

ABOUT OUR SCHOOL

- We are a PreK through grade 5 elementary magnet school located in Richfield, a first-ring suburb just south of Minneapolis.
- Our focus is educating students through a science, technology, engineering and math lens.
- This STEM approach partners with the District-adopted curriculum to ensure students are receiving a strong foundation in all content areas while preparing them for future opportunities in STEM.

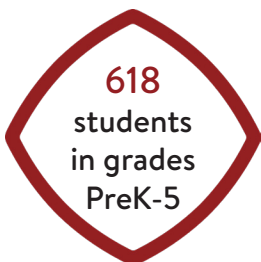

RICHFIELD
STEM ELEMENTARY

HIGHLIGHTS

- Our dedicated and caring educators and support staff collaborate closely with families to help every student thrive.
- We have a diverse school community that values and celebrates the unique talents, gifts, and perspectives each student brings.
- Extended learning opportunities are available through community partnerships, field trips and school assemblies. Partner organizations include Wood Lake Nature Center and the University of Minnesota.
- A schoolwide system of support that includes English language learners, accelerated learners and special education.
- After school activities include ALC (Math & Reading interventions), extended STEM activities, choir and regionally-competitive Lego League.
- Additional STEM spaces are used to deepen student learning. These dedicated spaces include the science lab, WOW (engineering lab), outdoor garden, technology lab and media center.
