Kid-Friendly Tennessen Notice

We are looking into something important to make sure everyone in our school feels safe and supported. You might be asked some questions about what happened.

Here are some things you should know:

1. **Why We Are Asking Questions?**
   We want to understand what happened and make good choices about what to do next.

2. **Do You Have to Answer?**
   You don't have to answer our questions, but sharing what you know could help us. It's very important to be honest and tell the truth so we can fully understand what happened.

3. **Who Will We Share This Information With?**
   What you tell us will only be shared with people who need to know to help solve the problem.

4. **What Could Happen if You Don't Share?**
   If we don't have all the information, it might be harder for us to make the best decisions.

5. **What Could Happen After the Investigation?**
   Depending on what we learn, there may be consequences for people who didn't follow the rules. These decisions are made to help keep our school safe and fair for everyone.
