## MESSAGE FROM SUPERINTENDENT

Big Red Community,

The innovative opportunities available to our students in Belton ISD really bring to life the district's [values and beliefs](#).

Our youngest learners at the Belton Early Childhood School engage with their teachers and classmates in playful, interactive learning experiences. Their hands-on, realistic and authentic learning spaces make it so students often don't even realize they

are learning. But they are.

At our 10 – [soon to be 12](#) – elementary schools, administrators are finding ways to give students a seat at the table through collaboration on student safety committees and student leadership teams. Student voice is valued.

When students reach our middle schools and high schools, opportunities to explore interests and possible careers are vast. From robotics to athletics and fine arts to construction, health sciences

and culinary arts – our curriculum and extracurricular experiences offer a range of possibilities for each and every student.

These experiences are what matters and is why our 2,100 employees show up every day to contribute to Belton ISD’s vision – to empower each and every learner to pursue their dreams and enrich their communities.

Be sure to check out the events happening at your student’s school to see for yourself the innovation in action.

Best,

Matt Smith, Ed.D.  
Superintendent
