

Application for Home/Hospital Instructional Services

Dear Physician,

The Newport-Mesa Unified School District offers Home Hospital Instruction to students facing unique medical conditions that significantly impact their ability to attend our regular education programs. According to California Education Code 48206.3, a student is eligible for Home Hospital Instruction if they have a temporary disability that makes attendance in the regular day classes or alternative education program in which they are enrolled *impossible or inadvisable*. Based on the student’s medical situation, the parent of the above-named student is requesting Home Hospital Instruction consideration. In your professional capacity, we kindly request that you provide us with a detailed medical recommendation that includes all the fields requested below. A new form is required for every calendar year of Home Hospital Instruction Services.

Your medical recommendation is a critical component in helping us make informed decisions to support the student’s education and well-being. We genuinely appreciate your time and attention to this request.

Sincerely,

Health Services Department
Newport-Mesa Unified School District

Section 1A – completed by Medical Doctor (MD or DO)

All fields are required to complete application.

Name of Student: _____ Date of Birth: _____

Diagnosis: _____
