Community Partner Recognition - The Carlson Law Firm

Belton ISD recognized the Carlson Law Firm as our community partner, thanking them for their generous support. Kyra Leal collaborated with Mr. Plemons to provide mentors for Belton New Tech @Waskow students in a mock trial competition. Their \$2,000 donation minimized expenses for students attending the state competition, and they provided essential swag. With their own children in the district, they find it personally significant to support our campuses. We deeply appreciate the Carlson Law Firm's investment in our students and their educational journey.

Superintendent's REPORT

As we reflect on this busy month, I am delighted to share Belton ISD's commitment to empowering each and every learner with exceptional learning experiences.

We've observed remarkable collaborations and moments of growth as students and adults alike have worked together. Our district has cultivated partnerships that enhance our educational environment; this was exemplified by our collaboration with the local post office, which generously offered opportunities for our preschoolers to discover and learn.

Our recent experience with the Great American Eclipse demonstrates our dedication to facilitating exceptional learning moments. Through the tireless efforts of our Teaching and Learning department, our community enjoyed access to incredible resources, ensuring that our students and their families could appreciate this remarkable event together.

I extend my sincere gratitude to our educators, whose dedication and creativity make such experiences possible. Through their efforts, our students are empowered to learn, speak, and perform with confidence.

As we continue on this journey, we are committed to empowering learners and fostering exceptional educational experiences for all.

Dr. Malinda Golden
