Superintendent's REPORT

Here in Belton ISD, we are diligently working to define leadership. Through our partnership with the Holdsworth Center, we are examining the pipeline for leadership positions in our school district. A leadership task force has been created to identify what is required of or expected of leaders in our district and develop them appropriately. The goal of this task force is to position BISD to have a prepared person to fill a position if we were to have a leadership vacancy in our system.

BISD leaders used their helping hands at Helping Hands Ministry, a Belton and BISD community partner. Helping Hands Ministry supports families in need throughout our community. Our leaders shared their time and learned about the efforts and the impact Helping Hands Ministry makes for BISD specifically. We are extremely grateful for their partnership and thankful to our leadership team.

Sam Skidmore, the Director of Athletics, mentioned the deliberate contribution to community service hours by our athletes. The collective mindset of community service that is shared across our district, from leadership to students, is a part of what makes BISD stand out.

Dr. Matt Smith
SUPERINTENDENT
