Board of Trustees Approves Contractor for Delta Program Facility

The Board of Trustees took action and approved the contractor for the construction of the Delta Program Facility. This facility is funded by the 2022 Bond election. The Delta Program provides life and work skills for students ages 18-22 with developmental disabilities. When the project is complete, Delta students will have their own space to learn transitional skills for independent living and work.

Superintendent's REPORT

This January we had the honor of celebrating our Board of Trustees. The vision that our Board casts and how that comes to life in our classrooms and through various events across our district have been on display all month long.

I am grateful for our Board of Trustees and thank them for their visionary leadership, collaborative spirit, and tireless dedication. They are the model of a highly effective team. The Board has laid the foundation with our values and beliefs and strategic plan. Through their work, we are shaping a culture where each and every student and staff member is valued, supported, and challenged to grow.

Our students learn to give back to their community through the experiences that we help create for them. It's no surprise that their passion for inspired instruction has stretched beyond the classroom and into weekend events. High school students have been teaching elementary students at career days and weekend robotics camps. We value community engagement and it enhances the educational enrichment of our students.

Dr. Malinda Golden
ACTING SUPERINTENDENT

Consent Agenda HIGHLIGHTS
