specific individual support provided to families, enabling a calmer more stable home environment. Parents supported to ensure that children's well-being and emotional needs are being appropriately prioritised. Attendance is high profile at all times. There is statistical evidence that low attendance / persistent absence directly impacts on the rate of progress that children make. Being away from school can also affect self-esteem and confidence	1,5,6,7

	for pupils on their return and therefore impact on their ability to learn.	
Pastoral Support	EEF recommends that pupil wellbeing sessions and meetings are crucial for improving pupil outcomes	1,6,7
Mini Police	Targeted project to raise aspirations for pupils in year 5. Our Mini Police project is a means of engaging children within their communities. It helps to address policing priorities, increase confidence and reduce perceived barriers. An opportunity for children aged 9 to 11 years to learn about community safety, in a fun way, giving young people a voice.	1,6,7
Peripatetic lesson support	EEF research shows that small group tuition can add +4 months onto a learner The school will support with additional music lessons for those with a keen interest in order to raise aspiration and provide the hook to want to come to school and draw on cultural capital	6
Residential Trips and Cultural Capital Experiences	We know from research and experience that disadvantaged pupils are least likely to have access to enrichment outside school. Therefore, we make it a priority that our disadvantaged pupils can take part in a wide range of enrichment activities. EEF research shows that outdoor adventure participation adds +4 months onto a learner Trips enable children to build up their experiences which they can then draw upon in the future. Increasing cultural capital helps to diminish difference between the disadvantaged and non-disadvantaged. Trips and experiences support the child's learning and such activities are very carefully planned at LHSPA in order to build upon current or future learning. Such activities help to showcase different talents and can raise confidence and aspiration	6
Support for Breakfast Club and Funzone Provision	EEF research shows that extending school time can add +2 months onto a learner Supporting children and families with a calm start to the day and support at the end of the school day. A	1,6,7

	healthy breakfast and after school snack provided and a safe, welcoming environment enables children to feel safe and emotionally ready for school. It also supports good attendance	
Transition Support	EEF research shows that mentoring can have a non-academic impact on disadvantaged pupils It is imperative that as children move through the school and when they transfer to secondary school, they are well prepared for the change. Transition support is available for all but some identified pupils will receive an additional support package.	6

Total budgeted cost: £ 395k

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

Update for 23-24:

Intended outcome	23-24 Review of Progress
Improve progress and outcomes in reading for disadvantaged pupils	End of KS2 reading data 2024 indicates that 77% of all pupils at LHSPA achieved the expected standard with 30% of those achieving a higher scaled score. National for all pupils at the expected standard was 74% 69% of disadvantaged pupils achieved the expected standard with 18% of those achieving a higher scaled score. We will continue to focus on more disadvantaged pupils achieving the higher scaled score Small group and 1:1 tutoring enabled children to make accelerated progress but there are pupils who had previously achieved well in mocks who underperformed.
Improve progress and outcomes in writing for disadvantaged pupils	End of KS2 writing data 2024 indicates that 72% of all pupils at LHSPA achieved the expected standard with 20% of those achieving greater depth. National for all pupils at the expected standard was 72%. This year, 71% of our disadvantaged pupils achieved the expected standard. This is a pleasing increase compared to 48% last year. Overall, 9% of PP pupils achieved greater depth. Writing attainment remains a key focus for Lynch Hill and all year groups relaunched their writing curriculum in 23-24 and introduced a new spelling approach. Spelling has improved across all groups. Focused work on grammar enabled 84% of all pupils to achieved the expected standard in the end of KS2 GPS paper with 52% achieving a higher scaled score. Overall, 76% of disadvantaged pupils achieved the expected standard with 36% achieving the higher scaled score. National for all pupils was 72%
Improve progress and outcomes in maths for disadvantaged pupils	End of KS2 maths data 2024 indicates that 82% of all pupils at LHSPA achieved the

	expected standard with 41% of those achieving greater depth. 76% of disadvantaged pupils achieved the expected standard with 24% of those achieving greater depth. This is above national for all pupils at the expected standard which was 73%. We will continue to focus on more disadvantaged pupils achieving the higher scaled score
Improve progress and outcomes in phonics for disadvantaged pupils	The PSC check data for 23-24 shows that 95% of all pupils in Y1 achieved the threshold score of 32+ 93% of disadvantaged pupils achieved the required score. This is significantly above national average for all pupils of 80% and demonstrates the effectiveness of early reading at Lynch Hill. Small group and 1:1 tutoring enabled children to make accelerated progress. Use of devices allowed for personalised programme across the school day and supported the 'Goldilocks' thinking for RWI. Our Phonics Lead has been successful in her applications to become and Literacy specialist and will have access to additional training to further support our pupils from 2024-25 onwards.
Improve speech and communication skills of our disadvantaged pupils	Speech links data show positive progress scores and the introduction of Wellcomm has enabled all staff to carry out further speech and communication support, targeting more pupils across EYFS due to being able to carry out beyond 1:1. Staff speak highly of this added intervention programme and we will continue to monitor its impact with each new cohort Buckets interventions continue to prove highly effective.
Further improve vocabulary acquisition and oracy skills across the curriculum for our disadvantaged pupils	Lesson observations show we explicitly teach vocabulary, raise children's interest and motivation to develop their own vocabulary and celebrate exploring and using ambitious word choices. Discussions show that children are able being encouraged to articulate clearly with staff and with their peers. External reviews comment positively on how well children apply new language As a school we will continue to focus on encouraging children to use stem sentences across the curriculum in the same approach as we use for maths mastery

