Dyslexia Parent Night

What is Dyslexia?

“Dyslexia is a specific learning disability that is neurobiological in origin. It is characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.”

International Dyslexia Association

What do dyslexia interventionists use to help your student?

1

We use the Reading By Design program.

2

We deliver systematic, predictable, multisensory instruction.

3

We review on a daily basis.

Parts of A Lesson

- Phonological Awareness
 - Alphabet
 - Deck Review
 - New Learning (Skill)
 - Coding/Reading Practice
 - Handwriting
 - Spelling
 - Components of Language
-