Disadvantaged pupils will be more resilient, confident and independent	Learning walks continue to show that many of our pupils can tackle challenges set and work with greater independence. Reviews show that they benefit from the wide-ranging well-being strategies implemented through class and smaller intervention groups. Exit reports and REST scales continue to show the improvement across the academic year. Provision maps show that pupils have had a strong wellbeing offer: Lego Therapy Daisy's Dream ELSA support Nurture Lunch Club Homework Clubs Talk About Circle of Friends Mentoring Groups 1:1 Behaviour support Dramatherapy Counselling Psychology Cognitive Behaviour Therapy The introduction of a Pupil Support Lead for Lynch Hill from 2022 has had a significant impact on pupils.
Disadvantaged pupils will have greater stamina for completion of tasks and challenges	Learning walks do show that many our pupils have the stamina to complete tasks and challenges although internal data for each year group still shows that there is a gap in attainment between disadvantaged and non-disadvantaged pupils. Further implementation projects during next cycle will target this.
To improve behaviour and self-regulation of disadvantaged pupils	Behaviour logs show a decline in number of behaviour incidents. Reduction in Formal Warnings and exclusions. For 2023-2024 there were no external suspensions or exclusions. Targeted behaviour support and therapies are supporting regulation. Further work on trauma informed approach and emotion coaching have supported staff in building effective relationships and supporting children to regulate their emotions. Work on TIP will continue into 24-25 The introduction of a new role in 2022: Pupil Support Lead (PSL) has proved highly effective and exit surveys show that children have benefitted from interventions and support from the PSL.

Improved attendance and punctuality for disadvantaged pupils	Attendance figures for disadvantaged pupils show that it is lower than non-disadvantaged at 93.8% v 95.4% for 23-24 and persistent absence was also higher at 17.3% v 9.1%. However, figures have improved when compared to 22-23 (92.1% v 94.1%). Persistent absence for PP in 22-23 was 26.5%. This will continue to be a focus for 24-25 and our Attendance Officer continues to work proactively with Slough, the Trust and with individual families to set targets and to offer support. An Attendance plan was introduced for 23-24 and we will continue to follow the plan for 24-25.
High uptake of extra-curricular opportunities. Cultural capital opportunities are embedded across the school	All pupils given the opportunity to attend extra-curricular clubs across KS1 and KS2. Targeted invites for some clubs are making a positive impact and providing the enrichment opportunities whilst removing financial barriers. Again a number of places for residentials were secured for disadvantaged pupils on both the Y3/4 weekend residential in October 2023 and the Y5/6 longer residential in March 2024. Further promotion of music opportunities for 23-24 with broader peripatetic offer across the year enabled more disadvantaged pupils to have access to an additional music offer. Further supported by Slough Music Service being based at LHSPA and open invites to free music sessions on a Thursday afternoon. Continue to target % of places going forward. All pupils accessed the trips, workshops and enrichment activities for their year groups across 23-24, which included some of the following: • RAF Museum • Winchester Planetarium • Mobile Farm • Ancient Egyptian workshop • British Museum • Rainforest Experience • Cadburys World Roles and responsibilities are wide and varied and disadvantaged pupils have been selected to undertake range of activities: Play Leaders Prefects Peer Mentors

	Sports Council Young Ambassadors School Council Reading Buddy This will continue into 24-25, along with the further development of Peer Excellence.
High levels of parental engagement, including attendance at progress and support meetings	Attendance at parent's meetings remains over 90% for each year group. Parents and carers also invited to attend workshops or coffee morning/ drop-ins which included sessions for SEN, for maths, phonics etc. This needs to continue to be an area to focus on. Smaller group prove to be less daunting for some parents. We have also created a better location for the running of such workshops: they will be held in the Enrichment Block going forward Attendance at Christmas presentations and other year group events, e.g Chocolate Project in Y4, has been high, with parents really pleased to be able to come into school once again. Many families chose to bring more than one family member to these events. 96% of pupils had a representative at the Y6 Graduation ceremony, including all disadvantaged pupils.
